# DOMINION BUREAU OF STATISTICS

OTTAWA - CANADA

Dear Sir:

Periodically a review is made of the surveys which are carried out by this Division of the Dominion Bureau of Statistics in relation to the existing requirements of Government and Industry. In this manner we attempt to ensure that the data collected are justified in relation to uses, quality, costs of collection, etc.

The particular survey which we are reviewing at this time is the monthly publication entitled Peeler Logs, Veneers and Plywoods (copy attached) and we would appreciate your comments along the following lines.

1. What use if any is made of the data?
2. If use is made, is the type of data satisfactory or can you suggest items for inclusion or deletion?
3. Would your purposes be served by publishing the data quarterly or semi-annually rather than monthly?

In the past, one of the most common complaints has been the lack of timeliness of the report. As you can appreciate, this is a most difficult problem to overcome due to the respondents not submitting returns at an early date. However, we are continuing to work on this problem and hope that in the future this will improve.

Yours very truly,

H. McLeod, Director,  
Industry and Merchandising Division.
