# THE BROOM, BRUSH AND MOP INDUSTRY IN CANADA, 1929.

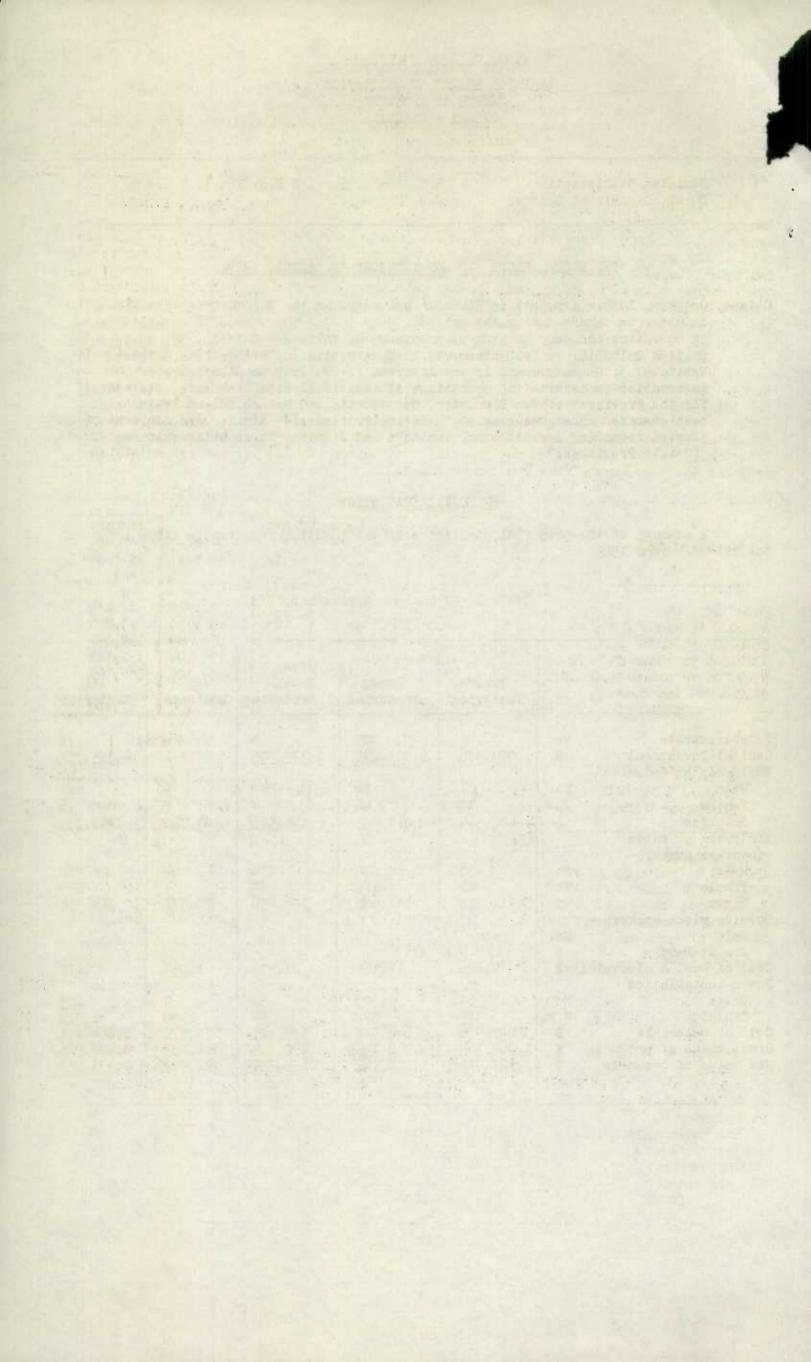

Ottawa, October, 1930.- A report is herewith presented on the Broom, Brush and Mop Industry in Canada during the calendar year 1929. There were 78 establishments in operation and were located by provinces as follows:- Ontario, 39; Quebec, 24; British Columbia, 7; New Brunswick, 1; Nova Scotia, 1; Prince Edward Island, 1; Manitoba, 3; Saskatchewan, 1; and Alberta, 1. To prevent disclosure of information concerning the operations of individual establishments, statistics for the provinces of New Brunswick, Nova Scotia and Prince Edward Island have been combined under the head of "Maritime Provinces." Similar procedure has been adopted regarding Saskatchewan, Manitoba and Alberta, these being shown as "Prairie Provinces."

