DEPARTMENT OF TRADE AND COMMERCE
DOMINION BUREAU OF STATISTICS
CENSUS OF INDUSTRY
OTTAWA, CANADA

Dominion Statistician: R. H. Coats, B.A., F.S.S. (Hon.), F.R.S.C.
Acting Chief, Census of Industry: A. Cohen, B. Com.

THE CORSET INDUSTRY IN CANADA, 1931.

In 1931 there were twenty establishments engaged in the manufacture of corsets and kindred articles which was an increase of one over the preceding year. Fourteen of these were located in Ontario and all of the remaining six in Quebec.

In spite of depressed conditions this industry held its own comparatively well in 1931. On referring to table 2 it will be observed there were increases in the number of establishments, the total number of employees and the amount of salaries and wages paid them. The amount of capital investment, cost of raw materials, value of production and value added by manufacture all show small recessions from 1930.

Gross value of production amounted to \$4,187,647 in 1931, a decline of \$391,200 or almost 9 per cent. The amount of capital investment likewise declined from \$5,277,642 in 1930 to \$4,812,464, a loss of \$465,178 in 1931. The number of employees, salaried and wage-earners, showed an increase of 26, the number being 1,482 in 1930 and 1,508 in 1931. Salaries and wages paid amounted to \$1,097,037 and \$1,124,990 in 1930 and 1931 respectively, an increase in 1931 of \$27,953. The cost of raw materials dropped from \$2,221,313 in 1930 to \$2,054,461, a decline of \$166,852 or about 8 per cent in 1931, and the value added by manufacture declined from \$2,357,534 in 1930 to \$2,133,186 in 1931, a decrease of \$224,348 or almost 10 per cent.

Imports of fully manufactured corsets and materials used by this industry were valued at \$110,461 in 1931 compared with a value of \$228,304 in 1930. Corsets was the largest single item imported and accounted for \$44,931 of the total amount. The only articles exported were corsets and brassieres and their value was \$62,261 in 1931 as against a value of \$108,496 in 1930.

The following tables in the report show fully the activities of this industry in 1931 and afford a comparison with the previous year.

THE CORSET INDUSTRY IN CANADA, 1931.

THE CORSET INDUSTRY IN CANADA, 1931.

Production

The quantity and value of all products of this industry is furnished in table 3 for the years 1930 and 1931. Value of production declined from \$4,578,847 in 1930 to \$4,187,647 in 1931 a loss of \$391,200 or almost 9 per cent. The principal single item of production in both years was corsets of all materials of which there were produced 148,682 dozen valued at \$2,403,155 in 1930 and 143,991 dozen valued at \$2,220,646 in 1931. Combination garments of various materials numbered 75,740 dozen valued at \$1,327,065 in 1930 and 72,763 dozen worth \$1,208,086 in 1931. Of bandeaux and brassieres 92,221 dozen were produced in 1930 with a value of \$556,596 and in 1931 98,930 dozen were produced valued at \$497,097.

Of the total production of \$4,187,647 in 1931, Ontario with fourteen establishments contributed \$2,127,814 and Quebec with six had an output valued at \$2,059,833.

An effort was made in 1931 to have specified the principal fabrics used in the manufacture of corsets and combination garments. While some success was attained along these lines the greater proportion were simply reported as "corsets" and "combination garments" irrespective of their component materials.

Capital Investment

The capital invested in the Corset Industry is shown in table 4 by provinces, for the calendar years 1927 to 1931 inclusive. It is also sub-divided into fixed capital and different branches of working capital, and can be observed in detail in the table.

The total amount of capital invested in 1931 was \$4,812,464 which represented a decline of \$465,178 from the 1930 investment of \$5,277,642. Of this amount \$2,925,195 was contributed by the province of Quebec and \$1,887,269 by the province of Ontario.

Materials Used.

The quantity and value of the materials used in the industry during the calendar years 1930 and 1931 is shown in detail in table 5. The total cost in 1931 was \$2,054,461, a decrease of \$166,852 from the 1930 cost amounting to \$2,221,313. The cost of materials used in the province of Quebec amounted to \$1,186,663, while in Ontario it was \$867,798.

/ Includes woollen, silk, sateen and brocade.

Size of Establishments.

In view of the tendency towards concentration in industrial enterprise, a series of three tables has been prepared presenting the size of establishments in the Corset Industry, measured by the gross value of production, the value of the capital investment and the number of persons employed, all within certain specified groupings, for the years 1930 and 1931. These tables also indicate the movement of production, capital and employment within the industry.

In 1931 there was an increase of one in the number of establishments reporting. Despite this increase, however, the average value of production declined from \$240,992 in 1930 to \$209,382 in 1931, an average loss per establishment of \$31,610.

THE CORSET INDUSTRY IN CANADA, 1931.

Size of Establishments - Continued.

It will be noted that in this year, nine establishments had a gross production of \$3,445,806 or 82.3 per cent of the total.

The average capital investment in 1931 was \$240,623, a decrease of \$37,148 from the 1930 average of \$277,771. Here again concentration is marked, seven establishments having a total capital investment of \$3,968,491 or 82.5 per cent of the total amount..

While the total number of wage-earners increased from 1,482 in 1930 to 1,508 in 1931, the average per establishment dropped from 78.0 to 75.4. In 1931 five establishments furnished employment to 922 wage-earners, which was over sixty-one per cent of the total number employed.

Employees, Salaries and Wages.

The number of persons employed in the Corset Industry in 1930 and 1931 is shown in table 7, by classes of employment, sex of employees and the amount of salaries and wages paid them. The total employees in all classes rose from 1,482 in 1930 to 1,508 in 1931, an increase of 26. The total expenditure for salaries and wages was \$1,097,037 in 1930 and \$1,124,990 in 1931, an increase in 1931 of \$27,953. These figures do not include the number of outside piece-workers and the amount paid them. Table 7 shows three of these workers in 1930 who were paid \$470. There were none reported in 1931.
