Purpose of Traders' and Investors' Index Numbers

The Investors' Index numbers measure the trend of values for the investor who buys a fixed list of stocks and holds them over a long period.

The Traders' Index measures the trend of gains or losses for a trader on the Montreal and Toronto Exchanges, who buys and sells the leading common stocks in the same proportion as they are traded in the market as a whole at the mathematical average price of the week and who turns over his investments every week.