#### PRINCIPAL STATISTICS

A summary of the principal statistics of the industry is given in Table 1 for the calendar year 1929.

Table 1 .- Principal Statistics, 1929.

In view of the tendency towards concentration in industrial enterprises, a eries of tables has been prepared presenting in a threefold way the size of establishents in the broom, brush and mop industry measured by (a) capital investment, (b) gross alue of production and (c) the number of persons employed, all within certain specified troups or limitations for the calendar years 1928 and 1929. The tables further indicate the movement of capital, production and employment within the industry.

In 1929 the number of establishments reporting was 78 with a total capitalization of \$4,385,774, - a gross value of production of \$4,497,926 and a total employment of 1,485. Nine factories had a total capital investment of \$3,183,375 or 72.6 per
cent of the total capitalization with an average investment of \$353,708 per establishment.
Ten establishments had a gross value of production of \$3,026,164 or 67.3 per cent of the
total output with an average production of \$302,616 per establishment. In employment 6
factories had 704 persons on the payroll, - an average of 117 persons per establishment
and 47.4 per cent of the total employment.

In 1928 the number of establishments reporting was 76 with a total capitalization of \$4,363,107, - a gross value of production of \$4,401,045 and a total employment of 1,404. Nine factories had a total capital investment of \$3,064,058 or 70.2 per cent of the total capitalization with an average investment of \$340,451 per establishment. Eight establishments had a gross value of production of \$2,784,185 or 63.2 per cent of the total output with an average production of \$348,023 per establishment. In employment 5 factories had 622 persons on the payroll, - an average of 124 persons per establishment and 44.3 per cent of the total employment.

#### Production

The quantity and value of the various kinds of brooms, brushes and mops manuactured during the calendar year 1929 is given by provinces in Table II. The total value of production rose from \$4,401,045 in 1928 to \$4,497,926 in 1929, an increase of \$96,881. In order of individual importance in production, brooms occupy the premier position with \$1,481,520 followed by brushes, paint, with \$834,486, whilst brushes made of corn or fibre take third place with \$352,876.

Note: Data here given do not necessarily represent the total Canadian production of these commodities, since they are also produced in other industries.

# Capital Investment.

The total capital employed in the industry during the calendar year 1929 is shown by provinces in Table III. The total capitalization rose from \$4,363,107 in 1928 to \$4,385,774 in 1929, an increase of \$22,567.

Table III .- Capital employed, by provinces, 1929.

	Fixed Capital	Working	Capital

#### Employees, Salaries and Wages.

The number of persons employed in the industry during the calendar year 1929 is given in Table IV by (a) classes of employment, (b) sex and (c) salary on wage payments. The total number of employees in all classes rose from 1,404 in 1928 to 1,485 in 1929, an increase of 81. There was a corresponding increase in the payroll, in 1928 the total being \$1,334,889, whilst the amount reported for 1929 was \$1,442,241, an increase of \$107,352. A further table IV(b) gives the statistics of employment by provinces.

Table IV (a). - Employees, salaries and wages, 1929.

## Other Employment Statistics.

The number of days the factory was in operation during the calendar year 1929 together with the number of hours per day or shift and per week normally worked by wage earners is given in Table V(a). The number of wage earners employed in the industry is shown by sex and by months in Table V(b). The maximum number employed was 1,238 in the month of November whilst the minimum number reported was 1,173 in August.

Table V(a) .- Days in operation and hours worked, 1929.

