PRODUCTION, SHIPMENTS AND STOCKS ON HAND OF SAWMILLS
IN BRITISH COLUMBIA
AUGUST, 1950

Production of awn lumber and ties in British Columbia totalled 349,727 M ft. in August 1950 as compared with $279,794 \mathrm{M}$ ft. in August 1949 , an increase of 25.0 pec. over the previous year and an increase of $16.4 \mathrm{p} \cdot \mathrm{c}$. over the previous month. Production of Coast mills, which account for $69.0 \mathrm{p} . \mathrm{c}$. of the total, showed an increase of $21.7 \mathrm{p} . \mathrm{c}$. over the same month of the previous year, and the Interior mills, which produced the remaining 31.0 p.c. showed an increase of 33.0 p.c. Shipments in August 1950 totalled $316,049 \mathrm{Mft}$, as compared with $265,699 \mathrm{Mft}$ the previous year, an increase of 19.0 pec. with Coast mills registering an increase of $12.3 \mathrm{p} . \mathrm{c}$. . and Interior mills an increase of $43.6 \mathrm{p} . \mathrm{c}$. Total shipments for August increased by 16.8 p.c. over the July figure of $270,705 \mathrm{Mft}$. Stocks on hand at the end of August 1950 amounted to $346,609 \mathrm{M} \mathrm{ft}$, as compared with $373,901 \mathrm{M} \mathrm{ft}$. at the end of August the previous year and 317.073 Mft at the end of July of this year. Coast mills reported stocks totalling $228,293 \mathrm{M} \mathrm{ft}$, while Interior mills showed 118,316 Mf t.

Summary Figures
Table 1 gives a comparative summary of production, shipments and stocks of sawn lumber and ties for all British Columbia sawmills for July and August 1949 and 1950. Details by species are given for production and stocks, while shipments are shown by destination. Total production increased from $227,966 \mathrm{Mft}$ in July 1949 to $279,794 \mathrm{M} \mathrm{ft}$. in August 1949 and from $300,378 \mathrm{M} \mathrm{ft}$. in July to $349,727 \mathrm{M}$ ft in August 1950. Shipments totalled $270,705 \mathrm{M}$ ft. in July 1950 and $316,049 \mathrm{M}$ ft . in August 1950 as compared with $198,236 \mathrm{M} \mathrm{ft}$. in July and $265,699 \mathrm{Mft}$. in August of 1949. Stocks on hand at sawmills increased from $372,429 \mathrm{Mft}$ in July 1949 to $373,901 \mathrm{M} \mathrm{ft}$. in August and increased from 317,073 Mit. in July 1950 to $346,609 \mathrm{Mft}$ in August of this year.

Production
Table 2 gives particulars of lumber and tie production for Coast mills and Interior mills separately, and also shows separately the production of lumber and ties, by species. Production of saw lumber in Coast mills amounted to 239,535 Mit. in August 1950 as compared with $105,743 \mathrm{Mft}$. reported by Interior mills. Saw tie production Coast mills was $1,604 \mathrm{M} \mathrm{ft}$. in August as compared with $2,845 \mathrm{M}$ ft for Interior mills. Coast mills accounted for 69.0 p.c. of the total production of sown lumber and ties in August 1950 as compared with 70.8 pec. the previous year. The percentages of Coast mills during July 1950 and 1949 respectively, were 65.8 and 66.2 pec.

## Shipments

Table 3 gives details of lumber and tie shipments, by months, for Coast mills and Interior mills separately. Shipments by truck, by rail and waterborne are shown for each Canadian province, to points in the United States, to the United Kingdom and to other countries, for all mills reporting. Total estimated shipments of non-reporting mills are also given, It is to be noted, however, that some lumber originally reported as having been shipped to points in British Columbia may have been re-shipped to other provinces or exported by the purchasers and reported by them also, thereby causing a certain amount of duplication.

Shipments of Coast mills amounted to $234,702 \mathrm{M} \mathrm{ft}$, in August of 1950 and 188,503 Mft . in July 1950 as compared with $209,031 \mathrm{Mft}$. in August 1949 and $143,124 \mathrm{M} \mathrm{ft}$. in the previous month, while the Interior mills shipped $81,347 \mathrm{Mft}$. and $56,668 \mathrm{M} \mathrm{ft}$. in August 1950 , and 1949 and $82,202 \mathrm{M} \mathrm{ft}$, and $55,112 \mathrm{M} \mathrm{ft}$. in July 1950 and 1949. Of all shipments actually reported for August, 31.1 p.c. went to points in Canada, 52.5 p.c. to points in United States, 7.0 p.c. to the United Kingdom and 9.4 p.c. to other countries. Waterborne shipments accounted for $45.2 \mathrm{p}, \mathrm{c}$, of the total, while $38.0 \mathrm{p}, \mathrm{c}$. went by rail, and 16.8 p,c, by truck.

## Stocks

Table 4 gives particulars of stocks of lumber and ties at sawmills by months. It distinguishes between stocks sold but not shipped and stocks unsold, and between stocks at Coast and Interior mills, by species. Total stocks at Coast mills in July and August 1950 amounted to $224,615 \mathrm{Mft}$. and $228,293 \mathrm{Mft}$. as compared with 239,156 Mft . and $228,358 \mathrm{Mft}$. in July and August of 1949. Interior mills stocks increased from $133,273 \mathrm{Mft}$. in July to $145,543 \mathrm{Mft}$. in August 1949 and increased from 92,458 M ft 。 in July to $118,316 \mathrm{M} \mathrm{ft}$ 。 in August 1950. Unsold stocks accounted for approximately $31.8 \mathrm{p} . \mathrm{c}$, of the total ir. August 1950, as compared with $36.3 \mathrm{p} . \mathrm{c}$. in August 1949 for Coast mills, while for the Interior mills the percentages were, respectively, 73.8 and 80.3.

## Orders on Hand

Table 5 shows the distribution of orders on hand at the end of the months of July and August 1949 and 1950, for Coast mills only. Similar information is not collected from Interior mills and no attempt has been made to estimate orders on hand of non-reporting mills on the Coast. Destination and mode of shipments are shown in this table, which also gives total lumber purchases reported by some mills. Total orders on hand at the end of August 1950 , amounted to $471,612 \mathrm{Mft}$. as compared with $222,764 \mathrm{Mft}$. in August 1949. Orders on hand at the end of July 1950 and 1949 , amounted to $420,006 \mathrm{Mft}$. and $234,847 \mathrm{Mft}$, respectively. Purchases of lumber from other mills amounted to $10,010 \mathrm{M} \mathrm{ft}^{2}$. in August 1950 and $10,517 \mathrm{M} \mathrm{ft}$. in August 1949 as compared with $9,452 \mathrm{Mft}$. in July 1950 and $10,436 \mathrm{M} \mathrm{ft}$. in July 1949.

## Active Mills Reporting

Table 6 gives the number of active mills reporting each month for the Coast and Interior of British Columbia. The mills reporting for August accounted for 76.3 p.c. of the total production on the basis of the annual returns from 1948 compared with 76.2 p.c. for the previous year. The percentages for July 1949 and 1950 were 74.9 and 77.2 , respectively. It is hoped that the compilation will eventually include all mills in the 500,000 feet and over classification.

The co-operation of the British Columbia Lumber Manufacturers' Association, Interior Lumber Manufacturers' Association and Northern Interior Lumbermen's Association in the collection of these statistics is gratefully acknowledged.
