DEPARTMENT OF TRADE AND COMMERCE
DOMINION BUREAU OF STATISTICS
CENSUS OF INDUSTRY
GENERAL MANUFACTURES BRANCH

REPORT

ON THE

## AWNING, TENT \& SAIL INDUSTRY

IN

CANADA

1936

NOTE. - The statistics published in this report include only those manufacturing establishments whose principal products are awnings, tents or sails. Statistics relating to specific products are, therefore, not to be regarded as showing the total production in Canada as some of the items listed in this report are also manu:actured in other industries.

Dominion Statistician: Chief, General Manufactures Branch:
R. H. Coats, LL.D., F.R.S.C., F.S.S. (Hon.) A. Cohen, B. Com.

## THE AWNING, TENT AND SAIL INDUSTRY IN CANADA, 1936.

In 1936 reports were received from seventy establishments whose principal products were awnings, tents, sails, waterproof covers, etc. This was an increase of four when corpared with the number reporting in 1935.

The improved business conditions in this industry, which first became apparent in 1933, continued throughout 1936. The gross value of production increased by $\$ 196,479$ or over 12 per cent, rising from $\$ 1,605,311$ in 1935 to $\$ 1,801,790$ in 1936. The number of persons engaged in the industry rose from 506 to 552 or more than 9 per cent, while the remuneration they received was $\$ 24,735$ or over 5 per cent more than in 1935. The cost of materials used rose from $\$ 868,429$ to $\$ 999,427$ or over 15 per cent. The capital invested increased from $\$ 1,732,394$ to $\$ 1,926,318$ or more than 11 per cent.

This industry is centered mainly in Ontario and Quebec, with thirty-eight establishments in the former and ten in the latter province. The remainder are located as follows: Nova Scotia three, New Brunswick two, Manitoba four, Saskatchewan two, Alberta three, and British Columbia eight. Ontario, in its thirty-eight establishments, employed nearly 45 per cent of the total capital, 50 per cent of the total employees and produced over 50 per cent of the total value of the output. In the ten Quebec establishments are employed approximately 25 per cent of the capital, 21 per cent of the total employees, and in these are produced approximately 23 per cent of the total value of the output.

During 1936 the principal item of production was "awnings, all kinds", the output of which numbered 44,271 valued at $\$ 455,658$. "Tents, all kinds" were next in order of importance with 22,333 and a selling value at the factory of $\$ 344,810$. "Covers" of various kinds took third place in production with a value of $\$ 209,801$ and were followed by "Sleeping bags" with $\$ 107,221$. Other items of production are given in detail in table 3 .

The chief component material used was duck to the extent of $1,127,076$ yards costing $\$ 306,761$. Next in order follows awning stripe of which the consumption was 415,491 yards costing $\$ 140,062$, whilst canvas with 200,304 yards costing $\$ 58,994$ occupied third place. Further details of the materials used are shown in table 4.

June was the month of maximum employment, during which time 512 persons were engaged, while January recorded the minimum with only 263 employees.

Neither imports nor exports of the products or raw materials of this industry are of great importance. Imports in 1936 totalled $\$ 5,486$, while the exports were valued at only $\$ 5,057$.
