THE FURNITURE INDUSTRY1949

Gross value of production of the furniture industry reached \$157,122,632 in 1949, and net value, or value added by manufacture, totalled \$85,289,672. Salaries and wages amounting to \$53,591,185 were paid to 26,931 employees, materials used were valued at \$70,147,728, and fuel and electricity consumed at \$1,685,232.

These figures are not altogether comparable with those for 1948, and still less comparable with those for previous years, owing to the many changes which have taken place in the classification of establishments covered by this industry. Prior to 1947, the furniture industry comprised establishments engaged wholly or principally in the manufacture of wooden and upholstered furniture. Since that year, it includes also the former "Mattresses and springs" industry. Furthermore, some establishments making metal furniture were transferred from the metal products group to the furniture industry in 1948 and the remainder in 1949. In 1948 also, plants engaged solely in re-upholstering and other furniture repairs were added to the furniture industry, and in 1949 statistics for the new Province of Newfoundland were included for the first time.

As presently constituted the furniture industry covers practically all furniture production in Canada. However, there are still a number of firms classified in other industrial groups which make furniture as a side line to their principal production. The firms dealt with in the present report also manufacture commodities other than furniture as secondary products.

The furniture industry is centred in southwestern Ontario. Out of a total of 1,187 establishments in 1949, 456 were located in that province. The distribution for the other provinces was as follows: Quebec 373, British Columbia 174, Manitoba 83, Alberta 48, Saskatchewan 19, New-Brunswick 13, Nova Scotia 12, Newfoundland 7, and Prince Edward Island 2.

Male employees formed about 89 p.c. of the total; 3,089 were paid on a salary basis and 20,887 were wage-earners. Of the 2,955 female employees, 977 received salaries. The amount paid in salaries in 1949 was \$11,454,076. Payments distributed to wage-earners during the year totalled \$42,137,109.

Expenditures for fuel during the year amounted to \$879,471, and this industry consumed 41,440,728 kilowatt-hours of purchased electricity valued at \$805,761, plus 2,782,308 kilowatt-hours generated for own use.

Wood used in the form of sawn lumber, logs, bolts, veneers, plywoods, blocks, blanks, squares, etc., was valued at \$21,487,354 in 1949 and formed 30 p.c. of the total cost of materials. Textiles and other fabrics, used in the manufacture of upholstered furniture, mattresses, pillows, cushions, comforters, etc., were valued at \$13,442,012 or 19 p.c. Metals and metal products, including wire and springs and furniture and cabinet hardware,

L'INDUSTRIE DU MEUBLE1949

La valeur brute de la production de l'industrie du meuble atteint \$157,122,632 en 1949, et la valeur nette, ou valeur ajoutée par la fabrication, s'élève à \$85,289,672. Les salaires et gages payés aux 26,931 employés se chiffrent à \$53,591,185, les matières utilisées valent \$70,147,728, et le combustible et l'électricité \$1,685,232.

Ces chiffres ne sont pas entièrement comparables à ceux de 1948, et encore moins à ceux des années antérieures, à cause de nombreux changements dans la classification des établissements formant cette industrie. Avant 1947, l'industrie du meuble comprenait les établissements s'occupant exclusivement ou principalement de la fabrication de meubles en bois et de rembourrage. Depuis cette année-là, elle comprend aussi l'ancienne industrie des "Matelas et sommiers". De plus, une partie des établissements fabriquant des meubles en métal ont été transférés du groupe des produits en métal à l'industrie du meuble en 1948 et le reste en 1949. En 1948 également, les établissements faisant le rembourrage de meubles usagés et autres réparations de meubles seulement ont été ajoutés à l'industrie du meuble. Enfin, sont comprises pour la première fois en 1949 les statistiques de la nouvelle province de Terre-Neuve.

Telle que présentement constituée l'industrie du meuble couvre presque entièrement la production de meubles au Canada. Toutefois il y a encore un certain nombre d'établissements, classés dans d'autres groupes industriels, qui fabriquent des meubles en à coté, de même que les établissements dont traite ce rapport fabriquent, comme produits secondaires, d'autres articles que des meubles.

Cette industrie a son centre dans le sud-ouest de l'Ontario. Sur 1,187 établissements en 1949, 456 sont situés dans cette province. La distribution parmi les autres provinces est comme suit: Québec 373, Colombie-Britannique 174, Manitoba 83, Alberta 48, Saskatchewan 19, Nouveau-Brunswick 13, Nouvelle-Ecosse 12, Terre-Neuve 7, et Ile du Prince-Edouard 2.

