## NOTES TO USERS

### 1. Explanatory Notes

"Explanatory Notes" on selected statistical terms may be found on the inside back cover of this publication. These notes are based on the detailed "Concepts and Definitions" which are available free of charge from the Manufacturing and Primary Industries Division of Statistics Canada.

### 2. Deletion of Establishments without Employees

With relatively few exceptions, establishments which in previous censuses did not report payment of salaries and wages (and, by inference, had no employment) were not surveyed in the 1975 Census of Manufactures. Although this involved deleting a total of some 1,400 establishments, they accounted for only 0.03% of the shipments of all manufacturing industries in 1974. Except for the number of establishments, the effect of this change on historical comparability of census data for most industries is either non-existent or only marginal. For industries in which there is an appreciable effect, however, details are provided in the introductory text of the relevant 1975 reports in this series.

### 3. Effect of Small-Establishment Reporting on Fuel and Electricity Statistics

Users should note that information on the cost of fuel and electricity is not collected separately for small establishments but is included in "cost of materials and supplies". beginning with 1970. Although this does not affect the calculation of "value added", it does underestimate the value of fuel and electricity, especially in those industries and provinces where small establishments account for a significant proportion of the total. This may affect the statistics in Table 1, the lower employment size groups in Table 2, and Table 4, which applies to large establishments only.

### 4. Changes in Data on Working Owners and Partners, and Withdrawals

Questions on the number of working owners and partners were dropped from the short form (for small establishments) in 1970. A study of past data showed that, for each establishment reporting withdrawals, it would be sufficiently accurate to impute one working owner for each establishment classified as an "individual ownership" and two working owners or partners for each establishment classified as a "partnership". (By definition, working owners and partners do not exist in the other types of business organization). Due to difficulties in collecting consistent, reliable information on withdrawals, this question was deleted from both the long and short forms in 1975 (the data themselves were last published for 1973). Beginning with 1975, the imputation of numbers of working owners and partners for short-form respondents has been made solely on the basis of type of organization. This change results in an apparent increase in the number of working owners and partners as, in the past, not every establishment classified as an individual ownership or a partnership reported withdrawals every year. Numbers of working owners and partners for long-form respondents (sent to large establishments) have been taken as reported for all years.

### 5. Value of Production

Users interested in obtaining the value of production (manufacturing activity) can do so by adding cost of materials and supplies used (manufacturing activity), cost of fuel and electricity, and value added (manufacturing activity).

## NOTES AU LECTEUR

### 1. Notes explicatives

On trouvera au recto de la couverture arrière de la présente publication l'explication de certains termes statistiques. Ces explications se fondent sur les "Concepts et définitions" détaillés que l'on peut se procurer gratuitement à la Division des industries manufacturières et primaires de Statistique Canada.

### 2. Suppression des établissements sans salariés

À quelques exceptions près, les établissements qui n'ont pas déclaré de traitements ni de salaires aux recensements précédents (donc aucun salarié), n'ont pas été pris en compte au recensement des manufactures de 1975. Ces 1,400 établissements hors de l'enquête ne sont cependant intervenus que pour 0.03 % des livraisons de toutes les industries manufacturières en 1974. Sauf pour ce qui est du nombre d'établissements, les répercussions de cette modification sur la comparabilité chronologique des données du recensement sont nulles ou minimales pour la plupart des industries. Toutefois, pour chaque industrie touchée par cette modification, on a pris soin d'inclure des détails supplémentaires dans l'introduction du bulletin approprié de 1975.

### 3. Répercussions des déclarations des petits établissements sur les statistiques du combustible et de l'électricité

Le lecteur remarquera que les renseignements concernant le coût du combustible et de l'électricité ne sont pas recueillis à part auprès des petits établissements mais inclus, depuis 1970, dans le "coût des matières et fournitures". Bien que cette pratique n'influe pas sur le calcul de la "valeur ajoutée", elle entraîne une sous-estimation de la valeur du combustible et de l'électricité dans les industries et les provinces où les petits établissements en consomment une part importante. Elle peut également modifier les statistiques du tableau 1, celles des petits groupes de salariés figurant au tableau 2 et les données au tableau 4, qui ne visent que les grands établissements.

### 4. Modifications aux données sur les propriétaires et associés actifs, et retraits

À partir de 1970, les questions relatives aux propriétaires et associés actifs ont été supprimées de la formule abrégée (destinée aux petits établissements). En revoyant les données antérieures, nous avons constaté que, dans le cas des établissements déclarant des retraits, il suffirait d'imputer un propriétaire actif à chaque établissement "à propriétaire unique" et deux propriétaires ou associés actifs à chaque "société en nom collectif". (Par définition, les propriétaires et associés actifs n'existent pas dans les autres genres d'entreprise). Étant donné qu'il est difficile de recueillir des renseignements uniformes et fiables sur les retraits, cette question a été supprimée en 1975 des questionnaires longs et abrégés (les données ont été publiées pour la dernière fois en 1973). À partir de 1975, le nombre de propriétaires et d'associés actifs, dans le cas des enquêtes sur la formule abrégée, est imputé uniquement selon la forme juridique. Cette modification se traduit par une augmentation apparente du nombre de propriétaires et d'associés actifs puisque, dans le passé, les établissements "à propriétaire unique" et ceux classés comme "société en nom collectif" n'ont pas tous déclaré des retraits chaque année. Pour les enquêtes utilisant la formule longue (envoyée aux grands établissements), le nombre de propriétaires et d'associés actifs est égal au chiffre indiqué chaque année.

