# PRODUCTION，SHIPMENTS AND STOCKS ON HAND OF SAWMILLS IN BRITISH COLUMBIA 

March， 1948

Production of sown lumber and ties in British Columbia totalled 228，256 Mft 。 in March， 1948 ，as compared with $200,500 \mathrm{Mft}$ 。 in March， 1947 ，an increase of $13.8 \mathrm{p} . \mathrm{c}$ 。 over the previous year and an increase of 8.5 poco．over the previous month．Produce－ tin of Coast mills，which account for $77.5 \mathrm{p} . \mathrm{c}$ ．of the total，showed an increase of 7.6 pec．over the same month the previous year，and the Interior mills，which produced the remaining $22_{0} 5 p_{0} c_{0}$ ，showed an increase of $42.4 p_{0} c_{0}$ Shipments in March， 1948 totalled $229,727 \mathrm{M} \mathrm{ft}$ 。，as compared with $228,877 \mathrm{M} \mathrm{ft}$ 。 the previous year，an increase of 0.4 poco．，with Coast mills registering a decrease of $6.6 p_{\circ} c_{0}$ ，and Interior mills an increase of 33.7 poco．Total shipments for March increased by 7.3 poco．over the February figure of $214,183 \mathrm{M} \mathrm{ft}$ ．Stocks on hand at the end of March， 1948 amounted to $276,031 \mathrm{M} \mathrm{ft}$ ．as compared with $209,763 \mathrm{M} \mathrm{ft}$ 。 the previous year and $255,573 \mathrm{~m} \mathrm{ft}$ 。 at the end of February of this year．Coast mills reported stocks totalling $197,671 \mathrm{M} \mathrm{ft.0}$ while Interior mills showed $78,360 \mathrm{M} \mathrm{ft}$ 。

## Summary Figures

Table 1 gives a comparative summary of production，shipments and stocks of saw lumber and ties for all British Columbia sawmills for March， 1947 and 1948，and Febru＊ ary， 1947 and 1948．Details by species are given for production and stocks，while shipments are shown by destination．Total production increased from $189,312 \mathrm{M} \mathrm{ft}$ 。 in February to $200,500 \mathrm{M} \mathrm{ft}$ ．in March of 1947 and from $210,468 \mathrm{M} \mathrm{ft}$ ．in February， 1948 to $228,256 \mathrm{M} \mathrm{ft}$ ．in March．Shipments totalled $214,183 \mathrm{M} \mathrm{ft}$ 。 in February and $229,727 \mathrm{M} \mathrm{ft}$ in March of this year as compared with $193,325 \mathrm{M} \mathrm{Pt}$ 。 and $228,877 \mathrm{M} \mathrm{ft}$ 。 during the cor－ responding months last year．Stocks on hand at sawmills decreased from $230,700 \mathrm{M} \mathrm{ft}$ ． in February， 1947 to $209,763 \mathrm{M} \mathrm{ft}$ 。 in March，but increased to 255，573 M ft．in Febru－ ary， 1948 and to 276，031 M ft．in March．

## Production

Table 2 gives particulars of lumber and tie production for Coast mills and In－ terior mills separately，and also shows separately the production of lumber and ties， by species．Production of saw lumber in Coast mills amounted to $168,678 \mathrm{~m} \mathrm{ft}$ ．in March，as compared with $47,352 \mathrm{M} \mathrm{ft}$ ．，reported by Interior mills．Sown tie production of Coast mills was $8,235 \mathrm{M} \mathrm{ft}$ 。 in March，as compared with $3,991 \mathrm{M} \mathrm{ft}$ ．for Interior mills．Coast mills accounted for $77.5 \mathrm{p} . \mathrm{c}$ ．of the total production of sam lumber and ties in March， 1948 ，as compared with 82.0 pec．the previous year．The percentages for Coast Mills during February， 1948 and 1947，respectively，were $79.8 \mathrm{p}, \mathrm{c}$ ．and 81.4 pec．

## Shipments

Table 3 glves details of lumber and tie shipments，by months，for Coast mills and Interior mills separately．Shipments by truck，by rail and waterbome are shown for each Canadian province，to points in the United States，to the United Kingdom and to other countries，for all mills reporting．rotal estimated shipments of non－repoxt－ ing mills are also given．It is to be noted，however，that some lumber originally reported as having been shipped to points in British Columbia may have been reshipped to other provinces or exported by the purchasers and reported by them also，thereby causing a certain amount of duplication．

