# PRODUCTION, SHIPMENTS AND STOCKS ON HAND OF SAWMILLS IN BRITISH COLUMBIA 

MARCH, 1953

Production of sawn lumber and ties in British Columbia totalled $325,540 \mathrm{Mft}$. in March, 1953 as compared with $284,488 \mathrm{Mft}$. in March, 1952 an increase of 14.4 p.c. over the previous year and an increase of $3.8 \mathrm{p}, \mathrm{c}$. over the previous month. Production of Coast mills, which account for 68.2 p.c. of the total, showed an increase of 10.8 p.c. over the same month of the previous year, and the Interior mills, which produced the remaining 31.8 p.c. showed an increase of 23.2 p.c. Shipments in March, 1953 totalled $329,407 \mathrm{Mft}$, as compared with $297,929 \mathrm{Mft}$. the previous year, an increase of 10.6 p.c. with Coast mills registering an increase of 6.9 p.c. and Interior mills an increase of 19.5 p.c. Total shipments for March increased by 11.6 p.c. over the February figure of $295,284 \mathrm{M} \mathrm{ft}$. Stocks on hand at the end of March, 1953 amounted to $439,531 \mathrm{Mft}$. as compared with $457,272 \mathrm{M} \mathrm{ft}$. at the end of March the previous year and 448.835 M ft . at the end of February of this year. Coast mills reported stocks totalling $270,745 \mathrm{M} \mathrm{ft}$., while Interior mills showed $168,786 \mathrm{M}$ ft.

## Summary Figures

Table l gives a comparative summary of production, shipments and stocks of sawn lumber and ties for all British Columbia sawmills for February and March, 1952 and 1953. Details by species are given for production and stocks while shipments are shown by destination. Total production increased from $261,934 \mathrm{M} \mathrm{ft}$. in February, 1952 to $284,488 \mathrm{M}$ ft. in March, 1952 and from $313,732 \mathrm{Mft}$. in February, 1953 to $325,540 \mathrm{M} \mathrm{ft}$. in March, 1953. Shipments totalled $295,284 \mathrm{M} \mathrm{ft}$. in February, 1953 and $329,407 \mathrm{M} \mathrm{ft}$. in March, 1953 as compared with $256,565 \mathrm{M} \mathrm{ft}$. in February and $297,929 \mathrm{M} \mathrm{ft}$. in March of 1952. Stocks on hand at sawmills increased from $445,489 \mathrm{Mft}$. in February, 1952 to $457,272 \mathrm{M} \mathrm{ft}$. in March but decreased from $448,835 \mathrm{M}$ ft. in February, 1953 to $439,531 \mathrm{M} \mathrm{ft}$. in March of this year.

## Production

Table 2 gives particulars of lumber and tie production for Coast mills and Interior mills separately, and also shows separately the production of lumber and ties, by species. Production of sawn lumber in Coast mills amounted to 219,560 $\mathrm{M} f \mathrm{ft}$. in March, 1953 as compared with $100,445 \mathrm{M}$ ft. reported by Interior mills. Sawn tie production of Coast mills was $2,578 \mathrm{M} \mathrm{ft}$ 。in March as compared with $2,957 \mathrm{M} \mathrm{ft}$. for Interior mills. Coast mills accounted for 68.2 p.c. of the total production of sawn lumber and ties in March, 1953 as compared with $70.5 \mathrm{p}, \mathrm{c}$. the previous year. The percentages of Coast mills during Feburary, 1953 and 1952 respectively, were 65.1 and 70.7 p.c.

Prepared in the Forestry Section, Dominion Bureau of Statistics, Ottawa,

## Shipments

Table 3 gives details of lumber and tie shipments, by months, for Coast mills and Interior mills separately. Shipments by truck, by rail and waterborne are shown for each Canadian province, ta points in the United States, to the United Kingdom and to other countries, for all mills reparting. Total estimated shipments of non-reparting mills are also given. It is to be noted, however, that some lumber originally reported as having been shipped to points in British Columbia may have been re-shipped to other provinces or exported by the purchasers and reported by them also, thereby causing a certain amount of duplication.

