# PRODUCTION, SHIPMENTS AND STOCKS ON HAND OF SAWMILLS IN BRITISH COLUMBIA 

$$
\text { JUNE, } 1951
$$

Production of saw lumber and ties in British Columbia totalled 339,809 M ft . in June 1951 as compared with $312,514 \mathrm{M} \mathrm{ft}$. in June 1950 an increase of 8.8 p.c. over the previous year and an increase of 6.4 p.c. over the previous month. Production of Coast mills, which account for $68.0 \mathrm{p} . \mathrm{c}$. of the total, showed an increase of $0.8 \mathrm{p} . \mathrm{c}$. over the same month of the previous year, and the Anteriot mills, which produced the remaining 32.0 p.c. showed an increase of 30.6 pec. Shipments in June 1951 totalled $304,224 \mathrm{M} \mathrm{ft}$., as compared with $330,463 \mathrm{M} \mathrm{ft}$. the previous year, a decrease of 7.9 p.c. with Coast mills registering a decrease of 9.8 pec. and Interior mills a decrease of 2.4 pec. Total shipments for June increased by $4.3 \mathrm{p} . \mathrm{c}$. over the May figure of $291,762 \mathrm{Mft}$. Stocks on hand at the end of June 1951 amounted to $410,699 \mathrm{M} \mathrm{ft}$., as compared with $322,069 \mathrm{M} \mathrm{ft}$. at the end of June the previous year and $407,056 \mathrm{M} \mathrm{ft}$. at the end of May of this year. Coast mills reported stocks totalling $269,481 \mathrm{M}$ ft., while Interior mills showed $141,218 \mathrm{Mft}$.

## Summary Figures

Table 1 gives a comparative summary of production, shipments and stocks of saw lumber and ties for all British Columbia sawmills for May and June 1950 and 1951. Details by species are given for production and stocks while shipments are shown by destination. Total production increased from $291,004 \mathrm{M} \mathrm{ft}$. in May 1950 to $312,514 \mathrm{M} \mathrm{ft}$. in June 1950 and from $320,271 \mathrm{M} \mathrm{ft}$. in May to 339,809 M ft. in June 1951. Shipments totalled $291,762 \mathrm{M} \mathrm{ft}$. in May 1951 and 304,224 M ft. in June 1951 as compared with $294,922 \mathrm{Mft}$. in May and $330,463 \mathrm{Mft}$. in June of 1950. Stocks on hand at sawmills decreased from $327,946 \mathrm{Mft}$. in May 1950 to $322,069 \mathrm{M} \mathrm{ft}$. in June but increased from $407,056 \mathrm{M} \mathrm{ft}$. in May 1951 to $410,699 \mathrm{M} \mathrm{ft}$. in June of this year.

## Production

Table 2 gives particulars of lumber and tie production for Coast mills and Interior mills separately, and also shows separately the production of lamber and ties, by species. Production of saw lumber in Coast mills amounted to $226,958 \mathrm{M} \mathrm{ft}$. in June 1951 as compared with $105,517 \mathrm{M} \mathrm{ft}$. reported by Interior mills. Sawn tie production of Coast mills was $4,209 \mathrm{Mft}$. in June as compared with $3,125 \mathrm{M} \mathrm{ft}$. for Interior mills. Coast mills accounted for $68.0 \mathrm{p} . \mathrm{c}$. of the total production of saw lumber and ties in June 1951 as compared with 73.4 pec. the previous year. The percentages of Coast mills during May 1951 and 1950 respectively, were 75.4 and 77.8 pec.

## Shipments

Table 3 gives details of lumber and tie shipments, by months, for Coast mills and Interior mills separately. Shipments by truck, by rail and waterborne are shown for each Canadian province, to points in the United States, to the United Kingdom and to other countries, for all mills reporting. Total estimated shipments of non-reporting mills are also given. It is to be noted, however, that some lumber originally reported as having been shipped to points in British Columbia may have been re-shipped to other provinces or exported by the purchasers and reported by them also, thereby causing a certain amount of duplication.

