PRODUCTION, SHIPMENTS AND STOCKS ON HAND OF SAWMILLS
IN BRITISH COLUMBIA

August, 1952

Production of sawn lumber and ties in British Columbia totalled 343,670 M ft. in August, 1952 as compared with 296,577 M ft. in August, 1951 an increase of 15.9 p.c. over the previous year and an increase of 140.1 p.c. over the previous month. Production of Coast mills, which account for 61.1 p.c. of the total, showed an increase of 13.6 p.c. over the same month of the previous year, and the Interior mills, which produced the remaining 38.9 p.c. showed an increase of 19.7 p.c. Shipments in August, 1952 totalled 316,811 M ft., as compared with 287,899 M ft. the previous year, an increase of 10.0 p.c. with Coast mills registering an increase of 1.6 p.c. and Interior mills an increase of 28.1 p.c. Total shipments for August increased by 144.2 p.c. over the July figure of 129,727 M ft. Stocks on hand at the end of August, 1952 amounted to 388,170 M ft., as compared with 386,377 M ft. at the end of August the previous year and 375,415 M ft. at the end of July of this year. Coast mills reported stocks totalling 216,988 M ft., while Interior mills showed 171,182 M ft.

Summary Figures

Table I gives a comparative summary of production, shipments and stocks of sawn lumber and ties for all British Columbia sawmills for July and August, 1951 and 1952. Details by species are given for production and stocks while shipments are shown by destination. Total production decreased from 299,049 M ft. in July, 1951 to 296,577 M ft. in August, 1951 but increased from 143,111 M ft. in July to 343,670 M ft. in August, 1952. Shipments totalled 129,727 M ft. in July, 1952 and 316,811 M ft. in August, 1952 as compared with 292,742 M ft. in July and 287,899 M ft. in August of 1951. Stocks on hand at sawmills decreased from 422,388 M ft. in July, 1951 to 386,377 M ft. in August but increased from 375,415 M ft. in July, 1952 to 388,170 M ft. in August of this year.

Production

Table 2 gives particulars of lumber and tie production for Coast mills and Interior mills separately, and also shows separately the production of lumber and ties, by species. Production of sawn lumber in Coast mills amounted to 207,158 M ft. in August, 1952 as compared with 127,445 M ft. reported by Interior mills. Sawn tie production of Coast mills was 2,781 M ft. in August as compared with 6,286 M ft. for Interior mills. Coast mills accounted for 61.1 p.c. of the total production of sawn lumber and ties in August, 1952 as compared with 62.3 p.c. the previous year. The percentages of Coast mills during July, 1952 and 1951 respectively, were 6.3 and 61.1 p.c.

Shipments

Table 3 gives details of lumber and tie shipments, by months, for Coast mills and Interior mills separately. Shipments by truck, by rail and waterborne are shown for each Canadian province, to points in the United States, to the United Kingdom and to other countries for all mills reporting. Total estimated shipments of non-reporting mills are also given. It is to be noted, however, that some lumber originally reported as having been shipped to points in British Columbia may have been re-shipped to other provinces or exported by the purchasers and reported by them also, thereby causing a certain amount of duplication.

Shipments of Coast mills amounted to 199,591 M ft. in August of 1952 and 7,-415 M ft. in July, 1952 as compared with 196,417 M ft. in August, 1951 and 199,738 M ft. in the previous month, while the Interior mills shipped 117,220 M ft. and 91,482 M ft. in August, 1952 and 1951 and 122,312 M ft. and 93,004 M ft. in July, 1952 and 1951. Of all shipments actually reported for August, 38.9 p.c. went to points in Canada, 31.1 p.c. to points in United States, 27.3 p.c. to the United Kingdom and 2.7 p.c. to other countries. Waterborne shipments accounted for 39.1 p.c. of the total, while 40.9 p.c. went by rail, and 20.0 p.c. by truck.

Stocks

Table 4 gives particulars of stocks of lumber and ties at sawmills by months. It distinguishes between stocks sold but not shipped and stocks unsold, and between stocks at Coast and Interior mills, by species. Total stocks at Coast mills in July and August, 1952 amounted to 216,314 M ft. and 216,988 M ft. as compared with 240,202 M ft. and 233,717 M ft. in July and August of 1951. Interior mills stocks decreased from 182,186 M ft. in July to 152,660 M ft. in August, 1951 but increased from 159,101 M ft. in July to 171,182 M ft. in August, 1952. Unsold stocks accounted for approximately 29.4 p.c. of the total in August, 1952 as compared with 32.8 p.c. in August, 1951 for Coast mills, while for the Interior mills the percentages were, respectively 81.9 and 82.4.

Orders on Hand

Table 5 shows the distribution of orders on hand at the end of the months of July and August, 1951 and 1952 for Coast mills only. Similar information is not collected from Interior mills and not attempt has been made to estimate orders on hand of non-reporting mills on the Coast. Destination and mode of shipments are shown in this table, which also gives total lumber purchases reported by some mills. Total orders on hand at the end of August, 1952 amounted to 260,386 M ft. as compared with 837,023 M ft. in August, 1951. Orders on hand at the end of July, 1952 and 1951 amounted to 256,347 M ft. and 821,705 M ft., respectively. Purchases of lumber from other mills amounted to 4,689 M ft. in August, 1952 and 2,437 M ft. in August, 1951 as compared with 723 M ft. in July, 1952 and 4,325 M ft. in July, 1951.

Active Mills Reporting

Table 6 gives the number of active mills reporting each month for the Coast and Interior of British Columbia. The mills reporting for August accounted for 80.2 p.c. of the total production on the basis of the annual returns from 1950 compared with 77.2 p.c. for the previous year. The percentages for July, 1951 and 1952 were 76.0 and 63.7 respectively. It is hoped that the compilation will eventually include all mills in the 500,000 feet and over classification.

The co-operation of the British Columbia Lumber Manufacturers' Association, Interior Lumber Manufacturers' Association and Northern Interior Lumbermen's Association in the collection of these statistics is gratefully acknowledged.
