# THE POLISHES AND DRESSINGS INDUSTRY

**1955**

The Polishes and Dressings Industry includes only the factories which were occupied chiefly in the manufacture of polishes, floor wax and other similar preparations. In 1955 there were 48 establishments in this category, located by provinces, as follows: 30 in Ontario, 15 in Quebec and 3 in British Columbia.

Factory shipments from these establishments were valued at \$19,605,544 in 1955. About 75 per cent of the total came from plants in Ontario and 25 per cent from establishments in Quebec.

Output of polishes and floor wax during 1955, including small amounts from other industries, was as follows: paste floor wax, 8,727,034 pounds at \$3,086,595; liquid floor wax and polish, 3,643,455 gallons at \$9,493,792; shoe polishes and dressings at \$1,120,399; furniture polishes at \$1,199,009;

stove polishes at \$55,101; brass polishes at \$85,969; silver polishes at \$161,787; auto polishes at \$488,394 and miscellaneous polishes at \$440,218. The total value of all polishes, including polishing wax, was \$16,131,264 in 1955 compared with \$14,523,603 in 1954.

**Note:** Figures for value added by manufacture, shown in Table 1, prior to 1952 were obtained by subtracting the cost of materials used, including fuel and electricity, from the value of production. In 1952 the gross value of production was replaced by value of factory shipments, f.o.b. plant. As no information on inventory change is available for 1952 and 1953, value added figures for these years were obtained by subtracting from the value of shipments the cost of materials, fuel and electricity. In 1954 and 1955 information on the value of year-end inventory holdings at plant and plant warehouses was collected as part of the annual Census of Industry and information thus made available was taken into account in calculating the value added figures for 1954 and 1955.

1. (a) Book value of all manufacturing inventories owned and held at plant and plant warehouses.

(b) Beginning with 1954, information on the value of year-end inventory holdings at plant and plant warehouses is being collected as part of the annual Census of Industry. These data were formerly collected by a separate survey. The summarized results for the Polishes and Dressings Industry for the year under review are shown in the above table.

(c) The opening inventory for 1955 does not necessarily agree with the closing inventory for 1954 because of revisions such as the addition of new plants, the transfer of plants to other industries and plants going out of business, etc. However, the value added figures for the previous year have not been recalculated to allow for the revisions mentioned above.

1. Data in this table are for the Polishes and Dressings Industry, which includes only the concerns that make polishes as their major products. The figures for the individual items do not necessarily represent the total Canadian output of these articles as they may have been produced also as minor products of concerns which have been classified to other industrial groups. For the total Canadian production see Table 5.

2. Includes data for goods made by less than 3 firms in this industry, such as wax compounds, floor mops, paints, insecticides, washing blue, etc.