Shipments of Coast mills amounted to $224,440 \mathrm{M} \mathrm{ft}$ 。in June of 1951 and 228,270 Mft . in May 1951 as compared with $248,739 \mathrm{M} \mathrm{ft}$. in June 1950 and $236,537 \mathrm{M} \mathrm{ft}$. in the previous month, while the Interior mills shipped $79,784 \mathrm{M} \mathrm{ft}$, and $81,724 \mathrm{M} \mathrm{ft}$. in June 1951 and 1950 and $63,492 \mathrm{Mft}$. and $58,385 \mathrm{M} \mathrm{ft.in} \mathrm{May} 1951$ and 1950. Of all shipments actually reported for June, $37.4 \mathrm{p} . \mathrm{c}$. went to points in Canada, $29.4 \mathrm{p} . \mathrm{c}$. to points in United States, $25 \mathrm{p} . \mathrm{c}$. to the United Kingdom and $8.1 \mathrm{p}, \mathrm{c}$. to other countries. Waterborne shipments accounted for $36.1 \mathrm{p.c}$, of the total, while $44.8 \mathrm{p} . \mathrm{c}$. went by rail, and 19.1 p.c. by truck.

## Stocks

Table 4 gives particulars of stocks of lumber and ties at sawmills by months. It distinguishes between stocks sold but not shipped and stocks unsold, and between stocks at Coast and Interior mills, by species. Total stocks at Coast mills in May and June 1951 amounted to $269,145 \mathrm{M} \mathrm{ft}$. and $269,481 \mathrm{M} \mathrm{ft}$, as compared with $230,131 \mathrm{M} \mathrm{ft}$, and $212,249 \mathrm{M} \mathrm{ft}$, in May and June of 1950 . Interior mills stocks increased from $97,815 \mathrm{M} \mathrm{ft}$. in May to $109,820 \mathrm{M} \mathrm{ft}$. in June 1950 and increased from $137,911 \mathrm{M} \mathrm{ft}$ in May to $141,218 \mathrm{M} \mathrm{ft}$. in June 1951 . Unsold stocks accounted for approximately 33.3 p.c. of the total in June 1951 as compared with 32.4 p.c. in J une 1950 for Coast mills, while for the Interior mills the percentages were, respectively, 78.8 and 71.5 .

## Orders on Hand

Table 5 shows the distribution of orders on hand at the end of the months of May and June 1950 and 1951 for Coast mills only. Similar information is not collected from Interior mills and no attempt has been made to estimate orders on hand of non-reporting mills on the Coast. Destination and mode of shipments are shown in this table, which also gives total lumber purchases reported by some mills. Total orders on hand at the end of June 1951 amounted to $587,265 \mathrm{M} \mathrm{ft}$ as compared with $355,581 \mathrm{M} \mathrm{ft}$ in June 1950. Orders on hand at the end of May 1951 and 1950 amounted to $399,007 \mathrm{M} \mathrm{ft}$. and $381,727 \mathrm{M} \mathrm{ft.}, \mathrm{respectively}$. lumber from other mills amounted to $7,225 \mathrm{M} \mathrm{ft}$. in June 1951 and $9,667 \mathrm{M} \mathrm{ft}$. in June 1950 as compared with $7,947 \mathrm{Mft}$. in May 1951 and $8,202 \mathrm{M} \mathrm{ft}$. in May 1950.

## Active Mills Reporting

Table 6 gives the number of active mills reporting each month for the Coast and Interior of British Columbia. The mills reporting for June accounted for 77.4 p.c. of the total production on the basis of the annual returns from 1949 compared with $80.6 \mathrm{p} . \mathrm{c}$. for the previous year. The percentages for May 1950 and 1951 were 82.1 and 82.2 respectively. It is hoped that the compilation will eventually include all mills in the 500,000 feet and over classification.

The co-operation of the British Columbia Lumber Manufacturers Association, Interior Lumber Manufacturers' Association and Northern Interior Lumbermen's Association in the collection of these statistics is gratefully acknowledged.
