Data In Many Forms . . .

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

Client Services,
International Trade Division,

Statistics Canada, Ottawa, K1A 0T6 (Telephone: 951-9647) or to the Statistics Canada reference centre in:

Des données sous plusieurs formes . . .

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinolingué et le système d'extraction de Statistique Canada.

Comment obtenir d'autres renseignements

Toutes demandes de renseignements au sujet de cette publication ou de statistiques et services connexes doivent être adressées à:

Services à la clientèle,
Division du commerce international,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 951-9647) ou au centre de consultation de Statistique Canada à:

| | | | |

Notice to Readers

Eastern Europe

Commencing with the January 1992 data, the Geographic Region "*Eastern Europe*" has been re-named "*Other Europe*" for publication purposes.

While the country content of this area remains unchanged, trade with the Union of Soviet Socialist Republics and Yugoslavia are temporarily shown under the country names "*Former USSR*" and "*Former Yugoslavia*" (with no content change).

All former Soviet states/republics are presently grouped and published under the country description "*Former USSR*". Statistics Canada is currently working with Revenue Canada, Customs and Excise, to obtain separate ISO (International Organization for Standardization) country codes for each of these states/republics.

Further modifications to the European Region will be made as the political and geographical climate stabilizes.

Users should note that *the country classification employed by the International Trade Division of Statistics Canada is designed for purposes of economic geography and therefore does not reflect the views or intentions of the Government of Canada on international issues of recognition, sovereignty or jurisdiction.*

Avis aux lecteurs

Europe de l'Est

En commençant par les données de janvier 1992, la région géographique "*Europe de l'Est*" a été renommée "*Autre Europe*" aux fins de publication.

Bien que la composition de cette région demeure la même, les données sur le commerce avec l'Union des Républiques socialistes soviétiques et la Yougoslavie apparaissent temporairement sous les appellations "*URSS antérieure*" et "*Yougoslavie antérieure*" (même contenu).

Les anciens États ou Républiques soviétiques sont actuellement regroupés sous la description "*URSS antérieure*". À l'heure actuelle, Statistique Canada travaille en collaboration avec Revenu Canada, Douanes et Accise pour obtenir, à chaque état ou république, un code de pays ISO (Organisation internationale de normalisation) distinct.

D'autres modifications seront apportées à la région européenne au fur et à mesure que se stabiliseront les aspects politique et géographique de cette région.

Nous avisons les utilisateurs que *la classification de pays choisie par la Division du commerce international de Statistique Canada est employée aux fins de géographie économique et ne traduit aucunement les opinions ou les vues du gouvernement du Canada concernant les questions internationales de reconnaissance, de souveraineté ou de compétence.*

International Trade Division

Changes to the Country Classification

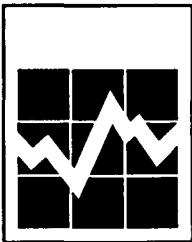

Effective with the January, 1992 data.

| <u>Country</u> | <u>Notes</u> | <u>Pays</u> | <u>Notes</u> |
|---------------------------------|---|---------------------------------|--|
| Other Europe | Formerly listed as "Eastern Europe". | Autre Europe | Antérieurement inscrit comme "Europe orientale". |
| 287 Former USSR | Description change only. Includes trade with "Estonia", "Latvia", "Lithuania", "Byelorussia", the "Ukraine" and all other republics of the former Union of Soviet Socialist Republics. | 287 URSS antérieure | Changement de la description seulement. Comprend le commerce avec "Estonie", "Lettonie", "Lithuanie", "Biélorussie", "l'Ukraine" et toutes les autres républiques de l'Union (antérieure) des républiques socialistes soviétiques. |
| 288 Former Yugoslavia | Description change only. | 288 Yougoslavie antérieure | Changement de la description seulement |
| 375 Yemen, Democratic | Deleted and included with "Yemen" (386) | 375 Yémen, démocratique | Éliminé et compris avec "le Yémen" (386). |
| 386 Yemen | Includes trade with "Yemen, Democratic". | 386 Yémen | Comprend le commerce avec "le Yémen, démocratique". |
| 461 French Southern Territories | Formerly published with "Bouvet Island" and "Antarctica". | 461 Terres australes françaises | Antérieurement publié avec "l'île Bouvet" et "l'Antarctique". |

Note of Appreciation

Canada owes the success of its statistical system to a long-standing cooperation involving Statistics Canada, the citizens of Canada, its businesses and governments. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises et les administrations canadiennes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.

Highlights

January to March 1992

Table 1

- Imports amounted to \$35.6 billion for the first quarter of 1992, gaining 9.4% (\$3.1 billion) over the same period in 1991, and 3.2% (\$1.1 billion) from the previous quarter.
- The main contributors to this year's increase consist of Vehicles (Chapter 87, up \$633.1 million); Electrical machinery (Chapter 85, up \$500.6 million); Machinery (Chapter 84, up \$340.5 million); and Aircrafts (Chapter 88, up \$183.0 million).
- A few noteworthy decreases include Mineral fuels (Chapter 27, down \$270.5 million) and Inorganic chemicals (Chapter 28, down \$76.3 million).
- During the first quarter of 1992, imports valued at \$21.2 billion (59.4%) were cleared in Ontario, followed by Quebec at \$6.5 billion (18.2%), British Columbia at \$4.1 billion (11.5%) and Alberta at \$1.0 billion (2.9%). Vehicles (Chapter 87), Electrical machinery (Chapter 85) and Machinery (Chapter 84) had the highest share in all these provinces, except in Quebec where Mineral fuels (Chapter 27) played a more significant role.

Table 2

- The market share of Canada's five major trading partners climbed from 79.3% of the first quarter imports of 1991 to 80.0% of 1992. In 1992, market shares of individual countries were distributed as follows: United States, 64.1% (\$22.8 billion); Japan, 8.3% (\$3.0 billion); United Kingdom, 3.0% (\$1.1 billion); Germany, 2.6% (\$0.9 billion); and France, 2.0% (\$0.7 billion). Higher levels of imports were also noted from China (up \$162.0 million; 39.9%), Mexico (up \$153.2 million; 32.3%) and Taiwan (up \$79.9 million; 14.2%).

Faits saillants

Janvier à Mars 1992

Tableau 1

- Le total des importations pour le premier trimestre de 1992 se chiffrait à \$35.6 milliards, soit une hausse de 9.4% (\$3.1 milliards) comparativement à la même période en 1991, et une hausse de 3.2% (\$1.1 milliard) par rapport au trimestre précédent.
- Les principaux chapitres ayant provoqué une l'augmentation de cette année sont: Véhicules autom. (Chapitre 87, en hausse de \$633.1 millions); Machines, appar. et matériel électriques (Chapitre 85, en hausse de \$500.6 millions); Machines, chaudières, etc. (Chapitre 84, en hausse de \$340.5 millions); et, finalement, les Appareils de navigation aérienne ou spatiale (Chapitre 88, en hausse de \$183.0 millions).
- D'autre part, les importations de Combustibles minéraux (Chapitre 27) et de Produits chimiques inorganiques (Chapitre 28) ont baissé respectivement de \$270.5 millions et de \$76.3 millions.
- Au premier trimestre de 1992, des importations évaluées à \$21.2 milliards (59.4%) étaient dédouanées en Ontario, \$6.5 milliards (18.2%) au Québec, \$4.1 milliards (11.5%) en Colombie-Britannique et, finalement, \$1.0 milliards (2.9%) en Alberta. Les Véhicules autom. (Chapitre 87); Machines, appar. et matériel électriques (Chapitre 85); et, les Machines, chaudières, etc.(Chapitre 84) détenaient les parts les plus importantes dans toutes ces provinces, sauf au Québec où les Combustibles minéraux (Chapitre 27) étaient plus importants.

Tableau 2

- La part du marché canadiens des importations provenant des cinq principaux partenaires commerciaux est passée de 79.3% au premier trimestre 1991 à 80.0% en 1992. En 1992, la distribution des parts de marchés pour chacun de ces pays étaient comme suit: Les États-Unis, 64.1% (\$22.8 milliards); Le Japon, 8.3% (\$3.0 milliards); Le Royaume-Uni, 3.0% (\$1.1 milliard); L'Allemagne, 2.6% (\$0.9 milliard); Et la France, 2.0% (\$0.7 milliards). Par ailleurs, les importations provenant de la Chine étaient aussi en hausse (hausse de \$162.0 millions; 39.9%), du Mexique (en hausse de \$153.2 millions; 32.3%) et Taiwan (en hausse de \$79.9 millions; 14.2%).

