MEN'S FURNISHING GOODS INDUSTRY IN CANADA, 1929.

Ottawa, January, 1931 - A report is herewith presented on the Men's Furnishing Goods Industry in Canada during the calendar year 1929. There was a slight increase over the previous year in the number of establishments in operation. The number reported for 1929 being 162 located by provinces as follows:- Ontario 56, Quebec 76, Manitoba 12, British Columbia 11, Alberta 2, Nova Scotia 2, and New Brunswick 3. In order not to disclose information concerning the operations of individual establishments, statistics for the last three provinces have been combined and are shown throughout this report as "Other provinces".

Size of Establishments

In view of the present day tendency towards concentration in industrial enterprises, a table is herewith presented showing in a threefold way the size of establishments measured by (a) capital investment, (b) gross value of production and (c) the number of persons employed, within certain groups or limitations for the calendar years 1928 and 1929.

In 1928 the number of establishments reporting was 159 of which 22 had a capital investment of $13,786,436 or 65.4 per cent of the total; 47 had a gross value of production amounting to $23,271,977 or 76.8 per cent of the total and 27 had 6,049 or 61.0 per cent of the total employment.

In 1929 the number of establishments reporting was 162 of which 24 had a capital investment of $12,695,549 or 64.59 per cent of the total; 47 had a gross value of production amounting to $23,208,781 or 75.89 per cent of the total and 26 had $5,984 or 60.51 per cent of the total employment.

Capital Investment

The total capital employed in the industry during the calendar year 1929 is given by provinces in Table 3. The total capitalization fell from $21,064,504 in 1928 to $19,654,505 in 1929, a decrease of $1,409,999. The province of Quebec provided the largest contribution to the total capital investment with $8,421,608 or 42.9 per cent, whilst Ontario supplied $7,789,094 or 39.6 per cent.

Employees, Salaries and Wages

The total number of persons employed in the industry during the calendar year 1929 will be found by provinces in Table 4 by (a) classes of employment, (b) sex and (c) salary and wage payments. The total number of employees in all classes fell from 9,909 in 1928 to 9,890 in 1929, a decrease of 19. In 1928 the salary and wage payments totalled $7,270,875 whilst for 1929 the amount reported was $7,320,145 an increase of $49,270 during the two year period, and equivalent to 0.6 per cent.

Other Employment Statistics.

The number of days the factories were in operation during the calendar year 1929 together with the number of hours per day and per week normally worked by wage earners is given in table 5 (a). The number of wage earners employed during the same period is given by sex and by months in table 5 (b). Employment reached its maximum in April with a total enrollment of 9,192 of whom 1,346 were males and 7,846 were females, whilst the minimum number reported was 8,450 in the month of December of whom 1,295 were males and 7,155 females.

Other Employment Statistics - Con't.

The number and percentage of wage-earners in months of highest employment working specified hours per day is shown in Table 5 (c) for Canada and the provinces. For the Dominion, the number working specified hours was distributed between the classes, the percentage working 8 hours being highest. In Ontario over 51 per cent of the employees worked 8 hours per day, in Quebec 49.62 per cent worked 9 hours whilst in Manitoba 86.75 per cent worked 8 hours. Less than one per cent of the wage-earners in the Dominion worked over 10 hours per day.

The number of hours worked per day in the month of highest employment and the standard working hours per week are shown by provinces in Table 5 (d). It should be noted that whilst the statistics relating to hours of labour in columns 1, 2 and 3 are based on figures compiled for the month of highest employment, those in columns 4 and 5 represent the total and average of standard weekly hours of labour for the number of establishments reporting to the Bureau. For this reason the relation between daily and weekly hours of labour is to some extent impaired. The average daily hours of labour on the above basis was for the Dominion 8.6 whilst the average standard weekly hours worked out at 46.0 per plant.

Materials Used

The total cost of all materials used in the industry during the calendar year 1929 was $17,848,021. Quebec takes first place with a total of $7,683,187. Ontario follows next in order with $6,818,996 with Manitoba in third position with $1,826,871. British Columbia was responsible for $452,205 whilst the remaining 3 provinces together contributed the balance amounting to $1,068,762. For the period covered by this report manufacturers in this particular industry were not required to furnish details as to the quantity and cost of each kind of material used. The increase in cost of materials over the amount expended during 1928 amounted to $526,897.
