## PUBLICATIONS

In addition to the report, on this industry, the DBS publishes annual statistics on a number of related industries and current statistics on the more important commodities. Copies of reports provided in the following list are available from the Information and Public Relations Division of the DBS, Ottawa or from the Queen's Printer, Hull, P.Q.

En plus du rapport sur la présente industrie, le B.F.S. publie des statistiques annuelles sur un certain nombre d'industries connexes et des statistiques courantes sur les marchandises principales. Des exemplaires des rapports compris dans la liste suivante peuvent être obtenus à la Division de l'information et des relations publiques, Bureau fédéral de la statistique, Ottawa, ou chez l'Imprimeur de la reine, Hull (P.Q.).

Remittances should be in the form of cheque or money order, made payable to the Receiver General of Canada and forwarded to the Information and Public Relations Division, Ottawa or to the Queen's Printer, Hull, P.Q.

La remise doit se faire par chèque ou mandat de poste payable au Receveur général du Canada et adressée à la Division de l'information et des relations publiques, Bureau fédéral de la statistique, Ottawa, ou à l'Imprimeur de la reine, Hull, (P.Q.).

## INDUSTRY DEFINITIONS

### Commercial Printing

Establishments primarily engaged in the production of commercial and/or job printing regardless of the printing method or process used (letterpress, including flexographic-planographic or lithographic; intaglio or gravure; stencil printing or silk screen; etc.). The following list of printed products is intended to be representative but not complete: newspapers, periodicals, books, maps, and all other printing done on a job or contract basis for other individuals or firms; printed office stationery and forms, snap-out sets (carbonized sets or carbonless reproducing sets), continuous forms, calendars, greeting cards, postcards, playing cards, wrappings, tickets, envelopes, tags, seals, labels, stamps (postage, revenue, trading, etc.), engraved stationery, bank notes, stock and bond certificates, catalogues, printed advertising matter, etc.

Establishments primarily engaged in publishing are included in Industry No. 288—Publishing Only if the publisher does not print his own publications or, in Industry No. 289—Publishing and Printing if the publisher prints his own publications.

Establishments primarily engaged in providing blueprints and such copying services are included in Industry No. 869—Other Services to Business Management.

### Platemaking, Typesetting and Trade Bindery Plants

Establishments (trade shops) primarily engaged in providing specialized services to the printing and publishing trades, advertising agencies or others: the making of **image bearing** photographic films, plates and printers' dies of all types; doing typesetting; making binders or covers, doing hand or machine bindery work and allied postprinting converting or finishing operations.

Establishments primarily engaged in the manufacture of **non-image bearing** printing plates, which become the raw materials of the platemaking plants, are included elsewhere according to the kind of plate made.

Establishments primarily engaged in engraving jewellery are classified in Industry No. 695—Watch and Jewellery Repair Shops, and those primarily engaged in engraving on base metals for purposes other than printing are classified in Industry 309—Miscellaneous Metal Fabricating Industries.

### Publishing Only

This industry includes establishments primarily engaged in publishing only and which do no printing. The term "publishing", as applied in this industry, includes publishing of books, newspapers, periodicals, almanacs, maps, guides and similar products.

### Publishing and Printing

Establishments primarily engaged in publishing and printing newspapers, periodicals, books, almanacs, maps, guides and the like. Establishments primarily engaged in printing newspapers, magazines, books, etc. for publishers are included in Industry No. 286—Commercial Printing. Establishments which publish **only** and do no printing are included in Industry No. 288—Publishing Only.

## DESCRIPTION DES INDUSTRIES

### Imprimerie commerciale

Comprend les établissements qui s'occupent principalement de travaux d'imprimerie commerciale et (ou) à forfait, compte non tenu de la méthode ou du procédé employé (la typographie, y compris la flexographie; la planographie ou lithographie; la chalcographie ou gravure; l'impression au stencil ou sérigraphie, etc.). Voici une liste représentative, mais non complète, de travaux d'imprimerie: journaux, périodiques, livres, cartes, et tous autres travaux d'imprimerie à forfait ou sur contrat pour le compte d'autres personnes ou firmes; papeterie et formules de bureau imprimées, blocs individuels de formules gommées (avec ou sans papier carbone), formules continues, calendriers, cartes de souhaits, cartes postales, cartes à jouer, emballages, billets, enveloppes, fiches, cachets, étiquettes, timbres (timbres-poste, timbres fiscaux, bons-primés, etc.), papeterie gravée, billets de banque, titres d'actions et d'obligations, catalogues, matériel de publicité imprimé, etc.

Les établissements qui s'occupent principalement de l'édition sont classés à l'industrie 288—Édition seulement, si l'éditeur n'imprime pas ses propres publications, ou à l'industrie 289—Édition et imprimerie, si l'éditeur imprime ses propres publications.

Les établissements qui s'occupent principalement de l'impression de bleus et de la polycopie sont classés à l'industrie 869—Autres services extérieurs des entreprises.

### Ateliers de clichage, de composition et de reliure commerciale

Comprend les établissements (ateliers) qui s'occupent principalement de fournir des services spécialisés aux entreprises d'imprimerie et d'édition, aux agences de publicité ou autres: la production de pellicules photographiques **impressionnées**, de clichés et de matrices d'impression de tous genres; la composition; la fabrication d'auto-reliure et de couvertures, la reliure à la main ou à la machine et autres travaux alliés à la transformation et au finissage de matières imprimées.

Les établissements qui s'occupent principalement de la fabrication de clichés **non impressionnés**, qui deviennent la matière première des ateliers de clichage, sont classés ailleurs selon le genre de clichés fabriqués.

Les établissements qui s'occupent principalement de la gravure sur bijoux sont classés à l'industrie 695—Ateliers de réparation de montres et bijoux, et ceux qui s'occupent principalement de la gravure sur métaux de base pour d'autres fins que l'imprimerie sont classés à l'industrie 309—Industrie des produits métalliques divers.

### Édition seulement

Comprend les établissements qui ne s'occupent principalement que de l'édition et ne font pas d'imprimerie. Le terme "édition", en ce qui concerne la présente industrie, comprend l'édition de livres, journaux, périodiques, almanachs, cartes géographiques, guides et autres publication de ce genre.

### Édition et imprimerie

Comprend les établissements qui s'occupent principalement d'édition et imprimerie de journaux, périodiques, livres, almanachs, cartes géographiques, guides et autres publications de ce genre. Les établissements qui s'occupent principalement de l'impression de journaux, magazines, et livres, etc., pour d'autres éditeurs sont classés à l'industrie 286—Imprimerie commerciale. Les établissements qui ne font **que l'édition** et non l'imprimerie sont classés à l'industrie 288—Édition seulement.

### SYMBOLS

The following standard symbols are used in Dominion Bureau of Statistics publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- P preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

### SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications du Bureau fédéral de la statistique:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- P nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

# SECTION I

## COMMERCIAL PRINTING

### IMPRIMERIE COMMERCIALE

Commercial printing is one of the four industries in the Printing, Publishing and Allied Industries group. Other industries in the group are: Platemaking, Typesetting and the Trade Bindery Plants; Publishing Only; Publishing and Printing.

The definition of the Commercial Printing industry is as follows: Establishments primarily engaged in the production of commercial and/or job printing regardless of the printing method or process used (letterpress, including flexographic; planographic or lithographic; intaglio or gravure; stencil printing or silk screen; etc.). The following list of printed products is intended to be representative but not complete: newspapers, periodicals, books, maps, and all other printing done on a job or contract basis for other individuals or firms; printed office stationery and forms, snap-out sets (carbonized sets or carbonless reproducing sets), continuous forms, calendars, greeting cards, postcards, playing cards, wrappings, tickets, envelopes, tags, seals, labels, stamps (postage, revenue, trading, etc.), engraved stationery, bank notes, stock and bond certificates, catalogues, printed advertising matter, etc.

Establishments primarily engaged in publishing are included in Industry No. 288—Publishing Only if the publisher does not print his own publications or, in Industry No. 289—Publishing and Printing if the publisher prints his own publications.

Establishments primarily engaged in providing blueprints and such copying services are included in Industry No. 869—Other Services to Business Management.

A list of establishments—classed in the commercial printing industry (1964) may be found on pp. 55-66 in this report.

**Note:** "Manufacturing activity" in this report refers mainly to the printing activity and "Shipments of goods of own manufacture" consist of revenue from printing and/or shipments of printed products. The census of Commercial Printing is part of the census of manufactures and the terminology used in this report has been kept in conformity with that used for manufacturing.

L'Imprimerie commerciale est une des quatre industries du groupe: Imprimerie, édition et industries connexes. Les autres industries du groupe sont: Clichage, composition et reliure commerciale; Édition seulement; Édition et impression.

La définition de l'industrie Imprimerie commerciale est la suivante: Établissements qui s'occupent principalement de travaux d'imprimerie commerciale et (ou) à forfait, compte non tenu de la méthode ou du procédé employé (typographie, y compris flexographie; planographie ou lithographie; chalcographie ou gravure; impression au stencil ou sérigraphie; etc.). Voici une liste représentative, mais non complète, de travaux d'imprimerie: journaux, périodiques, livres, cartes, et tous autres travaux d'imprimerie à forfait ou à l'entreprise (par contrat) pour le compte d'autres personnes ou firmes; papeterie et formules de bureau imprimées, blocs individuels de formules gommées (avec ou sans papier carbone), formules continues, calendriers, cartes de souhaits, cartes postales, cartes à jouer, emballages, billets, enveloppes, fiches, cachets, étiquettes, timbres (timbres-poste, timbres fiscaux, bons-primés, etc.), papeterie gravée, billets de banque, titres d'actions et d'obligations, catalogues, matière publicitaire imprimée, etc.