- Japan led in imports of Vehicles (Chapter 87) with \$277.5 million (26.1%), while the United States, Mexico and Germany followed with \$200.2 million (4.3%), \$126.6 million (75.3%) and \$33.7 million (16.9%) respectively.
- Les importations canadiennes de Véhicules autom. (Chapitre 87) provenant du Japon étaient évaluées à \$277.5 millions (26.1%), alors que celles provenant des États-Unis, du Mexique et de l'Allemagne s'élevaient respectivement à \$200.2 millions (4.3%), \$126.6 millions (75.3%) and \$33.7 millions (16.9%).

The Canadian International Merchandise Trade Statistical Program

I Introduction

The objective of this publication is to provide a general overview of the Canadian International Merchandise Trade Statistical Program with special reference to concepts and definitions. The text is intended for the general user and simplicity is emphasized. More technical details can be obtained from the International Trade Division upon request.

II Conceptual Framework

1. **Objectives and Coverage:** The primary objective of the Canadian International Merchandise Trade Statistical Program is to measure the change in the stock of material resources of the country resulting from the movement of merchandise into or out of Canada. Information on imports and exports are inputs into the System of National Accounts, particularly in the Balance of Payments and Gross Domestic Product, and are used in the formulation of trade and budgetary policies. Governments, importers, exporters, manufacturers and shipping companies use trade statistics to:
 - monitor import penetration and export performance;
 - monitor commodity price and volume changes;
 - examine transport implications.
2. **Trade Statistics – Customs Basis/Balance of Payments Basis:** Merchandise trade statistics are reported and presented on two different basis: Customs basis and Balance of Payment basis. (B.O.P.)

When goods are imported into or exported from Canada, declarations must be filed with Customs giving such information as description and value of the goods, origin and port of clearance of commodities and the mode of transport. Most of this information is required for the purposes of Customs Administration. Statistics developed from administrative records of Customs are commonly referred to as Customs based trade statistics.

On January 1, 1990, Canada entered into a Memorandum of Understanding (MOU) with the United States concerning the exchange of import data. As a consequence, each administration is using the other's import data to replace its own export data. Canada's international merchandise trade statistics are, therefore, no longer derived exclusively from the administrative records of Revenue Canada, Customs and Excise, but from United States Customs records as well.

Le programme de statistiques sur le commerce international de marchandises du Canada

I Introduction

Le présent document contient un aperçu général du Programme de statistiques sur le commerce international de marchandises du Canada, notamment des concepts et des définitions. Il est destiné au grand public, aussi a-t-on essayé d'en faciliter la lecture. Pour plus de précisions techniques, s'adresser à la Division du commerce international.

II Cadre conceptuel

1. **Objectifs et champ d'observation:** Le but principal du Programme de statistiques sur le commerce international de marchandises du Canada est de mesurer les fluctuations du stock de ressources matérielles du pays qu'entraîne le mouvement des marchandises au Canada. Les renseignements sur les importations et les exportations sont introduits dans le Système de comptabilité nationale, notamment en ce qui concerne la balance des paiements et le produit intérieur brut, et servent à formuler les politiques commerciales et budgétaires. Les administrations publiques, les importateurs, les exportateurs, les fabricants et les expéditeurs utilisent les statistiques commerciales pour:
 - vérifier la pénétration du marché par les importations et la performance des exportations;
 - suivre les changements qui interviennent au niveau des prix et du volume des marchandises;
 - examiner les répercussions en matière de transports.
2. **Statistiques sur le commerce établies sur une base douanière et en fonction de la balance des paiements:** Les statistiques sur le commerce des marchandises sont établies et présentées sur deux bases différentes: la base douanière et la balance des paiements (B.D.P.).

Lorsque des marchandises sont importées au Canada ou en sont exportées, elles doivent être déclarées aux douanes et l'importateur ou l'exportateur doit donner des renseignements sur la désignation et la valeur des marchandises, leur origine et le bureau de dédouanement ainsi que sur le mode de transport. La plupart de ces renseignements sont requis par l'administration des douanes. On appelle généralement "statistiques commerciales établies sur la base douanière" les statistiques commerciales élaborées à partir des dossiers administratifs des douanes.

Un protocole d'entente conclu entre le Canada et les États-Unis sur l'échange de données sur les importations est entré en vigueur le 1er janvier 1990. Chaque administration va désormais utiliser les données sur les importations de l'autre partie à la place de ses propres données sur les exportations. La statistique du commerce international de marchandises du Canada ne sera donc plus établie uniquement à partir des dossiers administratifs de Revenu Canada, Douanes et Accise, et utilisera également les dossiers des Douanes américaines.

Customs based information is adjusted to conform with the National Accounts concepts and definitions. The adjustments to derive Balance of Payments based trade data include trade definition, valuation and timing related adjustments. The principal difference between the two trade concepts is that Customs based merchandise trade statistics cover the physical movement of goods as they are reflected on customs documents, while balance of Payments adjusted data are intended to cover all economic transactions between residents and non-residents which involve merchandise trade. This section describes the concepts and processes pertaining to the Customs based trade statistics only.

3. **System of Trade:** Canadian trade statistics are compiled according to the "General" system of trade as defined by the United Nations Statistical Office. Under this system, imports include all goods which have crossed Canada's territorial boundary, whether for immediate consumption in Canada or stored in bonded Customs warehouses. Domestic exports include goods grown, extracted or manufactured in Canada, including goods of foreign origin which have been materially transformed in Canada. Re-exports are exports of goods of foreign origin which have not been materially transformed in Canada, including foreign goods withdrawn for export from bonded customs warehouses. Total exports are the sum of Domestic exports and Re-exports. Thus the general trade system, in principle, presents all goods entering the country (imports) and all goods leaving the country (exports). It differs from the "Special" system of trade in the treatment of imported goods into Customs bonded warehouses. Under the "Special" system, these goods are counted only if and when they are withdrawn from Customs warehouses for home consumption. They are not counted in export statistics unless they have first cleared Customs.

Conceptually, under the "General" system, the statistical frontier coincides with the geographical boundary, while under the "Special" system, it coincides with the Customs boundary.

4. **Valuation:** For Customs purposes, imports are recorded at values established according to the provisions of the Customs Act, which, since January 1, 1985, reflects valuation methods based on the General Agreement on Tariffs and Trade (GATT) Valuation Code System. It generally requires the value for duty of imported goods be equivalent to the transaction value or the price actually paid or payable provided that a number of conditions are met. One of the important conditions is that the buyer and seller must be independent of each other. If the conditions are not met, practical rules are used to determine the Customs value. In order of precedence, these are:

- valuation by reference to the transaction value of identical goods;
- valuation by reference to the transaction value of similar goods;
- the deductive method of valuation;
- the computed method of valuation; and
- the residual method of valuation.

Les données établies sur la base douanière sont rectifiées pour qu'elles puissent concorder avec les concepts et les définitions de la comptabilité nationale. Les modifications apportées pour établir des données commerciales en fonction de la balance des paiements, portent sur la définition de commerce, l'évaluation et la période statistique. La différence principale entre ces deux concepts commerciaux est que les statistiques sur le commerce de marchandises établies sur une base douanière couvrent le mouvement des marchandises indiqué sur les documents douaniers, alors que les données établies en fonction de la balance des paiements portent sur toutes les transactions économiques effectuées entre résidents et non-résidents du Canada et concernant le commerce de marchandises. Le présent chapitre traite des concepts et des procédés relatifs aux statistiques établies sur la base douanière.

3. **Système commercial:** Les statistiques sur le commerce du Canada sont rassemblées selon le système commercial "général" défini par le Bureau de statistiques des Nations Unies, en vertu duquel les importations portent sur toutes les marchandises qui ont franchi les frontières du Canada, que ce soit pour y être consommées immédiatement ou pour être mises dans un entrepôt de douane. Les exportations nationales comprennent les produits cultivés, extraits ou fabriqués au Canada (y compris les produits d'origine étrangère qui ont été transformés au Canada). Les réexportations sont les exportations de produits d'origine étrangère qui n'ont pas été transformés au Canada (y compris les produits étrangers sortis des entrepôts de douane aux fins d'exportation). Le total des exportations correspond à la somme des exportations nationales et des réexportations. Le système commercial général couvre donc, en principe, toutes les marchandises qui entrent au pays (importations) et toutes celles qui en sortent (exportations). Il diffère du système commercial "spécial" par le traitement des marchandises importées qui sont entreposées en douane. Dans le cas du système "spécial", il n'est tenu compte de ces produits que lorsque ceux-ci sont sortis d'entrepôt de douane aux fins de consommation nationale et il n'en est pas tenu compte dans les statistiques d'exportation s'ils n'ont pas tout d'abord été dédouanés.