### 5. Valeur de la production

Le lecteur qui désire connaître la valeur de la production (activité manufacturière), n'a qu'à additionner le coût des matières et fournitures utilisées (activité manufacturière), le coût du combustible et de l'électricité, et la valeur ajoutée (activité manufacturière).

## INDUSTRY DEFINITIONS

### Commercial Printing

Establishments primarily engaged in the production of commercial and/or job printing regardless of the printing method or process used (letterpress, including flexographic-planographic or lithographic; intaglio or gravure; stencil printing or silk screen; etc.). The following list of printed products is intended to be representative but not complete: newspapers, periodicals, books, maps and all other printing done on a job or contract basis for other individuals or firms; printed office stationery and forms, snap-out sets (carbonized sets or carbonless reproducing sets), continuous forms, calendars, greeting cards, postcards, playing cards, wrappings, tickets, envelopes, tags, seals, labels, stamps (postage, revenue, trading, etc.), engraved stationery, bank notes, stock and bond certificates, catalogues, printed advertising matter, etc.

Establishments primarily engaged in publishing are included in Industry 288 - Publishing Only if the publisher does not print his own publications or in Industry 289 - Publishing and Printing if the publisher prints his own publications.

Establishments primarily engaged in providing blueprints and such copying services are included in Industry 869 - Other Service to Business Management.

### Platemaking, Typesetting and Trade Bindery Industry

Establishments (trade shops) primarily engaged in providing specialized services to the printing and publishing trades, advertising agencies or others: the making of image bearing photographic films, plates and printers' dies of all types; doing typesetting; making binders or covers, doing hand or machine bindery work and allied post-printing converting or finishing operations.

Establishments primarily engaged in the manufacture of non-image bearing printing plates, which become the raw materials of the platemaking plants, are included elsewhere according to the kind of plate made.

Establishments primarily engaged in engraving jewellery are classified in Industry 695 - Watch and Jewellery Repair Shops and those primarily engaged in engraving on base metals for purposes other than printing are classified in Industry 309 - Miscellaneous Metal Fabricating Industries.

## DESCRIPTION DES INDUSTRIES

### Imprimerie commerciale

Comprend les établissements qui s'occupent principalement de travaux d'imprimerie commerciale et (ou) à forfait, compte non tenu de la méthode ou du procédé employé (la typographie, y compris la flexographie; la planographie ou lithographie; la chalcographie ou gravure; l'impression au stencil ou sérigraphie, etc.). Voici une liste représentative, mais non complète, de travaux d'imprimerie: journaux, périodiques, livres, cartes et tous autres travaux d'imprimerie à forfait ou sur contrat pour le compte d'autres personnes ou firmes; papeterie et formules de bureau imprimées, blocs individuels de formules gommées (avec ou sans papier carbone), formules continues, calendriers, cartes de souhaits, cartes postales, cartes à jouer, emballages, billets, enveloppes, fiches, cachets, étiquettes, timbres (timbres-poste, timbres fiscaux, bons-primes, etc.), papeterie gravée, billets de banque, titres d'actions et d'obligations, catalogues, matériel de publicité imprimé, etc.

Les établissements qui s'occupent principalement de l'édition sont classés à l'industrie 288 - Édition seulement, si l'éditeur n'imprime pas ses propres publications ou à l'industrie 289 - Édition et impression, si l'éditeur imprime ses propres publications.

Les établissements qui s'occupent principalement de l'impression de bleus et de la polycopie sont classés à l'industrie 869 - Autres services extérieurs des entreprises.

### Industrie du clichage, de la composition et de la reliure commerciale

Comprend les établissements (ateliers) qui s'occupent principalement de fournir des services spécialisés aux entreprises d'imprimerie et d'édition, aux agences de publicité ou autres: la production de pellicules photographiques impressionnées, de clichés et de matrices d'impression de tous genres; la composition; la fabrication d'autorelieurs et de couvertures, la reliure à la main ou à la machine et autres travaux alliés à la transformation et au finissage de matière imprimées.

Les établissements qui s'occupent principalement de la fabrication de clichés non-impressionnés, qui deviennent la matière première des ateliers de clichage, sont classés ailleurs selon le genre de clichés fabriqués.

Les établissements qui s'occupent principalement de la gravure sur bijoux sont classés à l'industrie 695 - Ateliers de réparation de montres et bijoux, et ceux qui s'occupent principalement de la gravure sur métaux de base pour d'autres fins que l'imprimerie sont classés à l'industrie 309 - Fabrication de produits métalliques divers.

### Publishing Only

This industry includes establishments engaged in publishing only and which do no printing. The term "publishing", as applied in this industry, includes publishing of books, newspapers, periodicals, almanacs, maps, guides and similar products. These establishments are included in Industry 288 - Publishing Only.

### Publishing and Printing

Establishments primarily engaged in publishing and printing newspapers, periodicals, books, almanacs, maps, guides and the like. Establishments primarily engaged in printing newspapers, magazines, books, etc., for publishers are included in Industry 286 - Commercial Printing.

