## TAE NUSICAI INSTEUMENI INDUSTRY IN CANADA. 1930.

Ottawa, November, 1931. The annual report on the Musical Instrument Industry for the calendar year 1930 is herewith presented. The report includes statistics of all firms engaged in the manufacture of musical instrument; of every description; all materials and parts for same, and all accessories such as records, cabinets, otc., pertaining to the industry. Reports were receivod from 32 individual establishments in 1930. The location of establishments by provinces was:- Ontario 23, Quebec 7, and British Columbia?

Classified according to products manufactured, the number engaged in each class was as follows:-

| Pianos, organs, etc. only. | 21 |
| :--- | ---: |
| Fhonographs, gramophones and records, only | 3 |
| Fhonographs, radios, records and parts | 3 |
| Musical irastrament raterial B, etc, only | 5 |

## PRINCIFAL STAFISTICS COlNAARTD. 1926 to 1930

Table 1 gives a comparative view of the principal statistics relating to the musical instrument industry in Canada for the calendar years 1926 to 1930.

Table 1 (a) - Frincioal Statistics of tusical Instrument Industry Comeared, 1926, 1927 and 1928

## Size of Establishments

In view of the tendency towards concentration in industrial enterprises, a series of tables has been prepared presenting in a threefold way the size of establishments in the musical instrument industry, measured by (a) capital investment, (b) gross ralue of production and (c) the number of persons employed, all within certain specified groups or limitations for the calendar years 1929 and 1930. The tables further indicate the movement of capital, production and employment within the industry.

In 1929 the number of establishments renorting was 42 with a total capital investment of $\$ 14,401,537$,- a gross value of production of $\$ 13,505,238$ and a total employment of 2,734. Twenty-five establishments had a capital investment of $\$ 13,950,738$ or 96.9 per cent of the total cepitalization with an average tavestment per factory of $\$ 558,029$. Twenty-one establishmerts had a gross value of production of $\$ 12,898,865$ or 95.5 per cent of the total output and an average of $\$ 624,232$ per establishment. In employment 26 establishments had 2,618 persons or 95.8 per cent of the total employment W1 th an average of over 100 per establishment.

In 1930 the number of establisbments reporting was 32 with a total capital investment of $\$ 9,076,086$, a gross value or production of $\$ 8,250,887$ and a total employment of 1,728. Nineteen establishments had a capital investeent of $\$ 8,747,456$ or 96.4 per cent of the total capitalization with an average investment per factory of $\$+50,392$. Fourteen establishments had a gross value of production of $\$ 7.873,598$ or 95.4 per cert of the total output and an average of $\$ 562,400$ per establishment. In employment 17 establishments had 1,613 persons or 93.3 per cent of the total employment with an average of over 94 per establishment.

## prodxction

The quantity and selling value $a^{2}$ the factory of works of the various products of the industry are shown in table 2 for the Dominion and the provinces for the calender tear 1930. The value of production shows a decrease of $\$ 5,254,351$, the total having faller from $\$ 13,505,238$ ir 1929 to $\$ 8,250.807$ in 1930. Musical instruments rencesented $\$ 2,777,867$ of the totel velue, musical instrument materials $\$ 265,508$, gramophones, radio sets and accessories $\bar{\Psi}, 207,452$. Of the total production of the industry 60.39 per cent was menufactured by ihe province of quebec, 39.51 per cent by Onterio and C. 10 per cent in Eritish Columbia.

## HUFH CONSUMPTION

The quantity and the cost value at the works of the varlous classes of fuel consmed in the industry during the calendar year 1930 is shown by provinces in liacle $i$. Approximately 98 per cent of the total cost of fuel consisted of caal of all kinds. The prorince of Ontario used 53.91 per cent of the cost of all fuel and electricity, quabe belre next mith 46.0 rer cent, whilst the province of British Columila accombtei for the remaining 0.09 per cent.

The cost of electricity purchased during the year was $\$ 27.53$ as compared with $\$ 38.190$ in 929.
