# OPERATING RESULTS AND FINANCIAL STRUCTURE INDEPENDENT DRUG STORES 

1956

Published by Authority of
The Honourable Gordon Churchill, Minister of Trade and Commerce

DOMINION BUREAU OF STATISTICS<br>Industry and Merchandising Division<br>Merchandining and Servicen Section

## notice

The annual reports prepared by the Industry and berchandising Division of the kurant of Statistics are divided into 3 volumes, as follows: Volune $\lfloor$ - The Primary Industries 3 , including mining, forestry and fisheries; Volume II - Manufacturing; Volume III - Mercharidising and Services.

Volume III consists of the following parts with individual trade reports listed under each:

## Part II - Wholesale Statistics

A - Wholesale Trade, 25¢

* B - Operating Results of Food Wholesalers, 25
${ }^{\circ} \mathrm{C}$ - Operating Results of Dry Goods, Piece Goods and Footwear Wholesalers, $25 \$$
"D - 1 Operating Results of Automotive Parts and Accessories Wholesalers, 25 ¢
2 Operating Results of Drug Wholesalers, 25
3 Operating Results of Hardware Wholesalers, 25 ¢
4 Operating Results of Plumbing and Heating Supply Wholesalers, 254
5 Operating Results of Household Appliance \& Electrical Supply Wholesalers, 25\$

## Part II - Retail Statistics

F - Retail Trade, 50¢
G - Retail Chain Stores, 50¢

* H Operating Results of Food Store Chains, 25
* I - Operating Results of Clothing Store Chains, 25e
- J - 1 Operating Results of Variety Store Chains, 25 ©

2 Operating Results of Drug Store Chains, 25
3 Operating Results of Furniture Store Chains, 25 c
K - Operating Results of Independent Food Stores, $25 \$$
L - Operating Results of Independent Clothing Stores, $25 \not$
M - Operating Results of Independent Hardware, Furniture, Appliance, Radio and Television Stores, $25 \$$
N - Operating Results of Filling Stations and Garages, 25 d
O-1 Operating Results of Independent General Stores, 25 ¢
2 Operating Results of Independent Restaurants, 25 \&
3 Operating Results of Independent Fuel Dealers, $25 \$$
4 Operating Results of Independent Drug Stores, $25 \not$
5 Operating Results of Independent Jewellety Stores, 25 6 Operating Results of Independent Tobacco Stores, $25 \$$
P - Retail Credit, $25 \$$

## Part III - Services and Special Fields

Q - Laundries, Cleaners and Dyers, 25 ¢
R - Motion Picture Theatres, Exhibitors and Distributors, $25 \notin$
S - Hotels, $25 \$$
T - Sales Financing, 25¢
U - Farm Implement and Equipment Sales, 254
V - New Motor Vehicle Sales and Motor Vehicle Financing, 25 *
W - Advertising Agencies (Memorandurn). $10 \notin$
X - Motion Picture Production (Memorandum), 10\$
The reports are punched to permit of filing in a fing binter.

## DEFINITIONS

## Profit and Loss

Net Sales - the dollar volume of business done. Allowances and discounts granted to customers and value of goods returned by customers are deducted from gross sales, but sales of meals or lunches provided employees and any goods withdrawn by the proprietor for personal use are included.
Purchases - are taken at invoice value less returns and allowances cash and trade discounts. Added to the cost of merchandise are the following expenses: duty, inward freight, express and trucking, alterations, etc.
Cost of goods sold - determined by adding the beginning inventory to net purchases and deducting the ending inventory.
Gross profit - the difference between "cost of goods sold" and "net sales".
Operating expenses - all costs incurred in the year's operation of a business, except the cost of merchandise. These include:

Salaries and wages (except delivery) - payments to employees before deduction of income tax or unemployment insurance. Proprietors' salaries or withdrawals are included in "net operating profit" in unincorporated store operations.

Delivery - includes salaries paid to delivery men, truck repairs and maintenance, depreciation, licences and insurance on delivery equipment and supplies used in connection with delivery (gas, oll, etc.), and amount paid for contract delivery.
Taxes - business, property and water taxes. Taxes collected for remittance to governmental bodies and income tax are not included.
Insurance - annual proportion of premiums for insurance policies carried to protect the business.
Rent - payments for use of business premises, including rentals of warehouses and garages, etc.

Heat, light and power - cost applicable to year's operations.
Repairs and maintenance - costs incurred to keep fixed store assets operating efficiently (excludes capital expenditure).
Depreciation allowances - provision for decrease in the value of fixed store assets.
Office and store supplies - wrapping paper, office supplies, etc.
Advertising - displays, window dressing and sales promotion.
Net bad debt loss - estimated amount of uncollectable customers' accounts receivable less the amount recovered from former bad debts.

Other expenses - telephone, telegraph, postage, bank charges, legal, auditing and collection fees, etc.