Users of these statistics are reminded of the fact that the figures given in Table 7 of Section 1 pertain only to the total value of shipments or revenue from printing of the four industries included in the group "Printing, Publishing and Allied Industries". A number of the items included in this table are also produced by establishments classified to other industries. The "all-industry" figures for these items may be found in the annual reports on the Paper and Allied Industries group, particularly the report on the Miscellaneous Paper Converters, Catalogue 36-206.

### Édition seulement

Comprend les établissements qui s'occupent de l'édition seulement et ne font pas d'imprimerie. Le terme "édition", en ce qui concerne la présente industrie, comprend l'édition de livres, journaux, périodiques, almanachs, cartes géographiques, guides et autres publications de ce genre. Ces établissements sont classés à l'industrie 288 - Édition seulement.

### Édition et impression

Comprend les établissements qui s'occupent principalement d'édition et impression de journaux, périodiques, livres, almanachs, cartes géographiques, guides et autres publications de ce genre. Les établissements qui s'occupent principalement de l'impression de journaux, magazines, et livres, etc., pour d'autres éditeurs sont classés à l'industrie 286 - Imprimerie commerciale.

Il est bon de rappeler à nos lecteurs que le tableau 7 de la section 1 donne la consolidation du revenu ou de la valeur des livraisons des quatre industries qui composent ce groupe. Cependant, un nombre de produits énumérés dans ce tableau sont également manufacturés dans d'autres industries. Pour obtenir les chiffres "toutes industries", nous vous prions de consulter les rapports annuels du groupe des industries du papier, principalement le rapport Transformations diverses du papier, n° 36-206 au catalogue.

SECTION ICOMMERCIAL PRINTING  
S.I.C. 286IMPRIMERIE COMMERCIALE  
C.A.É. 286

1975

Commercial printing is one of the four industries in the Printing, Publishing and Allied Industries Group. Other industries in the group are: Platemaking, Typesetting and Trade Bindery Industry; Publishing Only; Publishing and Printing. Refer to the beginning of the publication for the definition of these industries.

"Manufacturing activity" in this report refers mainly to the printing activity and "Shipments of goods of own manufacture" consist of revenue from printing and/or shipments of printed products. The Census of Commercial Printing is part of the Census of Manufactures and the terminology used in this report has been kept in conformity with that used for manufacturing.

In 1975, the manufacturing revenue realized by the establishments classified to this industry amounted to \$1,353.9 million or 11.5% greater than the 1974 revenue of \$1,214.7 million.

This industry is characterized by its large number of small establishments as only 170 of the 2,078 included in this 1975 Census had more than 50 employees but they accounted for approximately 64% of the revenue or \$863.1 million.

The following summarizes this revenue by type for the period 1970-1975:

## Manufacturing Revenue

## Recettes manufacturières

	Total	Printed advertising - Annonces imprimées	Business forms - Formules commerciales	Commercial and specialty printing - Impressions commerciales et spécialisées	Printed books and blank books - Livres imprimés et livres en blanc	Labels - Étiquettes gommées	Greeting cards - Cartes de souhaits
millions of dollars - millions de dollars							
1970 .....	711.4	141.4	99.7	74.4	47.1	28.1	29.4
1971 .....	764.2	154.2	103.9	75.6	53.3	31.3	31.7
1972 .....	839.6	175.2	121.1	84.9	59.9	38.9	35.3
1973 .....	987.6	194.0	147.4	103.9	67.9	48.3	39.5
1974 .....	1,214.7	241.6	208.3	130.4	79.3	58.2	44.1
1975 .....	1,353.9	242.0	230.2	149.3	89.2	60.2	48.0

L'imprimerie commerciale est une des quatre industries du groupe Imprimerie, édition et activités annexes. Les autres industries du groupe sont: Industrie du clichage, de la composition et de la reliure commerciale; Édition seulement; Édition et impression. La description de ces industries est donnée au début de la présente publication.

L'"Activité manufacturière" dans le présent rapport, vise principalement l'imprimerie, et les "Livraisons de produits de propre fabrication" comprennent le revenu de l'imprimerie et (ou) des livraisons de matières imprimées. Le recensement de l'Imprimerie commerciale fait partie du recensement des manufactures et la terminologie employée dans le présent rapport a été adaptée à celle de la fabrication.

En 1975, les recettes de fabrication des établissements classés dans cette industrie se sont élevées à \$1,353.9 millions, soit 11.5 % de plus que les recettes de \$1,214.7 millions observées en 1974.

Cette branche d'activité se caractérise par son grand nombre de petits établissements, puisque seulement 170 établissements des 2,078 pris en compte au recensement de 1975 comptaient plus de 50 salariés; toutefois ils sont intervenus pour environ 64 % des recettes établies à \$863.1 millions.

Le tableau suivant présente ces recettes selon le genre pour la période 1970-1975:

The six items above account for approximately 60% of the total revenue of this industry.

The total number of employees at 43,485 in 1975 represented a decrease of 1.4% compared to the 44,116 of 1974 and their annual salary climbed from \$9,800 to \$11,000.

The cost of materials and supplies amounted to \$565.4 million in 1975, an increase of 9.9% over the \$514.6 million of 1974. The significant items are fine paper, book paper, newsprint paper and ink. Table 1 below summarizes these costs for the period from 1970-1975:

Les six articles susmentionnés représentent environ 60 % des recettes de cette industrie.