En théorie, dans le cadre du système "général", la frontière statistique coïncide avec les limites géographiques du pays, alors que dans le cadre du système "spécial", elle coïncide avec la frontière douanière.

4. **Évaluation:** Aux fins des douanes, les importations sont présentées selon les valeurs établies conformément aux dispositions de la Loi sur les douanes qui, depuis le 1^{er} janvier 1985, prévoit l'application de méthodes d'évaluation fondées sur le Code d'évaluation de l'Accord général sur les tarifs douaniers et le commerce (GATT). En général, la valeur imposable des marchandises importées doit correspondre à la valeur transactionnelle ou au prix réellement payé ou payable, sous certaines conditions. L'une des plus importantes de ces conditions est que l'acheteur et le vendeur doivent être indépendants l'un de l'autre. Si ces conditions ne sont pas remplies la valeur en douane est déterminée selon certaines règles pratiques, mentionnées ci-dessous par ordre de priorité:

- l'évaluation en fonction de la valeur transactionnelle de produits identiques;
- l'évaluation en fonction de la valeur transactionnelle de produits similaires;
- la méthode de la valeur de référence;
- la méthode de la valeur reconstituée; enfin,
- la méthode de la dernière base d'appreciation.

To determine the transaction value of imported goods, all transportation and associated costs arising in respect of the goods being appraised prior to and at the place of direct shipment to Canada, are to be added to the price of the goods. Therefore, Canadian imports are valued F.O.B., place of direct shipment to Canada. It excludes freight and insurance costs in bringing the goods to Canada from the point of direct shipment.

To countries other than the United States, exports are, in principle, valued or recorded at the values declared on export documents which usually reflect the transaction value, i.e. actual selling price, or in the case of a non-arm's length transaction, the transfer price used for company accounting purposes. Canadian exports to overseas countries are valued at F.O.B. (Free on Board) port of exit, including domestic freight charges to that point but net of discounts and allowances. As of January, 1990, Canadian exports to the U.S. are valued F.O.B. point of exit from Canada. Prior to 1990, they were valued F.O.B. place of lading net of freight charges, discounts and allowances.

5. **Commodity Classification:** Both export and import statistics are classified and published according to the Harmonized Commodity Description and Coding System (Harmonized System or H.S.).

The Harmonized System used in this publication is an international commodity classification (six digit) developed under the auspices of the Customs Cooperation Council. It was extended to ten digits for imports to serve as the basis for Customs tariffs and international trade statistics. For export purposes, the international six digit "root" was extended to eight digits. Canada adopted this system to replace the "Customs Tariff Schedule", as well as the "Canadian International Trade Classification" (CITC) and the "Export Commodity Classification" (XCC).

The Harmonized System is based on a fundamental principle – that goods are classified by what they are and not according to their stage of fabrication, use, made in Canada status, or any other such criteria.

The Harmonized System nomenclature is logically structured by economic activity or component material. For example, animals and animal products are found in one section; machinery and mechanical appliances which are grouped by function are found in another.

The nomenclature is divided into 21 Sections, which, in general, group goods produced in the same sector of the economy. For example, Section IV, "Prepared Foodstuffs; Beverages, Spirits and Vinegar; Tobacco and Manufactured Tobacco Substitutes" (i.e. agricultural products) and Section VI, "Products of the Chemical or Allied Industries" etc. (i.e. chemical products, etc.).

Pour déterminer la valeur transactionnelle des produits importés, il faut ajouter au prix de ces produits tous les frais de transport et tous les frais connexes engagés à l'égard des marchandises avant l'expédition directe au Canada jusqu'au lieu d'expédition directe. En conséquence, le prix des importations canadiennes est le prix F.A.B., lieu d'expédition directe au Canada. Les coûts du fret et de l'assurance nécessaires pour acheminer les marchandises au Canada depuis le point d'expédition direct ne sont pas compris.

Dans le cas des pays autres que les États-Unis les exportations sont, en principe, évaluées ou enregistrées selon la valeur déclarée dans les documents d'exportation; il s'agit habituellement de la valeur transactionnelle, c.-à-d. du prix de vente réel ou, dans le cas des opérations d'entreprises affiliées, du prix de transfert adopté par les sociétés à des fins comptables. Les prix de la plupart des exportations canadiennes vers des pays d'outre-mer sont des prix F.A.B., port de sortie, fret intérieur compris jusqu'à ce point, mais sans les escomptes ni les rabais. A compter de janvier 1990, les exportations du Canada aux États-Unis sont évaluées F.A.B. au point de sortie du Canada. Avant 1990, elles étaient évaluées F.A.B. au point de chargement après déduction du fret, des escomptes et des rabais.

5. **Classification des marchandises:** Les statistiques sur les exportations et les importations sont classées et publiées d'après le Système harmonisé de désignation et de codification des marchandises (Système harmonisé ou SH).

Le Système harmonisé utilisé dans la présente publication s'inspire de la classification internationale de marchandises (code numérique à six chiffres) mise au point sous les auspices du Conseil de coopération douanière. Le nombre des chiffres a été porté à dix pour les importations afin que cette classification puisse servir de base aux tarifs douaniers et aux statistiques internationales. Pour ce qui est des exportations, la "racine" internationale de six chiffres a été portée à huit chiffres. Le Canada a adopté ce système pour remplacer les listes du Tarif des douanes, de même que la Nomenclature canadienne pour le commerce international des marchandises (NCCI) et la Classification des marchandises d'exportation (CME).

Le Système harmonisé repose sur le principe fondamental selon lequel les produits sont classés d'après leur nature et non d'après l'étape de leur fabrication, leur utilisation, leur qualité de produits faits au Canada, ou tout autre critère analogue.

La nomenclature du Système harmonisé est logiquement structurée selon l'activité économique ou la matière composante. Ainsi, les animaux et les produits d'origine d'origine animale se trouvent dans une section; les machines et les appareils mécaniques, qui sont groupés par fonction, se trouvent dans une autre.

La nomenclature est divisée en 21 sections qui regroupent, en général, les marchandises produites dans le même secteur de l'économie. Par exemple: la section IV, "Produits des industries alimentaires; boissons, liquides alcooliques et vinaigre; tabac et succédanés du tabac fabriqués" (c.-à-d. les produits agricoles) et la section VI, "Produits des industries chimiques ou des industries connexes", etc. (c.-à-d. les produits chimiques, etc.).

Each Section is comprised of one or more Chapters, with the entire nomenclature being composed of 97 Chapters (Chapter 77 is reserved for possible future use). The Chapters of Sections I to XV (except Section XII) are grouped by **Biological Genus** (Section I, Chapters 1-5 Live Animals, Animal products, fish, Dairy products etc.) or by the **Component Material** from which articles are wholly or mainly made (e.g. Section VIII contains Chapter 41 – Raw Hides and Skins; Chapters 42 – Articles of Leather, etc.).

In Sections I to XV (except Section XII), the groups of products formed according to their basic material are structured or divided in two ways:

Horizontal – For the groups of products formed according to their basic material, there is no apparent hierachial order (e.g. Chapter 39 – "Plastics and Articles Thereof"; Chapter 44 – "Wood and Articles of Wood"); i.e. there is no discernable reason that plastic should precede wood.

Vertical – For those chapters in which goods are grouped by raw material, there is, however, a vertical structure in which articles are often classified according to their degree of processing. For example, Chapter 44 contains items such as rough wood, wood roughly squared and some wooden finished products such as wooden tableware.

Articles may also be classified according to the **use or function**. This classification (i.e. by function), mainly occurs in Section XII and Sections XVI – XXI. For example, Section XVII contains:

Chapter 86 – Railway Locomotives, etc.
Chapter 87 – Vehicles other than Railway, etc.

Chapter 88 – Aircraft, etc.
Chapter 89 – Ships, etc.