Net operating profit - is the difference between "total operating expenses" and "gross profit" and includes proprietors' salaries and withdrawals before income tax deductions.
Occupancy - the cost of maintaining and occupying a place of business and includes: rent. business and property taxes, insurance, heat, light and power, repairs and maintenance and depreciation.

Non-trading income - interest earned, revenues from rentals, other activities, carrying charges and investments.

Non-trading expenses - interest expense, rental expense, any other expenses not pertaining to the business.

## DEFINITIONS

## Balance Sheet

## Assets

Cash on hand or in bank - the amount of cash in the business at the end of the year.
Net accounts receivable - all customers' notes and accounts owing to the business at the end of the year less any reserve for doubtful accounts.

Merchandise inventory - the cost value of merchandise on hand for resale but does not include store supplies on hand.

Other current assets - includes assets which may be converted into cash, if necessary within a reasonably short time, such as Dominion of Canada Bonds and prepaid insurance.

Fixed assets (net) - the cost value of land, buildings, furniture, fixtures and equipment less any reserves for depreciation. Separate figures are shown for assets used in the business and those not used in the business.

Other assets - investments of a nermanent nature not readily converted into cash and intangibles sue! as roodwill smi organization costs.

## Liabilities and Net Worth

Current liabilities - obligations which must be paid in the near future (usually one year) and represent accounts payable or any item that may be considered as a direct lien againstcurrent assets.

Fixed liabilities - mortgages secured by fixed assets and separated, as are fixed assets, between those used and not used in business.

Other liabilities - long term notes payable, accrued expenses such as taxes due but not yet paid, and prepaid or deferred income.

Net Worth - Unincorporated business - the amount invested in the business together with any accumulated profits after proprietor's or partners' withdrawals.

- Incorporated business - net worth is shown in two parts:
(1) Capital stock, which represents the shareholders' investment of fully paid-up subscribed shares, and
(2) Surplus, which represents distributable surplus, capital surplus and earned surplus.

## DEFINITIONS

## Profit and Loss Statement Ratios

Stock Turnover - the number of times in a year that the average merchandise inventory is sold and replaced. The average of the beginning and ending inventories is divided into the cost of goods sold.

Note: Each of the following ratios are expressed as a percentage of "net sales". Consequently, it is permissible to make direct comparisons between these ratios. Each ratio represents a portion of the average net sales' dollar.

Gross Profit Ratio - sometimes referred to as the "gross margin ratio" or "mark-up" represents the difference between "cost of goods sold" and "net sales". It is the portion of the average sales' dollar from which the merchant meets his operating expenses and obtains his net operating profit.

Operating Expense Ratios - Each item of expense, as well as "total operating expenses" when expressed as a percentage of "net sales" shows the amounts of the average sales" dollar required to operate the average business.

Net Operating Profit Ratio - the remaining proportion of the average sales' dollar after "cost of goods sold' and 'total operating expenses' have been deducted. From this amount, the percentage allowances for both proprietors' salaries and income tax should be deducted, in order to determine the percentage to sales of net returns on capital investment.

## Ralance Sheet Ratios

Current Ratio - Current Assets $\div$ Current Liabilities - indicates to what extent the business is able to meet its current obligations out of "current assets". Care should be taken to examine the components of current assets because overstocking of inventories and overinvestment in credit sales (accounts receivable) can result in a stronger or more favourable ratio.

Liquidity Ratio - Current Assets less Merchandise Inventory $\div$ Current Liabilities - sometimes referred to as the "acid test", is similar to the "current ratio" as a test of current credit strength. A ratio of $100 \%$ (or 1) is usually considered favourable.

Working Capital to Net Worth Ratio - denotes the relationship between "working capital" (current assets less current liabilities) and a proprietor's equity in the business. That is, the proportion of "net worth" that could be realized readily if liquidation were necessary.

Worth-Debt Ratio - Net Worth - Total Liabilities - if used in conjunction with the "current ratio' , would reflect any weakening of the capital structure of a business through large loans which give a high "current ratio".

## Interstatement Ratio

Turnover of Total Capital Employed - Net Sales - Total Assets used in the business - provides an indication of the degree of management efficiency. However, this ratio should not be used alone because "profits" and not "sales" are the major criterion of efficiency.

# OPERATING RESULTS AND FINANCIAL STRUCTURE INDEPENDENT DRUG STORES, 1956 

## INTRODUCTION

This report on operating results and financial structure presents information in the form of averages and ratios as a guide to retail store operators for the trade covered here. These ratios are the "average" of a broad range of operational efficiency, and as such do not represent top performance guides. However, used with this in mind, they show a standard by which business men can compare their own operating experiences. The pattern of expense and financial ratios, by size and kind of business, permit direct analysis of operating results for the year.

