# OPERATING RESULTS OF FOOD WHOLESALERS 

 1949Published by Authority of the Rt. Hon. C.D. Howe, Minister of Trade and Commerce

## NOTICE

The Industry and Merchandising Division of the Bureau of Statistics collects and compiles figures on (a) the primary industries in Canada - mining, forestry, and fishing; (b) manufacturing; (c) construction; and (d) merchandising and services.

For the purpose of annual compilation and publication, reports on merchandising and services have been classified as follows:

## Part I - Wholesale Statistics

A. General Review

B, Wholesale Trade
C. Operating Results of Food Wholesalers
D. Operating Results of Dry Goods, Piece Goods, and Footwear Wholesalers
E. Operating Results of Miscellaneous Wholesalers (automotive equipment, drugs, hardware, plumbing and heating equipment)

## Part II - Retail Statistics

F. General Review
G. Retail Trade
H. Department Store Sales and Stocks
I. Retail Chain Stores
J. Operating Results of Food Store Chains

K, Operating Results of Clothing Store Chains
L. Operating Results of Miscellaneous Chain Stores (variety, drug, fumiture)

## Part 111 - Services and Special Fields

M. Laundries, Cleaners and Dyers
N. Theatres
P. Advertising Agencles (Memorandum)
Q. Sales Financing
R. Farm Implement and Equipment Sales

AA. New Motor Vehicle Sales and Motor Vehicle Financing

The reports are punched to permit of filing in a ring binder.

## OPERATING RESULTS-LIST OF REPORTS

WHOLESALE TRADE (1947 and 1949)

1. Food Wholesalers
2. Dry Goods, Plece Goods, Footwear Wholesalers
3. Miscellaneous Wholesalers (Automotive Parts and Accessories, Hardware, Plumbing and Heating Supplies, Drugs)

INDEPENDENT RETAIL STORES (1944, 1945, 1946 and 1948)

1. Food Stores
2. Clothing Stores
3. Hardware, Furniture, Household Appliance and Radio Stores
4. Filling Stations and Garages
5. Miscellaneous Stores (Country General, Restaurants, Fuel. Drugs, Jewellery, Tobacon Stores)

RETAIL CHAIN STORES (1947 and 1949)

1. Food Store Chains
2. Clothing Store Chains
3. Miscellaneous Chain Stores (Variety, Furniture, Drugs)

## INTRODUCTION

The following explanatory notes describe certain features of the operating results series contained in this report.

## Scope

This study is confined to wholesalers proper,i.e. those wholesalers performing the full selling, warehousing and delivery functions. Agents, brokers, drop shippers and other specialized types of wholesale distributor are not included. Three separate trades are covered - grocery, fruit and vegetable, and tobacco and confectionery wholesalers.

## Content

Most emphasis has been placed on the presentation of profit and loss statistics. Average gross and net profits and detailed operating expenses are shown for the most suitable sales-size classes. Operating expenses appear separately for selling, warehouse and delivery, and administrative and general departments. The customary profit and loss details are supplemented by information on other related operating features including inventories, rate of stock turnover, credit sales and receivables, and floor space used. Wherever possible, a table showing regional figures has been prepared. Reports from Newfoundland wholesalers are not included. Proprietors' salaries were included with administrative salaries. An income tax tabulation was made for incorporated companies only.

## Purpose

The primary purpose of the operating costs surveys is to provide averages on the different phases of business operations against which firms in the same trade may make direct comparisons with their own operating results. They also provide useful information to others interested in the cost of distribution of consumer goods.

## Period Covered

This report deals largely with 1949 operations and is the second blennial publication in a series begun in 1947. Certain summary tables show comparative results for both y ears.

## New Feature

Middle range figures for gross and net profits, and for the three main functional divisions of expense, have been introduced as a new feature. Results for one-half of all firms fell within the range shown for each item, while one-quarter of the firms fell on either side of the range limits indicated. Because each item was treated singly, the sum of net profit and the expense items does not necessarily equal gross profit in those tables showing middle range data.