Les établissements qui s'occupent principalement d'édition sont compris dans l'industrie 288—Édition seulement, si l'éditeur n'imprime pas ses propres publications, ou dans l'industrie 289—Édition et impression, si l'éditeur imprime ses propres publications.

Les établissements qui s'occupent principalement de l'impression de bleus et de polycopie sont compris dans l'industrie 869—Autres services à l'administration des entreprises.

Une liste des établissements classés dans l'industrie Imprimerie commerciale (1964) se trouve à la suite du tableau 14, pp. 55-66 du présent rapport.

**Nota:** La "Fabrication", dans le présent rapport, vise principalement l'imprimerie, et les "Expéditions de marchandises de propres fabrication" comprennent le revenu de l'imprimerie et (ou) des expéditions de matières imprimées. Le recensement de l'Imprimerie commerciale fait partie du recensement des manufactures et la terminologie employée dans le présent rapport a été adaptée à celle de la fabrication.

| <b>Adjusted value of shipments and work done - Total - Valeur rectifiée des expéditions et du travail exécuté .....</b>   | <b>927,921<sup>1</sup></b>  | <b>983,921</b> |

<sup>1</sup> Included under other printed matter. Shipments of all industries were reported as follows by commodity for 1964. (1963 figures in brackets): Register forms at \$5,909,000 (\$5,658,000), other continuous forms (typewriter, etc.) at \$23,515,000 (\$20,068,000) and snap-out sets or individual gummed sets at \$21,324,000 (\$18,594,000).

<sup>2</sup> Confidential, included with "Other printed matter".

<sup>3</sup> The revenue from telephone directories, published by telephone companies, has been removed from these statistics.

<sup>1</sup> Compris sous autre matière imprimée. Les expéditions pour toutes industries furent rapportées comme suit par produit en 1964. (Les chiffres pour 1963 sont entre parenthèses): Formules-registres \$5,909,000 (\$5,658,000) et autres formules continues à \$23,515,000 (\$20,068,000). Les blocs individuels de formules gommées ou "snap-out sets" furent rapportés à \$21,324,000 (\$18,594,000).

<sup>2</sup> Confidential, compris sous "Autre matière imprimée".

<sup>3</sup> Les revenus provenant de la publication des listes d'abonnés du téléphone, par les compagnies de téléphone, ont été exclus de ces statistiques.

## SECTION II

### PLATEMAKING, TYPESETTING AND TRADE BINDERY PLANTS

#### ATELIERS DE CLICHAGE, DE COMPOSITION ET DE RELIURE COMMERCIALE

This industry is one of the four industries in the Printing, Publishing and Allied Industries Group. Other industries in the group are: Commercial Printing; Publishing Only; Publishing and Printing.

The definition of the industry "Platemaking, Typesetting and Trade Bindery Plants" is as follows: Establishments (trade shops) primarily engaged in providing specialized services to the printing and publishing trades, advertising agencies or others: the making of **image bearing** photographic films, plates and printers' dies of all types; doing typesetting; making binders or covers; doing hand or machine bindery work and allied post-printing converting or finishing operations".

Establishments primarily engaged in the manufacture of **non-image bearing** printing plates, which become the raw materials of the platemaking plants, are included elsewhere according to the kind of plate made.

Establishments primarily engaged in engraving jewellery are classified in Industry No. 695—Watch and Jewellery Repair Shops, and those primarily engaged in engraving on base metals for purposes other than printing are classified in Industry 308—Miscellaneous Metal Fabricating Industries.

A list of establishments classed in the Platemaking, Typesetting and Trade Bindery Plants industry (1964) may be found on pp. 67-68 of this report.

**Note:** "Manufacturing activity" in this report refers mainly to specialized services to the printing trade industries. "Shipments of goods of own manufacture" consist of revenue from the above mentioned activities and/or shipments of manufactured products. The census of Platemaking, Typesetting and Trade Bindery Plants is part of the Census of Manufactures and the terminology used in this report has been kept in conformity with that used for manufacturing.

Cette industrie est une des quatre industries du groupe: Imprimerie, édition et industries connexes. Les autres industries du groupe sont: Imprimerie commerciale; Édition seulement; Édition et impression.

La définition de l'industrie Clichage, composition et reliure commerciale, est la suivante: "Établissements (ateliers) qui s'occupent principalement de fournir des services spécialisés aux commerces d'imprimerie et d'édition, aux agences de publicité ou autres: production de pellicules photographiques **impressionnées**, de clichés et de matrices d'impression de tous genres; composition; fabrication d'auto-reliure et de couvertures; reliure à la main ou à la machine; et autres travaux de transformation et de finissage de matières imprimées.

Les établissements qui s'occupent principalement de la fabrication de clichés **non impressionnés**, qui deviennent la matière première des ateliers de clichage, sont classés selon le genre de clichés fabriqués.

Les établissements qui s'occupent principalement de gravure sur bijoux sont classés dans l'industrie 695—Réparation de montres et bijoux, et ceux qui s'occupent principalement de gravure sur métaux communs pour d'autres fins que l'imprimerie sont classés dans l'industrie 308—Industrie des produits métalliques divers.

Une liste des établissements classés dans l'industrie Clichage, composition et reliure commerciale (1964) se trouve aux pp. 67-68 du présent rapport.

**Nota:** La "Fabrication" dans le présent rapport vise principalement les services spécialisés se rapportant aux industries, Édition et imprimerie, et Imprimeries commerciales. Les "Expéditions de marchandises de propres fabrication" comprennent le revenu provenant des activités ci-dessus et (ou) des expéditions de produits manufacturés. Le recensement de l'industrie Clichage, composition et reliure commerciale est classé dans le recensement des manufactures et la terminologie employée dans le présent rapport est adoptée à celle de la fabrication.

<sup>1</sup> "All industries" figures may be found in Table 14 of Section I of this report.

<sup>1</sup> Les chiffres "toutes industries" se trouvent au tableau 14 de la section I.

## SECTION III

### PUBLISHING ONLY

### ÉDITION SEULEMENT

This industry is one of the four industries in the Printing, Publishing and Allied Industries group. Other industries in the group are: Commercial Printing; Platemaking, Typesetting and the Trade Bindery Plants; Publishing and Printing.

The "Publishing Only" industry includes establishments primarily engaged in publishing, which do no printing. The term "publishing", as applied in this industry, includes publishing of books, newspapers, periodicals, almanacs, maps, guides and similar products.

Beginning with 1964, the statistics of the "Publishing Only" industry no longer include the principal statistics pertaining to the publishing divisions of the Telephone Companies. However, Table 14 of Section IV of this report still includes the advertising and sales revenue of such publishing divisions.

For purposes of year to year comparison the principal statistics for the period 1961-1963 have been revised accordingly.

A list of the establishments classed in the "Publishing Only", industry (1964) may be found on pp. 69-71 of this report.

**Note:** "Manufacturing activity" in this report refers to the publishing activity and "Shipments of goods of own manufacture" consist of revenue from the above-mentioned activity, including the advertising revenue derived from the publication of newspapers and periodicals. The census of the Publishing Only industry is part of the census of manufactures and the terminology used in this report has been kept in conformity with that used for manufacturing.

Cette industrie est une des quatre industries du groupe: Imprimerie, édition et industries connexes. Les autres industries du groupe sont: Imprimerie commerciale; Clichage, composition et reliure commerciale; Édition et impression.

L'industrie Édition seulement, comprend les établissements qui s'occupent principalement d'édition et n'impriment pas. Le terme "édition", propre à cette industrie, comprend l'édition de livres, journaux, périodiques, almanachs, cartes, guides et autres produits du genre.

Les statistiques de l'industrie "Édition Seulement" ne comprennent plus les statistiques principales relatives aux divisions des publications de sociétés de téléphones. Toutefois, le tableau 14 de la section IV du présent rapport comprend les recettes de la publicité et des ventes de ces divisions.

Pour fin de comparaison d'une année à l'autre les statistiques principales de la période 1961-1963 ont été révisées.

Une liste des établissements classés dans l'industrie Édition seulement (1964) se trouve aux pp. 69-71 du présent rapport.

**Nota:** La "Fabrication" dans le présent rapport vise l'édition et les "Expéditions de marchandises de propre fabrication" comprennent le revenu provenant des activités ci-dessus, y compris le revenu provenant de la publicité dans les journaux et périodiques. Le recensement de l'industrie de l'édition seulement est classé dans le recensement des manufactures et la terminologie employée dans le présent rapport est adaptée à celle de la fabrication.

<sup>1</sup> "All industries" figures may be found in Table 14 of Section IV of this report.

<sup>2</sup> Net revenue from advertising i.e. excluding commissions paid to all recognized advertising agencies and cash discounts.

<sup>3</sup> Net revenue from sales and subscriptions i.e. excluding commissions paid to indirectly employed sales agents who are not regular employees of establishments.

