34-2050

THE COTTON TEXTILE INDUSTRIES

1956

Published by Authority of
The Honourable Gordon Churchill, Minister of Trade and Commerce

DOMINION BUREAU OF STATISTICS

Industry and Merchandising Division
Textiles and Miscellaneous Products Section

NOTICE

The annual reports prepared by the Industry and Merchandising Division of the Bureau of Statistics are divided into 3 volumes, as follows: Volume I — The Primary Industries, including mining, forestry and fisheries; Volume II — Manufacturing; Volume III — Merchandising and Services. The volumes are made up of parts, and the parts in turn are subdivided according to the industries or provinces which they comprise.

Volume II consists of the following parts, the first two of which deal with manufacturing as a whole and the balance with the major manufacturing groups.

I - General Review of the Manufacturing Industries, \$1.50

II - The Manufacturing Industries of Canada, (7 sections, as follows:)

Section A. Summary for Canada, 25¢

Section B. Atlantic Provinces, 50¢

Section C. Quebec, 25¢

Section D. Ontario, 25¢

Section E. Prairie Provinces, 40¢

Section F. British Columbia, 25¢

Section G. The Manufacturing Industries of Canada, Regional Distribution, 75¢

III - Foods and Beverages

IV - Tobacco and Tobacco Products

V - Rubber Products

VI - Leather Products

VII - Textile Mills

VIII - Knitting Mills

IX - Clothing

X - Wood and Paper Products

XI - Printing Trades

XII - Iron and Steel Products

XIII - Transportation Equipment

XIV - Non-ferrous Metal Products

XV - Electrical Apparatus and Supplies

XVI - Non-metallic Mineral Products

XVII - Products of Petroleum and Coal

XVIII - Chemicals and Allied Products

XIX - Miscellaneous Manufactures

The present report belongs in Part VII, Textile Mills. It is punched to permit of filing in a ring binder along with others of the group. The reports in this group are:

A - General Review, 25¢

B - The Cotton Textile Industries, 25¢

C - The Wool Textile Industries, 25¢

D - The Synthetic Textiles and Silk Industry, 25¢

E - The Narrow Fabrics Industry, 25¢

F - The Dyeing and Finishing of Textile Goods Industry, 25¢

G - The Awning, Tent and Sail Industry, 25¢

H - The Cordage, Rope and Twine Industry, 25¢

I - The Cotton and Jute Bag Industry, 25¢

J - The Miscellaneous Textiles Industries, 25¢

THE COTTON TEXTILE INDUSTRIES

1956

The first section of this report presents the statistics of the cotton group as a whole. The three other sections which follow deal separately with the industries covered by it, namely, the cotton yarn and cloth industry, the cotton thread industry and the miscellaneous cotton goods industry. The developments within these industries are noted in their respective sections and a list of firms reporting to each industry will be found at the end of the report.

The level of operations in the cotton textile industries in 1956 would appear to have changed very little from the previous year. The two main indicators of activity, cotton consumption and employment, show conflicting trends with the first down slightly and the second narrowly higher. However, these and other data suggest that overall mill activity was probably slightly off from 1955. First quarter operations in 1956 were at about the same level as the final quarter of the earlier year. A curtailment of activity occurred in the second and third quarters with both cotton bale openings and employment down considerably from the first quarter. Final quarter figures for bale openings and employment were approximately the same as for the first quarter indicating that activity within the industries had picked up to first quarter levels.