## SUMMARY OF 1949 RESULTS BY TRADES

In summary form the following table shows comparative results for the three kinds of wholesale nusiness covered in this report. In analysing the ierformance of an individual wholesale company,
reference snould be made to the more detailed tables appearing in later sections of this report. In these tables variations arising from differences in salessize and geographical location are revealed.

Operating Results of Grocery, Fruit and Vegetable, Tobacco and Confectionery Wholesalers Compared, 1949

| Item | Grocery | Fruit and Vegetable | Tobacco and Confectionery |
| :---: | :---: | :---: | :---: |
| Number of tirms.. | 110 | 91 | 134 |
| Average sales per firm..................................................................... | $2,525,529$ | 751,509 | 955,988 |
| Stock turnover (times per year). | 9.7 | 40.41 | 19.5 |
|  |  | ent of net sales |  |
| Gross proilt. | 7. 73 | 10.57 | 7. 14 |
| Qperating expenses: |  |  |  |
| Selling ..................................................................................... | 1. 46 | 1.86 | 2. 00 |
| Wiarehouse and dellvery | 2. 25 | 3.82 | 1.32 |
| Administrative and general | 3.38 | 3.76 | 2.33 |
| Total operating expenses. | 7.09 | 9.44 | 5.65 |
| Net operating profit. | 0.64 | 1.13 | 1.49 |
| Other trading income. | 0.59 | 0.16 | 0. 18 |
| Total net profit before income tax deduction. | 1.23 | 1. 29 | 1.67 |
| Credit sales. | 84.89 | 79. 23 | 73. 20 |
| Sales to retall stores. | 90.76 | 82. 71 | 99.06 |

Average sales of grocery firms were much higher than for the other two trades. Stock turnover of fruit and vegetable wholesalers was twice as rapid as that of tobacco and confectionery wholesalers and four times as frequent as that for grocery firms. Gross profits were highest for fruit and vegetable Wholesalers, but high expense ratios for that trade reduced net profit to a position between that of the
other two trades. Tobacco and confectionery wholesalers, operating on the lowest gross profit of the three trades, had comparatively lower expenses and enjoyed the highest net profit. The division of expenses between the three main expense groups was distinctly different for each of the three trades. Credit sales formed over $70 \%$ of total sales inall trades, but the $85 \%$ reported for grocery wholesalers was highest.

## GROCERIES

Some general characteristics of the 110 the preparation of these statistics are described
wholesale grocers whose figures were used in below.

## Description of Reporting Firms

| Item | Firms with 1949 sales of |  |  |  | Total all sizes |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | Under $\$ 1,000,000$ | $\begin{aligned} & \$ 1,000,000 \\ & \text { to } \\ & \$ 4,899,999 \end{aligned}$ | $\begin{aligned} & \$ 5,000,000 \\ & \text { to } \\ & \$ 9,999,999 \end{aligned}$ | $\begin{aligned} & \$ 10,000,000 \\ & \text { and over } \end{aligned}$ |  |
| Number of firms.... | 48 | 52 | 5 | 5 | 110 |
| Form of organization : |  |  |  |  |  |
| Individual proprietorship ..................... |  |  | 1 | - |  |
| Partnership.................................... | 8 | 5 | - | - | 13 |
| Incorporated company .......................... | 26 | 46 | 4 | 5 | 81 |
| Number of establishments operated: <br> By single-establishment firms. $\qquad$ <br> By multiple-establishment firms............. | 47 2 | 46 13 | 19 | $\overline{6}$ | 94 97 |
| Distribution of sales: |  |  |  |  |  |
| To retailers $\qquad$ g | 86. 16 | 91.46 | 97. 21 | 89.03 | 90.76 |
| To other wholesalers and large users..... \% To others. | 12.47 1.37 | 7.94 0.50 | 2.78 | 10.87 | 8.88 0.35 |
| T0 others......................................... $\%$ \% |  |  |  | - | 0.35 |

A high percentage of the wholesale grocers were incorporated companies, and 94 out of 110 operated only one place of business. The 16 multiple firms carried on business through 97
outlets. Sales to retail stores formed nearly $91 \%$ of total sales and the bulk of the remaining sales was made to other wholesalers and large users such as institutions.