<sup>4</sup> Almanacs, yearbooks, religious publications, etc.

<sup>1</sup> Les chiffres "toutes industries" se trouvent au tableau 14 de la section IV.

<sup>2</sup> Revenu net provenant de l'annonce i.e. ne comprenant pas les commissions payées aux agences reconnues et les escomptes au comptant.

<sup>3</sup> Revenu net provenant des abonnements et de la vente i.e. ne comprenant pas les commissions versées aux agents de vente employés indirectement ou aux agents qui ne sont pas employés réguliers des établissements.

<sup>4</sup> Almanachs, annuaires, publications religieuses, etc.

## SECTION IV

### PUBLISHING AND PRINTING

#### ÉDITION ET IMPRESSION

This industry is one of the four industries in the Printing, Publishing and Allied Industries group. Other industries in the group are: Commercial Printing; Platemaking, Typesetting and the Trade Bindery Plants; and Publishing Only.

The "Publishing and Printing" industry included establishments primarily engaged in publishing and printing newspapers, periodicals, books, almanacs, maps, guides and the like. Establishments primarily engaged in printing newspapers, magazines, books, etc., for publishers are included in Industry No. 286 - Commercial Printing. Establishments which publish **only** and do no printing are included in Industry No. 288 - Publishing Only.

A list of establishments classed in this industry, (1964) may be found on pp. 72-76 of this report.

**Note:** "Manufacturing activity" in this report refers mainly to the publishing and printing activity and "Shipments of goods of own manufacture" consist mainly of revenue from publishing and printing including the advertising revenue derived from the publication of newspapers or periodicals. The census of the Publishing and Printing industry is part of the census of manufactures and the terminology used in this report has been kept in conformity with that used for manufacturing.

Cette industrie est une des quatre industries du groupe: Imprimerie, édition et industries connexes. Les autres industries du groupe sont: Imprimerie commerciale; Clichage, composition et reliure commerciale; et Édition seulement.

L'industrie Édition et impression, comprend les établissements qui s'occupent principalement d'édition et impression de journaux, périodiques, livres, almanachs, cartes, guides et autres produits du genre. Les établissements qui s'occupent principalement d'imprimer des journaux, magazines, livres, etc., pour des éditeurs, sont compris dans l'industrie 286 - Imprimerie commerciale. Les établissements qui publient **seulement** et n'impriment pas sont compris dans l'industrie 288 - Édition seulement.

Une liste des établissements classés dans cette industrie (1964) se trouve aux pp. 72-76 du présent rapport.

**Nota:** La "Fabrication" dans le présent rapport vise principalement l'édition et l'impression et les "Expéditions de marchandises de propres fabrication" comprennent en majeure partie le revenu provenant de l'édition et de l'impression, y compris le revenu provenant de la publicité dans les journaux et périodiques. Le recensement de l'industrie: Édition et impression, est classée dans le recensement des manufactures et la terminologie employée dans le présent rapport a été adaptée à celle de la fabrication.

# CONCEPTS AND DEFINITIONS

Census of Manufactures

## CONCEPTS ET DÉFINITIONS

Recensement des manufactures

### General

The Census of Manufactures is an annual mail survey covering Canada's Manufacturing Industries. It is based on the Standard Classification of Industries and full details concerning the system may be found in the Standard Industrial Classification manual, Catalogue No. 12-501 which is available from the Queen's Printer or the Dominion Bureau of Statistics. In summary, the Classification as it relates to the manufacturing industries provides for a breakdown into 140 industries arranged in 20 major industry groups. Of the 140 (3 digit) industries, 18 are further broken down into 56 (4 digit) sub classes. At the Canada level, principal statistics are collected and compiled for 176 separate industries. They cannot all be published separately by province, however, because of the confidential nature of the data in certain provinces.

The reporting unit for the Census is designated as the **establishment** (see definition of "Establishment" in following section) and a return is requested from every establishment classified to a manufacturing industry. Although respondents are required to submit reports covering the calendar year, financial year reports other than the calendar year are accepted in instances where respondents find it impossible to supply calendar year data from accounting records. When an establishment is operated for only part of a year a report is required covering the period of operation.

There are four different questionnaires used in the Census of Manufactures; (a) short form (b) long form (c) head office questionnaire and (d) commodity questionnaire. The short and long forms are used to obtain principal statistics and commodities shipped from establishments classified to manufacturing industries and differ only in the amount of detail requested. The short form is a single-sheet questionnaire sent to small manufacturers generally reporting shipments of less than \$100,000; this cut-off, however, varies somewhat between industries. The head office questionnaire is generally used for company head offices and/or auxiliary units separately located from the manufacturing establishment(s), (see following notes on Head offices and auxiliary units). The Commodity questionnaire is used to survey certain establishments which are coded (on the basis of their principal activity) to industries other than manufacturing in the Standard Industrial Classification system, but which undertake some manufacturing as a subsidiary activity. This single-sheet questionnaire is designed to collect information on the quantity and value of

### Généralités

Le recensement des manufactures est une enquête par correspondance effectuée auprès des industries manufacturières du Canada. Il se fonde sur la Classification type des industries expliquée en détail dans le Manuel de la Classification type des industries, numéro de catalogue 12-501, qu'on peut se procurer chez l'Imprimeur de la Reine ou au Bureau fédéral de la statistique. La Classification répartit les industries manufacturières en 140 industries disposées en 20 grands groupes. Sur les 140 industries (3 chiffres) 18 sont en outre subdivisées en 56 sous-groupes (4 chiffres). À l'échelon national, la statistique est réunie et établie à l'égard de 176 industries distinctes. Il arrive qu'on ne puisse pas publier tous ces chiffres séparément, par province, en raison de leur caractère confidentiel dans certains cas.

Pour les besoins du recensement, l'unité déclarante est l'**établissement** (voir définition dans la section suivante) et chaque établissement attribué à une industrie quelconque doit faire une déclaration. Bien que les répondants doivent soumettre des rapports fondés sur l'année civile, on accepte des rapports fondés sur l'exercice financier là où les répondants ne peuvent, d'après leurs écritures, fournir les chiffres fondés sur l'année civile. Lorsque l'établissement n'est en activité que durant une partie de l'année, il doit faire rapport sur la durée de son activité.

Le recensement des manufactures utilise quatre questionnaires différents: a) formule abrégée, b) formule non abrégée, c) formule du siège social et d) formule-produits. Les formules abrégées et non abrégées servent à obtenir la statistique principale et les produits expédiés des établissements attribués aux industries manufacturières; elles ne diffèrent que par la somme de détails demandée. La formule abrégée n'a qu'une page; elle est envoyée aux petits manufacturiers qui déclarent en général des expéditions de moins de \$100,000. Cette limite varie toutefois quelque peu d'une industrie à l'autre. Le Questionnaire du siège social sert généralement aux sièges sociaux des sociétés et (ou) aux unités auxiliaires situés en dehors du ou des établissements manufacturiers (voir les notes qui suivent sur les sièges sociaux et les unités auxiliaires). Le Questionnaire-produits sert à enquêter certains établissements classés (d'après leur principale activité) dans des industries autres que la fabrication suivant le système de la Classification type des industries mais qui, à titre d'activité secondaire, font un peu de fabrication. Ce questionnaire n'a qu'une page et vise à obtenir des renseignements sur la quantité et la valeur des mar-

goods of own manufacture shipped by such establishments in order to achieve full coverage of domestically manufactured commodities (see the following note under Shipments).

The results of the Census are presented in some 140 publications. In addition to these annual industry publications there are annual summary reports for Canada and the provinces and special reports giving principal statistics by detailed geographic areas, by type of ownership and size of establishment. A special annual report covering the shipments of all manufactured commodities arranged in alphabetical order is also published.

Since 1960 the following major changes have been implemented in the Census of Manufactures: (a) a revised Standard Industrial Classification (b) a new establishment definition and (c) an extension of the establishment definition to cover the non-manufacturing activities of manufacturing establishments. The statistics presented in the various 1963 reports reflect the complete implementation of these changes and enable comparisons to be made with the years 1961 and 1962. For a complete description of the procedures followed in establishing the revised series, reference should be made to the Explanatory Notes included in the 1960, 1961 and 1962 industry publications. The statistical framework within which the Census of Manufactures is now carried out is based on the following concepts and definitions which have been developed as part of a general programme to achieve a fully integrated system of economic statistics.

### **Establishment**

A manufacturing establishment is typically a factory, mill or plant principally engaged in manufacturing activities. The majority of such establishments are firms but many firms have more than one establishment. Such firms are requested to submit a separate Census of Manufactures report for each manufacturing establishment which can meet the reporting requirements embodied in the following definition of the "establishment":

"The smallest unit which is a separate operating entity capable of reporting the following principal statistics:

Materials and supplies used

Goods purchased for resale as such

Fuel and power consumed

Number of employees and salaries and wages

Man-hours worked and paid

Inventories

Shipments or sales."

chandises fabriquées et expédiées par ces établissements, en vue de couvrir tous les produits fabriqués au pays (voir la note qui suit sous Expéditions).

Les résultats du recensement paraissent dans quelque 140 publications annuelles sur l'industrie, dans des rapports récapitulatifs annuels pour le Canada et les provinces et dans des rapports spéciaux qui contiennent la statistique principale par région géographique détaillée, forme juridique et taille de l'établissement. Un rapport annuel spécial est aussi publié sur les expéditions de toutes les fabrications disposées dans l'ordre alphabétique.