En 1975, le nombre total de salariés (43,485) a représenté une diminution de 1.4 % sur les 44,116 salariés en 1974, et leur traitement annuel est passé de \$9,800 à \$11,000.

Le coût des matières et fournitures utilisées s'est élevé à \$565.4 millions en 1975, une augmentation de 9.9 % sur les \$514.6 millions en 1974. Les principaux articles sont le papier fin, le papier à livres, le papier journal et l'encre. Le tableau 1 ci-dessous présente ces coûts pour la période s'étendant de 1970-1975:

TABLE 1. Cost of Materials and Supplies Used

TABLEAU 1. Coût des matières et fournitures utilisées

	Fine paper — Papier fin	Book paper — Papier à livres	Miscel- laneous fine paper — Papiers fins divers	Newsprint paper — Papier journal	Ink — Encre	Sub- total — Total partiel	Other — Autres	Total cost — Coût total
millions of dollars — millions de dollars								
1970 .....	48.1	38.0	29.8	19.4	13.6	148.9	131.6	130.5
1971 .....	50.9	40.8	27.9	21.6	14.1	155.3	145.1	300.4
1972 .....	63.8	47.8	28.8	27.2	16.0	183.6	154.7	338.3
1973 .....	79.2	53.2	36.1	34.5	18.7	221.7	171.1	392.8
1974 .....	119.9	63.9	53.6	42.9	24.0	304.3	210.3	514.6
1975 .....	135.5	58.8	34.2	49.9	25.0	303.4	262.0	565.4

In the year under review the cost of these five materials equalled \$303.4 million or 54% of all materials and supplies used.

The preliminary estimate of manufacturing revenue for this industry in 1976 was \$1,430 million approximately according to data published by the Inventories, Shipments and Orders Section (refer to Catalogue 31-001). This represents an increase of 5.6% over 1975.

#### Change in Basis of Reporting in 1975

As indicated in the "Notes to Users" on the inside front cover, most small establishments which did not report salaries and wages in 1974 were not surveyed in the 1975 Census of Manufactures. Although the omission of such establishments had little or no effect in many industries, it does affect to some extent the historical comparability of data for the Commercial Printing Industry.

Au cours de l'année observée, le coût de ces cinq matières s'est élevé à \$303.4 millions, soit 54 % de toutes les matières et fournitures utilisées.

L'estimation préliminaire des recettes de fabrication touchées par cette branche d'activité en 1976 a été d'environ \$1,430 millions, selon les données publiées par la Section des stocks, livraisons et commandes (voir n° 31-001 au catalogue). Ce chiffre représente une augmentation de 5.6 % par rapport à 1975.

#### Modification de la base de déclaration en 1975

Comme nous l'avons indiqué dans les "Notes au lecteur" au verso de la couverture, la plupart des petits établissements qui n'ont déclaré ni traitements ni salaires en 1974 n'ont pas été pris en compte dans le recensement des manufactures de 1975. Bien que leur omission a peu influé sur les chiffres de cette industrie, elle a eu certaines répercussions sur la comparabilité chronologique des données de l'Imprimerie commerciale.

In order to provide an indication of the probable effect of this change on 1975 Census data for this industry, the following table on selected items from the 1974 Census may be of interest:

Dans le but d'indiquer les répercussions possibles de cette modification sur les données du recensement de 1975 pour cette industrie, le tableau ci-dessous présente certains postes tirés du recensement de 1974:

Items Postes	Number of establis- ments Nombre d'établis- sements	Number of working owners and partners Nombre de proprié- taires et associés actifs	Cost of materials and supplies used Coût des matières et fourni- tures utilisées	Shipments of goods of own manu- facture Livrailles de produits de propre fabrication	Value added by manu- facture Valeur ajoutée par l'activité manufac- turière
thousands of dollars milliers de dollars					
A. Establishments (including those with no salaries and wages) - Établissements (y compris ceux qui n'ont déclaré ni traitements ni salaires)	2,208	602	514,568	1,214,667	710,138
B. Establishments (excluding those with no salaries and wages) - Établissements (sauf ceux qui n'ont déclaré ni traitements ni salaires) .....	2,064	504	513,058	1,212,074	709,056
C. Difference - Différence .....	144	98	1,510	2,593	1,082
D. C as a percentage of A - Pourcentage de C par rapport à A .....	6.5	16.3	0.3	0.2	0.2

As part of the continuing program of Statistics Canada to reduce the reporting burden on small establishments, the number reporting on "short-form" questionnaires in this industry increased from 1,094 accounting for 5.6% of shipments of goods of own manufacture in 1974 to 1,345 representing 11.3% in 1975. Since short-form questionnaires do not ask for commodity detail, the effect of this change is to reduce the quantities and/or values of some of the individual commodities included above and in Tables 5, 6 and 7.

Dans le cadre du programme permanent de Statistique Canada visant à alléger le fardeau de déclaration des petits établissements, le nombre d'enquêtés qui ont répondu sur formules abrégées au sein de cette industrie a été porté de 1,094 en 1974 à 1,345 en 1975, ce qui représente 5.6 % et 11.3 % respectivement des livraisons de produits de propre fabrication. Comme les questionnaires abrégés ne renferment pas de données détaillées sur les produits, cette modification réduit la quantité et (ou) la valeur de certains produits distincts figurant ci-dessus et aux tableaux 5, 6 et 7.

