BUTTON, BUCKLE AND FASTENER INDUSTRY
(S. I. C. 3981)

1966

In terms of the revised Standard Industrial Classification and the New Establishment Concept, this industry is defined as comprising those "Establishments primarily engaged in manufacturing buttons, buckles and fasteners".

No detailed information is collected on manufacturing materials and supplies used by this industry so that Table 12 presents these data with a minimum of breakdown. The shipments by the industry proper of goods of own manufacture are shown in Table 13 wherein the detail has been somewhat abridged in order that the more important shipments of the main products of this industry by all industries may be presented in Table 14.

A list of the establishments classified to this industry in the 1966 survey will be found at the end of this report.

NOTE

The detailed "Concepts and Definitions" notes, usually carried each year, have been omitted from this 1966 report for reasons of economy. Reference to these notes may be had by consulting any 1965 report in this series. Failing this, a copy may be obtained free of charge upon application to the Manufacturing and Primary Industries Division of the Bureau.