There is growing evidence that independent retail merchants are making more advantageous use of the results shown in the biennial operating results bulletins issued by the Dominion Bureau of Statistics. Many accounting firms whose clientele includes retail merchants have shown much interest in these series.

A number of trade papers and business periodicals have reproduced and interpreted the results of previous studies with the object of illustrating to retail merchants the manner in which operating results can be used as a tool in store management. This is a practice the Bureau is pleased to encourage, since it meets with one of the most important objects in maintaining this series, namely the promotion of improved merchandising on the part of retailers.

The new owner of a retail store or the prospective operator might well study these averages. Not all failures in business, however, come from the "new-owner" group. It seems reasonable to suppose, however, that failure in many cases is the result of inadequate knowledge on the part of new proprietors of the true fiscal requirements
involved in operating a business and the proper allocation of costs. Where capital is limited, as is often the case in a newly-established store, it would seem that most careful attention should be given to maintenance of proper records and that provision be made to check against some such standard performance as these publications provide.

This report deals with independent retail drug stores. Separate figures are given for both unincorporated and incorporated stores.

There are analyses of:

1. Profit and loss statements
2. Balance sheet statements

Profit and loss data are shown for owned and rented stores separately, and for various sale-size rategories. This 1956 report, for the first time, shows information on "other income" and "other expense". The segregation of these improves the quality of the ratios for net operating profit in that there is little chance of a "net" of these two items being included in operating profit.

Balance sheet data, which were introduced in 1948, is continued in this 1956 study. This information is presented by sales-size and kind of occupancy groups for stores with $\$ 20,000$ or more annuel net sales. Where possible, a further differentiation has been made between businesses in operation less than 10 years and 10 years or more. An important change, introduced in 1950, is the segregation of fixed assets and fixed liabilities between those used in the business and those not used in the business. This makes possible a better relationship between assets used in the business and sales than was possible when all fixed assets of the proprietor were reported as one item.

## INDEPENDENT DRUG STORES

This survey of independent drug stores includes only retail establishments selling mainly prescription drugs, patent medicines, drug sundries, cosmetics, toilet articles and preparations, tobacco, books and magazines and other novelties. Stores operating a soda fountain were not covered.

Separate tabulations were made of unincorporated and incorporated stores for both profit and loss ratios and balance sheet data. Reports used in this study numbered 520 in the unincorporated group (206 owned and 314 rented stores); the in-
corporated class had 131 respondents ( 25 owned and 106 rented stores). A slightly smaller number was used in each for the balance sheet tabulations due to the fact that stores in the lowest salessize classes were not required to furnish balance sheet information. Results are shown by sales-size categories and, where possible, a further breakdown was made in the balance sheet averages by number of years in business.

In compiling trade ratios for the "total, all sizes", the different sales-size ratios were com-
bined by giving each size category its proper "weight" as obtained from the 1951 census. In this survey the reporting is generally better in the larger size stores so that any aggregate of reporting firms would show a ratio biased toward the characteristics of large store operation. The use of weighting gives proper importance to small store operations so that the ratios shown in the summary table below more truly represent the trade total.

Both forms of organization operated on higher gross profit ratios in 1956 than they did in 1954. Slight decreases were registered for total operating expenses for the two groups, thereby adding to the: marginal profits to produce higher ratios of net operating profit. Stores operated as proprietorships or partnerships increased their net profit from 11.59 per cent in 1954 to 12.12 per cent this year. Incorporated stores increased their net profit from 3.64 per cent to 4.46 per cent in 1956.

TABLE 1. Operating Results of Independent Drug Stores 1954 and 1956 Compared

| Item | Unincorporated |  | Incorporated |  |
| :---: | :---: | :---: | :---: | :---: |
|  | 1954 | 1956 | 1954 | 1956 |
|  | (per cent of net sales) |  |  |  |
| Gross profit | 29. 82 | 30.26 | 32.14 | 32. 76 |
| Operating expenses: |  |  |  |  |
| Employees' salaries |  | 8.62 5.19 | 18.53 5.16 | 18.37 5.13 |
| Occupancy ........................................................................................................................ |  | 5.19 0.56 | 5.16 0.64 | 0.57 |
| Advertising ..................... |  | 0.80 | 1.08 | 0.98 |
|  |  | 2.97 | 3.09 | 3.25 |
| Total operating expenses .................................................... |  | 18.14 | 28.50 | 28. 30 |
| Net operating profit before deduction of income tax ${ }^{1}$.............. |  | 12.12 | 3. 64 | 4.46 |

1. Proprietors' salaries included for unincorporated stores.

Note: These ratios are "weighted" according to the 1951 Census weights of the different sales slzes for independent strires. They do not agree with ratios shown in historical tables.

TABLE 2. Independent Drug Stores - Balance Sheet Ratios as at December 31

| Item | Unincorporated |  | Incorporated |  |