TABLE 1. PRINCIPAL STATISTICS, 1970-1975  
TABLEAU 1. STATISTIQUES PRINCIPALES, 1970-1975

	Number of establish-ments — Nombre d'établissements	Manufacturing activity — Activité manufacturière							Total activity — Activité totale

## SECTION 2

PLATEMAKING, TYPESETTING AND TRADE BINDERY INDUSTRY  
S.I.C. 287

INDUSTRIE DU CLICHAGE, DE LA COMPOSITION ET DE LA RELIURE COMMERCIALE  
C.A.É. 287

1975

This industry is one of the four industries in the Printing, Publishing and Allied Industries Group. The other industries in the group are: Commercial Printing; Publishing Only; Publishing and Printing.

"Manufacturing activity" in this report refers mainly to specialized services to the printing trade industries. "Shipments of goods of own manufacture" consist of revenue from the above mentioned activities and/or shipments of manufactured products. The Census of Platemaking, Typesetting and Trade Bindery Industry is part of the Census of Manufactures and the terminology used in this report has been kept in conformity with that used for manufacturing.

The definition of the industry "Platemaking, Typesetting and Trade Bindery Industry" is as follows: establishments (trade shops) primarily engaged in providing specialized services to the printing and publishing trades, advertising agencies or other: the making of image bearing photographic films, plates and printers' dies of all types; doing typesetting; making binders or covers; doing hand or machine bindery work and allied postprinting converting or finishing operations.

Establishments primarily engaged in the manufacture of non-image bearing printing plates, which become the raw materials of the platemaking plants, are included elsewhere according to the kind of plate made.

Establishments primarily engaged in engraving jewellery are classified in Industry 695 - Watch and Jewellery Repair Shops and those primarily engaged in engraving on base metals for purposes other than printing are classified in Industry 392 - Jewellery and Silverware Industry.

In 1975, the value of shipments of goods of own manufacture by this industry was \$149.5 million or 11.1% greater than the \$134.5 million of 1974.

Cette industrie est une des quatre industries du groupe Imprimerie, édition et activités annexes. Les autres industries du groupe sont: Imprimerie commerciale; Édition seulement; Édition et impression.

L'"Activité manufacturière" dans la présente publication vise principalement les services spécialisés se rapportant aux industries, Édition et impression, et Imprimerie commerciale. Les "Livraisons de produits de propre fabrication" comprennent le revenu provenant des activités ci-dessus et (ou) des livraisons de produits manufacturés. Le recensement de l'Industrie du clichage, de la composition et de la reliure commerciale est classé dans le recensement des manufactures et la terminologie employée dans la présente publication est adaptée à celle de la fabrication.

La définition de l'"Industrie du clichage, de la composition et de la reliure commerciale", est la suivante: établissements (ateliers) qui s'occupent principalement de fournir des services spécialisés aux commerces d'imprimerie et d'édition, aux agences de publicité ou autres: production de pellicules photographiques impressionnées, de clichés et de matrices d'impression de tous genres; composition; fabrication d'auto-relieurs et de couvertures; reliure à la main ou à la machine; et autres travaux de transformation et de finissage de matières imprimées.

Les établissements qui s'occupent principalement de la fabrication de clichés non impressionnés, qui deviennent la matière première des ateliers de clichage, sont classés selon le genre de clichés fabriqués.

Les établissements qui s'occupent principalement de gravure sur bijoux sont classés dans l'industrie 695 - Ateliers de réparation de montres et de bijoux, et ceux qui s'occupent principalement de gravure sur métaux communs pour d'autres fins que l'imprimerie sont classés dans l'industrie 392 - Fabrication de bijouterie et d'orfèvrerie.

La valeur des livraisons de produits de propre fabrication de cette industrie est passée de \$134.5 millions en 1974 à \$149.5 millions en 1975, marquant une hausse de 11.1 %.

There are a large number of small establishments as seen in Table 2. It is indicated that of the 401 establishments included in the 1975 Census, only six had more than 100 employees.

This industry is very labour intensive and the total salaries and wages paid equalled \$80.3 million in 1975, an increase of 10.6% over the \$72.6 million paid in 1974. The average hourly earnings of the production and related workers climbed from \$5.09 in 1974 to \$5.71 in 1975.

As part of the continuing program of Statistics Canada to reduce the reporting burden on small establishments, the number reporting on "short-form" questionnaires in this industry increased from 192 accounting for 7.7% of shipments of goods of own manufacture in 1974 to 226 representing 13.8% in 1975. Since short-form questionnaires do not ask for commodity detail, the effect of this change is to reduce the quantities and/or values of some of the individual commodities included in Tables 5, 6 and 7.

Cette industrie présente un grand nombre de petits établissements, comme l'indique le tableau 2. Des 401 établissements pris en compte au recensement de 1975, six seulement comptaient plus de 100 salariés.

Cette industrie présente une main-d'oeuvre abondante et les traitements et salaires versés ont totalisé \$80.3 millions en 1975, soit une hausse de 10.6 % sur les \$72.6 millions enregistrés l'année précédente. Les gains horaires moyens des ouvriers de la production et assimilés sont passés de \$5.09 en 1974 à \$5.71 en 1975.