In order to illustrate the hierachial structure of the H.S., the following example is given:

06 – Chapter
Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage;
06.01 – Heading
Bulbs, tubers, tuberous roots, corms, crowns and rhizomes, dormant, in growth or in flower; chicory plants and roots other than roots of heading no. 12.12;
0601.10 – Subheading
Bulbs, tubers, tuberous roots, corms, crowns and rhizomes, dormant;
0601.10.11 – Tariff Item
Bulbs of the genus narcissus;
0601.10.11.10 - Statistical annotation
Daffodil

6. **Statistical Period:** The reference period is the calendar month and the calendar year. The closing of the statistical month for imports and Canadian exports to the United States is defined according to the last calendar day of the month, based as closely as practicable on the date of clearance from Customs.

The closing of the statistical month for exports, to countries other than the United States, is also defined according to the last calendar day of the

Chaque section comprend un ou plusieurs chapitres, et l'ensemble de la nomenclature compte 97 chapitres (le chapitre 77 étant réservé pour une utilisation future). Les chapitres des sections I à XV (sauf ceux de la section XII) sont regroupés selon le **règne biologique** (section I, chapitres 1 à 5, Animaux vivants, viandes et abats comestibles, poissons, produits de laiterie, etc.) ou selon la matière **composante** à partir de laquelle l'ensemble ou une grande partie des articles sont fabriqués (p. ex.: la section VIII renferme le chapitre 41 – Peaux et cuirs, et le chapitre 42 Ouvrages en cuir, etc.).

Aux sections I à XV (sauf à la section XII), les groupes de produits formés selon la matière principale sont structurés ou subdivisés de deux façons:

Horizontalement – Pour les groupes de produits formés selon la matière principale, il ne semble y avoir aucun ordre hiérarchique (p. ex.: chapitre 39 – "Matières plastiques et ouvrages en ces matières; chapitre 44 – "Bois, charbon de bois et ouvrages en bois"). Et il n'y a aucune raison évidente justifiant le fait que les matières plastiques précèdent le bois.

Verticalement – Pour les chapitres où les produits sont groupés selon la matière brute, il y a, toutefois, une structure verticale suivant laquelle les articles sont souvent classifiés en fonction de leur niveau de transformation. Par exemple, le chapitre 44 comprend des produits comme le bois brut, le bois écorcé, et certains ouvrages en bois tels que les articles en bois pour la table.

Les articles peuvent aussi être classifiés selon leur **usage ou fonction**, comme c'est le cas surtout à la section XII et aux sections XVI à XXI. Par exemple, la section XVII contient:

Chapitre 86 – Véhicules pour voies ferrées, etc.
Chapitre 87 – Voitures automobiles, tracteurs, cycles et autres véhicules terrestres, etc.
Chapitre 88 – Navigation aérienne, etc.
Chapitre 89 – Navigation maritime, etc.

Afin d'illustrer la structure hiérarchique du SH, voici un exemple:

06 – Chapitre
Plante vivante et produits de la floriculture;
06.01 – Position
Bulbes, oignons, tubercules, racines tubéreuses, griffes et rhizomes, en repos, végétatif, en végétation ou en fleurs; plantes, plantes et racines de chicorée autres que les racines du n° 12.12;
0601.10 – Sous-position
Bulbes, oignons, tubercules, racines tubéreuses, griffes et rhizomes, en repos végétatif;
0601.10.11 – Numéro tarifaire
Bulbes du genre narcisse;
0601.10.11.10 – Annotation statistique
Jonquilles.

6. **Période statistique:** La période de référence est le mois et l'année civils. La fin du mois statistique des importations et des exportations canadiennes aux États-Unis correspond au dernier jour du mois civil pour lequel il est possible d'obtenir des données sur le dédouanement.

Pour les exportations, la fin du mois statistique, vers les pays autres que les États-Unis correspond aussi au dernier jour du mois civil. Les documents d'exportation

- month. Those export documents which are received too late for incorporation in the current month are assigned to the month the transaction took place. If a monthly summary report from a high volume exporter is not received on time, the data are imputed for the current month and revised with the trade value in the following statistical month.
- 7. Country Classification:** As of January, 1990, trade data with the United States includes those imports and exports associated with Puerto Rico and the U.S. Virgin Islands.
- The country classification employed by the International Trade Division of Statistics Canada is designed for purposes of economic geography and does not necessarily reflect the views or intentions of the Government of Canada on international issues of recognition, sovereignty or jurisdiction. The country classifications used and their associated codes resemble those developed by the International Organization for Standardisation (ISO) and are adopted by most of the trading countries for Customs purposes.
- A classification of countries with a statement of territorial limits used for statistical purposes is shown in the January and December issues of the publications "Exports by Commodity" (catalogue 65-004) and "Imports by Commodity" (catalogue 65-007) and in the annual publications "Exports, Merchandise trade" (catalogue 65-202) and "Imports, Merchandise Trade" (catalogue 65-203).
- 8. Trading Partner Attribution (Country of origin/destination):** Exports are attributed to the country which is the last known destination of the goods at the time of export. Exports to the United States are attributed to the state of destination.
- Imports are attributed to their country of origin, that is, the country in which the goods were grown, extracted or manufactured in accordance to the rules of origin specified by Revenue Canada, Customs and Excise. Imports from the United States are attributed to the state of origin. Prior to 1988, most imports were attributed to the country of export/consignment with the exception of imports from Central and South America.
- 9. Principal Trading Areas:** The "principal trading areas" are country groupings defined as follows:
- United States:** (includes trade with Puerto Rico and the U.S. Virgin Islands as of January, 1990).
- Japan:**
- E.E.C.'86:** Belgium, Denmark, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain and the United Kingdom.
- Other O.E.C.D.'86:** Austria, Finland, Iceland, Norway, Sweden, Switzerland, Turkey, Australia, New Zealand. (The E.E.C. countries, United States, Japan and Canada are also members of O.E.C.D. – the Organization for Economic Co-operation and Development.)
- qui parviennent trop tard pour que l'on puisse les intégrer au mois en cours sont affectés au mois où la transaction a eu lieu. Si le rapport sommaire mensuel d'un gros exportateur ne parvient pas à temps, ces données sont imputées au mois en cours, puis rajustées au cours du mois statistique suivant en fonction des valeurs observées.
- 7. Classification des pays:** À compter de janvier 1990, les données du commerce avec les États-Unis comprennent les importations et les exportations se rapportant à Porto Rico et aux îles Vierges américaines.
- La classification des pays utilisée par la Division du commerce international de Statistique Canada a été conçue à des fins de géographie économique et ne reflète pas nécessairement l'opinion du gouvernement du Canada sur les questions de reconnaissance, de souveraineté ou de compétence en matière internationale. La classification des pays utilisée et les codes connexes ressemblent à ceux qui ont été mis au point par l'Organisation internationale de standardization (OIS) et adoptés par la plupart des pays commerçants, à des fins douanières.
- Une classification des pays ainsi qu'une description des limites territoriales servant à des fins statistiques paraissent dans les numéros de janvier et de décembre des publications "Exportations par marchandise" (n° 65-004 au catalogue) et "Importations par marchandise" (n° 65-007 au catalogue), ainsi que dans les publications annuelles "Exportations, Commerce de marchandises" (n° 65-202 au catalogue) et "Importations, Commerce de marchandises" (n° 65-203 au catalogue).
- 8. Désignation des partenaires commerciaux (pays d'origine/pays de destination):** Les exportations sont attribuées au pays désigné comme la dernière destination connue des marchandises au moment de l'exportation. Les exportations vers les États-Unis sont attribuées à l'état de destination.
- Les importations sont attribuées au pays d'origine, c'est-à-dire au pays où les produits ont été cultivés, extraits ou fabriqués, conformément aux règlements des pays origines spécifiés par Revenu Canada, Douanes et Accise. Les importations en provenance des États-Unis sont attribuées à l'état d'origine. Avant 1988, la plupart des importations étaient attribuées aux pays d'exportation/consignation à l'exception des importations en provenance d'Amérique centrale ou d'Amérique du Sud.
- 9. Principales zones commerciales:** Les "principales zones commerciales" sont les groupes de pays suivants:
- États-Unis:** (y compris le commerce avec Porto Rico et les îles Vierge américaines à compter de janvier 1990.)
- Japon:**
- C.É.E.'86:** Belgique, Danemark, France, Allemagne, Grèce, Irlande, Italie, Luxembourg, Pays-Bas, Portugal, Espagne et Royaume-Uni.
- Autres O.C.D.É.'86:** Autriche, Finlande, Islande, Norvège, Suède, Suisse, Turquie, Australie, Nouvelle-Zélande. (Les pays de la C.É.E., les États-Unis, le Japon et le Canada sont aussi membres de l'O.C.D.É.: l'Organisation de coopération et de développement économique.)