Les hommes forment environ 89 p. 100 du total des employés; 3,089 recevaient des salaires et 20,887 des gages. Des 2,955 femmes travaillant dans cette industrie, 977 étaient à salaire. Le total des salaires payés en 1949 atteint \$11,454,076, tandis que les gages distribués durant l'année s'élèvent à \$42,137,109.

Le combustible utilisé durant l'année a coûté \$879,471, et cette industrie a consommé 41,440,728 kilowatt-heures d'électricité achetée valant \$805,761, plus 2,782,308 kilowatt-heures provenant de l'industrie même.

Le bois utilisé sous forme de bois d'œuvre, billes, billots, placages, contreplaqués, blocs, flans, carrelets, etc., était évalué à \$21,487,354 et formait 30 p. 100 du coût total des matières. Les textiles et autres tissus pour la fabrication de meubles rembourrés, matelas, oreillers, coussins, édredons, etc., avaient une valeur de \$13,442,012 ou 19 p. 100. Les métaux et leurs produits, y compris le fil métallique et les ressorts et la quincaillerie de meubliers, ont

totalled \$11,721,492 or about 17 p.c. Other materials used included stuffing materials of all kinds (\$5,692,558), paints and varnishes (\$2,856,-487), furniture frames purchased for finishing or upholstering (\$2,835,145), leather and leatherette (\$1,334,805) and unspecified materials and supplies (\$10,777,875).

Wooden furniture, valued at \$74,838,095, was the principal product of this industry in 1949, consisting mostly of household furniture (\$51,286,173) and furniture and fixtures for offices, stores, churches, schools and other public buildings (\$16,501,762). Upholstered furniture was valued at \$31,344,371, and metal furniture at \$17,971,597. Mattresses (\$14,817,566), springs (\$5,513,048), pillows and cushions (\$1,001,437) and comforters (\$189,587) were other important products. All other manufactured products were valued at \$6,-914,394. For custom work and other services the industry also received \$4,532,537.

Practically all these products were consumed in Canada. Exports of furniture of wood and metal, mattresses and pillows amounted to only \$601,-260 in 1949, including shipments valued at \$67,-235 to Newfoundland during the three months prior to Confederation. Imports of similar products were valued at \$2,454,195 in 1949.

Complete details of exports and imports of all commodities by countries of destination or of origin are contained in the "Trade of Canada" monthly, quarterly and annual reports published by the Bureau.

The following tables give first, a summary of the principal statistics for representative years from 1929 to 1949, followed by detailed tables for 1948 and 1949 covering employment, materials and products. Table 5 shows exports and imports for the years 1947 to 1950.

coûté \$11,721,492, soit environ 17 p. 100. Les autres matières utilisées comprennent toutes sortes de matières à rembourrage (\$5,692,558), des peintures et vernis (\$2,856,487), des châssis de meubles achetés pour finir ou rembourrer (\$2,835,145), du cuir et simili-cuir (\$1,334,805) et des matières et fournitures diverses (\$10,777,875).

Les meubles en bois, évalués à \$74,838,095, formaient le produit principal de cette industrie en 1949, consistant surtout en meubles de maison (\$51,-286,173) et en meubles et aménagements de bureaux, magasins, églises, écoles et autres édifices publics (\$16,501,762). Les meubles rembourrés valaient \$31,-344,371 et les meubles en métal \$17,971,597. Les matelas (\$14,817,566), les sommiers (\$5,513,048), les oreillers et coussins (\$1,001,437) et les édredons (\$189,587) étaient aussi des produits importants. Tous les autres produits valaient \$6,914,394. Pour travaux à façon et autres services l'industrie du meuble a aussi reçu \$4,532,537.

Presque tous ces produits ont été consommés au Canada. Les exportations de meubles en bois et en métal, de matelas et d'oreillers s'élevaient à \$601,-260 seulement en 1949, y compris \$67,235 à Terre-Neuve durant les trois mois qui ont précédé la Confédération. Les importations de produits similaires étaient évaluées à \$2,454,195 en 1949.

Des détails complets des exportations et des importations de toutes denrées par pays de destination ou d'origine sont contenus dans les rapports mensuels, trimestriels et annuels intitulés "Commerce du Canada", publiés par le Bureau.

Les tableaux qui suivent donnent d'abord un sommaire des statistiques principales de l'industrie pour des années représentatives de 1929 à 1949, puis des tableaux détaillés pour 1948 et 1949 couvrant l'emploi, les matières et les produits. Le tableau 5 donne les exportations et importations pour les années 1947 à 1950.

NOTA: Les profits ou les pertes ne peuvent être établis d'après les chiffres de recensement parce que nulle donnée n'est colligée pour certains item de dépenses, comme les intérêts, le loyer, la dépréciation, les taxes, les assurances, la réclame, etc.