Cotton Bale Openings

	1954	1955	1956
January February March	21, 884	27,796	32,510
	25, 249	31,222	34,232
	32, 637	35,794	34,049
April	24, 956	30, 924	33, 818
	25, 076	33, 239	28, 999

	29, 000	35,351	36, 432
	31, 951	32,898	28, 225
Total	316, 828	378, 766	375, 773

Factory shipments by the cotton textile industries in 1956 valued f.o.b. plant were worth \$255,570,276. This amount represents an increase

of 3.0 per cent over the \$248,045,328 worth of goods shipped in the previous year. Taking into account the very slight decrease of \$53,627 during the year in plant inventory of goods in process and finished goods, the value of production in 1956 amounted to \$255,516,649 as against \$249,609,499 in 1955, a rise of 2.4 per cent. Employees increased by 1.8 per cent to 23,504 in 1956 from 23,098 in 1955 and employees' earnings by 5.5 per cent to \$63,784,695 from \$60,486,012. Materials consumed in manufacture cost \$154,915,303 in 1956 compared with \$159,702,054 in 1955, a decrease of 3.0 per cent.

All three cotton industries recorded slight increases over the previous year in the value of factory shipments. Comparative figures for the two years, with 1955 figures in brackets are as follows: cotton yarn and cloth, \$236,360,054 (\$229,684,041); cotton thread, \$10,521,041 (\$9,861,986); miscellaneous cotton goods, \$8,689,181 (\$8,499,301). The only worthwhile advance in employment was made by the cotton yarn and cloth industry where the number of employees rose from 21,537 in 1955 to 21,939 in 1956.

Shipments of broadwoven fabrics and sales yarn were somewhat higher in value but lower in volume while shipments of tire fabrics and thread were slightly higher in both value and volume. Shipments of broadwoven fabrics totalled 433,359,487 yards worth \$135,692,478 compared with 439,684,077 yards worth \$132,798,556 in 1955. Sales yarn was shipped to the extent of 51,360,654 pounds valued at \$39,753,625 and thread shipments had a value of \$10,482,278. Corresponding figures for 1955 were 52,310,596 pounds of sales yarn worth \$39,030,816 and thread shipments worth \$9,862,679. Deliveries of woven tire fabrics amounted to 32,407,511 pounds with a value of \$27,391,147 as against 30,896,266 pounds with a value of \$25,776,150 in the previous year. Details of other commodity shipments by the cotton group will be found in Table 4.

The prices of cotton yarns and cotton fabrics strengthened somewhat in the year under review. The index averages for the two items which stood at 237.7 and 233.0, respectively, in 1955 rose to 249.2 and 238.2 in 1956. The average monthly prices index of raw cotton, on the other hand, fell slightly from 298.1 to 295.7 over the two years.

The cotton textile group of industries was comprised of 75 establishments in 1956, one less than the year before. Fifty were cotton yarn and cloth producers, 11 were cotton thread manufacturers and 14 were classified to the miscellaneous cotton goods industry. The establishments were distributed provincially as follows: Nova Scotia 1, New Brunswick 1, Quebec 35, Ontario 35 and British Columbia 3.

Raw cotton is the industry's principal material. According to the Census of Industry returns submitted by the cotton textile manufacturers, the consumption of this item in 1956 was slightly lower than in 1955 being 176,446,562 pounds costing \$53,803,814 and 177,445,571 pounds costing \$62,160,032 respectively, in the two years. Purchased yarns of all kinds cost \$37,442,938, up from \$36,494,348 the previous year. The cost of dyes, bleaches, chemicals, etc. was reported at \$5,243,871 compared with \$5,607,416 in 1955.

Imports of cotton and its products (wearing apparel excluded) were valued at \$146,684,838 in 1956 compared with \$138,480,204 in 1955. More than half of this \$8 million increase was accounted for by "Woven fabrics, cotton printed, dyed or coloured, n.o.p., valued at more than 80 cents per pound" with an advance to 23,438,723 pounds valued at \$34,869,359 from 20,216,011 pounds valued at \$29,662,416 in the earlier year. A sizable increase occurred, too, in the imports of "Woven fabrics, cotton, not bleached, mercerized nor coloured, n.o.p." with 14,424,274 pounds worth \$9,627,713 being imported in 1956 as against 12,739,192 pounds worth \$8,492,913 in 1955. Exports increased slightly. A total of \$2,693,959 worth of cotton products, wearing apparel excluded, was exported in the year under review compared with a total of \$2,418,078

worth the previous year. Additional details of imports and exports are available from Tables 7 and 8 of this report.

