## NOTICE

The Industry and Merchandising Division of the Bureau of Statistics collects and compiles figures on (a) the primary industries in Canada—mining, forestry and fishing; (b) manufacturing; (c) construction, and (d) merchandising and services.

For the purpose of annual compilation and publication, the manufacturing industries have been classified into major groups, prefaced by two reports of a general nature, as follows:

- I Summary Report on Manufacturing Industries
- II Manufacturing Industries by Geographical Distribution
- III Foods and Beverages
- IV Tobacco and Tobacco Products
- V Rubber Products
- VI Leather Products
- VII Miscellaneous Manufactures
- VIII Textiles
- IX Wood and Paper Products
- X Printing Trades
- XI Operations in the Woods
- XII Iron and Steel Manufactures
- XIII Transportation Equipment
- XIV Non-ferrous Metals Manufactures
- XV Electrical Apparatus
- XVI Non-metallic Mineral Products
- XVII Coke and Gas—Petroleum Refining
- XVIII Chemicals and Allied Products

The present report belongs in Group VIII. It is punched to permit of filing in a ring binder along with others of the group. The reports in this group are:

### A General Review of All Textiles

# THE WOMEN'S AND CHILDREN'S FACTORY CLOTHING INDUSTRIES 1949

## SECTION I. THE COMBINED WOMEN'S AND CHILDREN'S FACTORY CLOTHING INDUSTRIES, 1949

In accordance with the Standard Industrial Classification adopted in 1949, "Children's factory clothing" is changed from a division of "Women's factory clothing" to a separate industry. At the same time the former division known as "Embroidery, pleating, hemstitching, etc." has been transferred to "Miscellaneous textile goods".

The present report is divided into four sections as follows: (1) Combined women's and children's factory clothing industries, (2) Women's factory clothing industry, (3) Children's factory clothing industry and (4) Women's and children's factory clothing contractors. The developments in these industries for 1949 will be noted in their respective sections and the list of firms in each category follows at the end of the separate sections. The first section provides the overall statistics for the combined women's and children's factory clothing industries for the last two years.

Combined statistics for the women's and children's factory clothing industries are not strictly comparable between 1948 and 1949. The gross value of production rose from \$222,814,726 in 1948 to \$230,306,214 in 1949 but the 1948 figure included production of "Embroidery, pleating, hemstitching, etc." to the extent of \$4,835,090 which was excluded from the industry in 1949. Table 2, however, indicates the comparison of similar components of the combined industries over the two years. Women's coats and suits were valued at \$5,334,175 more in 1949 than in 1948 but in 1949 women's dresses showed a value

of production of \$34,133 less than in 1948. Value of production of other women's outerwear and underwear advanced by \$4,969,406 over the two years and the value of children's clothing in 1949 exceeded the previous year by \$3,904,742. Together these four groups represented a value of production 6.5 per cent greater in 1949 than in the previous year.

Of the combined industry's output of \$230,306,214 in 1949 \$143,647,146 or 62 per cent was accounted for by Montreal and \$53,273,288 or 23 per cent by Toronto. There were 1,034 establishments in 1949 of which 1 was in New Brunswick, 628 in Quebec, 331 in Ontario, 41 in Manitoba, 3 in Saskatchewan, 7 in Alberta and 23 in British Columbia. Employment was given to 84,294 persons who were paid in salaries and wages the sum of \$63,026,588. The cost of materials used was \$120,089,104 and value added by manufacture amounted to \$109,683,073.

Exports of clothing and furnishings showed a drop from \$3,502,588 in 1948 to \$1,032,208 in 1949. The exportation of artificial silk dresses dropped from \$719,288 in 1948 to \$117,589 in 1949 and there were large declines in the exports of cotton and woollen clothing. Imports over the two years showed an increase from \$12,485,656 in 1948 to \$14,942,770 in 1949. Knitted garments, n.o.p. increased from \$3,215,568 in 1948 to \$3,809,401 in 1949 and imports of lace, embroideries and bobbinet increased from \$3,565,953 in 1948 to \$4,398,526 a year later. For full details of exports and imports reference should be made to Tables 4 and 5.

1. Since less than three establishments reported children's garments in this classification, it has been necessary to include the figures for Children's with those for Women's and Misses'.

2. Less than three establishments and included with "All other articles of women's and children's wear".

Note: The items of women's wear, etc. enumerated in the above table do not necessarily represent the entire output for the Dominion, as many of them are also manufactured in other industries. For the total Canadian production reference should be made to the Appendix to annual reports on "The Manufacturing Industries of Canada".

Statistics covering materials used are not collected in detail. The total cost is shown by provinces in Table 1.

1. Since less than three establishments reported children's garments in this classification, it has been necessary to include the figures for Children's with those for Women's and Misses'.

2. Less than three establishments included with "All other articles of women's and children's wear".

The items of women's wear, etc. enumerated in the above table do not necessarily represent the entire output for the Dominion, as many of them are also manufactured in other industries. For the Total Canadian production reference should be made to the Appendix to annual reports on "The Manufacturing Industries of Canada".

Statistics covering materials used are not collected in detail. The total cost is shown by provinces in Table 1.

## SECTION II. THE WOMEN'S FACTORY CLOTHING INDUSTRY, 1949

The women's factory clothing industry in 1949 produced goods valued at \$202,412,558. This figure is not comparable with the \$198,825,812 shown in 1948 because firms engaged in embroidering, hemstitching, etc., have been reclassified to the miscellaneous textile goods industry in 1949. When this transfer is taken into account, 1949 production is 5 per cent in excess of output in 1948. There was, despite this increased output, a more selective retail demand for the products of this industry. This accounted for some price reductions in certain lines although there was still a shortage of quality and novelty fabrics. Production was also more difficult because of changing habits of retailers who were placing orders late and requiring early delivery. Moreover, the industry was influenced by adverse weather conditions due in particular to a mild December and January followed by severe spring temperatures.