Dans le cadre du programme permanent de Statistique Canada visant à alléger le fardeau de déclaration des petits établissements, le nombre d'enquêtés qui ont répondu sur formules abrégées au sein de cette industrie a été porté de 192 en 1974 à 226 en 1975, ce qui représente 7.7 % et 13.8 % respectivement des livraisons de produits de propre fabrication. Comme les questionnaires abrégés ne renferment pas de données détaillées sur les produits, cette modification réduit la quantité et (ou) la valeur de certains produits distincts figurant aux tableaux 5, 6 et 7.

(2) Confidential; included with "All other specialized work, services and trade work". - Confidential; compris sous "Tous autres travaux et services spécialisés et travaux en sous-contrats".

SECTION 3

PUBLISHING ONLY  
S.I.C. 288

ÉDITION SEULEMENT  
C.A.É. 288

1975

This industry is one of the four industries in the Printing, Publishing and Allied Industries Group. Other industries in the group are: Commercial Printing; Platemaking, Typesetting and Trade Bindery Industry; Publishing and Printing.

"Manufacturing activity" in this report refers to the publishing activity and "Shipments of goods of own manufacture" consist of revenue from the above-mentioned activity, including the advertising revenue derived from the publication of newspaper and periodicals. The Census of the Publishing Only industry is part of the Census of Manufactures and the terminology used in this report has been kept in conformity with that used for manufacturing.

The "Publishing Only" industry includes establishments primarily engaged in publishing, which do no printing. The term "publishing", as applied in this industry, includes publishing of books, newspapers, periodicals, almanacs, maps, guides and similar products.

In 1975, the total revenue for this industry equalled \$392.0 million, an increase of 21.5% over the \$322.5 million of 1974.

As part of the continuing program of Statistics Canada to reduce the reporting burden on small establishments, the number reporting on "short-form" questionnaires in this industry increased from zero accounting for 0% of shipments of goods of own manufacture in 1974 to 297 representing 10.3% in 1975. Since short-form questionnaires do not ask for commodity detail, the effect of this change is to reduce the quantities and/or values of some of the individual commodities included in Tables 4 and 5.

Cette industrie est une des quatre industries du groupe Imprimerie, édition et activités annexes. Les autres industries du groupe sont: Imprimerie commerciale; Industrie du clichage, de la composition et de la reliure commerciale; Édition et impression.

L'"Activité manufacturière" dans la présente publication vise l'édition, et les "Livraisons de produits de propre fabrication" comprennent le revenu provenant des activités ci-dessus, y compris le revenu provenant de la publicité dans les journaux et périodiques. Le recensement de l'industrie de l'édition seulement est classé dans le recensement des manufactures et la terminologie employée dans la présente publication est adaptée à celle de la fabrication.

L'industrie "Édition seulement", comprend les établissements qui s'occupent principalement d'édition et n'impriment pas. Le terme "édition", propre à cette industrie, comprend l'édition de livres, journaux, périodiques, almanachs, cartes, guides et autres produits du genre.

Les recettes totales de cette industrie en 1975 se chiffraient à \$392.0 millions comparativement aux \$322.5 millions de 1974, soit une augmentation de 21.5 %.

Dans le cadre du programme permanent de Statistique Canada visant à alléger le fardeau de déclaration des petits établissements, le nombre d'enquêtés qui ont répondu sur formules abrégées au sein de cette industrie a été porté de zéro en 1974 à 297 en 1975, ce qui représente 0 % et 10.3 % respectivement des livraisons de produits de propre fabrication. Comme les questionnaires abrégés ne renferment pas de données détaillées sur les produits, cette modification réduit la quantité et (ou) la valeur de certains produits distincts figurant aux tableaux 4 et 5.

(5) Included with "Other books, published". - Inclus dans "Autres livres publiés".

## SECTION 4

PUBLISHING AND PRINTING  
S.I.C. 289

ÉDITION ET IMPRESSION  
C.A.É. 289

1975

This industry is one of the four industries in the Printing, Publishing and Allied Industries Group. Other industries in the group are: Commercial Printing; Platemaking, Typesetting and Trade Bindery Industry and Publishing Only. Please refer to Section 1 for industry definitions.

"Manufacturing activity" in this report refers mainly to the publishing and printing activity and "Shipments of goods of own manufacture" consist mainly of revenue from publishing and printing including the advertising revenue derived from the publication of newspapers or periodicals. The Census of the Publishing and Printing industry is part of the Census of Manufactures and the terminology used in this report has been kept in conformity with that used for manufacturing.

In 1975, the total revenue for the 615 establishments classified to this industry was \$1,002.1 million. This represented an increase of 14.0% over the 1974 total of \$878.8 million. The revenue from daily newspapers in 1975 was \$710.1 million and accounted for 71% of the total.

The cost of materials and supplies equalled \$255.1 million in 1975 which was 20.8% greater than the \$211.1 million spent in the previous year. Newsprint paper is the most significant of the materials used and in both years the cost of this paper accounted for approximately 60% of the total.

The number of production and related workers increased to 16,837 in 1975 compared to 15,311 in 1974. Their average hourly earnings climbed from \$5.41 to \$5.89.

The preliminary estimate for 1976 of total revenue for this industry, published by the Inventories, Shipments and Orders Section (refer to Catalogue 31-001) was approximately \$1,090 million or a gain of close to 9%.