Other Countries: This group includes all countries and territories other than the United States, Japan, E.E.C.'86 and other O.E.C.D.'86.

10. **Province of Origin/Clearance:** Prior to April, 1984, export statistics were presented by province of lading, indicating the province in which the goods were last laden aboard a carrier for export. Since April, 1984, for most commodities, trade data are presented by province of origin which represents the province in which the goods were grown, extracted or manufactured.

Import statistics by province of clearance indicate the province in which goods were cleared by Customs either for immediate consumption or for entry into a bonded Customs warehouse. This may not always coincide with the province in which the goods are consumed.

11. **Mode of Transport:** This information, not always provided on the exports documents, is sometimes imputed/estimated on the basis of other information such as the name of the exporting carrier. For exports, mode of transport information represents the mode of transport by which the international boundary is crossed. This may be different from the mode of transport within Canada.

For imports, the mode of transport information represents the last mode of transport by which the cargo was transported to the port of clearance in Canada and is derived from the cargo control documents of customs. This may not be the mode of transport by which the cargo arrived at the Canadian port of entry in the case of inland clearance. This may, therefore, lead to some underestimation of Canadian imports by the marine and air transport modes.

12. **Legal Framework:** Imports statistics and exports statistics with countries other than the United States are derived from information contained on administrative records collected by Revenue Canada, Customs and Excise, under the Customs Act. Copies of these documents (or information therefrom) are sent to Statistics Canada in accordance with Section 25 of the Statistics Act. It follows that the disclosure of trade statistics is governed by both the Customs Act and the Statistics Act and is subject to the provisions of Section 17.(2)(a) of the latter. Disclosure of export statistics to the United States is now governed by a Memorandum of Understanding which provides for an exchange of detailed import statistics between Canada and the United States.

III Other Subjects

1. **Seasonal Adjustments:** Both export and import statistics show large monthly fluctuations. In order to isolate turning points or trends in the basic data, it is necessary to eliminate this effect of seasonal movement. Seasonally adjusted data are published on a balance of payment basis in the "Preliminary Statement of Canadian International Trade" (catalogue 65-001P) and the "Summary of Canadian International Trade" (catalogue 65-001).

Autres pays: Ce groupe comprend tous les pays et territoires autres que les États-Unis, le Japon, les pays de la C.É.E.'86 et les autres pays de l'O.C.D.É.'86.

10. **Province d'origine/dédouanement:** Avant avril 1984, les statistiques sur les exportations étaient présentées selon la province de chargement; elles indiquaient la province où les marchandises étaient finalement confiées à un transporteur pour être exportées. Depuis avril 1984, pour la plupart des marchandises, les données commerciales sont présentées selon la province d'origine, c'est-à-dire celle où les produits ont été cultivés, extraits ou fabriqués.

Les statistiques sur les importations selon la province de dédouanement indiquent la province où les marchandises ont passé à la douane pour être ensuite consommées immédiatement, ou être mises dans un entrepôt de douane. La province de dédouanement ne correspond pas toujours à la province où sont consommés les produits en question.

11. **Mode de transport:** Les documents d'exportation ne donnent pas toujours de renseignements sur le mode de transport qui est parfois imputé ou estimé d'après d'autres renseignements tels que le nom du transporteur qui achemine les marchandises. Dans le cas des exportations, les renseignements sur le mode de transport correspondent au mode de transport utilisé pour franchir la frontière internationale. Il peut être différent de celui utilisé au Canada.

Dans le cas des importations, les renseignements sur le mode de transport correspondent au dernier mode de transport au moyen duquel le fret a été transporté jusqu'au bureau de dédouanement au Canada et sont tirées des documents douaniers de contrôle du fret. Il se peut que ce ne soit pas le mode de transport par lequel le fret est arrivé au bureau d'entrée canadien dans le cas des ports intérieurs, et cela peut entraîner par conséquent une certaine sous-estimation des importations canadiennes effectuées par les voies maritimes et aériennes.

12. **Cadre juridique:** Les statistiques des importations et celle des exportations pour les pays autres que les États-Unis sont tirées d'éléments qui figurent dans les dossiers administratifs de Revenue Canada, Douanes et Accise, et qui ont été obtenus en vertu de la Loi sur les douanes. Des copies de ces documents (ou des renseignements qu'ils contiennent) sont envoyées à Statistique Canada, conformément à l'article 25 de la Loi sur la statistique. En conséquence, la divulgation de statistiques commerciales est régie à la fois par la Loi sur les douanes et par la Loi sur la statistique. Elle est assujettie aux dispositions de l'article 17.(2)(a) de cette dernière. La divulgation de la statistique des exportations vers les États-Unis est maintenant régie par un Protocole d'entente qui prévoit l'échange de statistiques détaillées sur les importations entre le Canada et les États-Unis.

III Autres questions

1. **Désaisonnalisation:** Les statistiques sur les importations et sur les exportations présentent d'importantes fluctuations mensuelles. Afin d'isoler les points de retournement ou les tendances dans les données de base, il est nécessaire d'éliminer cet effet de mouvement saisonnier. Les données désaisonnalisées établies en fonction de la balance des paiements sont publiées dans "Communiqué préliminaire sur le commerce international du Canada" (n° 65-001P au catalogue) et dans "Sommaire du commerce international du Canada" (n° 65-001 au catalogue).

2. **Abbreviations:** Names of countries, descriptions of units of measure and H.S. class descriptors used in trade publications are often abbreviated or shortened for publication purposes. A key to these abbreviations appears in the publications "Exports by Commodity" (catalogue 65-004), "Imports by Commodity" (catalogue 65-007), "Exports by Country" (catalogue 65-003), "Imports by Country" (catalogue 65-006), "Exports, Merchandise Trade" (catalogue 65-202) and "Imports, Merchandise Trade" (catalogue 65-203).

In order to ascertain the exact content of a particular H.S. number, reference must be made to either the "Customs Tariff" (catalogue RV55-2/1991E, available from the Canadian Government Publishing Centre) or the "Canadian Export Classification". (International Trade Division).

3. **Quantities:** Units of measure are available from the publications "Exports by Commodity" (catalogue 65-004), "Imports by Commodity" (catalogue 65-007) and "Exports, Merchandise Trade" (catalogue 65-202). A definition of each unit is provided at the beginning of these publications and "numbers" refer to complete (or substantially complete) units exported or imported, excluding parts. Measures of weight and volume generally exclude any packaging required for shipment. Units of measures used are represented by three character, alphabetic abbreviations which were developed by the International Organization for Standardization (ISO).
4. **Values:** Import data from all countries and export data to all countries other than the United States, are collected in Canadian dollars. Export data to the United States is collected by the United States as import data from Canada, converted to Canadian dollars using an average monthly rate provided by the Bank of Canada and sent to Canada for dissemination as Canadian exports. This monthly rate is shown in the table below (for data comparison purposes, the average monthly rate provided by the Federal Reserve Bank for conversion of Canadian import data from the U.S. which is used for dissemination as U.S. exports is also shown).

Conversion Rates

| Month | Bank of Canada Rate | Federal Reserve Bank Rate |
|--------------|----------------------------|----------------------------------|
| Apr/91 | 1.1533 | 0.8669 |
| May/91 | 1.1496 | 0.8696 |
| June/91 | 1.1437 | 0.8742 |
| July/91 | 1.1491 | 0.8702 |
| Aug/91 | 1.1447 | 0.8732 |
| Sep/91 | 1.1368 | 0.8795 |
| Oct/91 | 1.1279 | 0.8866 |
| Nov/91 | 1.1303 | 0.8848 |
| Dec/91 | 1.1457 | 0.8721 |
| Jan/92 | 1.1565 | 0.8642 |
| Feb/92 | 1.1825 | 0.8456 |
| Mar/92 | 1.1926 | 0.8384 |

2. **Abréviations:** Les noms des pays, les désignations des unités de mesure et les définitions du SH utilisés dans les publications sur le commerce sont souvent abrégés pour les besoins de la publication. Un tableau explicatif des abréviations figure dans les publications "Exportations par marchandise" (n° 65-004 au catalogue), "Importations par marchandise" (n° 65-007 au catalogue), "Exportations par pays" (n° 65-003 au catalogue), "Importations par pays" (n° 65-006 au catalogue), "Exportations, Commerce de marchandises" (n° 65-202 au catalogue) et "Importations, Commerce de marchandises" (n° 65-203 au catalogue).

