PRELIMINARY REPORT ON THE SALES OF FERTILIZERS IN CANADA

DURING THE YEAR ENDED JUNE 30, 1944

Sales of fertilizer materials and of mixed fertilizers totalled 1,056,941 short tons during the twelve months ending June 30, 1944 as compared with 701,089 short tons during the corresponding period of the previous year. These figures include exports except those for cyanamide. This is the first time since the inception of this report that sales have exceeded the million-ton mark.

Figures for the year under review consist of 79,100 tons of fertilizer materials and 460,699 tons of mixtures for consumption in Canada, as compared with 72,162 tons of fertilizer materials and 417,699 tons of mixtures a year ago. Exports in 1943-1944 consisted of 34,679 tons of mixtures and 482,463 tons of materials--excluding calcium cyanamide. Exports of materials were 179 per cent greater than those in the previous year. Ammonium nitrate exports contributed greatly to this increase.

A new feature of this report is the inclusion of tables showing sales of special mixtures for tobacco and mixtures containing the oxides of boron and magnesium.

Table 1 - SALES OF FERTILIZERS, EXCEPT FOR MANUFACTURING PURPOSES, YEAR ENDED JUNE 30, 1944 - (Short tons)

Kind	P.E.I.	N.S.	N.B.	Quebec	Ontario	Man., Sask., and Alta.	B.C.	Total sold in Canada	Export- ed from Canada
FERTILIZER MATERIALS									
Nitrate of soda	2	52	69	1,018	10	119	1,270	325