Depuis 1960, les importantes modifications suivantes ont été apportées au recensement des manufactures: a) une Classification type (révisée) des industries, b) une nouvelle définition de l'établissement et c) l'extension de la définition de l'établissement à l'activité non manufacturière des établissements manufacturiers. La statistique publiée dans les divers rapports de 1963 reflète la mise en oeuvre complète de ces modifications et permet d'établir des comparaisons avec les années 1961 et 1962. On trouvera dans les publications industrielles de 1960, 1961 et 1962 des Notes explicatives donnant une description complète des méthodes employées dans l'établissement des séries révisées. Les cadres statistiques à l'intérieur desquels le recensement des manufactures est maintenant effectué sont fondés sur les concepts et définitions suivants, établis comme partie d'un programme général visant à la réalisation d'un système pleinement intégré de statistiques économiques.

### **L'établissement**

Un établissement manufacturier est typiquement une fabrique ou une usine dont l'activité principale est la fabrication. La plupart de ces établissements sont des firmes mais plusieurs firmes comptent plus d'un établissement. Ces firmes doivent soumettre un rapport distinct au recensement des manufactures à l'égard de chaque établissement manufacturier pouvant répondre aux exigences de la définition suivante de l'"établissement":

"La plus petite unité ou entité exploitante distincte pouvant déclarer les statistiques principales suivantes:

Matières et fournitures utilisées

Marchandises achetées pour la revente comme telles

Combustible et énergie consommés

Nombre d'employés et leur paie

Heures-homme ouvrées et payées

Stocks

Expéditions ou ventes."

Each establishment is required to report on all the activities carried out within its accounting boundaries (except income from investments such as rent, interest and dividends) and data on the different activities (manufacturing, trading in goods not of own manufacture, construction by own labour force, revenue from services, etc.) are requested to be reported separately. It should be noted that the statistics for separate activities are not completely consistent since some respondents cannot distinguish, in their records, materials, shipments and inventories relating solely to their own manufacturing activities. For example, inventory of goods purchased for re-sale may not be distinguishable from inventory of own manufactured goods. Complete consistency, therefore, can be obtained only at the "all operations" (total activity) level and for studies or statistical measures requiring accurate coordinated data, the "total" statistics should be used.

The number of establishments represents the number of operating units that are principally engaged in the activities of the manufacturing industries to which they have been classified. These units do not necessarily represent the total number engaged in the production of a commodity mainly produced in a certain industry. Some commodities are produced as secondary products in other manufacturing and non-manufacturing industries. It should be noted that head offices and auxiliary units which are surveyed separately are not included in the establishment count, (see following notes on head offices and auxiliary units).

#### **Head Offices and Auxiliary Units**

All head offices and auxiliary units of companies classified to the manufacturing industries such as sales offices, administrative offices, warehouses, laboratories, etc. are now surveyed as part of the Census of Manufactures.

These head offices and auxiliary units are either included in an establishment report or are surveyed by means of the head office questionnaire. The former is the most common case where a single establishment firm has its executive personnel, sales office, etc. located at the site of the manufacturing plant (establishment). The special head office questionnaire is generally used where a firm, regardless of the number of establishments, has separately located offices or auxiliary units. Such offices or units do not constitute establishments within the Census of Manufactures as they do not normally generate operational revenues, but give rise only to costs of operations (mainly salaries and wages) which are automatically included in the value of shipments or sales. Although not considered as establishments, and hence, not included in the "establishment" count for an industry, the operational costs are reflected in

Chaque établissement doit présenter une déclaration embrassant toutes les activités exercées dans ses limites comptables (à l'exception du revenu des investissements tels que loyers, intérêt et dividendes) et les chiffres relatifs aux différentes activités (fabrication, commerce de marchandises non produites à la fabrique, travaux de construction exécutés par la main-d'oeuvre de l'établissement, recettes découlant de services, etc.) doivent être déclarés séparément. À noter que la statistique relative à chaque activité n'est pas entièrement convergente parce que certains répondants ne peuvent, d'après leurs écritures, départager les matières, les expéditions et les stocks uniquement connexes à leur propre activité manufacturière. Ils ne pourront, par exemple, distinguer de leur propre fabrication, les marchandises achetées en vue de les revendre. Il s'ensuit qu'on ne peut atteindre à une convergence parfaite qu'à l'échelon de "toutes opérations" (activité totale) et que dans les études et les mensurations statistiques exigeant des données exactement coordonnées, il faut recourir à la statistique "totale".

Le nombre d'établissements représente le nombre d'unités d'exploitation engagées principalement dans les activités des industries manufacturières auxquelles elles ont été attribuées. Ces unités ne représentent pas nécessairement toutes celles qui sont engagées dans la fabrication d'une marchandise surtout produite dans une certaine industrie. Certaines marchandises sont produites comme produits secondaires dans d'autres industries manufacturières et non manufacturières. Il faut remarquer que les sièges sociaux et les unités auxiliaires qui sont enquêtés à part ne sont pas comptés avec les établissements. (Voir les notes qui suivent au sujet des sièges sociaux et des unités auxiliaires.)

#### **Sièges sociaux et unités auxiliaires**

Tous les sièges sociaux et toutes les unités auxiliaires de sociétés classées parmi les industries manufacturières, tels les comptoirs de vente, les bureaux d'administration, les entrepôts, les laboratoires, etc., sont maintenant enquêtés pour les besoins du recensement des manufactures.

Ces sièges sociaux et ces unités auxiliaires sont inclus dans un rapport d'établissement ou sont enquêtés au moyen du questionnaire destiné au siège social. Le premier questionnaire sert le plus souvent là où le personnel de direction, le bureau de vente, etc. d'une firme à établissement unique sont à la fabrique (établissement). Le questionnaire spécial à l'usage des sièges sociaux sert généralement là où les bureaux ou les unités auxiliaires d'une firme sont situés ailleurs qu'à la fabrique quel que soit le nombre de ses établissements. Pour les besoins du recensement, ces bureaux ou unités ne constituent pas des établissements puisque normalement ils ne produisent pas de recettes d'exploitation et ne donnent lieu qu'à des frais (principalement traitements et salaires) qui sont automatiquement inclus dans la valeur des expéditions et des ventes. Bien qu'ils ne soient pas considérés comme des établissements et, partant, qu'ils ne soient pas inclus dans le nombre d'"établissements" que compte une

either the "Industry" statistics (3 or 4 digit level) or the "Major group" statistics (2 digit level) according to the following rules:

(a) In the case of single establishment firms, statistics for separately located offices and units are classified to the same industry (3 or 4 digit) as the establishment;

(b) In the case of multi-establishment firms, the statistics for such offices and units are coded to the same industry as the establishments of the firm, when all establishments are in the same industry (3 or 4 digit). When establishments of such firms are coded (1) to different industries within a major group, (2) to industries in different major groups or (3) to industries in different divisions of the Standard Industrial Classification, then the statistics are included in the major group totals (2 digit level) in which the major part of the company's operations are classified. Although this may result in some distortion of major group statistics in the case of (2) and (3) the statistics at the industry (3 or 4 digit) level in all cases will be left free of these company-wide data.

#### Employees

##### (a) Production and related workers - Manufacturing activities

In addition to those engaged in production and assembling activities, they include those employed in storing, inspecting, handling, packing, warehousing, etc. They also include employees engaged in maintenance, repair, janitorial and watchman services and line supervisors (working foremen) engaged in similar work to that of the employees they supervise. For those establishments reporting on the "long" form, production and related workers engaged in manufacturing activity are reported as those receiving pay during the last pay period of each month, an average for the year being obtained by summing the monthly figures and dividing by 12. This procedure is followed even though the establishment did not operate in all months in order to arrive at equivalent annual full-time employment. The numbers are somewhat affected by turnover, in that employment is overstated when an employee changes employment during a pay period. In the case of those establishments reporting on the "short" form, respondents are requested to report average annual figures. The man-hours of production and related workers in manufacturing activity represent total man-hours paid (total hours at work during the calendar year plus hours not worked but nevertheless paid for, such as paid vacations, sick leave, statutory holidays, etc.). Data on man-hours are not collected from establishments reporting on the short form. Man-hours for these establishments are estimated on the basis of ratios derived from the 1958 census. During this census all establishments reported on the long form. In reporting overtime hours, respondents are requested to report only hours actually at work. It should be noted that the division of hours paid into production and

industrie, leurs frais d'exploitation se reflètent dans la statistique de l'"Industrie" (3 ou 4 chiffres) ou dans celle du "Grand groupe" (2 chiffres), suivant les règles suivantes:

a) Dans le cas des firmes à établissement unique, la statistique des bureaux et des unités logés ailleurs qu'à l'établissement est attribuée à la même industrie (3 ou 4 chiffres) que celle de l'établissement;

b) Dans le cas des firmes à établissements multiples, la statistique de ces bureaux et unités est attribuée à la même industrie que celle des établissements de la firme, lorsque tous les établissements sont dans la même industrie (3 ou 4 chiffres). Lorsque les établissements de ces firmes sont attribués 1° à différentes industries d'un grand groupe, 2° à des industries de différents grands groupes ou 3° à des industries de différentes divisions de la Classification type des industries, la statistique est incorporée au chiffre du grand groupe (2 chiffres) dans lequel la partie dominante des opérations de la société est classée. Bien que cela puisse fausser quelque peu la statistique des grands groupes dans le cas de 2° et 3°, la statistique au niveau de l'industrie (3 ou 4 chiffres) dans tous les cas demeure libre de ces données relatives à la firme.