Pour vérifier le contenu exact d'une position du SH, il faut se reporter soit au "Tarif des douanes" (n° de catalogue RV55-2/1991F disponible au Centre d'édition du gouvernement du Canada) ou à la "Nomenclature canadienne des exportations". (Division du commerce international).

3. **Quantités:** Les unités de mesure sont indiquées dans les publications "Exportations par marchandise" (n° 65-004 au catalogue), "Importations par marchandise" (n° 65-007 au catalogue) et "Exportations, Commerce de marchandises" (n° 65-202 au catalogue). Chaque unité est définie dans les premières pages de ces publications, et les nombres représentent des unités complètes (ou presque complètes) exportées ou importées, à l'exclusion des pièces. Les mesures de poids et de volume ne tiennent habituellement pas compte de l'emballage nécessaire à l'expédition. Les unités de mesure employées sont représentées par des abréviations alphabétiques à trois caractères mises au point par l'Organisation internationale de normalisation (ISO).
4. **Valeurs:** Les données sur les importations de tous les pays et les données sur les exportations vers tous les pays sont exprimées en dollars canadiens. Les données sur les exportations vers les États-Unis sont recueillies par ce pays sous la forme des données sur les importations en provenance du Canada, converties en dollars canadiens par l'utilisation d'un taux mensuel moyen communiqué par la Banque du Canada et envoyées au Canada pour être diffusées comme étant les exportations canadiennes. Ce taux mensuel figure au tableau ci-dessous (le taux mensuel moyen fourni par la Réserve fédérale pour la conversion des données sur les importations canadiennes en provenance des États-Unis, qui sert à la diffusion des données comme étant les exportations américaines, y figure également à titre de comparaison).

Taux de conversion

| Mois | Taux de la Banque du Canada | Taux de la Réserve fédérale |
|-------------|------------------------------------|------------------------------------|
| Avr/91 | 1.1533 | 0.8669 |
| Mai/91 | 1.1496 | 0.8696 |
| Juin/91 | 1.1437 | 0.8742 |
| Juill/91 | 1.1491 | 0.8702 |
| Août/91 | 1.1447 | 0.8732 |
| Sep/91 | 1.1368 | 0.8795 |
| Oct/91 | 1.1279 | 0.8866 |
| Nov/91 | 1.1303 | 0.8848 |
| Déc/91 | 1.1457 | 0.8721 |
| Janv/92 | 1.1565 | 0.8642 |
| Févr/92 | 1.1825 | 0.8456 |
| Mars/92 | 1.1926 | 0.8384 |

Trade statistics are generally presented in thousands of dollars. However, all totals and their components (e.g. countries) are calculated from full dollar figures and "truncated" independently in order to obtain the highest degree of accuracy for each cell. Consequently, the "truncated" totals may not equal the sum of their components.

5. **Aggregation of Small Value Countries:** The concept of aggregating small value countries at the commodity/country level has been adopted for the monthly publications "Exports by Commodity" (catalogue 65-004 - table 3) and "Imports by Commodity" (catalogue 65-007 - table 3). All countries averaging less than \$25,000 (Exports) and \$25,000 (Imports) per month on a cumulative year-to-year basis are grouped together and shown as "Other Countries" at the end of the list of countries for each commodity. Therefore, the omission of a country name does not necessarily mean there is no trade for that country. Complete commodity/country data, regardless of size, is available on TIERS or microfiche from the International Trade Division.

6. **Revisions:**

- a. **Data for the previous months of the current year:** Figures for previous months of the current year remain subject to revision until the December and annual reports have been published.
- b. **Data for the previous year:** Figures for the previous year remain subject to revision until the December issue of the following year has been published.
- c. **Cumulative Totals:** Cumulative totals in all reports reflect the revisions applied up to the date of printing.

7. **Indexes of Price and Volume:** Price and volume indexes are published in the "Preliminary Statement of Canadian International Trade" (catalogue 65-001P) and in the Summary of Canadian International Trade (catalogue 65-001). Paasche price indexes which are current-weighted are calculated from price relatives based on $1986 = 100$. The weights reflect trade values for the month, quarter or year to which the index refers and hence change from period to period. The Laspeyres volume index is derived by dividing a value index by the corresponding Paasche price index and is, therefore, weighted with fixed 1986 price weights.

The price indicators selected are either commodity unit values calculated directly from the trade statistics or, insofar as end products are concerned, price indexes obtained from other Canadian or foreign sources.

Les statistiques commerciales sont généralement présentées en milliers de dollars. Toutefois les totaux et leurs composantes (p. ex. les pays) sont calculés à partir de chiffres complets en dollars et "désagrégés" indépendamment dans le but d'obtenir, pour chaque cellule, la plus grande exactitude. Par conséquent, les totaux "désagrégés" peuvent ne pas être égaux à la somme de leurs composantes.

5. **Agrégation des pays dont les échanges commerciaux sont de faible valeur:** L'agrégation, au niveau des marchandises/pays, des pays dont les échanges commerciaux sont de faible valeur, a été adoptée dans le cas des publications mensuelles "Exportations par marchandise" (n° de catalogue 65-004 - tableau 3) et "Importations par marchandise" (n° de catalogue 65-007 - tableau 3). Tous les pays qui d'une année à l'autre importent ou exportent en moyenne moins de \$25,000 (exportations) et \$25,000 (importations) par mois sont groupés et inscrits en tant que "Autres pays" à la fin de la liste des pays pour chaque marchandise. Par conséquent, le fait qu'un pays n'est pas mentionné ne signifie pas nécessairement qu'il n'y a aucun échange commercial avec ce pays. On peut se procurer auprès de la Division du commerce international des données complètes sur TIERS ou microfiche, selon les marchandises/pays, quelle que soit la taille des échanges commerciaux.

6. **Rectifications:**

- a. **Données des mois précédents de l'année courante:** Les données des mois précédents de l'année courante sont sujettes à révision jusqu'à la parution du rapport mensuel de décembre et du rapport annuel.
- b. **Données de l'année précédente:** Les données de l'année précédente sont sujettes à révision jusqu'à la parution du rapport de décembre de l'année suivante.
- c. **Des totaux cumulatifs figurant dans toutes les publications tiennent compte des rectifications qui ont été apportées jusqu'à la date de l'impression.**

7. **Indices des prix et de volume:** Les indices des prix et de volume sont publiés dans "Communiqué préliminaire sur le commerce international du Canada" (n° 65-001P au catalogue) et "Sommaire du commerce international du Canada" (n° 65-001 au catalogue). Les indices des prix Paasche, à pondération courante, sont calculés à l'aide de rapports de prix de base $1986 = 100$. Les poids sont des valeurs marchandes pour le mois, le trimestre ou l'année auxquels se rapporte l'indice et, de ce fait, ils varient d'une période à une autre. L'indice de volume Laspeyres s'obtient en divisant un indice de valeur par l'indice des prix Paasche correspondant et il est pondéré par conséquent au moyen de prix fixes de 1986.

Les indices des prix choisis sont soit des valeurs unitaires de produits, calculées directement à partir des statistiques sur le commerce, ou, surtout en ce qui concerne les produits finals, des indices des prix obtenus d'autres sources canadiennes ou de sources étrangères.

Current and fixed weighted export and import price and volume indexes on a Balance of Payments Basis presented in Part 1 of the "Summary of Canadian International Trade" (catalogue 65-001) are also available on CANSIM in matrices 3620 to 3625. Comparable Customs based and fixed weighted price indexes for the United States are available on CANSIM in matrices 3626 to 3629. In addition, these matrices contain the "All Country" group and United States indexes in terms of the 10 Sections of the "Standard International Trade Classification" (SITC).

An explanation of the methodology used to construct the indexes is contained in a reference paper entitled "The 1971-based Price and Volume Indexes of Canada's External Trade", published in December 1976 as a supplement to the publication (catalogue 65-001).

8. **Sources of Further Information:** Monthly, quarterly and annual trade statistics are published in the 65-xxx series of Statistics Canada publications. Detailed descriptions and reference manuals of the commodity classification are also available. See the Statistics Canada publications catalogue for descriptions of the contents of the various publications. As a result of continuous research on trade statistics, additional reference materials, articles, etc. are published in the "Preliminary Statement of Canadian International Trade" (catalogue 65-001P), the "Summary of Canadian International Trade" (catalogue 65-001) and the occasional publication entitled "Canadian International Trading Patterns" (catalogue 65-503).

