PRODUCTION, SHIPMENTS AND STOCKS ON HAND OF SAWMILLS
IN BRITISH COLUMBIA

Production of sawn lumber and ties in British Columbia totalled 430,839 M ft. in June, 1958 as compared with 401,142 M ft. in June, 1957 an increase of 7.4 p.c. over the previous year and an increase of 7.0 p.c. over the previous month. Production of Coast mills, which accounts for 51.6 p.c. of the total, showed an increase of 14.1 p.c. over the same month of the previous year, and the Interior mills, which produced the remaining 48.4 p.c. showed an increase of 1.1 p.c. Shipments in June, 1958 totalled 461,767 M ft. as compared with 460,381 M ft. the previous year, an increase of 0.3 p.c. with Coast mills registering a decrease of 3.9 p.c. but Interior mills an increase of 5.6 p.c. Total shipments for June increased by 13.4 p.c. over the May figure of 407,255 M ft. Stocks on hand at the end of June, 1958 amounted to 547,149 M ft., as compared with 524,310 M ft. at the end of June the previous year and 552,087 M ft. at the end of May of this year. Coast mills reported stocks totalling 276,372 M ft., while Interior mills showed 270,777 M ft.

Summary Figures

Table 1 gives a comparative summary of production, shipments and stocks of sawn lumber and ties for all British Columbia sawmills for May and June, 1957 and 1958. Details by species are given for production and stocks while shipments are shown by destination. Total production increased from 374,277 M ft. in May, 1957 to 401,142 M ft. in June, 1957 and from 402,602 M ft. in May, 1958 to 430,839 M ft. in June, 1958. Shipments totalled 407,255 M ft. in May, 1958 and 461,767 M ft. in June, 1958 as compared with 440,371 M ft. in May and 460,381 M ft. in June of 1957. Stocks on hand at sawmills decreased from 593,689 M ft. in May, 1957 to 524,310 M ft. in June and decreased from 552,087 M ft. in May, 1958 to 547,149 M ft. in June of this year.

Production

Table 2 gives particulars of lumber and tie production for Coast mills and Interior mills separately, and also shows separately the production of lumber and ties, by species. Production of sawn lumber in Coast mills amounted to 220,272 M ft. in June, 1958, as compared with 206,072 M ft. reported by Interior mills. Sawn tie production of Coast mills was 2,058 M ft. in June as compared with 2,437 M ft. for Interior mills. Coast mills accounted for 51.6 p.c. of the total production of sawn lumber and ties in June, 1958 as compared with 48.6 p.c. the previous year. The percentages of Coast mills during May, 1958 and 1957 respectively, were 57.3 and 55.0 p.c.

Prepared in the Forestry Section, Industry and Merchandising Division.

6504-509-68

Shipments

Table 3 gives details of lumber and tie shipments, by months, for Coast mills and Interior mills separately. Shipments by truck, by rail and waterborne are shown for each Canadian province, to points in the United States, to the United Kingdom and to other countries, for all mills reporting. Total estimated shipments of non-reporting mills are also given. It is to be noted, however, that some lumber originally reported as having been shipped to points in British Columbia may have been re-shipped to other provinces or exported by the purchasers and reported by them also, thereby causing a certain amount of duplication.

Shipments of Coast mills amounted to 245,954 M ft. in June of 1958 and 226,258 M ft. in May, 1958 as compared with 255,926 M ft. in June, 1957 and 242,630 M ft. in the previous month, while the Interior mills shipped 215,813 M ft. and 204,455 M ft. in June, 1958 and 1957 and 180,997 M ft. and 197,741 M ft. in May, 1958 and 1957. Of all shipments actually reported for June, 44.0 p.c. went to points in Canada, 39.4 p.c. to points in United States, 8.4 p.c. to the United Kingdom and 8.2 p.c. to other countries. Waterborne shipments accounted for 29.1 p.c. of the total, while 44.1 p.c. went by rail, and 26.8 p.c. by truck.

Stocks

Table 4 gives particulars of stocks of lumber and ties at sawmills by months. It distinguishes between stocks sold but not shipped and stocks unsold, and between stocks at Coast and Interior mills, by species. Total stocks at Coast mills in May and June, 1958 amounted to 291,626 M ft. and 276,372 M ft. as compared with 268,933 M ft. and 226,953 M ft. in May and June of 1957. Interior mills stocks decreased from 324,726 M ft. in May to 297,357 M ft. in June, 1957 but increased from 260,461 M ft. in May to 270,777 M ft. in June, 1958. Unsold stocks accounted for approximately 37.1 p.c. of the total in June, 1958 as compared with 39.3 p.c. in June, 1957 for Coast mills, while for the Interior mills the percentages were, respectively, 90.1 and 92.9.

Orders on Hand

Table 5 shows the distribution of orders on hand at the end of the months of May and June, 1957 and 1958 for Coast mills only. Similar information is not collected from Interior mills and no attempt has been made to estimate orders on hand of non-reporting mills on the Coast. Destination and mode of shipments are shown in this table, which also gives total lumber purchases reported by some mills. Total orders on hand at the end of June, 1958 amounted to 260,669 M ft. as compared with 220,226 M ft. in June, 1957. Orders on hand at the end of May, 1958 and 1957 amounted to 249,603 M ft. and 256,923 M ft., respectively. Purchases of lumber from other mills amounted to 10,775 M ft. in June, 1958 and 10,750 M ft. in June, 1957 as compared with 8,894 M ft. in May, 1958 and 10,280 M ft. in May, 1957.

Active Mills Reporting

Table 6 gives the number of active mills reporting each month for the Coast and Interior of British Columbia. The mills reporting for June accounted for 80.5 p.c. of the total production on the basis of the annual returns from 1956 compared with 79.0 p.c. for the previous year. The percentages for May, 1957 and 1958 were 77.9 and 80.7 respectively. It is hoped that the compilation will eventually include all mills in the 500,000 feet and over classification.

The co-operation of the British Columbia Lumber Manufacturers' Association, Interior Lumber Manufacturers' Association and Northern Interior Lumbermen's Association in the collection of these statistics is gratefully acknowledged.