For the second year in a row the cotton textile industry in 1956 reported a substantial advance in capital, repair and maintenance expenditures. The greater part of the expenditure was for new machinery and plant facilities designed to produce goods of better quality and greater variety, and to reduce cost. For the two industries shown in Table 10, total capital, repair and maintenance expenditures amounted to \$19.2 million compared with \$14.7 million in 1955. Of the 1956 figure \$5.7 million went for construction while \$13.5 million was spent on machinery and equipment.

Beginning with 1954 information on the value of year-end inventory holdings at plant and plant warehouses is being collected as part of the annual Census of Industry. This data was formerly collected by a separate survey. The summarized results for the cotton textile industries for the year under review will be found in Table 3.

Note on 1957 — While the Census of Industry survey at the time of preparing this report was still quite incomplete, data from other sources indicate that the 1957 level of operations was lower than in 1956. Cotton bales opened totalled 359,411 in 1957 compared with 375,773 a year earlier, a reduction of 4.4 per cent. Employment as measured by man-hours fell by 13 per cent according to a monthly survey of all firms with 15 or more employees. Based on a monthly sample survey, the value of factory shipments was estimated to have decreased to \$234,859,000, down 8 per cent from the 1956 figure.

TABLE 1. Location of Mills of Cotton Textile Group of Industries, 1956

Province	Cotton yarn and cloth	Cotton thread	Miscellaneous cotton goods	All cotton textile mills					
	number								
Canada	50	11	14	75					
Nova Scotia	1	_		1					
New Brunswick	1	_	_	1

1. Beginning with 1953 the value of factory shipments has been collected instead of the gross value of production.

2. Statistics for 1949 and subsequent years are compiled in accordance with Standard Industrial Classification whereas compilations in 1948 and prior years were compiled on "chief component material" classification.

3. Because of insufficient inventory data in 1953 this figure has been calculated from value of factory shipments and is, therefore, only approximate to true "Value added by manufacture".

Note: Profits or losses cannot be estimated from Census figures as no data are collected for certain expense items, such as interest, rent, depreciation, taxes, insurance, advertising, etc.

TABLE 3. Inventories 1, 1956

	Raw materials and supplies	Goods in process	Finished goods of own manufacture	Total
Opening: 2	\$	\$	\$	\$
Quebec Ontario Other provinces	10, 286, 191 6, 742, 754 505, 919	13, 148, 794 4, 797, 948 140, 011	18, 046, 371 8, 074, 244 361, 555	41, 481, 356 19, 614, 946 1, 007, 485
Canada	17, 534, 864	18,086,753	26, 482, 170	62, 103, 787
Closing: Quebec Ontario Other provinces	13, 379, 812 6, 636, 078 549, 104	11, 222, 920 4, 079, 023 123, 434	20, 796, 544 7, 959, 693 333, 682	45, 399, 276 18, 674, 794 1, 006, 220
Canada	20, 564, 994	15, 425, 377	29, 089, 919	65, 080, 296

Book value of all manufacturing inventories held at plant and plant warehouses.
 The opening inventory for 1956 differs from the closing inventory published for 1955 because of the inclusion of new firms and the removal of figures for firms which did not operate during 1956.

SECTION 2. THE COTTON YARN AND CLOTH INDUSTRY, 1956

A total of \$236,360,054 worth of goods was ablored from the factories of Canadian cotton yarn and cloth manufacturers in 1956. This amount represents an increase of 2.9 per cent over the previous year's total of \$229,684,041. Allowing for a decrease during the year of \$753,360 in plant inventory of goods in process and finished goods, the value of production in 1956 amounted to \$235,606,694, a rise of 2.0 per cent above the \$230,936,415 worth of production reported in 1955.