In addition, merchandise trade statistics are also available from the International Trade Division (in the form of computer printouts, magnetic tapes, diskettes and microfiche); from the CANSIM network (in matrices: 3620 to 3629, 3651, 3685 to 3713, 3718, 3719, 3887 to 3913) as well as from Statistics Canada Regional Offices.

Questions concerning details of methods not covered by these notes should be addressed in writing to the Director, International Trade Division, Statistics Canada, Ottawa, Ontario K1A 0T6.

Les indices des prix et de volume des exportations et des importations (à pondération fixe et courante) établis en fonction de la balance des paiements pour tous les pays et présentés dans la première partie du "Sommaire du commerce international du Canada" (n° 65-001 au catalogue) se trouvent également dans les matrices 3620 à 3625 de CANSIM. En outre, les matrices 3626 à 3629 contiennent des indices des prix à pondération fixe ou courante établis sur une base douanière pour les États-Unis. Elles contiennent de plus, des indices pour les groupes "tous les pays" et les "États-Unis" établis en fonction des 10 sections de la "Classification type pour le commerce international" (CTCI).

La méthode de construction des indices est expliquée dans le document de référence intitulé "Les indices de prix et de volume de base 1971 du commerce extérieur du Canada" et publié en décembre 1976 sous forme de supplément à la publication (n° 65-001 au catalogue).

8. **Sources de renseignements supplémentaires:** Les statistiques mensuelles, trimestrielles et annuelles plus détaillées sur le commerce paraissent dans la série 65-xxx des publications de Statistique Canada. On peut également obtenir une description détaillée des catégories de marchandises et connaître leurs classifications qui s'y rapportent. Veuillez consulter le catalogue des publications de Statistique Canada pour connaître le contenu des diverses publications. Grâce à une recherche soutenue en statistique du commerce, d'autres renseignements, articles, etc. paraissent dans le Communiqué préliminaire sur le commerce international du Canada (n° 65-001P au catalogue), dans "Sommaire du commerce international du Canada" (n° 65-001 au catalogue) et dans la publication hors séries "Profil du commerce international canadien" (n° 65-503 au catalogue).

On peut également se procurer des statistiques sur le commerce de marchandises auprès de la Division du commerce international (sous forme d'imprimés d'ordinateur, de bandes magnétiques, de disquettes ou de microfiches), du réseau CANSIM (matrices 3620 à 3629, 3651, 3685 à 3713, 3718, 3719, 3887 à 3913) et des bureaux régionaux de Statistique Canada.

Toute question portant sur un aspect des méthodes qui n'aurait pas été traité dans les pages précédentes doit être adressée par écrit au directeur de la Division du commerce international, Statistique Canada, Ottawa (Ontario) K1A 0T6.

**Section and Chapter Definitions, H.S. based
Les définitions des sections et des chapitres, base du S.H.**

| Sections and Chapters | H.S. Code S.H. | Sections et chapitres |
|--|--------------------------|--|
| I Live animals; animal products | 0101.11 – 0511.99 | I Animaux vivants et produits du règne animal |
| 1. Live animals | 0101.11 – 0106.00 | 1. Animaux vivants |
| 2. Meat and edible meat offal | 0201.10 – 0210.90 | 2. Viandes et abats comestibles |
| 3. Fish and crustaceans, molluscs and other aquatic invertebrates | 0301.10 – 0307.99 | 3. Poissons et crustacés, mollusques et autres invertébrés aquatiques |
| 4. Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included | 0401.10 – 0410.00 | 4. Lait et produits de la laiterie; oeufs d'oiseaux; miel naturel, produits comestibles d'origine animale, non dénommés ni compris ailleurs |
| 5. Products of animal origin, not elsewhere specified or included | 0501.00 – 0511.99 | 5. Autres produits d'origine animale, non dénommés ni compris ailleurs |
| II Vegetable products | 0601.10 – 1404.90 | II Produits du règne végétal |
| 6. Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage | 0601.10 – 0604.99 | 6. Plantes vivantes; et produits de la floriculture |
| 7. Edible vegetables and certain roots and tubers | 0701.10 – 0714.90 | 7. Légumes, plantes, racines et tubercules alimentaires |
| 8. Edible fruit and nuts; peel of citrus fruit or melons | 0801.10 – 0814.00 | 8. Fruits comestibles; écorces d'agrumes ou de melons |
| 9. Coffee, tea, maté and spices | 0901.11 – 0910.99 | 9. Café, thé, maté et épices |
| 10. Cereals | 1001.10 – 1008.90 | 10. Céréales |
| 11. Products of the milling industry; malt; starches; inulin; wheat gluten | 1101.00 – 1109.00 | 11. Produits de la minoterie; malt; amidons et féculles; inuline; gluten de froment |
| 12. Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial or medicinal plants; straw and fodder | 1201.00 – 1214.90 | 12. Graines et fruits oléagineux; graines, semences et fruits divers; plantes industrielles ou médicinales; pailles et fourrages |
| 13. Lac; gums, resins and other vegetable saps and extracts | 1301.10 – 1302.39 | 13. Gommes, résines et autre sucs et extraits végétaux |
| 14. Vegetable plaiting materials; vegetable products not elsewhere specified or included | 1401.10 – 1404.90 | 14. Matières à tresser et autres produits d'origine végétale, non dénommés ni compris ailleurs |
| III Animal or vegetable fats and oils and their cleavage products; prepared edible fats; animal or vegetable waxes | 1501.00 – 1522.00 | III Graisses et huiles animales ou végétales; produits de leur dissociation; graisses alimentaires élaborées; cires d'origine animale ou végétale |
| 15. Animal or vegetable fats and oils and their cleavage products; prepared edible fats; animal or vegetable waxes | 1501.00 – 1522.00 | 15. Graisses et huiles animales ou végétales; produits de leur dissociation; graisses alimentaires élaborées; cires d'origine animale ou végétale |
| IV Prepared foodstuffs; beverages, spirits and vinegar, tobacco and manufactured tobacco substitutes | 1601.00 – 2403.99 | IV Produits des industries alimentaires; boissons, liquides alcooliques et vinaigres; tabacs et succédanés de tabac fabriqués |
| 16. Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates | 1601.00 – 1605.90 | 16. Préparations de viandes, de poissons ou de crustacés, de mollusques ou d'autres invertébrés aquatiques |
| 17. Sugars and sugar confectionery | 1701.11 – 1704.90 | 17. Sucres et sucreries |
| 18. Cocoa and cocoa preparations | 1801.00 – 1806.90 | 18. Cacao et ses préparations |
| 19. Preparations of cereals, flour, starch or milk; pastrycooks' products | 1901.10 – 1905.90 | 19. Préparations à base de céréales, de farines, d'amidons, de féculles ou de lait; pâtisseries |
| 20. Preparations of vegetables, fruit, nuts or other parts of plants | 2001.10 – 2009.90 | 20. Préparations de légumes, de fruits ou d'autres parties de plantes |
| 21. Miscellaneous edible preparations | 2101.10 – 2106.90 | 21. Préparations alimentaires diverses |
| 22. Beverages, spirits and vinegar | 2201.10 – 2209.00 | 22. Boissons, liquides alcooliques et vinaigres |
| 23. Residues and waste from the food industries; prepared animal fodder | 2301.10 – 2309.90 | 23. Résidus et déchets des industries alimentaires; aliments préparés pour animaux |
| 24. Tobacco and manufactured tobacco substitutes | 2401.10 – 2403.99 | 24. Tabacs et succédanés de tabac fabriqués |

International Trade of Canada

Classification of Countries

(Effective January 1, 1992)

The country classification employed by the International Trade Division of Statistics Canada is designed for purposes of economic geography and therefore does not reflect the views or intentions of the Government of Canada on international issues of recognition, sovereignty or jurisdiction.

