THE AERATED WATERS INDUSTRY, 1940

Manufactures of carbonated beverages in Canada reported a gain of over 13 per cent in the value of products in 1940 as compared with 1939. Output from these factories in 1940 was worth \$34,027,664 at factory selling prices compared with \$28,743,811 in 1939.

In 1940 there were 462 plants in Canada which were engaged chiefly in making non-alcoholic carbonated beverages. Of these, 163 were in Ontario, 149 in Quebec, 32 in Nova Scotia, 26 in British Columbia, 17 in New Brunswick, 25 in Saskatchewan, 24 in Manitoba, 20 in Alberta, and 6 in Prince Edward Island. Plants in Quebec and Ontario accounted for 77 per cent of the total production and 75 per cent of the employees. In addition, 10 breweries made carbonated beverages as secondary products; 5 of these were in Ontario, 1 in Manitoba, 2 in Alberta and 2 in British Columbia.

Capital employed in the industry was reported at \$21,940,481, including \$13,114,782 as the value of lands, buildings and equipment, \$4,939,708 as the value of materials, stocks in process and finished products on hand, and \$3,885,991 as operating capital.

Employees numbered 5,434 including 1,436 on salaries and 3,998 on wages. Salaries amounted to \$2,237,732 and wages to \$4,191,492.

Production included carbonated beverages worth \$30,220,820 at the works, syrups and concentrates at \$3,625,440, natural mineral waters at \$89,013 and miscellaneous products at \$92,391.

In addition to the production of carbonated beverages in this con industry, there was an output worth \$659,775 by firms in the Brewing Industry. Thus the total Canadian output of carbonated beverages amounted to \$30,880,595.

Imports into Canada of mineral and aerated waters were valued at \$37,175 during 1940 and exports for the same period amounted to \$2,363.
