## Data in Many Forms ...

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and othergeographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machinereadable data base and retrieval system.

## How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

Trade Information Unit, International Trade Division,

Statistics Canada, Ottawa, K1A OT6 (Telephone: 9909647) or to the Statistics Canada reference centre in:

| St. John's | $(772-4073)$ | Sturgeon Falls | (753-4888) |
| :--- | :--- | :--- | ---: |
| Halifax | $(426-5331)$ | Winnipeg | $(949-4020)$ |
| Montreal | $(283-5725)$ | Regina | $(359-5405)$ |
| Ottawa | $(990-8116)$ | Edmonton | $(420-3027)$ |
| Toronto | $(973-6586)$ | Vancouver | $(666-3691)$ |
| Credit Card only $(973-8018)$ |  |  |  |

Toll-free access is provided in all provinces and territories, for users who reside outside the local dialing area of any of the regional reference centres.

Imports, Total Exports, and Trade Balance, All Countries, Seasonally Adjusted
Balance of Payments Basis

Billions of doliars
Billions of dollars

(1) The short-term trend gives a clearer picture of the direction and rate of change of trade by averaging the substantial monthly fluctuations which frequently occur in trade. The trend for the last month is not shown in the charts above since it frequently changes significantly with the addition of succeedina months of data.

## Preliminary Statement of Canadian International Trade

September 1985

## Month-to-Month (Seasonally Adjusted) Balance of Payments Basis

Preliminary estimates show Canada's exports climbed to a record value of $\$ 10.7$ billion in September, up $7.0 \%$ over August and a gain of nearly $20 \%$ from the July total.

Imports fell a fraction of a per cent, remaining at $\$ 8.9$ billion. As a result, the merchandise trade surplus rose to $\$ 1.8$ billion, $\$ 0.8$ billion over the balance in August.

## Quarter-to-Quarter

Exports in the third quarter declined $1.1 \%$ to $\$ 29.6$ billion, following a slight increase of $0.4 \%$ in the second quarter. Imports rose $4.4 \%$ in the third quarter to $\$ 26.4$ billion, repeating the 4.4\% increase in the second quarter and slightly surpassing the $4.3 \%$ increase in the first quarter. The net effect on the merchandise trade balance was a decline of more than $\$ 1.4$ billion in the third quarter to $\$ 3.2$ billion. This was the third consecutive drop in the quarterly trade balance, bringing it to $\$ 2.1$ billion below the third quarter balance of last year.

During the first nine months of this year, the cumulative trade surplus totalled $\$ 13.3$ billion, down from $\$ 14.8$ billion in 1984.

## Short-Term Trend

The short-term trend rate of growth for exports, which provides a clearer picture of the month-to-month movements in trade, showed strong positive growth recovering from declines in the second quarter. This growth was most evident in agricultural, and fish products, automotive products and consumer goods, and, to a lesser extent in forestry products and machinery. Energy products and industrial goods and materials continued to decline, but at a slower rate.

The short-term trend for imports continued to show steady growth of $1 \%-2 \%$ each month. Energy imports have returned to normal levels after some stockpiling in the second quarter. Agricultural and fish products, and forestry products showed signs of growth after declines earlier in the year.

## Commodity Analysis

Total Exports (Seasonally Adjusted)

## Balance of Payments Basis

Total exports increased $\$ 696$ million in September. A large part of this increase was due to wheat which nearly doubled from August to $\$ 435$ million. Another food export, fish products, rose by one-third to a record $\$ 204$ million, with much of the increase going to Japan. Exports of crude petroleum climbed $\$ 135$ million, up $31.6 \%$ from August, while exports of petroleum and coal products increased $\$ 50$ million, up $24.9 \%$ from the previous month. Iron ores, which have generally fallen since January, showed an increase of $\$ 56$ million (72\%). Exports of lumber advanced $5.7 \%$ and newsprint exports increased $4.0 \%$. Exports of automobiles rose $\$ 133$ million to $\$ 1,700$ million, a record value for the second month in a row. Exports of parts have not recovered to the same extent, but an increase of $\$ 75$ million ( $8.1 \%$ ) returned them to levels set at the beginning of the year. Exports of trucks dropped $\$ 127$ million from last month's high level and continued the downward movement begun in January. Other declines occurred in precious metals, down $47.8 \%$, electricity, down $28 \%$ and industrial machinery, down $10.2 \%$.

## Imports (Seasonally Adjusted) <br> Balance of Payments Basis

A drop of $\$ 300$ million in automobile parts, down 18\% from the high level set in August, was responsible for the decline of $\$ 61$ million in total imports. Imports of cars also fell slightly ( $-1.9 \%$ ), while imports of trucks rose $38.1 \%$ to a record $\$ 336$ million. Aircraft imports climbed $\$ 135$ million ( $73.8 \%$ ) from the low level set in August. Crude petroleum imports were up $\$ 117$ million ( $46.9 \%$ ). Coal imports, on the other hand, dropped $\$ 27$ million ( $-27.7 \%$ ) and petroleum and coal products fall $\$ 60$ million ( $-40.0 \%$ ). Imports of precious metals were up $\$ 44$ million, sustaining a notably higher level than last year.

## Trading Partner Analysis

Total Exports (Seasonally Adjusted)
Balance of Payments Basis
Exports to the United States rose $5.8 \%$ to a record $\$ 8.4$ billion. Much of the increase was attributable to increased exports of petroleum and automotive products. Exports to the United Kingdom and the "other E.E.C. countries" rose $27 \%$ with increased shipments of minerals, lumber and newsprint. Exports to Japan rose $10.6 \%$ while exports to "other O.E.C.D. countries" fell $28.1 \%$.

## Imports (Seasonally Adjusted) <br> Balance of Payments Basis <br> Despite increases for trucks and aircraft, imports from the United States fell $2.9 \%$, mainly due a drop in auto parts. Imports from the United Kingdom were up $4.7 \%$, while "other E.E.C. countries" fell $2.5 \%$. Imports from Japan remained unchanged, while imports from "other countries" rose $19.1 \%$. <br> Available on CANSIM: matrices 30, 36433644, 3650-3679, 3686-3714, 3718-3719. (see tables on pages 8 to 11)

Order the September 1985 issue of Summary of Canadian International Trade (65-001, $\$ 15 / \$ 150$ ), available the fourth week of November, or contact G. Blaney (613-990-9647), Trade Information Unit, or John Butterill (613-990-9784), Trade Measures and Analysis Section, International Trade Division.
