CONDENSED PRELIMINARY REPORT

DOMINION BUREAU OF STATISTICS

ON THE

TRADE OF CANADA, 1925

WITH COMPARATIVE STATISTICS FOR THE
YEARS 1923 AND 1924

(Fiscal years ended March 31st)

Published by Authority of the Hon. Thos. A. Low, M.P.,
Minister of Trade and Commerce.

OTTAWA
F. A. CLAND
PRINTER TO THE KING'S MOST EXCELLENT MAJESTY
1925

PREFACE

The form of this report follows, very closely, that of earlier issues, but one new and important feature has been added. Tables 10 to 18, inclusive, analyse the trade of Canada with twenty-seven principal countries, showing the chief articles imported from or exported to each during the last two fiscal years. This is intended to meet the demand for a form of trade statistics that have not been available in print since 1916.

The remainder of the report follows the plan of the 1924 issue. There is a review of the year's trade and consideration of Canada's position among the great commercial nations of the world, historical tables summarizing the external commerce of the Dominion from Confederation down to date, analyses of current trends of trade by countries and by main groups of commodities and detailed tables of imports and exports of principal articles for the last three years, with trade with the United Kingdom and United States for the last two years.

The figures for 1925 are unrevised, those for earlier years are final.

NOTE: Statistics of trade with the United Kingdom include that with Irish Free State prior to 1925. For the latter year "United Kingdom" includes Great Britain and Northern Ireland only.

REVIEW OF CANADIAN TRADE, 1924-25

The outstanding feature of Canada's external trade during the year ended March 31, 1925, was the notable increase in the favourable balance of trade and the equally marked improvement in the trade balance with the United States. During the fiscal year 1922, Canada's favourable balance was only \$6,122,677, compared with an unfavourable balance for the previous year of \$29,730,763. For the year under review Canada's exports exceeded her imports by \$284,429,106, an improvement over the previous year of \$119,032,676, and, as compared with the fiscal year 1921, an improvement of \$314,159,869. The unfavourable trade balance with the United States for the fiscal year 1924 was \$159,613,538; for 1925 it was \$82,778,586, an improvement of \$76,834,952. This reduction in Canada's purchases from the United States and the maintenance of her exports at a high level have been largely responsible for the continued improvement in Canadian exchange. During the fiscal year 1921 it took, on the average, about 113 Canadian cents to purchase 100 United States cents, but during the fiscal year 1925, the Canadian dollar was almost on a par with the United States dollar, 100½ Canadian cents, on the average, being equal to 100 United States cents. In fact, during certain periods of the latter year, the Canadian dollar was at a premium in New York. The average value of the United States dollar in Canadian currency, by months, during the fiscal year 1925 was:

April, 1924.....	\$1.0184	August.....	\$1.0011	December.....	\$1.0034
May.....	1.0166	September.....	1.0078	January, 1925.....	1.0050
June.....	1.0141	October.....	1.0016	February.....	1.0017
July.....	1.0064	November.....	1.0000	March.....	1.0012

Analysis of Canada's Imports and Exports.—The total value of the trade of Canada (imports for consumption and Canadian exports combined) for the year under review was \$1,865,999,890, as compared with a trade in 1924 of \$1,938,717,923, and in 1923 of \$1,734,030,687, being a decrease compared with the year 1924 of \$72,718,033, or 3·7 per cent, and compared with 1923 an increase of \$131,969,203, or 7·6 per cent. The imports for 1925 show a decrease compared with 1924 of \$96,434,330 or 10·8 per cent and with 1923 of \$5,646,707, or 0·7 per cent, whereas the exports of Canadian produce for 1925 show an increase over the year 1924 of \$23,716,297 or 2·3 per cent and over 1923 of \$137,615,910 or 14·9 per cent. The total value of the imports for the year 1925 was \$796,932,537, compared with an import value in 1924 of \$893,366,867 and in 1923 of \$802,579,244, while the exports of Canadian produce in 1925 were valued at \$1,069,067,353, in 1924 at \$1,045,351,056 and in 1923 at \$931,451,443. Compared with 1921, the total trade for 1925 shows a decrease of \$563,322,693, the decrease in imports amounting to \$443,226,345 and in exports to \$120,096,348. The improvement in Canada's favourable trade balance in 1925 compared with 1924, amounting to \$119,032,676, was chiefly accounted for by decreased imports, amounting to \$96,434,330.

The statistics in the following table indicate the trend of Canadian trade from 1914 to 1925, (a) with all countries; (b) with the United Kingdom; and (c) with the United States.