Number of establishments in operation	78	
	Total	Average per establishment
Days in operation on full time Days in operation on part time Days idle Hours worked by wage earners per day or shift Hours worked by wage earners per week	20,365 1,346 2,001 664 3,723	261.09 17.26 25.65 8.51 47.73

			TOTAL	11,479	2,993
	Average 1	number employe	d during the year	968	254

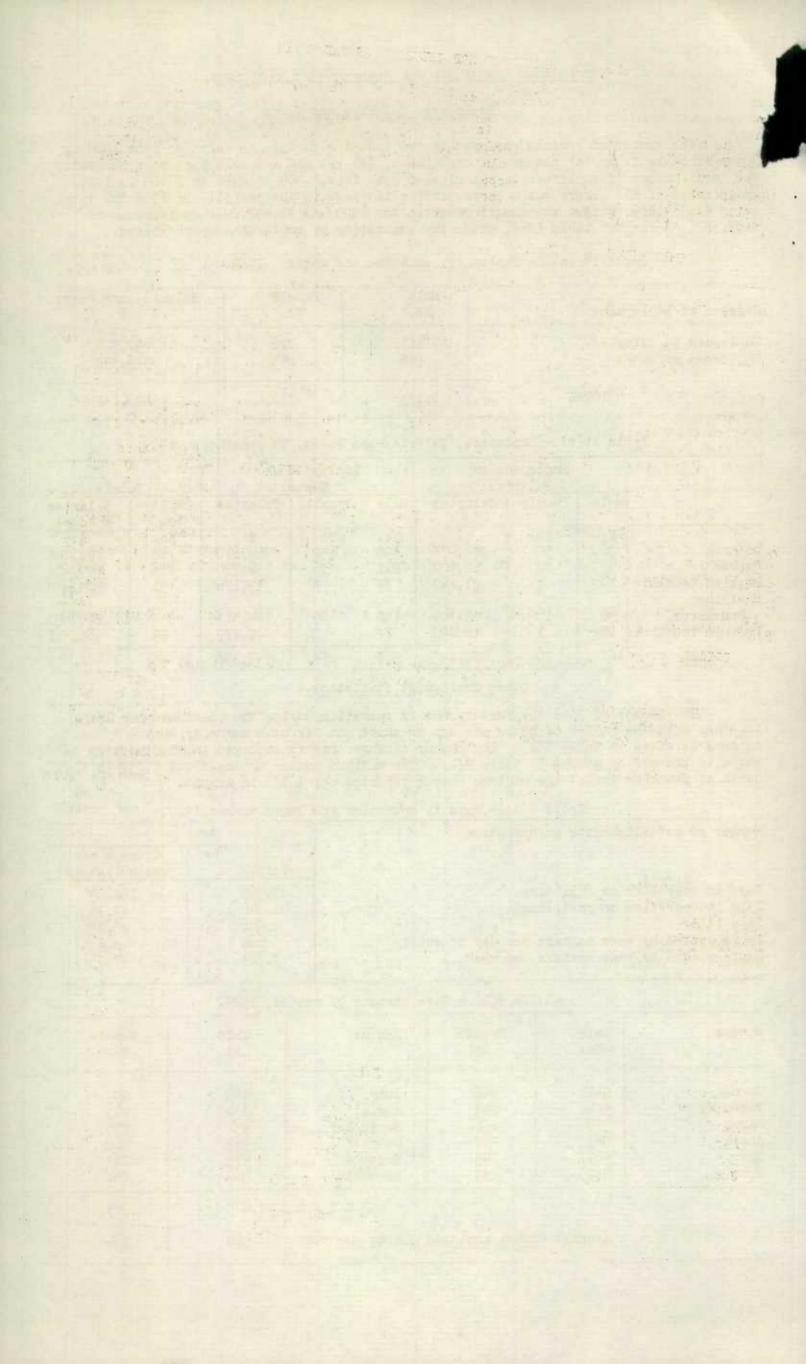

Table 6 presents statistics of wage-earning employees in month of highest employment working specified hours per day for Canada and the provinces with percentages of persons working at each specified daily rate. From the table following it will be noted that the prevailing daily rate in the Dominion as a whole was that of the group of wage-earners working 9 hours per day, the percentage being 45.81. The next in order was the 8 hour group with 28.99 per cent whilst the groups working more than 9 hours aggregated 25.22 per cent.

