## PRODUCTION, SHIPMENTS AND STOCKS ON HAND OF SAW MILLS IN BRITISH COLUMBIA

#### Abstract

Production of saw lumber and ties in British Columbia totalled $417,388 \mathrm{Mft}$. in March, 1956 as compared with $413,242 \mathrm{Mft}$. in March, 1955 an increase of 1.0 p.c. over the previous year and an increase of 7.9 p.c. over the previous month. Production of Coast mills, which account for 52.7 p.c. of the total, showed a decrease of 13.2 p.c. from the same month of the previous year, and the Interior mills, which produced the remaining $47.3 \mathrm{p} . \mathrm{c}$. showed an increase of 23.4 p.c. Shipmints in March, 1956 totalled $383,802 \mathrm{Mft}$., as compared with $380,302 \mathrm{Mft}$. the previous year, an increase of 0.9 p.c. with Coast mills registering a decrease of 13.1 p.c. and Interior mills an increase of 27.9 p.c. Total shipments for March increase ed by $8.6 \mathrm{p} . \mathrm{c}$. over the February figure of $353,503 \mathrm{Mft}$. Stocks on hand at the end of March, 1956 amounted to $563,681 \mathrm{M} \mathrm{ft}$., as compared with 566,473 Mft . at the end of March the previous year and $545,214 \mathrm{Mft}$. at the end of February of this year. Coast mills reported stocks totalling $298,687 \mathrm{M} \mathrm{ft}$., while Interior mills showed $264,994 \mathrm{Mft}$.

## Summary Figures

Table l gives a comparative summary of production, shipments and stocks of sown lumber and ties for all British Columbia sawmills for February and March, 1955 and 1956. Details by species are given for production and stocks while shipments are shown by destination. Total production increase ed from $377,361 \mathrm{M} \mathrm{ft}$. in February, 1955 to $413,242 \mathrm{Mft}$. in March, 1955 and from $386,946 \mathrm{Mft}$. in February to $417,388 \mathrm{Mft}$. in March, 1956. Shipments totalled 353,503 M ft. in February, 1956 and $383,802 \mathrm{M} \mathrm{ft}$. in March, 1956 as compared with $380,894 \mathrm{M} \mathrm{ft}$. in February and $380,302 \mathrm{M} \mathrm{ft}$. in March of 1955. Stocks on hand at sawmills increase ed from 516, 015 Mft . in February, 1955 to $566,473 \mathrm{Mft}$. in March and increased from 545, 214 M ft . in February, 1956 to $563,681 \mathrm{Mft}$. in March of this year.

## Production

Table 2 gives particulars of lumber and tie production for Coast mills and Interior mills separately, and also shows separately the production of lumber and ties, by species. Production of saw lumber in Coast mills amounted to 217,780 M ft. in March, 1956 as compared with $194,817 \mathrm{Mft}$. reported by Interior mills. Sawn tie production of Coast mills was $2,015 \mathrm{Mft}$. in March as compared with $2,776 \mathrm{M} \mathrm{ft}$. for Interior mills. Coast mills accounted for $52.7 \mathrm{p} . \mathrm{c}$. of the total production of sawn lumber and ties in March, 1956 as compared with 61.2 p.c. the previous year. The percentages of Coast mills during February, 1956 and 1955 respectively, were 56.2 and 60.1 pic.

Prepared in the Forestry Section, Industry and Merchandising Division

## Shipments

Table 3 gives details of lumber and tie shipments, by months, for Coast mills and Interior mills separately. Shipments by truck, by rail and waterborne are shown for each-Canadian province, to points in the United States, to the United Kingdom and to other countries, for all mills reporting. Total estimated shipments of non-reporting mills are also given. It is to be noted, however, that some lumber originally reported as having been shipped to points in British Columbia may have been re-shipped to other provinces or exported by the purchasers and reported by them also, thereby causing a certain amount of duplication.

Shipments of Coast mills amounted to $217,577 \mathrm{M} \mathrm{ft}$. in March of 1956 and 200,233 M ft. in February, 1956 as compared with $250,319 \mathrm{Mft}$. in March, 1955 and $220,261 \mathrm{M} \mathrm{ft}$. in the previous month, while the Interior mills shipped $166,225 \mathrm{M} \mathrm{ft}$. and $129,983 \mathrm{Mft}$. in March, 1956 and 1955 and $153,270 \mathrm{M} \mathrm{ft}$. and $160,633 \mathrm{M} \mathrm{ft}$. in February, 1956 and 1955. Of all shipments actually reported for March, 41.4 p.c. went to points in Canada, 38.5 p.c. to points in United States, 10.9 p.c. to the United Kingdom and 9.2 p.c. to other countries. Waterborne shipments accounted for 28.8 p.c. of the total, while 45.7 p.c. went by rail, and 25.5 p.c. by truck.

## Stocks

Table 4 gives particulars of stocks of lumber and ties at sawmills by months. It distinguishes between stocks sold but not shipped and stocks unsold, and between stocks at Coast and Interior mills, by species. Total stocks at Coast mills in February and March, 1956 amounted to $299,100 \mathrm{M} \mathrm{ft}$. and $298,687 \mathrm{M} \mathrm{ft}$. as compared with $309,982 \mathrm{Mft}$. and $317,727 \mathrm{M} \mathrm{ft}$. in February and March of 1955 . Interior mills stocks increased from 206,033 M ft. in February to $248,746 \mathrm{Mft}$. in March, 1955 and increased from 246, 114 M ft . in February to 264,994 M ft. in March, 1956. Unsold stocks accounted for approximately $30.0 \mathrm{p} . \mathrm{c}$. of the total in March, 1956 as compared with 27.8 p.c. in March, 1955 for Coast mills, while for the Interior mills the percentages were, respectively, 88.8 and 80.8 .

## Orders on Hand

Table 5 shows the distribution of orders on hand at the end of the months of February and March, 1955 and 1956 for Coast mills only. Similar information is not collected from Interior mills and no attempt has been made to estimate orders on hand of non-reporting mills on the Coast. Destination and mode of shipments are shown in this table, which also gives total lumber purchases reported by some mills. Total orders on hand at the end of March, 1956 amounted to $339,806 \mathrm{M} \mathrm{ft}$. as compared with $371,061 \mathrm{M} \mathrm{ft}$. in March, 1955. Orders on hand at the end of February, 1956 and 1955 amounted to $337,806 \mathrm{Mft}$. and $394,613 \mathrm{Mft}$, respectively. Purchases of lumber from other mills amounted to $5,197 \mathrm{Mft}$. in March, 1956 and $6,590 \mathrm{M} \mathrm{ft}$. in March, 1955 as compared with $5,661 \mathrm{M} \mathrm{ft}$. in February, 1956 and 5,189 Mft. in February, 1955.

Active Mills Reporting
Table 6 gives the number of active mills reporting each month for the Coast and Interior of British Columbia. The mills reporting for March accounted for 79.5 p.c. of the total production on the basis of the annual returns from 1954 compared with 78.2 p.c. for the previous year. The percentages for February, 1955 and 1956 were 79.4 and 80.5 respectively. It is hoped that the compilation will eventually include all mills in the 500,000 feet and over classification.

The co-operation of the British Columbia Lumber Manufacturers' Association, Interior Lumber Manufacturers' Association and Northern Interior Lumbermen's Association in the collection of these statistics is gratefully acknowledged.
