

## PRODUCTION, SHIPMENTS AND STOCKS ON HAND OF SAWMILLS IN BRITISH COLUMBIA

DECEMBER, 1950.
Production of sawn lumber and ties in British Columbia totalled $270,307 \mathrm{M} \mathrm{ft}$ in December 1950 as compared with $217,368 \mathrm{M} \mathrm{ft}$. in December 1949 an increase of 24.4 p.c. over the previous year but a decrease of 15.5 p.c. from the previous month. Production of Coast mills, which account for 74.1 p.c. of the total, showed an increase of 23.5 p.c. over the same month of the previous year, and the Interior mills, which produced the remaining 25.9 p . c. showed an increase of $79.5 \mathrm{p} . \mathrm{c}$. Shipments in December 1950 totalled $250,613 \mathrm{Mft}$., as compared with $195,325 \mathrm{Mft}$ the previous year, an increase of $28.3 \mathrm{p} . \mathrm{c}$. with Coast mills registering an increase of 17.3 p.c. and Interior mills an increase of 91.0 p.c. Total shipments for December decreased by 6.1 p.c. from the November figure of $266,755 \mathrm{M} \mathrm{ft}$. Stocks on hand at the end of December 1950 amounted to $410,493 \mathrm{M} \mathrm{ft}$, as compared with $362,874 \mathrm{M}$ ft . at the end of December the previous year and $363,334 \mathrm{M} \mathrm{ft}$. at the end of November of this year. Coast mills reported stocks totalling $274,344 \mathrm{M} \mathrm{ft}$., while Interiormills showed $136,149 \mathrm{Mft}$.

## Summary Figures

Table 1 gives a comparative summary of production, shipments and stocks of sawn lumber and ties for all British Columbia sawmills for November and December 1949 and 1950. Details by species are given for production and stocks while shipments are shown by destination. Total production decreased from $264,344 \mathrm{Mft}$. in November 1949 to 217, 368 Mft . in December 1949 and from $319,823 \mathrm{Mft}$. in November to $270,307 \mathrm{M} \mathrm{ft}$. in December 1950. Shipments totalled $266,755 \mathrm{Mft}$. in November 1950 and $250,613 \mathrm{M} \mathrm{ft}$. in December 1950 as compared with $231,862 \mathrm{M} \mathrm{ft}$. in November and $195,325 \mathrm{M} \mathrm{ft}$. in December of 1949. Stocks on hand at sawmills increased from $355,320 \mathrm{M} \mathrm{ft}$. in November 1949 to $362,874 \mathrm{M} \mathrm{ft}$. in December and increased from $363,334 \mathrm{Mft}$. in November 1950 to $410,493 \mathrm{Mft}$ in December of this year.

## Production

Table 2 gives particulars of lumber and tie production for Coast mills and Interior mills separately, and also shows separately the production of lumber and ties, by species. Production of sawn lumber in Coast mills amounted to 197,237 $\mathrm{M} \mathrm{ft}_{\text {. in }}$ December 1950 as compared with $66,932 \mathrm{M} \mathrm{ft} .\mathrm{reported} \mathrm{by} \mathrm{Interior} \mathrm{mills}$. Sawn tie production of Coast mills was $2,984 \mathrm{Mft}$. in December as compared with $3,154 \mathrm{Mft}$ for Interior mills. Coast mills accounted for $74.1 \mathrm{p} . \mathrm{c}$. of the total production of sawn lumber and ties in December 1950 as compared with 82.0 p.c. the previous year. The percentages of Coast mills during November 1950 and 1949 respectively, were 79.4 and 77.2 p.c.

[^0]
## Shipments

Table 3 gives details of lumber and tie shipments, by months, for Coast mills and Interior mills separately. Shipments by truck, by rail and waterborne are shown for each Canadian province, to points in the United States, to the United Kingdom and to other countries, for all mills reporting. Total estimated shipments of non-reporting mills are also given. It is to be noted, however, that some lumber originally reported as having been shipped to points in British Columbia may have been re-shipped to other provinces or exported by the purchasers and reported by them also, thereby causing a certain amount of duplication.

Shipments of Coast mills amounted to $194,762 \mathrm{Mft}$. in December of 1950 and 220,063 M ft . in November 1950 as compared with 166,082 M ft . in December 1949 and 192,008 M ft . in the previous month, while the Interior mills shipped $55,851 \mathrm{M} \mathrm{ft}$. and 29,243 Nft . in December 1950 and 1949 and $46,692 \mathrm{~N} \mathrm{ft}$, and $39,854 \mathrm{M} \mathrm{ft}$. in November 1950 and 1949. Of all shipments actually reported for December, 30.3 p.c. went to points in Canada, 28.6 p.c. to points in United States, 25.7 p.c. to the United Kingdom and $15.4 \mathrm{p}, \mathrm{c}$. to other countries. Waterborne shipments accounted for $49.6 \mathrm{p} . \mathrm{c}$. of the total, while 35.3 p.c. went by rail, and 15.1 p.c. by truck.

## Stocks

Table 4 gives particulars of stocks of lumber and ties at sawmills by months. It distinguishes between stocks sold but not shipped and stocks unsold, and between stocks at Coast and Interior mills, by species. Total stocks at Coast mills in November and December 1950 amounted to $266,081 \mathrm{Mft}$, and $274,344 \mathrm{Mft}$. as compared with $232,375 \mathrm{M} \mathrm{ft}$. and $245,116 \mathrm{M} \mathrm{ft}$. in November and December of 1949. Interior mills stocks decreased from $122,945 \mathrm{Mft}$ 。in November to $117,758 \mathrm{Mft}$. in December 1949 but increased from $97,253 \mathrm{M} \mathrm{ft}$. in November to $136,149 \mathrm{Mft}$. in December 1950. Unsold stocks accounted for approximately 28.8 p.c. of the total in December 1950 as compared with 37.1 p.c. in December 1949 for Coast mills, while for the Interior mills the percentages were, respectively, 82.9 and 83.2 .

## Orders on Hand

Table 5 shows the distribution of orders on hand at the end of the months of November and Decernber 1949 and 1950 for Coast mills only. Similar information is not collected from Interior mills and no attempt has been made to estimate orders on hand of non-reporting mills on the Coast. Destination and mode of shipments are shown in this table, which also gives total lumber purchases reported by some mills. Total orders on hand at the end of December 1950 amounted to $588,951 \mathrm{M} \mathrm{ft}$. as compared with $298,739 \mathrm{Mft}$. in December 1949. Orders on hand at the end of November 1950 and 1949 amounted to $636,045 \mathrm{Mft}$. and $292,952 \mathrm{Mft}$., respectively. Purchases of lumber from other mills amounted to $7,362 \mathrm{M} \mathrm{ft}$. in December 1950 and $8,630 \mathrm{Mft}$. in December 1949 as compared with $8,262 \mathrm{Mft}$. in November 1950 and $11,139 \mathrm{M}$ ft. in November 1949.

Active Mills Reporting
Table 6 gives the number of active mills reporting each month for the Coast and Interior of British Columbia. The mills reporting for December accounted for $83.2 \mathrm{p} . \mathrm{c}$. of the total production on the basis of the annual returns from $1948 \mathrm{com}-$ pared with 84. 1 p.c. for the previous year. The percentages for November 1949 and 1950 were 80.5 and 82.8 respectively. It is hoped that the compilation will eventually include all mills in the 500,000 feet and over classification.

The co-operation of the British Columbia Lumber Manufacturers' Association, Interior Lumber Manufacturers' Association and Northern Interior Lumbermen's Association in the collection of these statistics is gratefully acknowledged.