The number of persons employed by the industry rose by 1.9 per cent, from 21,537 in 1955 to 21,939 in 1956, and their earnings by 5.4 per cent, from \$56,411,050 in the earlier year to \$59,458,812 in the later. Whereas the value of production and employment rose somewhat, the cost of materials used fell by 3.7 per cent from \$149,561,429 in 1955 to \$144,017,345, in 1956. The decrease was the result of the lower price at which the industry was able to procure its raw cotton requirements.

The number and provincial distribution of establishments was the same as the year before. They numbered 50 and were located as follows: Ontario 26, Quebec 21, Nova Scotia 1, New Brunswick 1 and British Columbia 1, Quebec accounted for 68 per cent of the industry's shipments and 64 per cent of its employment.

Pactory shipments of broadwoven fabrics, the industry's leading commodity, amounted to 433,359,487 lineal yards valued at \$135,692,478 compared with 439,684,077 lineal yards worth \$132,798,556 reported in 1955. These fabrics were responsible for 57 per cent of the value of total factory shipments by the industry in 1956. All cotton

broadwoven fabrics were shipped to the extent of 430,350,561 yards having a selling value at the factory of \$129,424,243. Of this quantity, grey cotton fabrics were responsible for 214,923,209 yards valued at \$56,059,370. These grey fabrics, however, included 135,416,671 yards valued at \$28,180,273 which went to other mills for processing into printed and dyed cotton fabrics, etc. Other cotton broadwoven fabrics consisted of 36,641,262 yards bleached and 72,764,774 yards piece dyed with the remaining 106,021,316 yards being printed, painted, yarn and stock dyed. Other items which went to make up the broadwoven fabric total were rayon, nylon and mixture fabrics, draperies and upholstering materials.

In 1956 tire fabric shipments amounted to 32,407,511 pounds worth \$27,391,147 as against 30,896,266 pounds worth \$25,776,150 in 1955. Sales yarn shipments were valued at \$39,000,276 compared with \$38,729,719 the previous year.

The industry's main material is raw cotton which was consumed to the extent of 176,153,562 pounds at a cost of \$53,773,794 in 1956 compared with 177,414,371 pounds at a cost of \$62,150,632 in 1955. Purchased cotton yarn consumption amounted to 11,337,669 pounds valued at \$7,337,976 compared with 10,186,383 pounds valued at \$6,739,409 a year earlier. Domestic grey cotton fabrics not made by plant reporting were used to the extent of 135,416,671 yards worth \$28,180,273 and imported grey fabrics consumed totalled 18,242,617 yards worth \$4,559,338.

Further detail of products shipped and materials used is to be found in Tables 15 and 17 of this report.

Beginning with 1953 the value of factory shipments has been collected instead of the gross value of production.
 Other provinces include: Ontario, 26 establishments; New Brunswick, 1 establishment; Nova Scotia, 1 establishment; British Columbia, 1 establishment.
 Because of insufficient inventory data in 1953, this figure has been calculated from value of factory shipments and is, therefore, only approximate to true "Value added by manufacture".

Book value of all manufacturing inventories held at plant and plant warehouses.
 Where the opening inventory for 1956 differs from the closing inventory published for 1955 it is because of the inclusion of new firms and the removal of figures for firms which did not operate during 1956.

SECTION 3. THE COTTON THREAD INDUSTRY, 1956

The cotton thread industry is confined to the provinces of Ontario and Quebec. In 1956 there were 4 establishments in the first province and 7 in the second for a total of 11, the same as the year before.

Factory shipments by the industry had a value f.o.b. factory of \$10,521,041, a figure 6.7 per cent above the \$9,861,986 worth of products shipped in 1955. Employment was somewhat higher than a year earlier, 955 compared with 939, with salary and wage payments increasing to \$2,415,571 from \$2,274,593. The cost of materials used in manufacture rose to \$5,554,485 in 1956 from \$5,098,589 in 1955.

Thread is the only significant product in the industry and accounts for practically all of the output. Factory shipments of this commodity were valued at \$10,442,476 in 1956 compared with the \$9,831,699 worth produced in 1955.

