NOTICE

The Industry and Merchandising Division of the Bureau of Statistics collects and compiles figures on (a) the primary industries in Canada—mining, forestry and fishing; (b) manufacturing; (c) construction, and (d) merchandising and services.

For the purpose of annual compilation and publication, the manufacturing industries have been classified into major groups, prefaced by two reports of a general nature, as follows:

- I Summary Report on Manufacturing Industries
- II Manufacturing Industries by Geographical Distribution
- III Foods and Beverages
- IV Tobacco and Tobacco Products
- V Rubber Products
- VI Leather Products
- VII Miscellaneous Manufactures
- VIII Textiles
- IX Wood and Paper Products
- X Printing Trades
- XI Operations in the Woods
- XII Iron and Steel Manufactures
- XIII Transportation Equipment
- XIV Non-ferrous Metals Manufactures
- XV Electrical Apparatus
- XVI Non-metallic Mineral Products
- XVII Coke and Gas—Petroleum Refining
- XVIII Chemicals and Allied Products

The present report belongs in Group VIII. It is punched to permit of filing in a ring binder along with others of the group. The reports in this group are:

A General Review of All Textiles

Textiles Except Clothing

- B General Review
- C The Cotton Textile Industry
- D The Woollen Textile Industries

THE MEN'S FACTORY CLOTHING INDUSTRY

1949

SECTION I—MEN'S FACTORY CLOTHING, 1949

In 1949, following the adoption of the standard industrial classification and the reclassification of certain firms from the Clothing Contractors' Industry, the Men's Factory Clothing Industry is not strictly comparable with previous years. On the one hand the Men's Factory Clothing Industry has been broadened by the addition of seventeen establishments from the Clothing Contractors' Industry and on the other hand it has been narrowed by the loss of eighteen establishments producing suspenders and garters which are now reclassified to Miscellaneous Clothing. There have been in addition a number of firms going out of business and a number of new firms including six from Newfoundland. The net effect of these changes leaves the Men's Factory Clothing Industry with a gross value of output of \$220,701,259 compared with \$209,028,369 in the previous year.

The industry in 1949 consisted of 565 establishments which furnished employment to 33,398 persons who received \$57,343,483 in salaries and wages. The cost of materials consumed amounted to \$121,485,389 and the value added by manufacture was \$98,546,341. The establishments reporting in 1949 were distributed

provincially as follows: Quebec 339, Ontario 149, Manitoba 39, British Columbia 16, Alberta 7, Nova Scotia 7, Newfoundland 6, New Brunswick 1 and Saskatchewan 1. The industry was largely centred in Montreal and Toronto which accounted for almost two-thirds of total output, the production in the two cities being approximately 40 per cent and 21 per cent respectively.

In the Men's Factory Clothing Industry there now are seven more or less distinct divisions as regards the nature of the products manufactured. These divisions are not, however, all inclusive and a certain amount of overlapping occurs. The classification of an establishment is, therefore, determined by its principal products. For example, a firm whose production is composed of \$100,000 worth of suits and overcoats, and \$35,000 worth of overalls and work shirts is placed in the "suits and overcoats" section; whereas a firm producing \$25,000 worth of fine shirts and \$10,000 worth of men's neckwear would be placed in the "fine shirts" section. These divisions together with the number of persons employed and the value of products manufactured in 1949 are given in the table following:-

1. Since less than three establishments reported boys' garments in this classification, it has been necessary to include the figures for Boys' with those for Men's and Youths'.

Note: The statistics published in this report include only those manufacturers whose principal item of production is men's factory clothing. Statistics relating to these specific products, however, are not to be regarded as representing the total Canadian production as they are also included to some extent in the Women's Factory Clothing and other industries. For the total Canadian production reference should be made to the "Alphabetical List of Products Manufactured in Canada" which is shown as an appendix to all annual reports on the "Manufacturing Industries of Canada".

Statistics covering materials used are not collected in detail. The total cost is shown by provinces in Table 1 and by industry in Table 4.

SECTION II - CLOTHING CONTRACTORS, MEN'S, 1949

While the activity of this branch of the textile industry was at approximately the same level in 1949 as in 1948, the statistics show a reduction due to the reclassification of seventeen firms. At a time when the new standard industrial classification was being introduced generally, it was deemed appropriate to make an investigation of the establishments then classified as contractors. The result has been the reclassification of a number of them to the Men's Factory Clothing industry.

In 1949 reports were received from 137 establishments belonging to Men's Clothing Contractors. Of these 117 were located in the Province of Quebec and 84 were located in Montreal, the centre of the

industry. There were 18 establishments in Ontario, 16 of which were located in the city of Toronto. The total value of work performed during 1949 was \$6,426,382 whilst the number of persons employed was 3,388 who received \$4,856,691 in salaries and wages.

The materials used, which are supplied by the contractors themselves, consisting principally of thread, buttons, etc, amounted to \$561,924 in 1949. The following tables give details of the industry, its location, principal statistics, provincial distribution of employees by sex and remuneration and stability of the industry as reflected in the monthly employment of wage-earners.