Shipments of Coast mills amounted to $177,008 \mathrm{M} \mathrm{ft} .\mathrm{in} \mathrm{March}$,1948 and 166,358 M ft。in February as compared with $189,447 \mathrm{M}$ ft．and $154,874 \mathrm{M} \mathrm{ft}$ in the corres－ ponding months of the previous year，while the Interior mills shipped $58,719 \mathrm{M} \mathrm{ft}$ ．， and $47,825 \mathrm{M} \mathrm{ft}$ 。in 1948 ，and $39,430 \mathrm{M} \mathrm{ft}$ ，and $38,451 \mathrm{M} \mathrm{ft}$ 。during the corresponding months of the previous year．of all shipments actually reported for March， 52.1 poc． went to points in Canada， 25.6 poc．to polnts in the United itates， 14.8 p．c．to the United kingdom，and 6.8 p 。 $\mathrm{c}_{\text {。 to other countries．Shipments to unspecified destina }}$ ations accounted for the remainder（ $0.7 \rho_{0} c_{0}$ ）。 Waterbome shipments accounted for 28.4 poc．of the total，while 47.4 poc．went by rail，about 23,5 poc．by truck and 0.7 poc．by unspecified carriers．

## St ock

Table 4 gives particulars of stocks of lumber and ties at sawmills，by months． It distinguishes between stocks sold but not shipped and stocks unsold，and between stocks at Coast and Interior mills，by species．Total stocks at Coast mills，in February and March of this year amounted to $184,981 \mathrm{M} \mathrm{ft}$ ，and $197,671 \mathrm{M}$ fto，as com－ pared with $176,600 \mathrm{Mft}$ 。and $157,516 \mathrm{M} \mathrm{ft}$ 。 in February，and March of 1947。 Interior mills stocks decreased from 54.100 M ft 。in February． 1947 to $52,247 \mathrm{M} \mathrm{ft}$ ．in March， 1947，but increased from $70,592 \mathrm{Mft}$ 。in February， 1948 to $78,360 \mathrm{M} \mathrm{ft}$ 。in March． 1948．Unsold stocks accounted for approximately 32.9 poco of the total in March， 1948，as compared with 24.2 poc。in March， 1947 for Cosst mills，while for the Inter－ ior mills the percentages were respectively， 82.1 and 66,4 ．

Orders on Hand
Table 5 shows the distribution of orders on hand at the end of the months of February and March． 1947 and 1948．for Coast mills only．Similar information is not collected from Interior mills and no attempt has been made to estimate orders on hand of non－reporting mills on the Coast．Destination and mode of shipments are shown in this table，which also gives total lumber purchases reported by some mills．Total orders on hand at the end of March 1948 ，amounted to $536,190 \mathrm{M}$ ft as compared with $524,905 \mathrm{M}$ ft．in March，194？．Orders on hand at the end of Fabruary， 1948 and 1947, amounted to $529,149 \mathrm{M} \mathrm{ft}$ 。and $466,724 \mathrm{M} \mathrm{ft}$ 。respectively．Purchases of lumber from other mills amounted to $7,359 \mathrm{M} \mathrm{ft}$ 。in March， $1947,5,417 \mathrm{M} \mathrm{ft}$ 。in March， 1948 ，as compared with 4 ， 968 M ft。in February， 1947 ，and 4.791 M ft 。in February， 1948 。

## Active Mills Reporting

Table 6 gives the number of active mills reporting each month，for the Coast and Interior of British Columbia．The mills reporting for March accounted for 88.2 poc．of the total production on the besis of the annual returns from 1945，compared with 89.4 p．c．for the previous year．The percentages for February 1947 and 1948 were 90.4 and 89.1 p．c．，respectively．It is hoped that the compilation will even－ tually include all mills in the 500,000 feet and over classification．

The co－operetion of the British Columbia Lumber Manufacturers Association Western Lumber Manufacturers Association of Canada．Interior Lumber Manufaca turers＂Association and Northern Interior Lumbermen ${ }^{\circ}$ s Association in the collection of these atatistics is gratefully acknowledged．
