HAT & CAP INDUSTRY
IN
CANADA
1936

OTTAWA
1938

Price 25 cents

NOTE.- The statistics published in this report cover only those manufacturing establishments whose principal items of production are hats, caps and millinery. Statistics relating to these specific products are not therefore to be regarded as the total for Canada, since some of these are also produced to some extent in the Men's Furnishing Goods and the Fur Industries.

THE HAT AND CAP INDUSTRY IN CANADA, 1936.

In 1936 reports were received from 170 establishments whose principal output consisted of hats, caps and millinery. This was an increase of one establishment as compared with the number reporting during the previous year.

The hat, cap and millinery industry is mainly centered in the provinces of Ontario and Quebec. The seventy-one establishments in Ontario in 1936 employed 48 per cent of the capital, as well as 45 per cent of the total employees, and paid 49 per cent of the total salaries and wages. These establishments also produced 47 per cent of the total gross value of all production in this industry. The seventy-five establishments in Quebec during the same year employed 42 per cent of the capital, 45 per cent of the employees and paid 44 per cent of the total salaries and wages. The gross value of production in the Quebec establishments was 45 per cent of the total. The location of the other factories was as follows: Nova Scotia one, New Brunswick two, Manitoba fourteen, Alberta two and British Columbia five.

Considerable improvement was shown by this industry during 1936. Capital investment rose from \$6,451,000 in 1935 to \$6,892,337 a gain of about 7 per cent, while the gross value of production increased from \$11,524,478 to \$12,373,810 a gain of over 7 per cent. Employment was given to 4,465 persons as compared with 4,211 in 1935 an increase of 254 or approximately 6 per cent, and the remuneration paid these employees increased from \$3,659,281 to \$4,015,492 or more than 9 per cent. There was an increase in the cost of the materials used which rose from \$5,549,013 to \$6,148,286 an increase of more than 10 per cent.

Out of the 170 establishments reporting in 1936 eighty-eight produced mainly hats and caps, seventy-three factory made millinery and nine straw hats and shapes. Compared with 1935 this is an increase of two hat and cap factories, no change in the number of millinery establishments and a decrease of one in the number producing straw hats and shapes. The hat and cap group is the most important insofar as it employs over 63 per cent of the capital and 52 per cent of the employees, as well as producing over 62 per cent of the total gross value of the products made by this industry.

Men's fur felt hats to the number of 89,192 dozen valued at \$2,132,911 was the most important item of production. Women's wool felt hats, numbering 164,080 dozen and valued at \$1,844,177 was next in order and women's straw hats followed with 113,114 dozen valued at \$1,642,789. Cloth caps, numbering 218,488 dozen with a sale value of \$1,401,703 occupied the fourth place. Other items of production are listed in table 4.

Statistics covering materials used in this industry are not collected in detail. Therefore, only the total cost is shown.

THE HAT AND CAP INDUSTRY IN CANADA, 1936.

Of the 3,743 wage-earners employed by this industry in 1936, the males numbered 1,868 and the females 1,875. Maximum employment was reached in April with 4,333 employed, whilst the minimum number recorded was 2,964 in December.

The imports of raw materials, partly manufactured and fully manufactured hats and caps during the year 1936 were valued at \$2,476,660 or \$434,208 higher than the imports of the previous year. Hatters' fur to the value of \$972,309 and hat sweats, etc., valued at \$226,269 were respectively the two largest items of raw and partly manufactured materials imported. The largest fully manufactured product imported was hair felt hats to the value of \$283,459.

The hats and caps exported during 1936 amounted in value to \$150,524 as compared with \$89,012 in 1935.
