THE FLOUR AND FEED MILLING INDUSTRIES IN CANADA, 1935.

To permit of a closer analysis of the flour and feed milling industries, this report is divided into three sections. Section 1 comprises a general summary of the industry as a whole, Section 2 deals with the mills whose principal output is flour and other edible cereal products, whilst Section 3 is devoted to the mills whose operations are mostly confined to the production of chopped grain and other feeds.

SECTION 1. - GENERAL SUMMARY

A review of the flour and feed milling industries during the year 1935 reveals the fact that, notwithstanding a decrease of 183 in the number of mills reporting, there was a marked increase in some of the items comprising the principal statistics. These are shown for the Dominion for the years 1922 to 1935 in table 1(a), and by provinces for the year 1935 in table 1(b).

The decrease in the number of establishments is largely due to more extensive distribution services now in force by some of the larger milling companies covering the more sparsely populated areas. This has superseded to a great extent the former system of obtaining flour and other cereal products from the local mills which have consequently discontinued operations.

This industry, which has existed to meet the domestic needs for more than 300 years, is one of the Dominion's oldest manufactures, but it is only within recent times that its progress has become spectacular. The War and the demand it created gave a great impetus to this trade. The 384 flour mills, many of them of the most modern type and highest efficiency, have a capacity far in excess of Canada's demands. During 1928 productive capacity reached about 121,000 barrels per day. Since then the industry has been adversely affected by the difficulties which beset the Canadian grain trade and the great decline in the prices of grains. Exports of wheat flour declined from 10,737,266 barrels in 1928 to 4,881,057 barrels in 1935, but in spite of the decrease, Canada continues to be one of the leading exporters of wheat flour.

Table 1(a). - Principal Statistics for the Years 1922 to 1935.

Gross value of production .....	\$ 51,760,071	7,400,427	12,785,321	11,726,301	449,339

From the foregoing tables it will be noted that there were increases in the salary and wage payments of \$30,195, in the value of production of \$1,821,685, and the cost of materials used accounted for an additional \$4,023,424. Decreases amounting to \$2,818,111 in the capital investment and 179 in the total number of employees were recorded.

Production. - The total value of all products of the two industries in 1935 amounted to \$97,567,868, of which spring wheat flour was accountable for \$53,583,390. Next in order of importance was chopped grain feed with a total of \$18,192,926, followed by shorts and middlings to the extent of \$5,657,714. Rolled oats takes fourth place with \$4,975,895, whilst bran and fall or winter wheat flour occupy fifth and sixth positions with a valuation of \$4,300,642 and \$3,216,723, respectively.

Capital. - The capital employed in these industries represented an investment of \$56,475,315, which was divided as follows: - fixed capital--consisting of present value of land, buildings, fixtures, machinery, tools, etc., \$29,997,190, and working capital which comprises inventory value of materials on hand, stocks in process, finished products on hand, etc., \$16,361,405, and cash, bills and accounts receivable \$10,116,720.

Employees, Salaries and Wages. - The administrative and clerical work in connection with the two industries required the services of 1,569 male and 181 female employees whose total salaries amounted to \$2,094,324. The number of wage-earners employed was 3,561 male and 143 female which necessitated a payroll amounting to \$3,071,183.

Cost of Materials. - The total cost of all materials used in both industries, including containers, amounted to \$78,071,667. Wheat of all kinds was by far the largest contributor to this sum with \$52,401,481. Mixed grain for chopping takes second place with \$12,128,235. The next largest item of expense was that of oats which accounted for \$5,275,713, whilst containers and container materials occupy fourth position with a total cost of \$5,113,698.

FEED AND CHOPPING MILLS IN CANADA, 1935.

Table 5. - Monthly Employment of Wage-earners, 1934 and 1935.

