AMMONIUM SULPHATE, 1935.

Sales of ammonium sulphate by Canadian producers during 1935 amounted to 70,865 tons at a factory selling price of \$1,424,916, and the inventories in the hands of the producers stood at 12,342 tons on December 31st.

During 1935 the production of ammonium sulphate in Canada totalled 67,401 tons while imports were reported at 4,280 tons and exports at 45,055 tons, leaving 26,626 tons available for Canadian consumption. In the previous year the Canadian output was 76,229 tons, imports amounted to 11,046 tons, exports to 57,704 tons, and the apparent consumption in Canada was 29,571 tons.

A survey of the fertilizer trade in Canada made for the fiscal year ending June 30, 1935, shows that sales of ammonium sulphate, by provinces, were - Quebec, 4,274 tons; New Brunswick, 2,628 tons; Nova Scotia, 1,438 tons; Prince Edward Island, 1,533 tons; Ontario, 1,655 tons; British Columbia, 953 tons, and the Prairie Provinces, 68 tons. In addition to the above sales to be used directly as fertilizer material, a considerable tonnage was sold for the manufacture of mixed fertilizers in Canada. Statistics of sales for this purpose are not yet available for 1935 but in 1934 the total was 12,812 tons and in 1933 it was 10,497 tons.

Table 1 - PRODUCTION IN CANADA, FACTORY SALES AND PRODUCERS' STOCKS OF AMMONIUM SULPHATE, 1934 and 1935.

	1934	1935
Production short tons	76,292	67,401
Producers' stocks on December 31st short tons	18,466	12,342
Factory sales short tons	79,442	70,865
Factory value of sales \$	1,481,059	1,424,916