Table 6. Hours worked per day by wage-earners in month of highest employment for Canada and the provinces 1929.

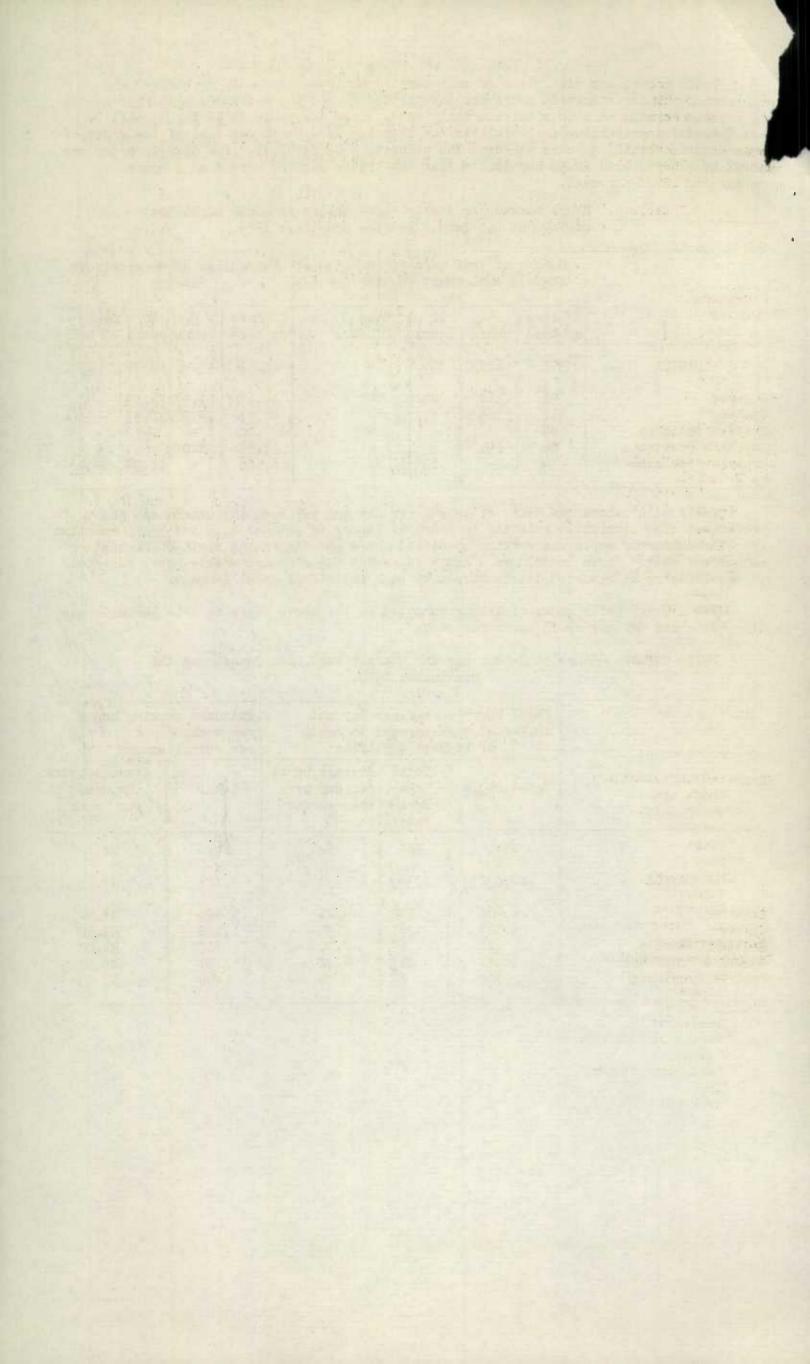

Provinces		ers in month of working per day	Fercentage of wage-earners working

Table 6 (a) shows the hours of labour per day and per week for Canada and the provinces. The statistics relating to hours of labour in columns 1, 2 and 3 are compiled from the number of employees working specified hours per day in the month of highest employment whilst those in columns 4 and 5 represent the standard weekly hours of labour in the industry as reported to the Bureau by each individual establishment.

The average daily hours of labour computed on the above basis for the Dominion was 8.96 hours per day and 47.73 hours per week.

Table 6 (a). Hours of Labour per day and per week, for Canada and the provinces, 1929.

# Materials Used.

The quantity and value of the various materials used in the industry is given by bvinces in Table VII for the calendar year 1929. The total cost of all materials rose from \$1,952,794 in 1928 to \$2,004,893 in 1929, an increase of \$52,099.

## Fuel Consumption.

The quantity and cost value, delivered at the factory, of the various classes of fuel and electricity used in this industry are shown in Table VIII for the calendar year 1929. Coal of all kinds represented 88.3 per cent of the total cost of all fuel exclusive of electricity. Electricity purchased amounted to \$20,081 as compared with \$19,894 in 1928.

Classes of fuel	Unit of Measure	Quantity	Cost Value at Factory
Bituminous coal Anthracite coal Lignite coal Coke Gasoline Oil (Fuel) Wood Gas Other fuel Electricity	ton  " Gallon  " Cord  M.C.ft.	2,098 378 7 51 150 30 99 572	17,311 3,002 89 715 45 9 780 572 575 20,081

Table VIII .- Fuel Consumption, by classes, 1929.