Cotton and synthetic yarns are the principal materials used. In 1956, 3,383,392 pounds costing \$4,688,776 were consumed as against 3,162,350 pounds at a cost of \$4,334,391 in the previous year.

Beginning with 1953 the value of factory shipments has been collected instead of the gross value of production.
 Because of insufficient inventory data in 1953, this figure has been calculated from value of factory shipments and is, therefore, only an approximation to true "value added by manufacture."

Note: Profits or losses cannot be estimated from Census figures as no data are collected for certain expense items such as interest, rent, depreciation, taxes, insurance, advertising, etc.

TABLE 22. Inventories 1, 1956

	Raw materials and supplies	Goods in process	Finished goods of own manufacture	Total
Opening; 2	\$	\$	\$	\$

Closing: Quebec Ontario	1, 479, 538 244, 583	1, 175, 421 40, 000	783, 201 311, 222	3, 438, 160 595, 805
Canada	1, 724, 121	1, 215, 421	1, 094, 423	4, 033, 965

1. Book value of all manufacturing inventories held at plant and plant warehouses.

2. The opening inventory for 1956 differs from the closing inventory published for 1955 because of the inclusion of new firms and the removal of figures for firms which did not operate during 1956.

SECTION 4. MISCELLANEOUS COTTON GOODS INDUSTRY, 1956

Factory shipments by this third member of the cotton group of industries in 1956 had a value f.o.b. plant of \$8,689,181 which compares with the \$8,499,301 worth of goods shipped by the industry in the previous year. Employment showed a slight decrease over the two years from 622 in 1955 to 610 in 1956 whereas salaries and wages paid increased from \$1,800,369 to \$1,910,312. Materials consumed in manufacture cost \$3,322,504 in 1956 as against \$3,286,848 in 1955.

The industry was comprised of 14 establishments in 1956, one less than the year before. Seven of these were located in Quebec, 5 in Ontario and 2 in British Columbia. Factory shipments by the Ontario establishments were valued at \$5,487,222 or 63 per cent of the industry's total. They also accounted for 66 per cent of its employment.

Many of the articles produced by this industry cannot be separately specified without divulging information concerning the operation of individual establishments. Batt, batting and wadding, including automobile batts, with shipments valued at

\$4,467,391 was the most important commodity. Waste cotton and flock which was shipped to the value of \$1,009,796 ranked second in importance. Shipments of cotton felt amounted to \$927,331 and wool and other waste to \$456,800. The balance was made up of such items as jute and jute padding, cotton yarn, sisal padding, wipers and rags, and a number of miscellaneous products.

Of the materials used, cotton waste amounted to 21,587,463 pounds valued at \$2,012,088. Cotton and wool waste mixed was consumed to the extent of 7,565,502 pounds valued at \$536,106. Cotton linters consumed were valued at \$388,592 and rags, clippings, millends, etc. at \$232,942. Other materials used consisted of burlap, cheese cloth, felt, sisal, chemicals, etc.

Seven of the fifteen establishments, each with factory shipments in excess of \$500,000, accounted for \$7,483,887 or 84 per cent of total shipments and with 532 employees for 87 per cent of total employment. Employment in the industry varied from a low of 483 wage-earners in January to a high of 593 in October.

Quebec	9	205	623,841	82,736	1,949,949	1, 253, 381	3, 201, 959

Beginning with 1952 the value of factory shipments has been collected instead of gross value of production.
 In 1949 the Miscellaneous Cotton Goods Industry was reconstituted in accordance with the Standard Industrial Classification adopted in that year. The new Industry is not comparable with the old.
 Because of insufficient inventory data in 1952 and 1953, these figures have been calculated from value of factory shipments and are, therefore, only approximations to true "Value added by manufacture".

British Columbia	14,080		-000	14,080
Canada	1, 262, 872	109,669	333,824	1,706,365

Book value of all manufacturing inventories held at plant and plant warehouses.
 Where the opening inventory differs from the closing inventory published for 1955, it is because of the inclusion of new firms and the removal of figures for firms which did not operate during 1956.