#### Employés

##### a) Ouvriers de la production et assimilés - activité manufacturière

En plus de ceux qui s'adonnent à la production et au montage, ce groupe comprend les ouvriers de l'entreposage, de l'inspection, de la manutention, de l'emballage, de l'emmagasinage, etc., de même que ceux des services de l'entretien, des réparations, de la conciergerie, les gardiens et les surveillants (contremaîtres actifs) qui font le même travail que les employés qu'ils dirigent. Pour les établissements faisant rapport sur la formule longue, les ouvriers de la production et assimilés qui s'adonnent à l'activité manufacturière sont déclarés comme recevant une paie durant la dernière période de paie du mois, et la moyenne de l'année s'obtient en divisant le total des chiffres mensuels par 12. Cette méthode s'applique même si l'établissement n'a pas été en activité durant tous les mois afin d'en arriver à un équivalent d'emploi annuel de plein temps. Le roulement influe quelque peu sur les chiffres en ce sens que l'emploi est surévalué lorsqu'un travailleur change d'emploi durant une même période de paie. Dans le cas des établissements faisant rapport sur la formule abrégée, les répondants doivent fournir des chiffres annuels moyens. Les heures-homme des ouvriers de la production et assimilés dans l'activité manufacturière représentent les heures-homme totales payées (heures totales au travail durant l'année civile plus toutes les heures non ouvrées mais rémunérées telles que les vacances, les congés de maladie, les jours fériés, etc.). Les établissements employant la formule abrégée ne fournissent pas de données sur les heures-homme. Pour ceux-ci, les heures-homme sont évaluées à partir des taux résultant du recensement de 1958. Pour cette enquête, tous les établissements avaient fait leurs déclarations sur la formule non abrégée. Quant aux heures supplémentaires, le répondant est prié de ne déclarer que les heures effectives de travail. À noter que, divisée par les heures-homme rémunérées, la paie des ouvriers de la

related workers payrolls results in average hourly earnings and does not represent hourly wage rates which are collected and published by the Department of Labour and which are based on selected occupations.

**(b) Production and related workers – Non-manufacturing activities**

Such employees include those on manufacturing establishments' payrolls engaged in activities such as construction undertaken for the use of these establishments, some outside piece-workers employed in certain industries, logging employees who are reported as part of a sawmilling establishment and any other production workers who are not engaged in manufacturing-type operations.

**(c) Administrative and office employees**

This category includes all executive and supervisory officials such as presidents, vice-presidents, comptrollers, secretaries, treasurers, etc., together with managers, professional, technical and research employees, superintendents and factory supervisors above the line supervisor or working foreman level, and clerical staffs. Also included are employees in activities such as advertising, credit collections, purchasing, personnel, legal, medical, etc. It should be noted that prior to 1961 this category also included working owners and partners. Also included in this category are employees located at head offices or auxiliary units separately located from the establishment; these are generally included in the figures for the province in which they are located according to the rules outlined under "Head offices and auxiliary units" above.

**(d) Sales and distribution workers**

This category includes office personnel whose salaries are charged to selling expense, travelling salesmen, driver salesmen, truckdrivers and their helpers, etc. It may also include some sales employees who are reported as part of a manufacturing establishment but are not working at the establishment's location. These are generally broken down by province in cases where more than 15 employees are involved in any one province. The figures exclude persons working on a commission basis who are not considered regular employees of the establishment.

**(e) Total employees**

This total comprises the foregoing categories including employees located at separately located head offices and auxiliary units. The numbers of employees included under categories (b), (c) and (d) are reported in the form of annual averages and represent as closely as possible full time employment; adjustments are made when reported figures indicate the existence of part time or seasonal employment. In all the above categories, figures on employment refer to the calendar year whether or not

production et assimilés donne le gain horaire moyen et ne représente pas les salaires horaires relevés et publiés par le ministère du Travail et qui se fondent sur un choix de professions.

**b) Ouvriers de la production et assimilés – activité non manufacturière**

Parmi ces employés sont ceux qui émargent à la feuille de paie des établissements manufacturiers et qui sont engagés dans des travaux de construction pour l'usage de ces établissements, certains travailleurs à la pièce de l'extérieur employés dans certaines industries, les employés de l'abattage au service d'une scierie et tous autres ouvriers de la production qui ne sont pas engagés dans la fabrication proprement dite.

**c) Employés de l'administration et du bureau**

Cette catégorie comprend les membres du personnel de direction et de surveillance tels que les présidents, les vice-présidents, les contrôleurs, les secrétaires, les trésoriers et autres de même que les administrateurs, les professionnels, les techniciens, les chercheurs, les surintendants et les surveillants de fabrique d'une classe supérieure à celle des contre-maîtres actifs, et les employés de bureau. Elle comprend aussi les employés de la publicité, du recouvrement, de l'achat, du personnel, les employés du personnel juridique et médical, et autres. À noter que jusqu'à 1961, cette catégorie comprenait aussi les propriétaires et les associés actifs. Elle comprend en outre les employés qui travaillent aux sièges sociaux ou dans les unités auxiliaires situés ailleurs qu'à l'établissement, qui sont généralement compris dans les chiffres de la province où ils travaillent, suivant les règles énoncées sous "Sièges sociaux et unités auxiliaires" ci-dessus.

**d) Employés à la vente et à la distribution**

Cette catégorie comprend les employés de bureau dont les traitements sont imputés sur le compte des frais de vente, les voyageurs de commerce, les vendeurs livreurs, les conducteurs de camion et leurs aides, et autres. Elle peut aussi comprendre certains employés à la vente déclarés comme membres du personnel de l'établissement manufacturier mais qui travaillent ailleurs. Ces employés sont ordinairement répartis par province là où dans une province ils sont plus de 15. Les chiffres ne comprennent pas les personnes qui travaillent à commission, celles-ci ne comptant pas comme employés réguliers de l'établissement.

**e) Total des employés**

Ce chiffre comprend les catégories ci-dessus mentionnées y compris les employés qui travaillent aux sièges sociaux et dans les unités auxiliaires situés ailleurs qu'à l'établissement. Le nombre d'employés des catégories b), c) et d) est donné sous forme de moyennes et représente d'aussi près que possible un emploi de plein temps; des rectifications sont apportées lorsque les chiffres déclarés indiquent qu'il y a emploi à temps partiel ou saisonnier. Dans toutes les catégories ci-dessus, les chiffres relatifs à l'emploi

other establishment statistics can only be reported on a fiscal year other than the calendar year.

### Working Owners or Partners

These are not now included in the statistics of employees and salaries and wages. There is some duplication in numbers when a person owns more than one establishment and is reported as a working owner on each Census return. Withdrawals of working owners are defined as amounts withdrawn by owners or partners for normal living expenses excluding withdrawals for payment of income tax.

### Salaries and Wages

Salaries and wages refer to gross earnings of employees **before** deductions for income tax and employees contributions to social services such as sickness, accident and unemployment insurance, pensions, etc. They include all salaries, wages, bonuses, profits shared with employees, the value of room and board where provided, commissions (paid to regular employees only) as well as any other allowance forming part of the worker's earnings. Payments for over-time are included. Figures on salaries and wages refer to the calendar year.

### Fuel and Electricity

Figures for fuel refer to amounts actually used (including fuel used in cars, trucks, locomotives, etc.), not to purchases unless the quantities are substantially the same. **Any fuel and electricity produced by establishments for internal consumption are not included in the total cost.** Values represent laid down cost at the establishment including freight, duty, etc. Although fuel and electricity used is considered part of manufacturing activity it should be noted that it also includes relatively small amounts used in non-manufacturing activities since these cannot be reported separately.

### Materials and Supplies

#### (a) Manufacturing activities

Figures represent quantities and laid down cost values, at the establishment, of materials, supplies and purchased components owned and used during the year in manufacturing activities and related processes. These statistics represent only commodity items or physical goods (cost of services or overhead charges such as advertising, insurance, depreciation, etc. are not included) whether purchased from others or received as transfers (in the form of materials, components or semi-processed goods) from other establishments of the reporting company. Included are maintenance

sont ceux de l'année civile bien que la statistique d'autres établissements puisse n'être déclarée qu'à l'égard d'un exercice autre que l'année civile.

### Propriétaires et associés actifs

La statistique des employés et des traitements et salaires s'étend maintenant à ces personnes. Il y a quelque double emploi numérique lorsqu'une personne est propriétaire de plus d'un établissement et s'inscrit comme propriétaire actif sur chaque rapport de recensement. Les retraits des propriétaires actifs sont les sommes retirées par les propriétaires ou les associés pour leurs frais de subsistance ordinaires, sans toutefois celles qui servent à l'acquittement de l'impôt sur le revenu.