## Power Installation.

TOTAL Fuel

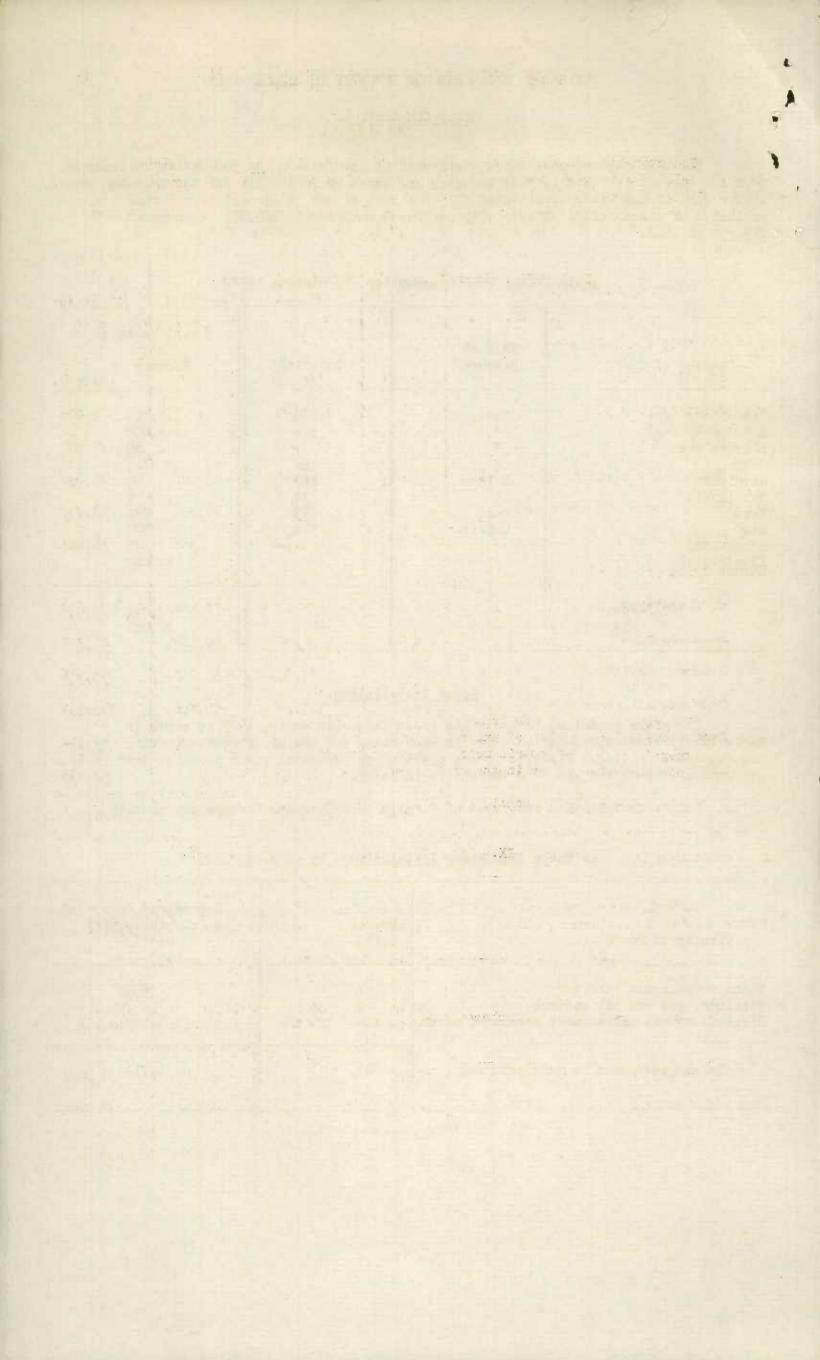

" Electricity

The power installed in brush and broom factories during 1929 is shown in Table IX, by classes, number of units in each class and the horsepower according to manufacturers' rating. Electric motors operated by purchased power provided over 74.17 per cent of the motive power in the entire industry.

Boiler installation consisted of 7 units of 680 boiler horsepower capacity.

Horsepower according to manufacturers! No. of Classes of Power Units rating 7 435 Steam engines and turbines Gasoline, gas and oil engines 1,269 194 Electric motors operated by purchased power 203 1,711 Total power used in manufacturing

Table IX .- Power Installation, by classes, 1928.

# Imports and Exports.

Imports of brushes and brooms are shown in Table X by countries for the calendar year 1929. Raw materials were imported to the value of \$1,233,052 and manufactured goods to the value of \$895,429.

Table X. - Imports for consumption, by countries, 1929.

