THE BROOM, BRUSH AND MOP INDUSTRY IN CANADA, 1937.

A report of the broom, brush and mop industry in Canada during the calendar year 1937 is presented herewith.

In that year there were eighty-four establishments in operation which were located by provinces as follows: New Brunswick 1, Quebec 29, Ontario 40, Manitoba 3, Saskatchewan 2, Alberta 2, and British Columbia 7. To avoid divulging information concerning individual establishments, it has been necessary to combine statistics for the provinces of New Brunswick, Manitoba, Saskatchewan and Alberta which are shown throughout the report as "Other Provinces". In previous years, "Other Provinces" comprised New Brunswick, Saskatchewan and Manitoba.

These eighty-four factories had a total capital investment of \$4,351,652, provided employment to 1,472 persons who received \$1,338,990 in salaries and wages. The sum of \$1,931,924 was expended for materials used, whilst the total output was valued at \$4,334,993.

The principal items of production in order of importance as represented by the total selling value at the factory were: corn brooms \$1,049,502, paint brushes \$958,053, mops - all kinds, \$410,327, brushes for household use \$406,944 and tooth brushes \$246,605.

Compared with the previous year there were increases of \$209,167 in the capital invested, \$149,134 in the salaries and wages paid, \$233,956 in the cost of materials used and \$562,506 in the gross value of the products.

The value of the imports of brooms and brushes and principal materials used by the industry was \$1,602,883 in 1937 as compared with \$1,391,037 in 1936. Tooth brushes and toilet brushes together formed the greatest item and were valued at \$235,112, in 1937. Broom corn and bristles valued at \$852,785 were the chief raw materials imported.

Exports of this industry in 1937 were valued at \$152,033 of which \$136,262 represented the value of the brushes of all kinds.

Detailed statistics of production, materials used, capital, employment, power and fuel consumption, imports and exports are given in the tables following.

THE BROOM, BRUSH AND MOP INDUSTRY IN CANADA, 1937.

Size of Establishments

In view of the tendency towards concentration in industrial enterprises, a series of tables has been prepared presenting in a threefold way the size of establishments in the broom, brush and mop industry measured by (a) capital investment, (b) gross value of production and (c) the number of persons employed. The tables compared for a number of years indicate the movement of capital, production and employment within the industry.

THE BROOM, BRUSH AND MOP INDUSTRY IN CANADA, 1937.

In 1937 the number of establishments reporting was eighty-four with a total capitalization of \$4,351,652 a gross value of production of \$4,334,993 and a total employment of 1,472. Ten factories had a total capital investment of \$3,146,794 or 72 per cent of the total capitalization, with an average investment of \$314,679 per establishment. 12 establishments had a gross value of production of \$3,094,409 or 71 per cent of the total output, with an average production of \$257,867 per establishment. In employment nine factories had 834 persons on the payroll, an average of ninety-three persons per establishment and 57 per cent of the total employment.