### Traitements et salaires

Les traitements et salaires représentent le gain brut des employés **avant** les déductions d'impôt sur le revenu et les contributions des employés à des services sociaux tels que les assurances maladie, accident et chômage, pensions, etc. Ils comprennent tous les traitements, salaires, bonis, bénéfiques partagés avec les employés, la valeur de la chambre et de la pension là où elles sont fournies, les commissions (versées aux employés réguliers seulement) de même que toute autre allocation faisant partie de la rémunération du travailleur. La rémunération pour temps supplémentaire est incluse. Les chiffres des traitements et salaires sont ceux de l'année civile.

### Combustible et électricité

Les chiffres relatifs au combustible désignent les quantités effectivement consommées (y compris le combustible ou le carburant utilisé par les voitures, les camions, les locomotives, etc.) et non les quantités achetées à moins qu'elles soient sensiblement les mêmes. **Le combustible et l'électricité produits par les établissements pour consommation interne ne sont pas inclus dans le coût total.** Les valeurs représentent le coût à l'établissement y compris le transport, la douane, etc. Bien que le combustible et l'électricité consommés soient considérés comme faisant partie de l'activité manufacturière, il faut remarquer que certaines petites quantités qui ne peuvent être déclarées distinctement servent à des activités non manufacturières.

### Matières et fournitures

#### a) Activité manufacturière

Les chiffres représentent les quantités et le coût débarqué, à l'établissement, des matières, fournitures et éléments achetés appartenant à celui-ci et employés durant l'année dans la fabrication et les processus assimilés. Cette statistique ne représente que les articles ou biens matériels (le coût des services ou les frais généraux tels que la publicité, les assurances, l'amortissement, etc. ne sont pas inclus) qu'ils aient été achetés d'autrui ou reçus à titre de transferts (sous forme de matières, éléments ou produits semi-ouvrés ou intermédiaires) d'autres établissements de la société déclarante. Sont inclus les fournitures d'entretien et de

and repair supplies not chargeable to fixed assets accounts and any amounts charged by other establishments for work done on materials owned by the reporting establishment. Cost of repairs or maintenance done by outside contractors and cost of returnable containers are not included.

**(b) Non-manufacturing activities**

**1. Purchases for re-sale as such**

Figures represent cost of materials or products purchased from others by the reporting establishment (or received as transfers from other establishments of the reporting company) for re-sale as such in the same condition as purchased. Included are any finished products received on consignment from other countries.

**2. Other materials and supplies used**

Figures represent the cost of materials and supplies, if any, used in new construction and in the production of machinery and equipment (for the use of the reporting establishment) by the establishment's own employees. Included are materials used for any capital repairs and alterations carried out by the establishment's employees. Amounts paid to outside contractors for construction and repair work are not included nor is the cost of purchased machinery and equipment. Also included is the cost of office supplies not chargeable to fixed assets accounts and the cost of such other items of materials and supplies used as food, beverages and supplies for establishment-operated cafeterias and lunch counters, first aid and medical supplies, laboratory supplies, etc.

**Shipments**

**(a) General**

The figures represent revenue from all production, sales, services and related activities of reporting establishments with shipments valued in Canadian dollars at the point at which the establishment relinquishes control. The unsold portion at year end of consignment shipments in Canada is treated as inventory and not as shipments but all shipments to foreign countries for which the form B13 "Customs Canada Export Entry" has been completed, are treated as shipments.

In those industries where work on principal products extends over a relatively long period, (Fabricated Structural Metal Industry, Aircraft and Parts Manufacturers, Railroad Rolling Stock Industry and Shipbuilding and Repair Industry) the value of production rather than the value of shipments is recorded. There are certain establishments in other industries which also operate on a basis of progress payments. For these establishments, shipments are also adjusted to work put in place on the basis of the net change in progress payments over the year.

réparation non imputables sur le compte des biens fixes et tous montants versés à d'autres établissements contre de l'ouvrage fait sur des matières appartenant à l'établissement déclarant. Le coût des travaux de réparation et d'entretien exécutés par des entrepreneurs de l'extérieur et celui des contenants restituables n'est pas inclus.

**b) Activité non manufacturière**

**1. Achats de marchandises en vue de leur revente telles quelles**

Les chiffres représentent le coût des matières ou des produits achetés d'autrui par l'établissement déclarant (ou reçus à titre de transferts d'autres établissements de la société déclarante) en vue de les revendre tels quels, dans l'état où il les a achetés. Sont inclus les produits finis reçus en consignment d'autres pays.

**2. Autres matières et fournitures utilisées**

Les chiffres représentent le coût des matières et fournitures, s'il y a lieu, utilisées dans la construction neuve et dans la production de machines et d'outillage (pour l'usage de l'établissement déclarant) par les employés des établissements. Sont incluses les matières servant aux réparations ou à la modification des biens effectuées par les employés de l'établissement. Les sommes versées à des entrepreneurs de l'extérieur contre des travaux de construction et de réparation et le coût des machines et de l'outillage achetés ne sont pas inclus. Sont aussi inclus le coût des fournitures de bureau non imputable sur le compte des immobilisations et le coût d'autres matières et fournitures telles que provisions, boissons et fournitures pour les cafétérias et les buffets exploités par l'établissement, les fournitures de premiers soins et médicales, les fournitures de laboratoire, etc.

**Expéditions**

**a) Généralités**

Les chiffres représentent les recettes découlant de toute la production, des ventes, des services et des activités assimilées des établissements déclarants, les expéditions étant évaluées en dollars canadiens au point où l'établissement en cède l'appartenance. La partie invendue à la fin de l'année des expéditions en consignment au Canada est déclarée comme stock et non comme expéditions mais toutes les expéditions vers des pays étrangers à l'égard desquelles une formule B13 "Douanes, Canada, déclaration d'exportation" a été établie sont déclarées comme expéditions.

Dans les industries où le travail relatif aux principaux produits est relativement de longue durée (Industrie de la fabrication des éléments de charpente métallique, Manufacturiers d'avions et d'éléments, Manufacturiers de matériel roulant de chemin de fer, Construction et réparation de navires), la valeur de la production plutôt que celle des expéditions est inscrite. Certains établissements dans d'autres industries sont exploités sur une base d'acomptes à valoir. Dans leur cas, les expéditions sont ajustées aux ouvrages mis en place suivant la variation nette des acomptes à valoir durant l'année.

**(b) Shipments of goods of own manufacture**

These figures represent shipments of goods made from own materials either in the reporting establishments or by other manufacturers on the basis of a charge to the reporting establishments for work done. Included are revenue from repair and custom work, amounts received in payment for work done on materials owned by other establishments and the cost (book value) of any goods shipped on a rental basis.

All products and by-products of own manufacture shipped from the establishment are covered, including transfer shipments to sales outlets, distributing warehouses or to other manufacturing plants of the reporting firm, when such units are treated as separate establishments. The value of shipments are net of returned goods, discounts, returns, allowances, sales tax and excise taxes and duties, returnable containers and charges for outward transportation by common or contract carriers. Transportation or delivery expense incurred by the reporting establishment's own carriers are included.

Shipments of goods of own manufacture of establishments which are coded to some other division of the Standard Industrial Classification (on the basis of principal activity) but which are engaged in manufacturing as a subsidiary activity are collected by means of the Commodity questionnaire referred to earlier. Such shipments together with shipments of goods of own manufacture of establishments forming the universe of manufacturing industries are compiled and recorded in the various industry publications.

**(c) Shipments of goods not of own manufacture**

These figures represent the net selling value at establishment (net of discounts, returns, allowances, sales taxes and excise duties and taxes and transportation charges by common or contract carriers) of all products or materials (including products transferred from other establishments of the reporting firm) sold as such in the same condition as purchased or received as transfers. For those industries which ship such goods on a rental basis, the value of shipments represents the book value of these goods. All sales of consignment goods from other countries are included.

**(d) Other revenue**

Figures represent the book value of fixed assets, if any, (new construction and machinery and equipment including major repairs, alterations, additions, modifications, installation and assembly work) produced during the year for the use of reporting establishments by the establishment's own employees and for which depreciation accounts are maintained. Included also are any revenues from the sale of electricity and from any operations

**b) Expéditions de marchandises produites à la fabrique**

Ces chiffres représentent les expéditions de produits fabriqués à l'établissement déclarant, de matières premières lui appartenant ou par d'autres fabricants contre paiement par cet établissement pour le travail exécuté. Sont incluses les recettes découlant des travaux de réparation et à forfait, les sommes reçues contre du travail exécuté avec des matières appartenant à d'autres établissements et le coût (valeur comptable) de toutes les marchandises expédiées sur une base de location.

Tous les produits et sous-produits fabriqués et expédiés par l'établissement sont couverts, y compris les transferts aux débouchés de vente, aux entrepôts de distribution ou à d'autres fabriques de la société déclarante, lorsque ces unités sont déclarées comme établissements distincts. La valeur des expéditions ne comprend pas les reprises, les escomptes, les laissés pour compte, la taxe de vente, les taxes et droits d'accise, les contenants restituables et les frais de transports vers l'extérieur par des transporteurs publics ou à forfait. Les frais de transport ou de livraison des transporteurs de l'établissement sont compris.