## REVIEW OF 1949 OPERATING RESULTS

## Profit and Expense Ratios

Grocery wholesalers obtained an average gross profit of $7.73 \%$ of net sales from their 1949 business operations. Administrative and general expenses were $3.38 \%$ of sales, accounting for almost half of all expenses. Warehouse and delivery expenses were
$2.25 \%$ and seuing added an additional $1.46 \%$ Net operating profit was $0.64 \%$ but, with the inclusion of other income, total net profit before income tax deduction became $1.23 \%$ of sales. Twenty-three firms reported operating losses for 1949.

## Inventories and Stock Tumover

Inventories at the end of 1949 dropped to $9.02 \%$ of sales from $9.96 \%$ at the beginning of the year. The rate of stock turnover - average inventories divided
into cast of gooas sold-was 9.7 times during the year. There was a more rapid rate of stock turn in the upper sales-size category.

## Credit Sales and Receivables

In '1949, $85 \%$ of wholesale grocers' sales were made on credit. This percentage generally increased with size of firm and ratiged from $74 \%$ to $92 \%$. While the larger firns extended credit more liberally than did the smaller firms, customers' accounts outstand-
ing at the end of the year cormed a lower percentage of credit sales in the larger than in the smaller businesses. For all sizes combined, $5.83 \%$ of credit sales remained as outstanding accounts at the end of the year.

## Regional Results

Maritine and Quebec grocery wholesalers obtitined gross profits higher than the Canada average of $7.73 \%$. The Prairies and British Columbia combined operated on a gross profit of $7.73 \%$, identical with the Canada average, and Ontario was lowest at $7.41 \%$. Ontario wholesalers operated with the
smallest relative expenses while Quebec and the Maritimes had expenses amounting to $7.30 \%$ and $7.21 \%$ of net sales respectively. Net profit before income tax deduction ranged from $0.60 \%$ of sales in the west to $0.77 \%$ in the Maritimes, (See Table 2).

## Range Figures

It is possible to show middle range figures only for the two smaller size classes, the number of firms in the higher brackets being too small. All 110 firms have been used to arrive at the figures shown under "Total, all sizes". With the middle $50 \%$ range are shown average ratios
for the respective size groups, Gross profit for the half of the firms centered on the median were within the limits of $6.4 \%$ and $8.7 \%$ of net sales while net profits were grouped hetween the break-even point and 1.1\%. (See Table 3).

## INCORPORATED COMPANIES, 1949

The average gross and net profit of incorporated firms was similar to the "all-types'" average. Other income of $0.57 \%$ added to net operating profit of $0.62 \%$
gave a net profit before income tax deauction amounting to $1.19 \%$ of net sales. Income tax deduction reduced this profit to a final net profit of $0.79 \%$ of sales.

## COMPARISON OF 1947 AND 1949 RESULTS

A total of 95 firms reported to the 1947 survey on grocery wholesalers. Reports were received on 1949 operations from 110 companies: of these, 70
reported for both years. Comparative results for all respondents and for the 70 which reported to both. surveys are summarized below:

## Operating Results of Grocery wholesalers, 1947 and 1949 Compared

| Item | All Respondents |  | Identical Firms |  |
| :---: | :---: | :---: | :---: | :---: |
|  | 1947 | 1949 | 1947 | 1949 |
| Number of firms. | 95 | 110 | 70 | 70 |
| Average sales per firm.................................................... $\$$ | 3,203,758 | 2, 525,529 | 2.910,005 | 3.031 .871 |
|  | (Percent of net sales) |  |  |  |
| Gross profit | 8.07 | 7. 73 | 8. 17 | 7.69 |
| Operating expenses: |  |  |  | 5 |
| Selling.................................................................... | 1. 31 | 1.46 | 1. 29 | 1.42 |
| Warehouse and dellivery............................................... | 2. 17 | 2. 25 | 2. 12 | 2. 27 |
| Administrative and general........................................... | 2.91 | 3.38 | 3. 12 | 3. 29 |
| Total operating expenses ............................................ | 6.39 | 7.09 | 6. 53 | 6. 98 |
| Net profit before other income or income tax deduction....... | 1.68 | 0.64 | 1.64 | 0.71 |