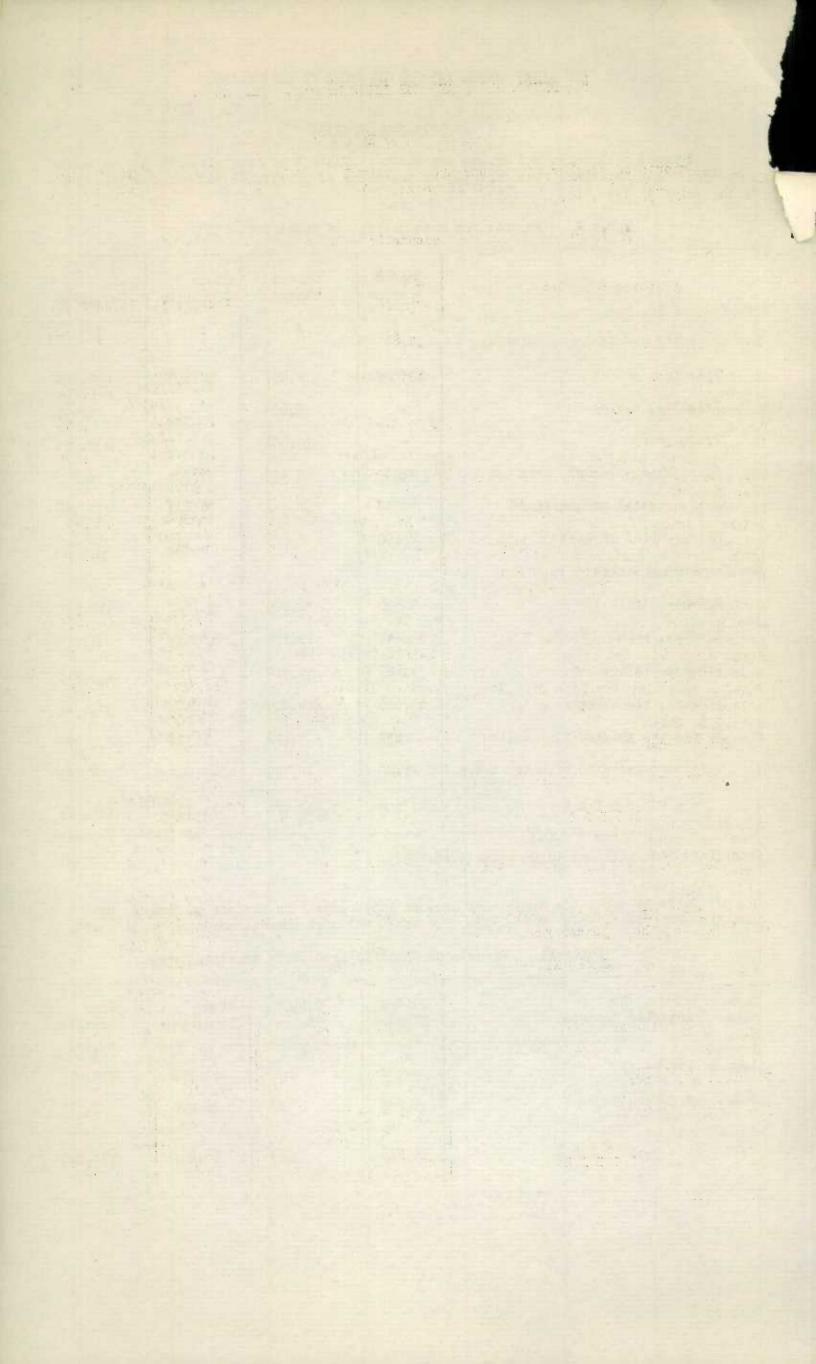

Articles Imported	United Kingdom	United States	Other Countries	All Countries
Raw or partly manufactured materials -	\$	\$	\$	\$
Bristles, animal	12,028	378,451	50,655	441,134
Bristles, n.o.p.	-	2,096	gene	2,096
Broom, corn	p=1	423,501	0-10	423,501
Horse hair, cleaned, dyed, etc.	3,499	68,375	6,768	78,642
Hair, cleaned or uncleaned	237	268,351	4,408	272,996
Hair, curled or dyed, n.o.p.	7,609	6,686	388	14,683
Manufactured articles -				
Brushes, tooth x	9,300	52,890	83,502	145,692
Brushes, paint	64,344	12,787	10,584	87,715
Brushes, toilet	77,487	59,719	116,710	253,916
Brushes, all other	69,616	214,905	55,846	340,367
Brooms and whisks	638	7,116	1,390	9,144
Other manufactures of hair, n.o.p.	2,442	12,595	43,558	58,595
TOTAL	247,200	1,507,472	373,809	2,128,481

x Period from April 1st to December 31st, 1929.

Table XI shows the exports of brushes and brooms, the produce of Canada, by countries for the calendar year 1929. The total value of exports amounted to \$154,110.

Table XI. - Exports of Canadian Produce, by countries, 1929.

Articles Exported	United Kingdom	United States	Other Countries	Other Countries
Brushes, all kinds	\$ 54,748	<b>\$</b> 692	\$ 69,977	\$ 125,417
Brooms and whisks	2,138	265	26,290	28,693
TOTAL	56,886	957	96,267	154,110
