Annual Industry ReportChemical and Allied Products GroupTHE TOILET PREPARATIONS INDUSTRY, 1947

Production from the Toilet Preparations Industry was valued at \$16,888,213 in 1947 compared with \$20,117,113 in 1946 and \$18,992,908 in 1945.

In the annual census of manufacturing establishments in Canada, the operating firms are arranged in a number of industrial groups to which the various factories are classified in accordance with the nature of their main products. Under this arrangement, the Toilet Preparations Industry includes all establishments which are occupied chiefly in making perfumes, toilet waters, face creams, tooth pastes, etc., but this industry accounts for only about 60 per cent of the Canadian output of toilet preparations as a number of concerns in other industries make this class of goods as a minor or secondary part of their business. In Tables 1 to 8 of this report the data are for the Toilet Preparations Industry as defined for census purposes, but Tables 9 to 11 have been added to show the total output of toilet preparations regardless of the industry in which produced.

In 1947 a total of 100 establishments was included in this industry, 59 being located in Ontario, 32 in Quebec, 4 in Manitoba, 3 in British Columbia, and 2 in Saskatchewan. Output from these concerns totalled \$16,888,213, including \$13,916,125 for toilet preparations and \$2,972,088 for other products. Employees numbered 1,870 and salaries and wages amounted to \$2,885,038.

The total production of toilet preparations in Canada, from all industries, amounted to \$22,641,068 at factory prices in 1947. In 1946 the comparative value was \$24,758,564 and in 1945 it was \$22,037,891.

Table 1 - PRINCIPAL STATISTICS OF THE TOILET PREPARATIONS INDUSTRY, 1938-1947

Year	Number of plants	Average number of employees	Salaries and wages	Cost of fuel and electricity at works	Cost of materials at works	Gross selling value of products at works
			\$	\$	\$	\$
1938 ...	83	1,123	1,247,027	27,474	2,574,579	6,851,167
