REPORT ON THE PRODUCTION OF PROCESSED CHEESE IN CANADA, 1930.

The production of the soft cheese, termed "Processed Cheese" in Canada in 1930 amounted to 14,633,733 pounds, and the exports to 1,627,925 pounds. Processed cheese is made from ordinary Cheddar cheese and the process is stated to consist of grinding the cheese, heating it in a jacketed container with agitation and filling it into the proper receptacles, either directly or with specially designed machinery. The number of firms reporting the production of this cheese in 1930 was eight, of which six were located in Ontario and one each in Quebec and Alberta.

The output of Processed cheese in 1930 is the smallest shown for any year since 1924, the first year for which complete statistics are available. The high year of the period was 1925, when the production reached a total of 32,652,569 pounds.

The following table gives statistics of production and export for the years 1924 to 1930.

Year	Production lb.	Export lb.
1924	16,893,823	not available
1925	32,652,569	21,381,532
1926	20,298,428	10,872,755
1927	15,386,617	3,725,244
1928	19,781,066	6,719,428
1929	17,707,822	3,800,160
1930	14,633,733	1,627,925
