THE CHARCOAL INDUSTRY, 1938.

L'INDUSTRIE DU CHARBON DE BOIS, 1938.

Ottawa, February, 1940. - The Charcoal Industry includes establishments engaged wholly or chiefly in the production of charcoal by burning. It does not include wood-distillation plants producing charcoal as a side line.

Ottawa, février 1940. - L'industrie du charbon de bois comprend les établissements dont l'occupation exclusive ou principale consiste dans la production de charbon de bois par combustion. Cette industrie ne comprend pas les établissements s'occupant de la distillation du bois, où le charbon de bois est un sous-produit.

Establishments reporting for 1938 numbered 195, of which 194 were located in Quebec and one in Ontario. This considerable increase in Quebec is attributable to the co-operation of the Department of Lands and Forests of that province which conducted a special survey of the principal charcoal producing regions.

Les établissements ayant fait rapport pour 1938 sont au nombre de 195, dont 194 dans le Québec et 1 dans l'Ontario. Cette augmentation considérable dans le Québec est attribuable à la collaboration du Ministère des Terres et Forêts de cette province qui a fait un relevé spécial des principales régions où l'on produit le charbon de bois.

The table below gives the principal statistics of the industry for 1937 and 1938.

Le tableau ci-dessous donne les principales statistiques de l'industrie pour 1937 et 1938.

Further details concerning this group will be given in a later report on the wood-using industries as a whole. Details concerning the production of charcoal as a side-line in connection with the manufacture of wood-alcohol in wood-distillation plants is shown in a separate report on the Hardwood Distillation Industry.

Des détails additionnels touchant cette industrie seront donnés dans un rapport subséquent sur toutes les industries utilisant le bois. Les chiffres de la production de charbon de bois comme sous-produit dans les établissements s'occupant de la distillation du bois sont contenus dans le rapport sur l'Industrie de la distillation des bois durs.

INVESTMENT IN CANADA

INDUSTRIAL INVESTMENT

Investment in Canada has increased steadily since 1925. The total amount invested in Canada during the period 1925-1935 was approximately \$1,000,000,000. This increase is due to a number of factors, including the growth of the Canadian economy and the increasing interest of foreign investors in Canada.

Industrial investment in Canada has also increased steadily since 1925. The total amount invested in Canada during the period 1925-1935 was approximately \$500,000,000. This increase is due to a number of factors, including the growth of the Canadian economy and the increasing interest of foreign investors in Canada.

The increase in investment in Canada is a result of a number of factors, including the growth of the Canadian economy and the increasing interest of foreign investors in Canada. The Canadian government has also taken steps to encourage investment in Canada, including the establishment of the Canadian Investment Commission.

The increase in industrial investment in Canada is a result of a number of factors, including the growth of the Canadian economy and the increasing interest of foreign investors in Canada. The Canadian government has also taken steps to encourage industrial investment in Canada, including the establishment of the Canadian Industrial Development Bank.

The Canadian government has also taken steps to encourage investment in Canada, including the establishment of the Canadian Investment Commission.