The women's factory clothing industry in 1949 is composed of five divisions as follows: (1) Women's coats and suits, (2) Women's dresses, (3) Skirts, blouses, slacks and jackets, (4) Other outerwear and (5) Lingerie. Of the \$202,412,558 value of production, \$73,906,935 or 36.5 per cent was accounted for by the division producing dresses and \$62,844,923 or 31 per cent by the division producing coats and suits. The industry was largely concentrated in Montreal, Toronto and Winnipeg with \$125,411,912 or 62 per cent of gross value of production in Montreal.

The 890 establishments reporting in the women's factory clothing industry in 1949 gave employment to 29,129 persons and paid out in salaries and wages the sum of \$55,424,392. The cost of materials used was \$105,156,893. These figures may not be directly compared with 1948 but when allowance is made for the transfer of embroidery and hemstitching, the employment of the industry is found to be up by 7 per cent, salaries and wages to be increased by 11 per cent and the cost of materials to be higher by 6 per cent.

The industry was dominated by 26 establishments, each with a value of production in excess of \$1,000,000 and this group accounted for \$38,261,953 or 19 per cent of total value of production. Of the 890 establishments in the industry, 479 had an output between \$100,000 and \$500,000. There was little seasonal variation in employment and the monthly employment of wage-earners varied from a high of 26,108 in March to a low of 23,379 in July. A large proportion of wage-earners were female who numbered 74 per cent of total wage-earners in 1949.

The industry is largely dependent on the Canadian market with only slightly more than one million dollars worth of exports in 1949, including children's clothing. The chief articles exported consisted of wool and cotton outer garments. The chief imports in 1949 comprised miscellaneous knitted garments, lace and embroideries, wool outer garments and cotton handkerchiefs. For full details of exports and imports reference should be made to Tables 4 and 5.

2. Principal statistics for 1949 are not comparable with 1948 because of the reclassification of "Embroidery, hemstitching, etc." to "Miscellaneous textile goods".

Note: Profits or losses cannot be estimated from Census figures as no data are collected for certain expense items, such as interest, rent, depreciation, taxes, insurance, advertising, etc.

1. Since less than three establishments reported children's garments in this classification, it has been necessary to include the figures for Children's with those for Women's and Misses'.

2. Less than three establishments and included with "All other articles of women's and children's wear".

Note: The items of women's wear, etc. enumerated in the above table do not necessarily represent the entire output for the Dominion, as many of them are also manufactured in other industries. For the Total Canadian production reference should be made to the Appendix to annual reports on "The Manufacturing Industries of Canada".

Statistics covering materials used are not collected in detail. The total cost is shown by provinces in Table 6 and by sections in Table 9.

## SECTION III. THE CHILDREN'S FACTORY CLOTHING INDUSTRY, 1949

The annual output of firms classified under children's factory clothing has grown from \$4,559,651 in 1938 to \$27,893,656 in 1949. The growth in value of output has been both rapid and steady, reaching \$12,757,476 in 1943 and \$20,942,072 in 1946. There was a significant growth between 1948 and 1949. The gross value of production showed a gain of 16 per cent or \$3,904,742 in comparison with the \$23,988,914 shown in 1948. The cost of materials was up from \$12,750,580 in 1948 to \$14,932,211 in 1949, an increase of \$2,181,631 or 17 per cent. Employees reached 5,165 in 1949, a gain of 16 per cent over the 4,448 reported in 1948 and salaries and wages were up by 17 per cent reaching \$7,602,196 in 1949.

Of the 144 establishments in the industry, 90 were in Quebec, 45 in Ontario and 9 in Manitoba. The industry is largely concentrated in three cities. There were 80 establishments in Montreal producing goods to the value of \$18,253,234 or 65

per cent of the total value of the industry. Toronto accounted for \$3,876,695 or 14 per cent of total value of production and Winnipeg produced goods to the value of \$1,623,263 or 6 per cent of total output.

There were five establishments in the industry with a value of production in excess of \$1,000,000 and this group accounted for 22 per cent of total output. There was little seasonal variation in the industry in 1949 and monthly employment of wage-earners reached a maximum in October with 4,790 and a minimum in December with 4,301. Females provided much of the labour in this industry, the proportion of female wage-earners being 80 per cent in 1949.

Canadian trade classifications in general do not separate women's and children's clothing. For the detailed list of imports and exports reference should be made to Tables 4 and 5.

## SECTION IV. WOMEN'S AND CHILDREN'S CLOTHING CONTRACTORS, 1949

In the women's and children's clothing contracting industry, reports were received from 82 contractors and the gross value of work performed reached \$2,702,774. These contractors were mostly established in Quebec and Ontario with three in Manitoba. They employed 1,401 persons who received in salaries and wages the sum of \$1,939,052. The materials used, which are supplied by the contractors themselves, consisting principally of thread, buttons, etc., amounted to \$157,171 in 1949.

Of the total value of work performed, \$2,070,225 or over 76 per cent was accounted for by Montreal and 15 per cent or \$402,522 by Toronto. Montreal accounted for 79 per cent of salaries and wages and 77 per cent of employees. The monthly employment of wage-earners in the industry ranged from a high of 1,359 in March to a low of 1,142 in November. Female labour accounted for 84 per cent of total wage-earners in 1949.