Shipments of Coast mills amounted to $225,948 \mathrm{Mft}$. in March of 1953 and $196,150 \mathrm{M}$ ft. in February, 1953 as compared with $211,365 \mathrm{M} \mathrm{ft}$. in March, 1952 and $175,432 \mathrm{M} \mathrm{ft}$. in the previous month, while the Interior mills shipped 103,459 M ft . and $86,564 \mathrm{M} \mathrm{ft}$. in March, 1953 and 1952 and $99,134 \mathrm{Mft}$. and $81,133 \mathrm{M} \mathrm{ft}$. in February, 1953 and 1952. Of all shipments actually reported for March, 35.7 p.c. went to points in Canada, 41.5 p.c. to points in United States, 15.1 p.c. to the United Kingdom and 7.7 p.c. to other countries. Waterborne shipments accounted for 41.6 p.c. of the total, while 38.7 p.c. went by rail, and 19.7 p.c. by truck.

## Stocks

Table 4 gives particulars of stocks of lumber and ties at sawmills by months. It distinguishes between stocks sold but not shipped and stocks unsold, and between stocks at Coast and Interior mills, by species. Total stocks at Coast mills in February and March, 1953 amounted to $270,543 \mathrm{Mft}$. and $270,745 \mathrm{M} \mathrm{ft}$. as compared with $268,698 \mathrm{M} f$. and $269,563 \mathrm{M}$ ft in February and March of 1952 . Interior mills stocks increased from $176,791 \mathrm{M}$ ft. in February to $187,709 \mathrm{M} \mathrm{ft}$. in March, 1952 but decreased from $178,292 \mathrm{M} \mathrm{ft} \mathrm{in} \mathrm{February} \mathrm{to} 168,.786 \mathrm{M} \mathrm{ft}$. in March, 1953. Unsold stocks accounted for approximately $26.8 \mathrm{p} . \mathrm{c}$. of the total in March, 1953 as compared with 30.9 p.c. in March, 1952 for Coastmills; whilefor the Interior mills the percentages were, respectively, 85.2 and 84.4 .

## Orders on Hand

Table 5 shows the distribution of orders on hand at the end of the months of February and March, 1952 and 1953 for Coast mills only. Similar information is not collected from Interior mills and no attempt has been made to estimate orders on hand of non-reporting mills on the Coast. Destination and mode of shipments are shown in this table, which also gives total lumber purchases reported by some mills. Total orders on hand at the end of March, 1953 amounted to $333,311 \mathrm{M} \mathrm{ft}$. as compared with $464,051 \mathrm{M} \mathrm{ft}$. in March, 1952. Orders on hand at the end of February, 1953 and 1952 amounted to $350,049 \mathrm{M} \mathrm{ft}$. and $532,999 \mathrm{M} \mathrm{ft}$., respectively. Purchases of lumber from other mills amounted to $6,475 \mathrm{M} \mathrm{ft}$. in March, 1953 and $4,250 \mathrm{M} \mathrm{ft}$. in March, 1952 as compared with $4,634 \mathrm{M} \mathrm{ft}$. in February, 1953 and $3,142 \mathrm{Mft}$. in February, 1952.

## Active Mills Reporting

Table 6 gives the number of active mills reporting each month for the Coast and Interior of British Columbia. The mills reporting for March accounted for 85.6 p.c. of the total production on the basis of the annual returns from 1950 compared with 84.5 p.c. for the previous year. The percentages for February, 1952 and 1953 were 84.7 and 84.5 respectively. It is hoped that the compilation will eventually include all mills in the 500,000 feet and over classification.

The co-operation of the British Columbia Lumber Manufacturers' Association, Interior Lumber Manufacturers' Association and Northern Interior Lumberman's Association in the collection of these statistics is gratefully acknowledged.