As part of the continuing program of Statistics Canada to reduce the reporting burden on small establishments, the number reporting on "short-form" questionnaires in this industry increased from 375 accounting for 4.2% of shipments of goods of own manufacture in 1974 to 438 representing 8.5% in 1975. Since short-form questionnaires do not ask for commodity detail, the effect of this change is to reduce the quantities and/or values of some of the individual commodities included in Tables 5, 6 and 7.

Cette industrie est une des quatre industries du groupe Imprimerie, édition et activités annexes. Les autres industries du groupe sont: Imprimerie commerciale; Industrie du clichage, de la composition et de la reliure commerciale; et Édition seulement. Prière de consulter la section 1 pour la description des industries.

L'"Activité manufacturière" dans le présent rapport vise principalement l'édition et l'impression et les "Livraisons de produits de propre fabrication" comprennent en majeure partie le revenu provenant de l'édition et de l'impression, y compris le revenu provenant de la publicité dans les journaux et périodiques. Le recensement de l'industrie, Édition et impression, est classé dans le recensement des manufactures et la terminologie employée dans le présent rapport a été adaptée à celle de la fabrication.

Les recettes totales des 615 établissements de cette industrie sont passées de \$878.8 millions en 1974 à \$1,002.1 millions en 1975, marquant une hausse de 14.0 %. En 1974, les ventes des quotidiens sont intervenues pour 71 % du total (\$710.1 millions).

Le coût des matières et des fournitures s'est chiffré à \$255.1 millions en 1975, soit 20.8 % de plus que les \$211.1 millions enregistrés l'année précédente. Le papier journal constitue la matière la plus utilisée puisque, au cours de ces deux années, il a représenté 60 % des coûts totaux.

Le nombre de travailleurs de la production et assimilés est passé de 15,311 en 1974 à 16,837 en 1975, et leurs gains horaires moyens, de \$5.41 à \$5.89.

L'estimation préliminaire des recettes totales de cette industrie pour 1976, publiée par la Section des stocks, livraisons et commandes (consulter le n° 31-001 au catalogue), s'est établie à environ \$1,090 millions, un gain de près de 9 %.

Dans le cadre du programme permanent de Statistique Canada visant à alléger le fardeau de déclaration des petits établissements, le nombre d'enquêtés qui ont répondu sur formules abrégées au sein de cette industrie a été porté de 375 en 1974 à 438 en 1975, ce qui représente 4.2 % et 8.5 % respectivement des livraisons de produits de propre fabrication. Comme les questionnaires abrégés ne renferment pas de données détaillées sur les produits, cette modification réduit la quantité et (ou) la valeur de certains produits distincts figurant aux tableaux 5, 6 et 7.

## EXPLANATORY NOTES

The following abbreviated notes deal only with salient points or selected inclusions or exclusions which might not be self-evident. Detailed "Concepts and Definitions" are available on request; see "Notes to Users".

**Establishment** – Smallest operating unit capable of reporting certain specified input and output data; usually a plant or mill.

### Large Establishments

**Cost of materials and supplies, fuel and electricity** – Generally, consumption of purchased items only, at laid-down cost. Includes inter-company and intracompany transfers, contract work by others, fuel used by vehicles.

**Value of shipments of goods of own manufacture** – Goods made by reporting establishment, or for its account, from its own materials, net of discounts, returns, allowances, sales tax, excise taxes and duties, returnable containers, common or contract carriers' charges for outward transportation (but not of own carriers' delivery expense). Includes repair and custom revenue, transfers to reporting units of same firm, all exports, book value of own products shipped on rental basis. Unsold domestic consignment shipments are included in inventory. In reports on the fabricated structural metal industry, aircraft and aircraft parts manufacturers, railroad rolling stock industry and shipbuilding and repair, value of production is shown for these industries. Integrated smelters' work on own ore is valued at imputed charge to mine.

**Value added** – Net output as measured by gross output less purchased commodity inputs used and contract work by others.

- (a) Value added, manufacturing activity: Value of shipments of goods of own manufacture plus net change in inventory of goods in process and finished goods, less cost of materials and supplies used, fuel and electricity.
- (b) Value added, total activity: Consists of (1) value added, manufacturing activity and (2) value added, non-manufacturing activity. The latter is calculated by subtracting relevant commodity inputs from non-manufacturing revenues or outputs: these commodity inputs are net of the change in inventories of goods purchased for resale. Non-manufacturing revenues include depreciable fixed assets produced by own work force for own use, revenue from product rentals, etc., but exclude non-operating revenue such as real property rentals, dividends, interest.

**Employees, salaries and wages** – Salaries and wages are reported before deductions for income tax and employee benefits and comprise all man-hours paid (for regular work, overtime and paid leave) as well as bonuses, commissions, etc., paid to regular employees. Where shown, production and related workers classified to non-manufacturing activity include separately reported loggers, employees on construction for own use: beginning with the 1970 Census outside pieceworkers formerly included for certain industries are excluded from all employment totals and their remuneration treated as contract work done by others. Sales and distribution employees include all personnel charged to selling expense, certain drivers, etc.