Months	In Feed and Chopping Mills			
	1934		1935	
	Male No.	Female No.	Male No.	Female No.
January	604	7	578	5
February	625	7	590	5
March	636	7	585	5
April	599	7	548	4
May	553	7	516	4
June	527	7	498	4
July	542	8	504	4
August	549	8	509	4
September	597	8	554	4
October	625	8	595	4
November	638	8	616	4
December	639	8	621	4
TOTAL	7,134	90	6,714	51
Average monthly employment ...	645	8	599	5

Table 6. - Number of Wage-earners in Months of Highest Employment and Their Regular Hours of Work in 1935.

Number of Hours Worked per Week	Number of Employees	Number of Hours Worked per Week	Number of Employees
40 hours or less	122	51-53 hours	8
41-43 hours	12	54 hours	93
44 hours	24	55 hours	35
45-47 hours	4	56-59 hours	37
48 hours	97	60 hours and over	220
49-50 hours	16		

The above table does not include overtime.

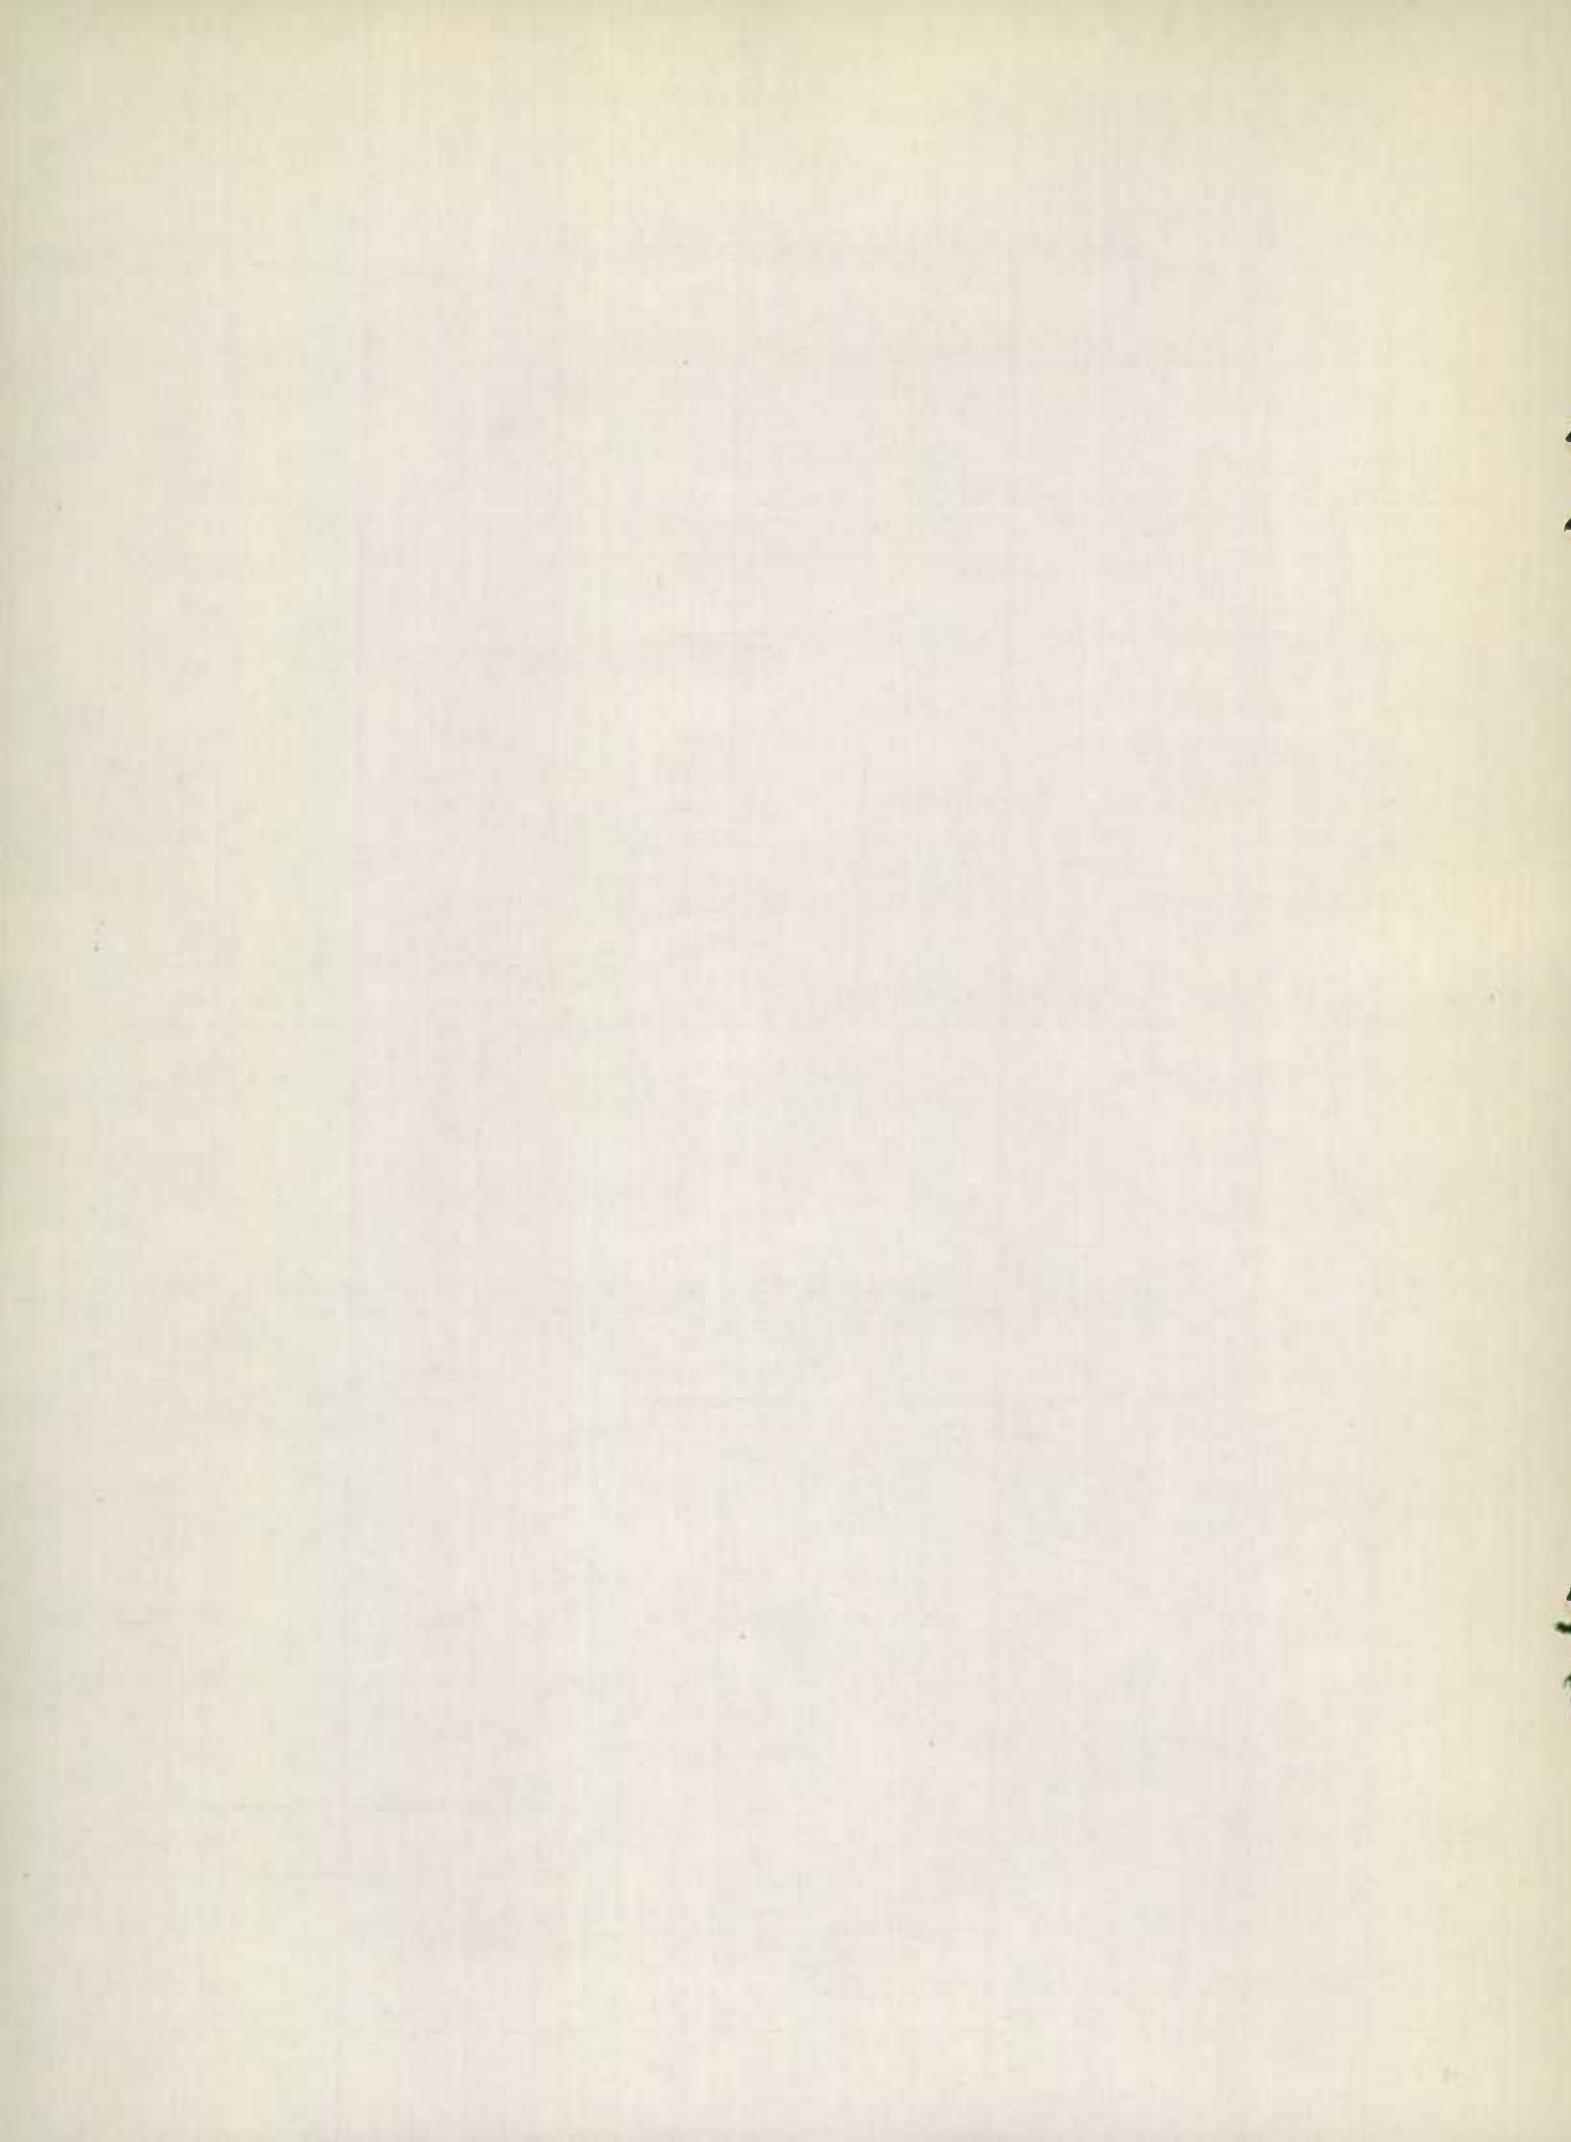

FEED AND CHOPPING MILLS IN CANADA, 1935.