Les expéditions de marchandises fabriquées par des établissements classés dans quelque autre division de la Classification type des industries (suivant l'activité principale) mais engagés dans la fabrication à titre d'activité secondaire sont obtenues au moyen de la Formule-produits mentionnée ci-dessus. Ces expéditions, réunies à celles des produits fabriqués par les établissements qui constituent l'univers des industries manufacturières, sont calculées et consignées dans les diverses publications sur l'industrie.

**c) Expéditions de produits non fabriqués par l'établissement**

Les chiffres ici représentent la valeur de vente nette à l'établissement (sans les escomptes, les laissés pour compte, les rabais, les taxes de vente et les taxes et droits d'accise, et les frais de transport par des transporteurs publics ou à forfait) de tous les produits ou matières (y compris les produits transférés d'autres établissements de la société déclarante) vendus dans l'état où ils ont été achetés ou reçus à titre de transferts. Dans le cas des industries qui expédient de telles marchandises sur une base de location, la valeur des expéditions représente la valeur comptable des marchandises. Toutes les ventes en consignation en provenance d'autres pays sont incluses.

**d) Autre revenu**

Les chiffres représentent la valeur comptable des biens fixes, s'il y a lieu, (construction, et machines et équipements neufs, y compris les réparations importantes, les modifications, les rajouts, les transformations et le travail d'installation et de montage) produits durant l'année pour l'usage des établissements déclarants par leurs propres employés et dont des comptes d'amortissement sont maintenus. Sont aussi inclus tous les revenus de la vente d'électricité et

performed by the establishment's own employees, such as revenue from goods produced or purchased for rental (the book value of such goods are included as part of shipments of goods of own manufacture or shipments of goods not of own manufacture), servicing revenues, commissions on sales (when not included in value of sales), revenue for company-operated cafeterias and lunch counters and revenue from outside installation or construction work not related to the establishment's own products, sale of used materials (excluding sale of used fixed assets) research and development work, etc. As mentioned previously the figures do not include non-operating revenue such as rent, dividends, interest, etc.

## **Inventories**

### **(a) Manufacturing activities**

Values represent the book values of manufacturing inventory owned in Canada. Inventories held for which progress payments have been received are not included. Where progress payment accounts are maintained, the change in these accounts is treated as a net adjustment to shipments. Figures consist of inventory owned at the plant and at warehouses or selling outlets which are treated as extensions of establishments for the purpose of reporting shipments. Inventory owned in transit in Canada or on consignment in Canada is included. Goods shipped abroad and held in inventory are included in shipments. Opening inventories may differ from the closing inventories of the previous year because of changes in classification, the receipt of revised data, the inclusion of new establishments and the removal of establishments which did not operate during the survey year.

### **(b) Non-manufacturing activities**

Figures represent the book value of inventory of goods purchased for re-sale as such without further processing, owned by the reporting establishments and held at plants and at any warehouses or selling outlets which are treated as extensions of establishments. Other characteristics are the same as in (a) above.

## **Value Added**

### **(a) By manufacturing activities**

Figures are compiled by deducting the cost of manufacturing materials, supplies, etc. and fuel and electricity consumed from the (value of shipments of goods of own manufacture adjusted for changes in the value of inventories of finished goods and goods in process).

### **(b) By non-manufacturing activities**

The figures are compiled by deducting the cost of goods purchased for re-sale (adjusted for changes in the value of inventories of goods pur-

de travaux exécutés par les employés de l'établissement, tels que revenus provenant de marchandises produites ou achetées en vue de leur location (leur valeur comptable fait partie de celle des expéditions de marchandises fabriquées par l'établissement ou de celle des expéditions de marchandises non fabriquées par l'établissement), les revenus provenant de services, commissions sur les ventes (lorsqu'elles ne sont pas comprises dans la valeur des ventes), les recettes des cafétérias et buffets exploités par la société, et les recettes découlant de travaux d'installation ou de construction à l'extérieur ne se rattachant pas aux produits de l'établissement, de la vente de matériel d'occasion (sans les ventes de biens fixes d'occasion), de travaux de recherche et d'application, etc. Les chiffres, on l'a vu, ne comprennent pas les revenus non d'exploitation tels que les loyers, les dividendes, l'intérêt, etc.

## **Stocks**

### **a) Activité manufacturière**

Les valeurs sont les valeurs comptables des stocks manufacturiers possédés au Canada. Les stocks gardés à l'égard desquels des acomptes à valoir ont été reçus ne sont pas inclus. Là où sont tenus des comptes, au titre des acomptes à valoir, les variations de ces comptes sont traitées comme rectifications nettes des expéditions. Les chiffres sont ceux des stocks à la fabrique et aux entrepôts et débouchés de vente considérés comme extensions des établissements pour fins de déclaration des expéditions. Les stocks en transit ou en consignation au Canada sont inclus. Les marchandises expédiées à l'étranger et gardées en stock sont incluses dans les expéditions. Les stocks d'ouverture différeront peut-être de ceux de fermeture de l'année précédente en raison des modifications apportées à la classification, à la réception de chiffres révisés, à l'inclusion de nouveaux établissements et au retrait d'établissements qui n'ont pas été en activité durant l'année observée.

### **b) Activité non manufacturière**

Les chiffres représentent la valeur comptable des stocks de marchandises achetées en vue de leur revente comme telles sans autre transformation et appartenant aux établissements déclarants et gardées à la fabrique ou dans tout entrepôt ou débouché de vente considéré comme extension de l'établissement. Les autres caractéristiques sont les mêmes que celles qui paraissent à l'alinéa a) ci-dessus.

## **Valeur ajoutée**

### **a) Activité manufacturière**

Les chiffres sont obtenus par soustraction du coût des matières destinées à la fabrication, fournitures, etc. et combustible et électricité consommés de la valeur des expéditions des produits fabriqués par l'établissement rectifiée pour tenir compte des variations de la valeur des stocks de produits finis et des produits en transformation.

### **b) Activité non manufacturière**

Les chiffres sont calculés par soustraction du coût des marchandises achetées en vue de leur revente (rectifié pour tenir compte des variations de la valeur

chased for re-sale) and the cost of non-manufacturing materials and supplies used from the value of shipments of goods not of own manufacture, plus other revenue.

**(c) By total activities**

The figures consist of value added by manufacturing activities plus value added by non-manufacturing activities. This total value added figure may, in some cases, be less than value added by manufacturing activities as a result of expenditures associated with non-manufacturing exceeding revenues from such activities or because of a decrease in inventory of goods not of own manufacture exceeding the mark-up on the sale of such goods. "Value added" is sometimes referred to as net output or net production. However, to arrive at the National Accounts concept of net production, or Gross Domestic Product at "Factor cost" it would be necessary to subtract also the cost of advertising, insurance and other business expenses which are not collected as part of the annual Census of Manufactures. "Value added" figures for the primary industries, manufacturing and construction are published in DBS publication Catalogue No. 61-202, "Survey of Production".

