THE WOMEN'S AND CHILDREN'S FACTORY CLOTHING INDUSTRIES

1950

SECTION I. THE COMBINED WOMEN'S AND CHILDREN'S FACTORY CLOTHING INDUSTRIES, 1950

The present report is divided into four sections as follows:

1. Combined women's and children's factory clothing industries, 2. Women's factory clothing industry, 3. Children's factory clothing industry and 4. Women's and children's factory clothing contractors. The development in these industries for 1950 will be noted in their respective sections and the list of firms in each category follows at the end of the separate sections. The first section provides the overall statistics for the combined women's and children's factory clothing industries.

The gross value of production of the combined women's and children's factory clothing industries fell from \$230,306,214 to \$224,034,855 in 1950, a drop of \$6,271,359 or 2.7 per cent. These industries had enjoyed a high level of prosperity up to the end of 1948. Beginning with the Spring of 1949, however, the situation changed. Various factors have contributed to the trend. The most important cause would appear to be the diversion of Canadian consumer spending toward homes, house furnishings and hard goods. There was an acute shortage of these products during the war and immediately after and as signs of new defence developments appeared in 1950, purchasers were eager to secure products that might soon be unavailable. Other factors such as the increased prices paid for food and shelter, the lifting of import quotas and the increased costs of raw material all played a part.

The value of materials consumed by these industries was down from \$120,089,104 in 1949 to \$118,649,166 in 1950. Employment, however, showed a slight increase from 34,294 to 34,486 over the same period and salaries and wages increased from \$63,026,588 in 1949 to \$64,145,262 in 1950.

In Table 2 will be found a comparison of the principal parts of the women's and children's clothing industries. The gross value of production of women's dresses declined from \$73,906,935 in 1949 to \$73,384,592 in 1950. Women's coats and suits declined from \$62,844,923 in 1949 to \$56,761,155 in the year under review and other women's outerwear and underwear declined from \$65,660,700 to \$64,490,722.

Of the combined industry's output of \$224,034,855 in 1950, \$143,788,481 or 64 per cent was accounted for by Montreal and \$48,727,963 or 22 per cent by Toronto. There were 1,068 establishments in these industries in 1950 of which 1 was in New Brunswick 648 in Quebec, 341 in Ontario, 42 in Manitoba, 4 in Saskatchewan, 6 in Alberta and 26 in British Columbia.

Exports of clothing and furnishings showed a drop from \$1,032,208 in 1949 to \$825,474 in 1950. There was an increase, however, in the exports of women's and children's wool outer garments n.o.p. from \$456,097 in 1949 to \$506,038 in 1950. The exports of dresses of synthetic fibre showed a drop from \$117,589 in 1949 to \$33,196 in the year under review. Imports over the two years showed an increase from \$28,808,179 in 1949 to \$33,233,145 in 1950. The imports of knitted garments n.o.p. showed an increase from \$3,809,401 in 1949 to \$5,177,524 in 1950. The imports of lace and embroideries, cotton, not coloured, for clothing rose from \$1,677,875 in 1949 to \$1,991,707 in the year under review. There was also a large increase in the imports of women's and children's dresses of synthetic fibre from \$735,623 in 1949 to \$1,045,287 in 1950. For full details of exports and imports reference should be made to Tables 4 and 5.

SECTION II. THE WOMEN'S FACTORY CLOTHING INDUSTRY, 1950

The gross value of production of the women's factory clothing industry in 1950 was \$194,636,469, a drop of \$7,776,089 or 3.8 per cent from the \$202,412,558 reported in 1949. Of the five sections comprising the industry three showed decreases while two showed slight increases. Women's coats and suits showed a drop from \$62,844,923 in 1949 to \$56,761,155 in 1950. Women's dresses dropped from \$73,906,935 in 1949 to \$73,384,592 in 1950. The section comprising skirts, blouses, slacks and jackets reported a gain from \$24,293,173 in 1949 to \$24,594,568 in 1950. The section made up of other outerwear also reported a slight increase from \$14,669,691 to \$14,716,768. The section classified as lingerie decreased from \$26,697,836 in 1949 to \$25,179,386 in 1950. Of the total value of production, 38 per cent was accounted for by the division producing dresses and 29 per cent by the division producing coats and suits. The industry as a whole was largely concentrated in Montreal, Toronto and Winnipeg with \$124,033,153 or 64 per cent of the gross value of production in Montreal.