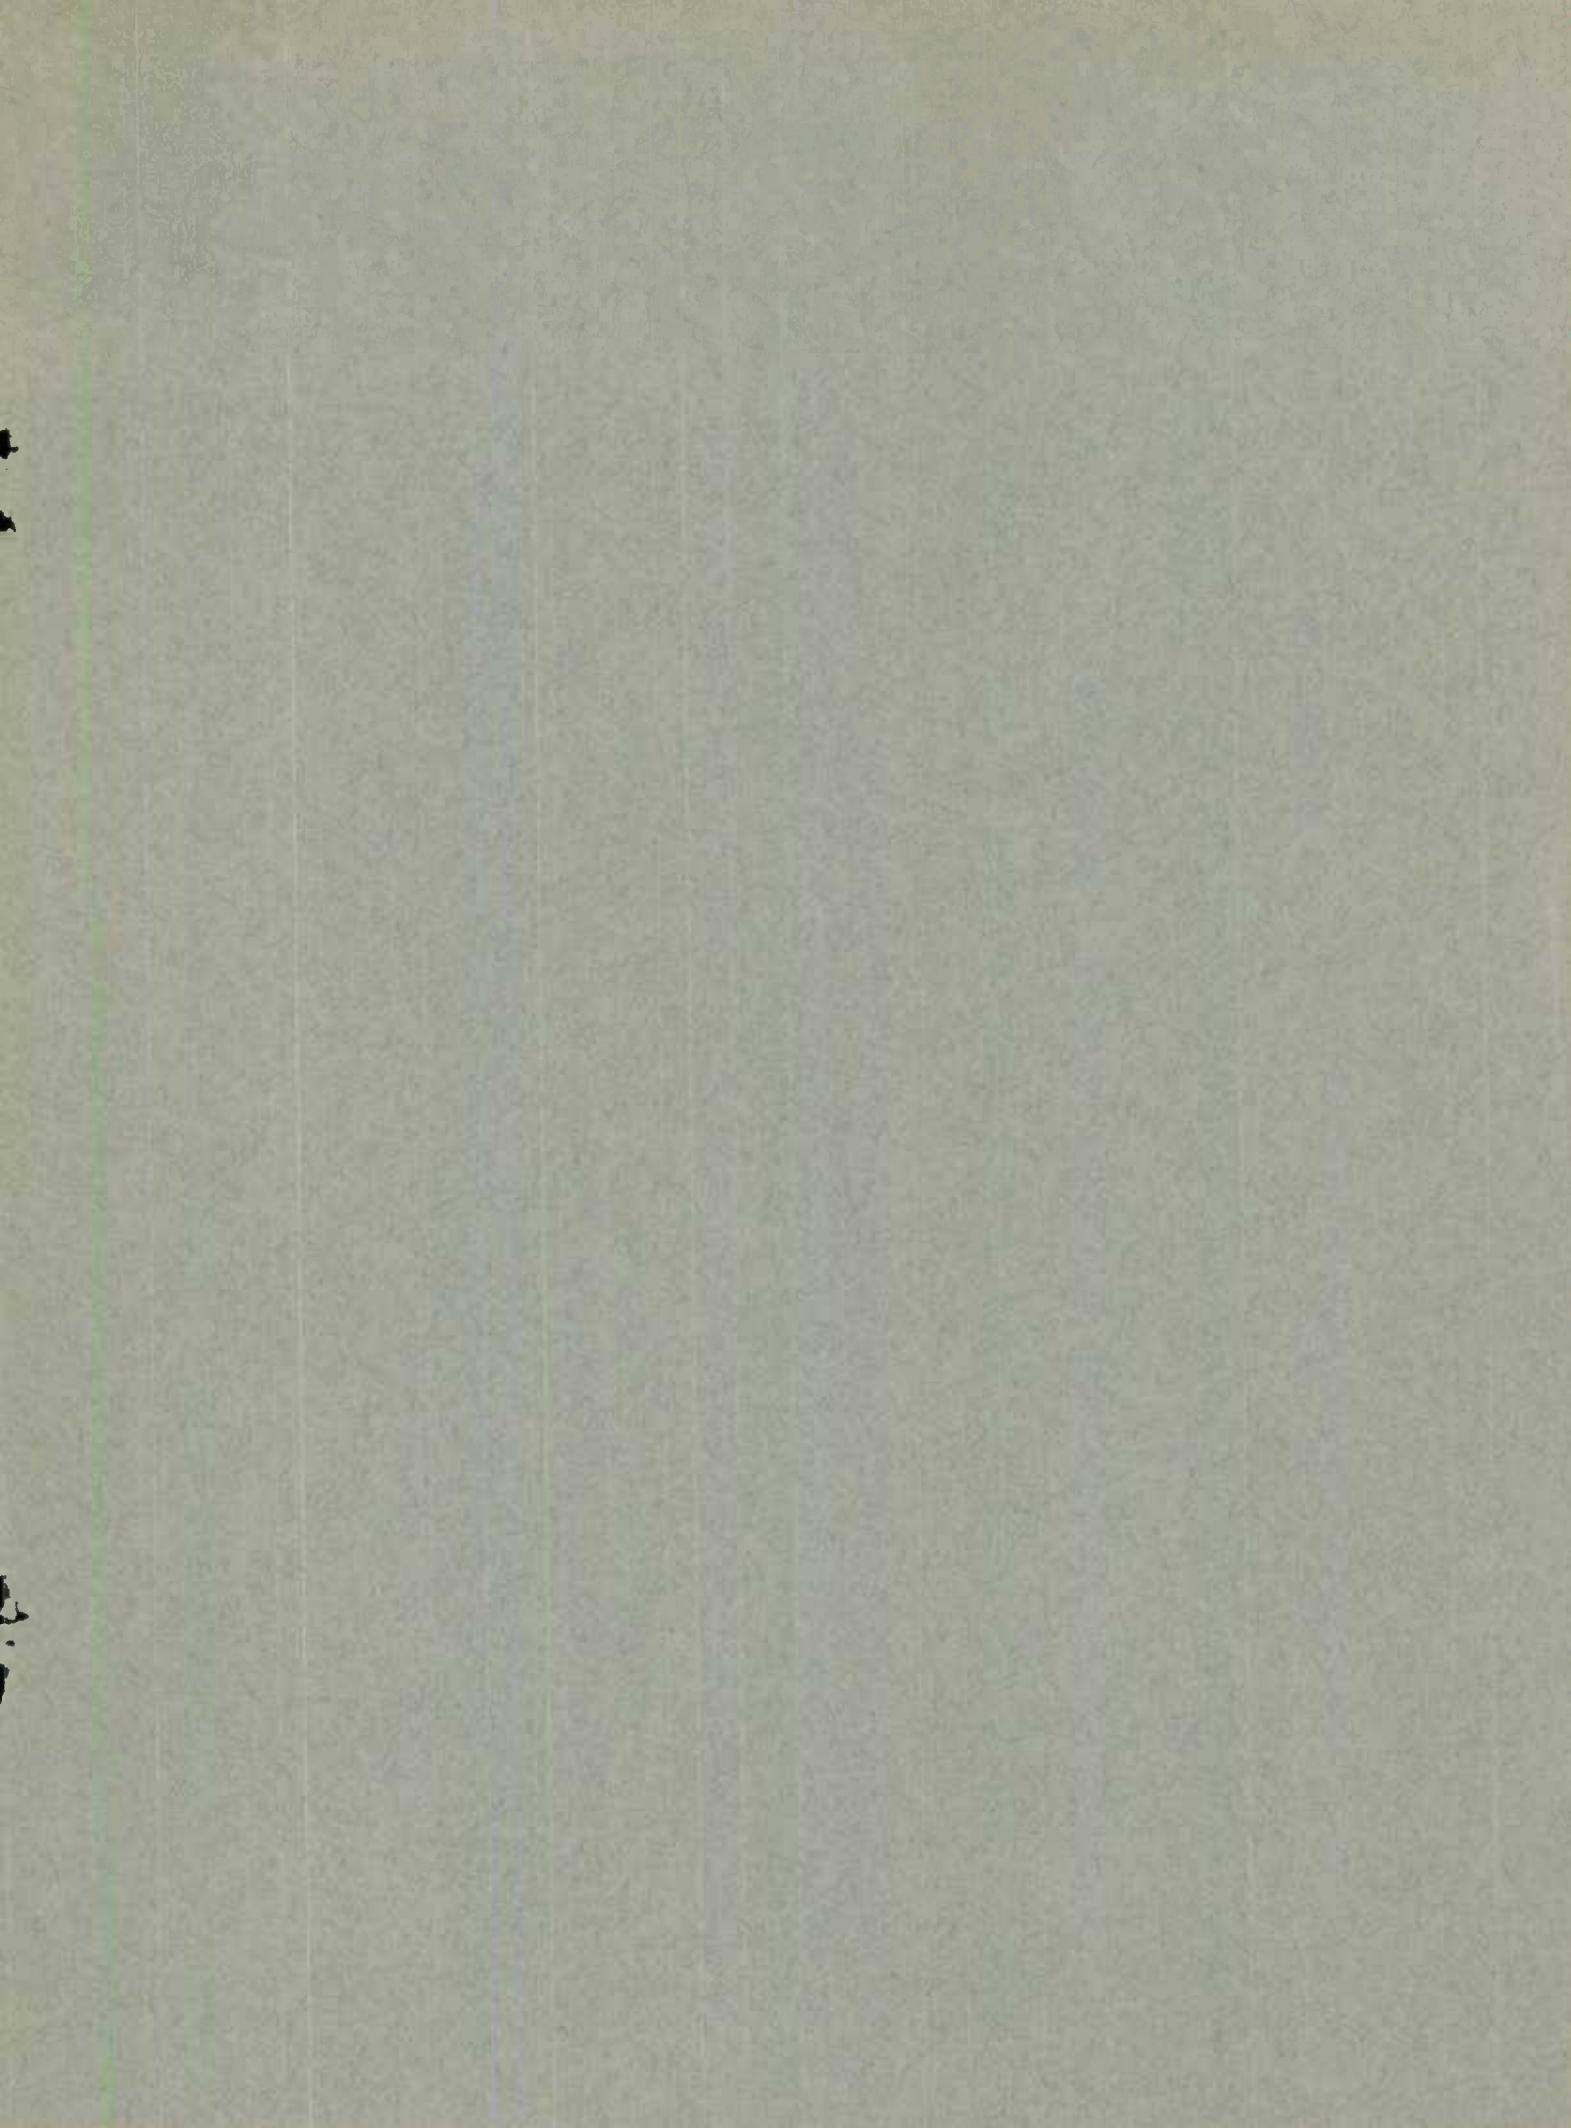

Table 7. - Power Equipment in Feed and Chopping Mills, 1935.

Classes of Power		Number of Units	Manufacturers Rating of Horse-power Capacity
Steam engines and steam turbines	(In use	31	1,475
	(Idle	5	315
Diesel engines	(In use	131	5,571
	(Idle	4	90
Gasoline, gas and oil engines other than diesel	(In use	189	5,347
	(Idle	16	370
Hydraulic turbines or water wheels	(In use	312	10,933
	(Idle	4	220
Electric motors operated by purchased power	(In use	441	9,967
	(Idle	10	370
TOTAL POWER USED IN MANUFACTURING		1,143	34,658
Boiler installation		39	2,423

Table 8. - Consumption of Fuel and Electricity in Feed and Chopping Mills, 1935

Kinds of Fuel	Unit of Measure	Quantity	Total Cost at Mill \$
Coal	Ton		\$
Bituminous	(2000 Lbs.)	2,672	19,649
Anthracite	"	442	4,575
Lignite	"	85	351
Coke	"	11	152
Gasoline	Imp. Gal.	108,466	23,392
Kerosene or coal oil	" "	4,779	1,007
Fuel and diesel oil	" "	354,163	38,461
Wood	Cord	1,693	4,675
Gas, manufactured and natural	M cu. ft.	10,341	5,621
Other fuel	-	-	1,560
TOTAL COST OF FUEL	-	-	99,443
Electricity purchased	Kw. H.	6,120,295	145,582
TOTAL COST OF FUEL AND ELECTRICITY	-	-	243,025