Gross profit was $4 \%$ lower in 1949 than in 1947 while operating expenses were $11 \%$ greater. The
result was a sharp reduction in net profit from $1.68 \%$ of sales in 1947 to $0.64 \%$ in 1949.

## OPERATING RESULTS OF GROCERY WHOLESALERS

| ro others ........................................................................ \% | 0.88 | 0.85 | - | 0.39 |

About half of the firms fell within the "Under $\$ 500,000^{\prime \prime}$ sales-size category. Only three companies operated more than one establishment.

Most sales were made to retailers - about 83\% and the greater part of the remainder to other wholesalers and large users such as institutions.

## REVIEW OF 1949 OPERATING RESULTS

## Profit and Expense Ratios

Out of a gross profit of $10.57 \%$ of net sales, fruit and vegetable wholesalers paid operating costs of $9.44 \%$. Net operating profit of $1.13 \%$ was supplemented by other income of $0.16 \%$ making a total net profit of $1.29 \%$ before deduction of income tax. Warehouse and delivery expenses were $3.82 \%$ of net sales, administrative and general expenses accounted for
$3.76 \%$ and selling expenses for $1.86 \%$. Operating expenses were a smaller percentage of total sales in the larger than in the smaller businesses while net profits were greater for the larger firms. Salarles constituted the largest expense ftem, approximately $55 \%$ of total operating expenses. Twenty-two firms reported operating losses for 1949.

## Inventories and Stock Turnover

Average inventorles were lower at the end of the year than at the beginning, declining from $\$ 16,885$ to $\$ 16,340$. Stock was sold and replaced 40.4 times
in 1949. The stock turnover rate was highest 47.8 times in the year - for firms in the $\$ 500,000$ $\$ 999,390$ salos bracket.

## Credit Sales and Receivables

About $79 \%$ of sales was transacted on credit terms. The proportion ranged from $71 \%$ in the smallest size-class to $87 \%$ in the largest. Accounts
outstanding at the end of the year represented $5.64 \%$ of credit sales with the smaller firms showing the largest proportion of unpald accounts.

## Regional Results

Highest gross profits were reported by fruit and vegetable wholesalers in the Maritimes and British Columbia, $12.42 \%$ and $12.23 \%$ of sales respectively. Quebec wholesalers had the lowest gross profit,
8.81\%. Operating expenses followed somewhat the same pattern with net profits amounting to $2.01 \%$ in British Columbia, $1.53 \%$ in the Marttimes and reaching a low of $0.75 \%$ in Quebec. (See Table 5).

## Range Figures

For each of the three sales-size groups, as well as for the aggregate of the three, table 6 indicates the range within which the middle half of the respondents fell. For example, in the case of firms with less than $\$ 500,000$ sales in 1949, one quarter of them had gross profits of less than $9.5 \%$ of sales and one quarter had profits greater than $14.3 \%$. The remaining half of the firms had profits
which fell between these two limits. The average ratios shown are from Table 4. For all sizes combined, gross profits for the middle half of the firms ranged from $8.7 \%$ to $13.2 \%$ of net sales. The range in net profits for the middle half was from $0.1 \%$ to $1.9 \%$. Attention is a gain drawn to the fact thatnet profit and the three expense items for range figures do not necessarily equal gross profit. (See Table 6).