**Inventories** – Book value of owned inventory held in Canada, including goods in transit and on consignment.

### Small Establishments

For establishments filing "short forms", beginning with 1970 data, "cost of materials, supplies and services" includes all purchased services and fuel and electricity; and "total revenue excluding interest and dividends received" is used for both shipments of goods of own manufacture and gross output, total activity. Value added is calculated using these figures and net change in total inventory, and is thus identical for manufacturing and total activity. Numbers of employees are imputed from reported salaries and wages.

**Head offices, sales offices and auxiliary units** – Included in the individual industry of the company's largest activity. (The allocation of some such units to the major industry group level was discontinued with the 1970 data).

## NOTES EXPLICATIVES

Les notes succinctes ci-après s'arrêtent uniquement aux points saillants et à certaines extensions ou restrictions pouvant nécessiter une explication. Sur simple demande, on pourra obtenir les "Concepts et définitions" détaillés; se reporter aux "Notes au lecteur".

**Etablissement** – Plus petite unité exploitante en mesure de fournir certaines données sur ses facteurs de production (entrées) et sur sa production (sorties); en général: usine ou fabrique.

### Grands établissements

**Cout des matières et fournitures, du combustible et de l'électricité** – De manière générale, concerne uniquement la consommation de produits achetés, au prix franco. Comprend les transferts entre filiales et établissements d'une société, les travaux exécutés par d'autres aux termes d'un contrat et la consommation de carburant, par les véhicules.

**Valeur des livraisons de produits de propre fabrication** – Concerne les produits fabriqués par l'établissement enquêté, ou pour son compte, à partir de matières lui appartenant, déduction faite des rabais, des retours de marchandises, des renvois, des taxes de ventes, des taxes et des droits d'accise, des emballages consignés, des frais de livraisons payés à des transporteurs publics ou sous contrat (mais non des frais de livraisons de l'établissement même). Comprend les recettes de réparations et de contrats, les transferts à d'autres unités enquêtées de la même firme, les exportations, la valeur comptable des produits donnés en location par l'établissement. Les livraisons sans vente en consignation au Canada sont prises en compte dans les stocks. Dans les publications sur l'industrie de la fabrication d'éléments de charpente métallique, les fabricants d'aéronaves et de pièces, l'industrie de matériel ferroviaire roulant ainsi que l'industrie de la construction et de la réparation de navires, la valeur de la production remplace celle des livraisons; dans la présente publication, on présente la valeur des livraisons pour ces industries. Pour établir la valeur du travail effectué par une fonderie intégrée sur du minerai qui lui appartient, on calcule le coût qu'il faudrait imputer à la mine.

**Valeur ajoutée** – Sortie nette, soit sortie brute moins consommation de biens achetés et travaux exécutés par d'autres sous contrat.

a) **Valeur ajoutée, activité manufacturière**: valeur des livraisons de produits de propre fabrication, plus variation nette des stocks de produits en cours et de produits finis, moins coût des matières et des fournitures utilisées, du combustible et de l'électricité.

b) **Valeur ajoutée, activité totale**: comprend (1) la valeur ajoutée par l'activité manufacturière et (2) la valeur ajoutée par l'activité non manufacturière. Cette dernière s'obtient en soustrayant les entrées de marchandises des recettes ou des sorties provenant de l'activité non manufacturière, après avoir soustrait de ces entrées la variation des stocks de produits achetés pour la revente. Les recettes provenant de l'activité non manufacturière comprennent les éléments d'actif amortissable produits par la main-d'œuvre de l'établissement pour son usage propre, les recettes de location de produits, etc., mais non les recettes hors-exploitation, comme les loyers d'immeubles, les dividendes, les intérêts.

**Salariés, traitements et salaires** – Les traitements et salaires sont pris en compte avant les retenues au titre de l'impôt sur le revenu et des avantages sociaux des employés; ils comprennent les heures-hommes payées (heures normales, supplémentaires et congés payés) ainsi que les gratifications, commissions, etc. versées aux salariés. Les travailleurs de la production et assimilés classés dans l'activité non manufacturière comprennent les bûcherons, les ouvriers de la construction pour le compte de l'établissement, etc., lorsqu'ils ont été déclarés séparément; à partir du recensement de 1970, les ouvriers à la pièce de l'extérieur, autrefois classés dans certaines industries, ne sont plus compris dans la statistique de l'emploi et leur rémunération a été prise en compte au titre des travaux sous contrat exécutés par des tiers. Les employés à la vente et à la distribution comprennent tout le personnel imputé aux frais de vente, certains chauffeurs, etc.

**Stocks** – Valeur comptable des stocks détenus en toute propriété au Canada, y compris les marchandises en transit ou en consignation.

### Petits établissements

Pour les établissements qui remplissent une "formule abrégée", "le coût des matières, fournitures et services" comprend, à partir des données de 1970, tous les services achetés et le combustible et l'électricité; et le "total des recettes, sauf sous forme d'intérêts et de dividendes" vaut à la fois pour les livraisons de marchandises de propre fabrication et pour la production brute de l'activité totale. La valeur ajoutée est calculée à partir de ces chiffres et de la variation nette des stocks et est donc identique pour l'activité manufacturière et pour l'activité totale. Le nombre de salariés est déterminé à partir des rémunérations déclarées.

**Sièges sociaux, bureaux de vente et unités auxiliaires** – Classés avec l'industrie qui représente l'activité principale de la société. (Le classement de certaines de ces unités au niveau des groupes a cessé à partir des données de 1970.)
