## THE FERTILIZER MANUFACTURING INDUSTRY

1949

Production by factories in Canada which were engaged principally in the manufacture of fertilizers was valued at \$67,428,067 in 1949 compared with \$63,986,427 in 1948. In addition, there was a production of 227,281 tons of cyanamid, ammonium sulphate, mixed fertilizers and fish fertilizers valued at \$9,991,139 in 1949, and 236,187 tons at \$10,068,616 in 1948, by establishments which were classified to other industrial groups. The quantity of fish used as fertilizer in 1949 amounted to 49,730 barrels valued at \$46,411.

Thirty-two plants were occupied chiefly in the manufacture of fertilizers in 1949, there being 13 in Ontario, 5 in British Columbia, 5 in Quebec, 3 in New Brunswick, 3 in Nova Scotia, 2 in Prince Edward Island and 1 in Alberta. The average number of workers increased from 3,169 in 1948 to 3,269 in 1949, while total salaries and wages increased from \$8,015,656 to \$9,004,943.

Total production of mixed fertilizers in 1949 from all industries amounted to 661,081 tons worth \$24,793,712 at factory prices and included 655,800 tons at \$24,500,334 made by plants in the fertilizer manufacturing industry and 5,281 tons at \$293,378 made in the meat packing, oils and fats, adhesives and prepared feeds industries. In 1948 the corresponding total was 650,228 tons at \$22,738,212 and in 1947 it was 673,782 tons at \$21,997,580.

Superphosphate was manufactured in 1949 by Canadian Industries Limited at McMasterville, Quebec; Hamilton, Ontario; and New Westminster, British Columbia. Ammonium nitrate (fertilizer grade) was manufactured in 1949 by the North American Cyanamid Limited, at Welland, Ontario, and by the Consolidated Mining and Smelting Company of Canada, Limited, at Trail, British Columbia and at Calgary, Alberta. The output figures are not published separately since there was only one producer in the case of the former and only two in the case of the latter.

Ammonium Sulphate was made by the Consolidated Mining and Smelting Company of Canada, Limited, at Trail, British Columbia, and also by the following coke manufacturers: Algoma Steel Corporation Limited, at Sault Ste. Marie, Ontario; Dominion Steel and Coal Corporation, Ltd., at Sydney, Nova Scotia; Hamilton By-Product Coke Ovens, Limited, at Hamilton, Ontario; Montreal Coke and Manufacturing Company, at Montreal, Quebec, and the Steel Company of Canada, Limited, at Hamilton, Ontario. Production during the calendar year 1949 amounted to 225,949 tons; imports totalled 140 tons, and exports amounted to 167,147 tons. Ammonium phosphate was made only by the Consolidated Mining and Smelting Company of Canada, Limited, at Trail, British Columbia.

A special survey of the fertilizer trade in Canada during the fertilizer year ended June 30, 1950 has been completed by the Dominion Bureau of Statistics, and the results have been published in a special report. Summary figures on the sales of fertilizers have been reprinted in Tables 6-9 of this bulletin. A total of 764,581 tons of mixtures and materials were sold in Canada during the year ended June 30, 1950, compared with 741,726 tons during the preceding twelve-month period.