INCORPORATED COMPANIES, 1949

The average gross and net profit of incorporated companies was similar to the "all-types" average. Other income of $0.16 \%$ added to net operating profit
of $1.04 \%$ gave a net profit before income tax deduc tion amounting to $1.20 \%$ of net sales. Income tax reduced this profit to a final net profit of $0.81 \%$ of sales.

## COMPARISON OF 194\% AND 1949 RESULTS

A total of 62 firms reported to the 1947 survey on fruit and vegetable wholesalers. This year, reports were received from 91 firms giving information on 1949 operations. A comparison of results
for all respondents in the two years is given on the following page. Into this table has been incorporated a section comparing results for the 44 firms which reported to the surveys for both years.

## Operating Results of Fruit and Vegetable wholesalers 1947 and 1949 Compared

| Item | All Respondents |  | Identical Fiirms |  |
| :---: | :---: | :---: | :---: | :---: |
|  | 1947 | 1949 | 1947 | 1949 |
| Number of firms.... | 62 | 91 | 44 | 44 |
| Average sales................................................................ | 852,114 | 751,509 | 894, 061 | 810.519 |
|  | (Percent of net sales) |  |  |  |
| Gross profit | 9.13 | 10.57 | 9.23 | 10.17 |
| Operating expenses: |  |  |  |  |
| Selling . .......................................................................... | 1.34 | 1.86 | 1.35 | 1.91 |
| Warehouse and delivery ................................................. | 3. 22 | 3. 82 | 3.23 | 3. 83 |
| Administrative and general............................................. | 3.21 | 3.76 | 3.24 | 3.66 |
| Total operating expenses ............................................ | 7.77 | 9.44 | 7.82 | 9.40 |
| Net profit before other income or income tax deduction....... | 1.36 | 1.13 | 1.41 | 0.77 |

Average sales decreased in 1949 compared with 1947. Gross profits, at $10.57 \%$, were higher in 1949 than in 1947 when the profit rallo was 9.13\%. An increase in all three expense groups
was sufficient to offset the improved gross profit position with the result that net profits dropped from $1.36 \%$ of sales in 1947 to $1.13 \%$ of sales in 1949.

## OPERATING RESULTS

1947 AND 1949
\% OF NET SALES

## TOBACCO AND CONFECTIONERY

Results for this trade were based on re- istics are described in the table which folports submitted by 134 fims whose characterlows:

Description of Reporting Firms

| Item | Firms with 1949 sales of |  |  | $\begin{aligned} & \text { Total } \\ & \text { all } \\ & \text { slzes } \end{aligned}$ |
| :---: | :---: | :---: | :---: | :---: |
|  | Under $\$ 500,000$ | $\begin{gathered} \$ 500,000 \\ \text { to } \\ \$ 999,999 \end{gathered}$ | $\$ 1,000,000$ and over |  |
| Number of firms.............................................. | 41 | 57 | 36 | 134 |
| Form of organization: |  |  |  |  |
| Individual proprietorship. | 15 | 18 | 7 | 40 |
| Partnership ................................................ | 16 | 15 | 6 | 37 |
| Incorporated company. | 10 | 24 | 23 | 57 |
| Number of establishments operated: |  |  |  |  |
| By single-establishment firms....................... | 41 | 54 | 30 | 125 |
| By multiple-establishment firms .................... | - | 6 | 21 | 27 |
| Distribution of sales: |  |  |  |  |
| To retailers .............................................. \% | 97.77 | 98. 76 | 99.49 | 99.06 |
| To other wholesalers and large users ............. \% | 1.13 | 1.05 | 0.51 | 0.75 |
| To consumers at retail................................ \% | 1.10 | 0.19 | - | 0.19 |

Most fims operated only one place of business - 125 out of the 134 - and the nine multiple
firus operated 27 establishments in 1949. Practically all sales were made to retail stores.