The total gross value of production of the women's factory clothing industry at \$194,636,469 was accompanied by a cost of materials of \$102,712,875. This was 2.3 per cent less than the cost of materials of \$105,156,893 reported in 1949. Employment in the industry in 1950 was 28,981

compared with 29,129 in the previous year but salaries and wages showed an increase from \$55,424,392 in 1949 to \$55,864,122 in the year under review. Of the 914 establishments in the industry in 1950, 524 were located in Montreal, 273 in Toronto, 34 in Winnipeg, 25 in Vancouver and 58 in all other cities.

In 1950 a group of twenty-two establishments, each with a value of production in excess of \$1,000,000, accounted for \$32,175,022 or 17 per cent of total value of production. Of the 914 establishments in the industry, 477 had an output between \$100,000 and \$500,000. There was some seasonal variation in employment and the monthly employment of wage-earners varied from a high of 26,724 in March to a low of 22,536 in July. A large proportion of wage-earners were female who numbered 75 per cent of total wage-earners in 1950.

The industry is largely dependent on the Canadian market with exports valued at only \$825,474 in 1950, including children's clothing. The chief articles exported consisted of wool and cotton outer garments. The chief imports in 1950 comprised miscellaneous knitted garments, lace and embroideries, wool outer garments and cotton handkerchiefs. For full details of exports and imports reference should be made to Tables 4 and 5.

1. Includes "laces, tapes and bindings".

2. Principal statistics for 1949 and 1950 are not comparable with 1948 and earlier years because of the reclassification of "Embroidery, hemstitching, etc." to "Miscellaneous textile goods".

Note. Profits and losses cannot be estimated from Census figures as no data are collected for certain expense items, such as interest, rent, depreciation, taxes, insurance, advertising, etc.

1. Since less than three establishments reported children's garments in this classification, it has been necessary to include the figures for Children's with those for Women's and Misses.

2. Less than three establishments and included with "All other articles of women's and children's wear".

Note: The items of women's wear etc. enumerated in the above table do not necessarily represent the entire output for the Dominion, as many of them are also manufactured in other industries.

For the total Canadian production reference should be made to the Appendix to annual reports on "The Manufacturing Industries of Canada". Statistics covering materials used are not collected in detail. The total cost is shown by Provinces in Table 6.

SECTION III. THE CHILDREN'S FACTORY CLOTHING INDUSTRY, 1950

In contrast to the women's factory clothing industry, the output of the children's factory clothing industry showed an increase in 1950. The gross value of production was up from \$27,893,656 in 1949 to \$29,398,386 in 1950, a gain of \$1,504,730 or over 5 per cent. The rate of growth for the industry, however, was not as rapid as in the past few years. The cost of materials was up by \$1,004,080 from \$14,932,211 in 1949 to \$15,936,291 in 1950, an advance of 6.7 per cent. Employment was up from 5,165 in 1949 to 5,505 in 1950 and salaries and wages advanced from \$7,602,196 to \$8,281,140.

Of the 154 establishments in the industry, 98 were in Quebec, 48 in Ontario and 8 in Manitoba. The industry is largely concentrated in three cities. There were 85 establishments in Montreal producing goods to the value of \$19,755,328 or 67 per cent of the total value of the industry. Toronto accounted

for \$3,802,071 or 13 per cent of total value of production and Winnipeg produced goods to the value of \$1,524,276 or 5 per cent of total output.

There were 4 establishments in the industry with a value of production in excess of \$1,000,000 and this group accounted for 16 per cent of total output or \$4,722,982. There was little seasonal variation in the industry in 1950 and monthly employment of wage-earners reached a maximum in March with 5,137 and a minimum in July with 4,560. Females provide much of the labour in this industry, the proportion of female wage-earners being 82 per cent in 1950.

Canadian trade classifications in general do not separate women's and children's clothing. For a detailed list of imports and exports reference should be made to Tables 4 and 5.