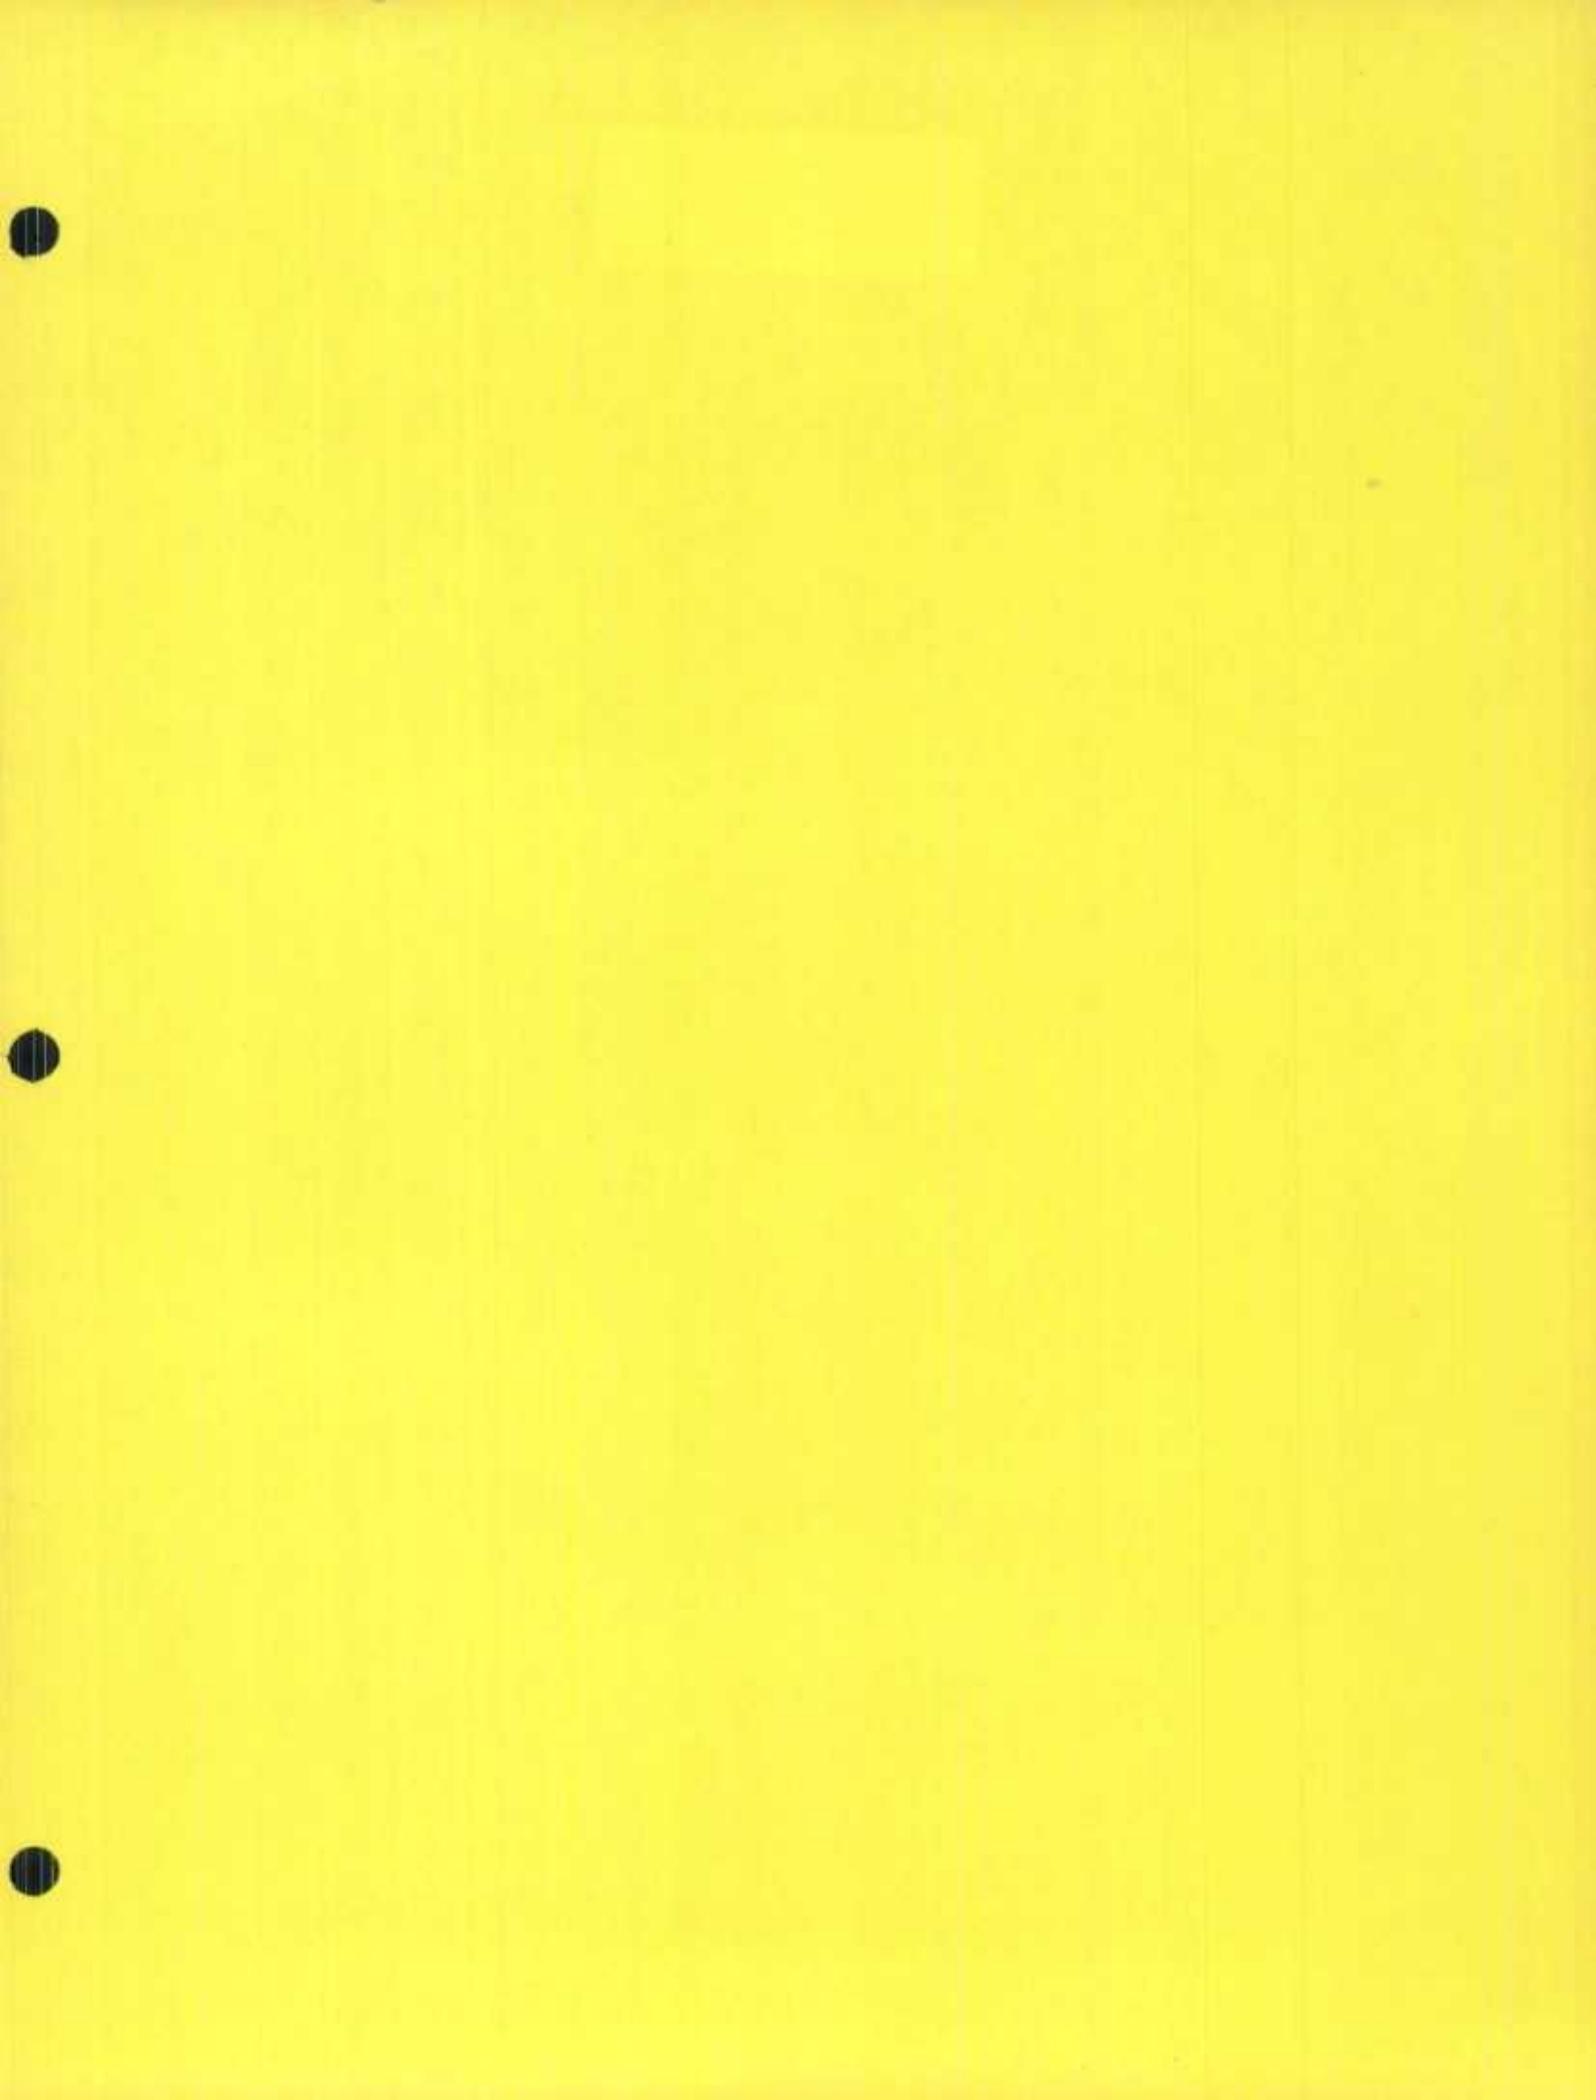

des stocks de marchandises achetées en vue de leur revente) et du coût de matières non destinées à la fabrication et fournitures employées de la valeur des expéditions de produits non fabriqués par l'établissement, plus autres recettes.

**c) Activité totale**

Les chiffres se composent de la valeur ajoutée par activité manufacturière plus la valeur ajoutée par activité non manufacturière. Ce chiffre de la valeur ajoutée totale peut, dans certains cas, être moindre que la valeur ajoutée par l'activité manufacturière lorsque les dépenses associées à l'activité non manufacturière sont plus élevées que les recettes découlant de celle-ci ou en raison d'une diminution des stocks de marchandises non fabriquées par l'établissement surpassant la majoration sur la vente de ces marchandises. On désigne parfois "valeur ajoutée" par les termes "output" net ou production nette. Toutefois, pour en arriver au concept de production nette ou produit intérieur brut au coût des facteurs dans le cadre des comptes nationaux, il faudrait soustraire en plus les frais de publicité, d'assurances et autres frais commerciaux, qui ne sont pas relevés lors du recensement annuel des manufactures. Les chiffres de la "valeur ajoutée" dans le cas des industries primaires, de la fabrication et de la construction sont publiés dans la publication du B.F.S. intitulée *Survey of production*, numéro de catalogue 61-202.
