CANADA

THE CARBONATED BEVERAGES INDUSTRY

1957

(AERATED WATERS)

Published by Authority of
The Honourable Gordon Churchill, Minister of Trade and Commerce

DOMINION BUREAU OF STATISTICS
Industry and Merchandising Division

6522-515-127

Price 50 cents

Vol. 2—Part III—K-1

The Queen's Printer and Controller of Stationery, Ottawa, 1959

NOTICE

The annual reports prepared by the Industry and Merchandising Division of the Bureau of Statistics are divided into 3 volumes, as follows: **Volume I** – The Primary Industries, including mining, forestry and fisheries; **Volume II** – Manufacturing; **Volume III** – Merchandising and Services. The volumes are made up of parts, and the parts in turn are subdivided according to the industries or provinces which they comprise.

Volume II consists of the following parts, the first two of which deal with manufacturing as a whole and the balance with the major manufacturing groups.

- I – General Review of the Manufacturing Industries
- II – The Manufacturing Industries of Canada, (7 sections, as follows:)
 - Section A. Summary for Canada
 - Section B. Atlantic Provinces
 - Section C. Quebec
 - Section D. Ontario
 - Section E. Prairie Provinces
 - Section F. British Columbia
 - Section G. The Manufacturing Industries of Canada, Regional Distribution
- III – Foods and Beverages
- IV – Tobacco and Tobacco Products
- V – Rubber Products
- VI – Leather Products
- VII – Textile Mills
- VIII – Knitting Mills
- IX – Clothing
- X – Wood and Paper Products
- XI – Printing Trades
- XII – Iron and Steel Products
- XIII – Transportation Equipment
- XIV – Non-ferrous Metal Products
- XV – Electrical Apparatus and Supplies
- XVI – Non-metallic Mineral Products
- XVII – Products of Petroleum and Coal
- XVIII – Chemicals and Allied Products
- XIX – Miscellaneous Manufactures

The present report belongs in Part III, Foods and Beverages. It is punched to permit of filing in a ring binder along with others of the group. The reports in this group are:

- A – General Review
- B – The Slaughtering and Meat Packing Industries
- C – The Dairy Products Industry
- D – The Fish Processing Industry
- E – The Fruit and Vegetable Preparations Industry
- F – The Flour Milling Industry
- G – The Prepared Breakfast Foods Industry
- H – The Feeds Industry
- I – The Biscuit Industry
- J – The Bread and Other Bakery Products Industry
- K – The Carbonated Beverages Industry
- L – The Distilling Industry
- M – The Brewing Industry
- N – The Wine Industry
- O – The Confectionery Industry
- P – The Sugar Refining Industry
- Q – The Macaroni and Kindred Products Industry
- R – The Miscellaneous Food Preparations Industry
- S – The Canned Foods Summary

Prices of most reports released after January 1, 1959 have been increased. Information on the new prices of particular issues is available on request from the Information Services Division of the Dominion Bureau of Statistics.

THE CARBONATED BEVERAGES INDUSTRY

1957

(AERATED WATERS)

The Carbonated Beverages Industry performs two distinct industrial operations, viz., the manufacture of syrups or concentrates for use in making soft drinks, and bottling operations where the syrups or concentrates are combined with carbon dioxide gas and water then bottled for distribution. Firms in this industry may carry on these operations in varying degrees, although the greatest number of plants are bottlers only, and are usually located in urban areas where distribution presents fewer problems.

In 1952 and previous years, the Flour Milling Industry was on a production basis and "Value added by manufacture" was computed by subtracting the total of the cost of raw materials and cost of fuel and electricity from the value of production. In 1953 a change was made to "Value of factory shipments" instead of "Value of production" and in computing the value added, the shipments figures were used in exactly the same manner as were the

production figures in the earlier annual periods. In 1954, a question was added to ask for data on opening and closing inventories of raw materials, goods in process and finished goods. In 1954 and 1955, only the change in opening and closing inventories of finished goods was taken into account in calculating the value added. In 1956 and 1957, the change in goods in process inventories was added to the change in finished goods inventories and the total applied to the "Value of factory shipments" to arrive at the "Value of production". When the "Value of production" was determined in this manner, the total of the cost of raw materials and fuel and electricity was subtracted to arrive at the "Value added by manufacture".

The following summary, using the change in the value of inventories, is given to show how "Value added by the manufacture" was determined in this period.

Year	Value of factory shipments	Change in inventory	Value of production	Cost of materials	Cost of fuel and electricity	Value added by manufacture ¹
	thousands of dollars					
1951 ²	—	—	90,514	33,195	2,186	55,132
1952 ²	—	—	105,050	35,845	2,270	66,936
1953.....	108,560	—	—	35,493	2,571	70,496
1954.....	108,159	+ 46	108,204	33,722	2,886	71,597
1955.....	116,582	+195	116,777	37,712	3,050	76,015
1956.....	121,340	+165	121,506	38,910	3,326	79,269
1957.....	139,504	+149	139,653	45,382	3,771	90,500

¹ Historical series on "Value added by manufacture" included in Table 1.

² Previous years were computed as in 1951 and 1952.

During the last ten years this industry more than doubled its volume output. Consumption of soft drinks in Canada in 1956 was 8.3 gallons per person. This is based on production in all industries and total population but excludes fountain drinks. In 1957 the Industry recorded increases in volume and value of shipments as well as in costs of materials, labour, etc.

The value of shipments (exclusive of sales tax) for all products in 1957 was \$139,504,272. Salaries and wages paid amounted to \$24,381,659 and materials used totalled \$45,382,195.

The principal commodity shipped is, of course, "soft drinks" which amounted to over 103 million cases in 1957 with a factory selling value of nearly 121 million dollars. Of this volume over 87 million cases were produced in Quebec and Ontario. This Industry also produces concentrates, syrups and extracts, etc., for use mainly within the industry.

In addition to the aerated waters produced in Carbonated Beverages Industry there were 2,436,615 gallons value at \$2,269,320 produced in the Brewing Industry.

TABLE 1. Principal Statistics of the Carbonated Beverages Industry, Specified Years 1944 to 1957 and by Provinces, 1956 and 1957

Years	Estab- lish- ments	Em- ployees	Salaries and wages	Cost of fuel and electricity	Cost at works of materials used	Value added by manufacture ¹	Selling value of factory shipments
