THE WOMEN'S FACTORY CLOTHING INDUSTRY, 1948

This industry is composed of five divisions, so closely allied as to make it impracticable to treat each one as a separate industry. The divisions comprise (1) Women's coats and suits, (2) Women's dresses, (3) Ladies' wear, (4) Children's wear, (5) Embroidery, pleating and hemstitching. Laces, tapes and bindings which previous to 1938 comprised a division, are now classified as a separate industry under the title "Narrow Fabrics".

In 1948 reports were received from 1,160 establishments engaged primarily in the manufacture of women's factory clothing and ready-to-wear garments which was a decrease of 9 from the number reporting in 1947. These establishments had a gross value of production amounting to \$222,814,726. Employment was given to 33,416 persons who were paid in salaries and wages the sum of \$59,363,042. The cost of materials used was \$114,028,998 and the value added by manufacture amounted to \$108,271,992.

When compared with the previous year, the gross value of the industry's output increased by \$38,509,296 or 20.8 per cent. Employment was provided for 2,447 more persons, an increase of 7.9 per cent, and the disbursement in salaries and wages was greater by \$9,005,921 or 17.9 per cent. The cost of materials used in 1948 exceeded that reported for 1947 by \$21,315,424 or 23 per cent. The value added by manufacture increased by \$17,113,779, \$9,005,921 of which was passed along in larger salary and wage payments to employees.

The establishments reporting in 1948 were located by provinces as follows: Quebec 719, Ontario 364, Manitoba 43, British Columbia 24; Alberta 8, New Brunswick 1 and Saskatchewan 1.

Montreal is the centre of the industry. In 1948 the establishments located there produced 65 per cent of the total output of the women's factory clothing industry. Establishments classified in the "dress" section produced 79 per cent of the total, "coats and suits" 41 per cent, "ladies wear" 68 per cent and "children's wear" 66 per cent. Toronto with 24 per cent of the total for the industry ranked second. The following table gives the standing of the two cities as regards the number of employees and value of products.