## REVIEW OF 1949 OPERATING RESULTS

## Profit And Expense Ratios

The 1949 operations of 134 tobacco and confectionery whosesalers reveal an average gross proflt amounting to $7.14 \%$ of net sales. Selling expenses were $2.00 \%$ warehouse and delivery expenses were $1.32 \%$, and administrative and general expenses formed $2.33 \%$ of net sales. A large item of
uperating expense was salaries $-3.61 \%$ of sales, or approximately $64 \%$ of total expenses. Net operating profit of $1.49 \%$ of sales was increased to $1.67 \%$ by other income. This percentage was before income tax deduction. Thirteen firms reported operating losses during 1949.

## Inventortes And Stock Tumover

The average inventory of the reporting firms changed only sllghtly between the beginning and the end of the year, $\$ 45,694$ and $\$ 45,327$. Stock tumover,
calculated by dividing the average beginning and y ear-end inventories into cost of goods sold, a veraged 19.5 times during the year.

## Credit Sales And Receivables

Credit sales formed $73 \%$ of total business with the larger firms extending a greater percentage of credit than the smaller firms. The range by size groups was from $64 \%$ in the smallest to $77 \%$ in the
largest. The smaller firms which extended less credit had a greater percentage of accounts unpaid at the end of the year than the larger class, $8.52 \%$ compared with $6.94 \%$.

## Regional Results

In 1949, tobacco and confectionery wholesalers in Westem Canada operated on higher gross profits than those in the east. Profits ranged from $6.47 \%$ of sales in the Maritimes to $7.55 \%$ in Britush Columbia.

Operating expenses were more uniform by regions with resultant net profit ratios following the same general trend as gross profit $-0.42 \%$ in the Maritimes to $1.78 \%$ in Britisin Columbia. (See Table 8).

## Range Figures

In table 9 are shown ranges within which the profit and expense items fell when the lower and upper quarters were eliminated (individual results being arrayed in order of magnitude). These reveal the range of the profit and expense ratios for the
"middle half" of reporting wholesalers. With the range figures, average ratios for the items are shown as appear in table 7. For the half of the firms centered on the median, gross profits ranged from $6.2 \%$ to $7.7 \%$ while net profits were from $0.6 \%$ to $2.0 \%$.

## INCORPORATED COMPANIES, 1949

Income tax was reported by incorporated firms. While they obtained slightly higher gross profits than the "ajl-types" average, net profitin relation to sales
was the same at $1.45 \%$, Other income of $0.16 \%$ was added and income tax deductions of $0.54 \%$ of sales were removed to compute a final net proflt of $1.11 \%$.

## COMPARISON OF 1947 AND 1949 RESULTS

There were 101 firms which reported to this survey for both years. Their results are shown on the
following page, together with the ratios obtained from the total reporting firms in the two years.

Operating Results of Tobacco and Confectionery Wholesalers, 1947 and 1949 Compared

| Item | All Respondents |  | Identical Firms |  |
| :---: | :---: | :---: | :---: | :---: |
|  | 1947 | 1949 | 1947 | 1949 |
| Number of firms ................................................................. | 119 | 134 | 101 | 101 |
| Average sales.................................................................... \$ | 809,477 | 955,988 | 821,451 | 888,742 |
|  | (Percent of net sales) |  |  |  |
| Gross proflt... | 6.85 | 7.14 | 6.82 | 7.15 |
| Operating expenses: |  |  |  |  |
| Selling .................................................................... | 1.85 | 2.00 | 1.85 | 1.98 |
| Warehouse and delivery.................................................. | 1.24 | 1.32 | 1.16 | 1.31 |
| Administrative and general. | 2. 08 | 2.33 | 2.07 | 2. 35 |
| Total operating expenses............................................. | 5.17 | 5. 65 | 5. 08 | 5. 64 |
| Net profit before other income or income tax deduction........ | 1.68 | 1.49 | 1. 74 | 1.51 |

With a large percentage of firms reporting for both years the change from 1947 to 1949 is not significantly different for the two sets of results quoted above. Gross profits increased in 1949 but
the increase was more than obsorbed by greater operating expenses. Operations in 1949 produced a net profit ratlo of $1.49 \%$, down from the 1947 net profit of $1.68 \%$.