| STC Code | Area Group and Country | Coverage |
|-----------------------|---------------------------|---|
| North America: | | |
| 001 | Canada | |
| 003 | Greenland | |
| 006 | St. Pierre and Miquelon | |
| 009 | United States | Includes trade with Puerto Rico and the United States Virgin Islands. |

| 101 | United Kingdom | Includes trade with the Channel Islands. |
|-----|----------------------|--|
| 115 | Gibraltar | |
| 117 | Ireland | |
| 119 | Malta | |
| 143 | Austria | |
| 144 | Belgium | |
| 149 | Denmark | Includes trade with the Faeroe Islands. |
| 153 | Finland | |
| 154 | France | Includes trade with Andorra and Monaco. |
| 155 | Germany | Formerly published under the name "Germany, West". Starting October 1990, includes trade with "Germany, East". Includes trade with the Austrian enclaves of Jungholz and Mittelberg. |
| 159 | Greece | |
| 163 | Iceland | |
| 167 | Italy | Includes trade with San Marino and Vatican City State. |

| | | |
|-----|-------------------|--|
| 170 | Luxembourg | |
| 173 | Netherlands | |
| 176 | Norway | Includes trade with Svalbard and Jan Mayen Islands. |
| 178 | Portugal | Includes trade with the Azores and Madeira Islands. |
| 182 | Spain | Includes trade with the Canary Islands, Ceuta, Málaga, Penon de Velez de la Gomera, the Chafarinas Islands, the Alhucemas Islands and Alboran and Perejil Islands. |
| 185 | Sweden | |
| 186 | Switzerland | Includes trade with Liechtenstein, with the German enclaves of Büsingen and some districts of Baden, and with the Italian enclave of Campione. |

Commerce international du Canada

Classification des pays

(En vigueur le 1^{er} janvier 1992)

La classification des pays utilisée par la Division du commerce international de Statistique Canada a été conçue aux fins de la géographie économique et ne reflète donc pas l'opinion du gouvernement du Canada relativement aux questions de reconnaissance, de souveraineté ou de compétence en matière internationale.

| STC Code | Groupe régional et pays | Couverture | Code STC |

HIRE OUR TEAM OF RESEARCHERS FOR \$53 A YEAR

NOTRE ÉQUIPE DE CHERCHEURS EST À VOTRE SERVICE POUR 53\$ PAR ANNÉE

Subscribing to **Perspectives on Labour and Income** is like having a complete research department at your disposal. Solid facts. Unbiased analysis. Reliable statistics.

But **Perspectives** is more than just facts and figures. It offers authoritative insights into complex labour and income issues, analysing the statistics to bring you simple, clear summaries of where the labour market and income distributions are headed.

Our team of experts is working to bring you the latest labour and income data. Each quarterly issue has:

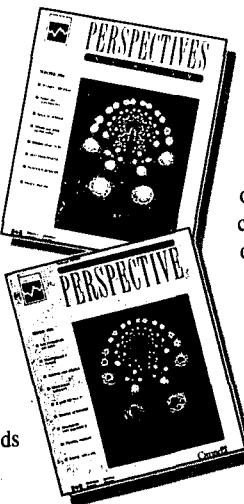

- topical articles on current labour and income trends
- more than 50 key labour and income indicators
- a review of ongoing research projects
- information on new survey results

As a special bonus, twice a year you will also receive a Labour Market Review, giving you up-to-the-minute analysis and data of how the labour market has performed over the last six months or year.

And all for only \$53.00.

Thousands of Canadian professionals turn to **Perspectives** to discover new trends in labour and income and to stay up-to-date on the latest research findings. As a subscriber, you will get the inside story.

We know you'll find **Perspectives** indispensable. GUARANTEED. If you aren't convinced after reading your first issue, we'll give you a FULL REFUND on all outstanding issues. Order your subscription to **Perspectives** today.

S'abonner à **L'emploi et le revenu en perspective**, c'est disposer d'une division entière de chercheurs à votre service. Des faits solides. Des analyses objectives. Des statistiques fiables.

La publication n'a pas que des faits et des chiffres. Elle offre également des analyses de fond sur des questions complexes touchant l'emploi et le revenu, de façon à fournir des indications claires et précises sur les tendances actuelles du marché du travail et de la répartition des revenus.

Notre équipe de spécialistes travaille activement afin de mettre à votre disposition des données actuelles sur l'emploi et le revenu. Dans chacun des numéros trimestriels, vous trouverez

- des articles de fond rédigés par des spécialistes de l'emploi et du revenu;
- plus de 50 indicateurs clés de l'emploi et du revenu;
- un aperçu des projets de recherche en cours;
- de l'information provenant des nouvelles enquêtes.

En plus, vous recevrez une revue du marché du travail, un supplément publié deux fois par année.

Tout cela pour 53 \$ seulement!

Des milliers de professionnels au Canada consultent **Perspective** pour connaître les tendances de l'emploi et du revenu, ainsi que les plus récents résultats de recherche. Votre abonnement vous permettra de connaître tous les faits.

Nous savons que **L'emploi et le revenu en perspective** deviendra pour vous un outil indispensable. Nous le garantissons. Si vous n'êtes pas satisfaits après avoir lu le premier numéro, nous vous REMBOURSERONS le montant payé pour les numéros à venir. Abonnez-vous à **Perspective** dès aujourd'hui.

ORDER NOW!

For only \$53 (plus \$3.71 GST) you will receive the latest labour and income research (4 issues per year). Subscription rates are US\$64 for U.S. customers and US\$74 for customers outside

North America.

Now More Than Ever, Strategic Planning Requires Reliable Trade Information . . .

. . . And We've Got It.

At the International Trade Division, Statistics Canada, we edit, compile and analyse data from hundreds of thousands of Customs documents each month. Available on tape, printouts, microfiche, diskettes or publications, these statistics can serve to:

- ✓ determine market shares
- ✓ identify domestic and foreign market trends
- ✓ forecast inventory and plan production
- ✓ describe merchandise trade

Do You Need A Special Report Designed To Meet Your Specific Needs? We've Got It.

If you are interested in one commodity or a certain country you may wish a monthly, quarterly or annual report on exports/imports. We can tailor a report just for you. Data variables include:

- | | |
|------------------------------|------------------------------|
| ✓ U.S. state of destination | ✓ quantity shipped |
| ✓ mode of transport | ✓ HS class |
| ✓ country origin/destination | ✓ value of commodity shipped |

Do You Need Comprehensive World Trade Data? We've Got It!

Our World Trade Database presents a complete matrix of country to country trade flows for 160 countries, 600 commodities and 300 industries. That's the most comprehensive database of comparable trade data available today.

Do You Need a Complete Database of Timely Trade Statistics?

We've Got It!

TIERS, our new software package provides data on over 15,000 commodities for 200 countries at the most detailed level for imports and exports. It is updated monthly, just 48 hours after the data are released and allows you immediate access to quantity, value, province, year and U.S. state code variables.

Put Our Data To Work For You!

Aujourd'hui plus que jamais, la planification stratégique nécessite des renseignements fiables sur le commerce . . .

. . . Et nous les avons.

À la Division du commerce international de Statistique Canada, nous vérifions, rassemblons et analysons chaque mois les données de centaines de milliers de documents douaniers. Les statistiques sur bande, sur sortie imprimée, sur microfiche, sur disquette ou sous forme de publications peuvent servir à:

- ✓ déterminer les parts de marché
- ✓ dégager les tendances sur les marchés intérieurs et étrangers
- ✓ gérer les stocks et planifier la production
- ✓ décrire le commerce de marchandises

Avez-vous besoin d'un rapport spécial répondant parfaitement à vos besoins?

Nous l'avons!

Si vous vous intéressez à une marchandise ou à un pays particulier, un rapport mensuel, trimestriel ou annuel sur les exportations/importations vous serait peut être utile. Nous pouvons vous produire un rapport sur mesure. Les données peuvent être présentées en fonction des variables:

- | | |
|-------------------------------------|---------------------|
| ✓ état américain de destination | ✓ quantité expédiée |
| ✓ valeur des marchandises expédiées | ✓ classe du SH |
| ✓ pays d'origine/de destination | ✓ mode de transport |

Avez-vous besoin de données sur l'ensemble du commerce mondial?

Nous les avons!

Notre Base de données sur le commerce mondial donne accès à une matrice complète de données sur les flux des échanges pour 160 pays, 600 groupes de marchandises et 300 branches d'activité. Cette base de données comparables sur le commerce est la plus complète qui soit.

Avez-vous besoin d'une base de données complète offrant des statistiques actuelles sur le commerce?

Nous l'avons!

TIERS est notre nouveau progiciel donnant accès à des données très détaillées sur les importations et les exportations, et ce pour 200 pays et plus de 15,000 marchandises. Les mises à jour s'effectuent mensuellement, à peine 48 heures après la diffusion des données, ce qui vous permet d'accéder sans délai aux variables quantité, valeur, province, année et code d'état américain.

Mettez nos données à votre service!