Reasons for Increases and Decreases in Canada's Trade.—It might be thought from a cursory examination of the imports in 1925, compared with 1924, that as the decrease in the total value of goods imported (amounting to \$96,434,351) was confined largely to decreased imports of raw materials and semi-manufactured products used in Canadian industries, there would be a corresponding decline in the industrial activities of the Dominion. It is essential, however, in analysing such statistics not to rely wholly upon *values*, as they do not reveal the true increase or decrease in the physical volume of the trade of a country. It frequently happens, as in this instance, that quantity statistics tell a different story. While the imports of such materials as bituminous coal, raw cotton, raw silk, raw sugar and raw tobacco, and of certain semi-manufactured products show material decreases in values in 1925 as compared with 1924, the decreases in the quantities imported were proportionately much smaller, and in some of these items the quantities imported actually increased. Canadian manufacturers benefited by obtaining these products for their industries at a lower price per unit. Again, certain raw materials used in Canadian industries, such as hides and skins, crude petroleum and raw rubber, show substantial increases in the quantities imported. The falling off in the purchases from abroad of luxuries and of other products obtainable in Canada, has also contributed largely to the total decrease in the value of imports.

The increase in the exports of Canadian produce in 1925 compared with 1924, amounting to \$23,716,297, was chiefly due to two causes: The exports of butter, meats, fish, rubber products, paper (chiefly newsprint), farm implements, machinery, seeds and leather, were much in excess of similar exports last year, while the higher price received for wheat helped to swell the total value of exports. In fact, if the average export price for wheat in 1925 had been the same as in 1924 the total value of Canadian exports would have shown a decrease instead of an increase.

Geographical Distribution of Canada's Trade:—The following table shows that the continents of Europe and North America took 90.7 per cent of the Dominion's exports in 1925 as against 89.6 per cent in 1924. The proportion shipped to Europe in 1924 was 44.8 per cent and in 1925 47.9 per cent; to North America in 1924 the proportion was 44.8 per cent, and in 1925 42.8 per cent. The same two continents furnished Canada in 1924 with 94.2 per cent and in 1925 with 93.3 per cent of her imports. The proportion received from Europe in 1924 was 22.6 per cent and in 1925 25.4 per cent and from North America 71.6 per cent in 1924 and 67.9 per cent in 1925.

TRADE OF CANADA, BY CONTINENTS, 1924 AND 1925
(With proportion of trade with each continent)

Canada purchased goods from 96 countries and sold her products to 108 countries in 1925. She purchased merchandise from 28 British and 68 foreign countries, while she sold products to 33 British and 75 foreign countries.

The United States holds first place in Canada's import trade. From 1882 to date the imports from the United States have exceeded those from any other country. In 1925 the imports from the United States amounted to \$510,003,256 or 64.0 per cent of the total imports. Next in order of importance were: the United Kingdom \$151,100,822, or 19.0 per cent; France \$18,436,361, or 2.3 per cent; the British West Indies \$14,882,098, or 1.9 per cent; the British East Indies \$12,929,744, or 1.6 per cent; Switzerland \$7,801,375, or 1.1 per cent; Cuba

\$7,798,128, or 1·0 per cent; Japan \$7,005,056, or 0·9 per cent; British Guiana \$6,938,760, or 0·9 per cent; Germany \$6,772,590, or 0·8 per cent; Argentina \$6,262,738, or 0·8 per cent; the Netherlands \$5,077,323, or 0·6 per cent; Belgium \$5,061,912, or 0·6 per cent; Peru \$3,532,608, or 0·4½ per cent; the Dutch East Indies \$2,951,820, or 0·4 per cent; San Domingo \$2,686,000, or 0·3½ per cent; Mexico \$2,550,815, or 0·3 per cent and China \$2,521,874, or 0·3 per cent.

In the export field the United States this year, as last year, was Canada's best customer. The exports of Canadian produce to the United States in 1925 were valued at \$417,457,171, or 39·1 per cent of the Dominion's total domestic exports. Next in order of importance were: the United Kingdom \$395,850,982, or 37·0 per cent; Germany \$24,234,685, or 2·3 per cent; Japan \$22,011,088, or 2·1 per cent; Belgium \$16,633,411, or 1·6 per cent; New Zealand \$15,079,661, or 1·4 per cent; Italy \$14,139,375, or 1·3 per cent; Newfoundland \$12,701,428, or 1·2 per cent; the Netherlands \$12,644,245, or 1·2 per cent; Australia \$12,037,203, or 1·1 per cent; Russia \$11,669,352, or 1·1 per cent; the British West Indies \$10,848,487, or 1·0 per cent; Argentina \$10,322,373, or 0·9 per cent; France \$10,290,063, or 0·9 per cent; British South Africa \$9,276,502, or 0·9 per cent; China \$7,838,187, or 0·7 per cent; and Cuba \$7,142,406, or 0·7 per cent. Probably the most notable feature in the distribution of Canada's export trade was the displacing during 1925 of Japan as Canada's third best customer by Germany, Japan dropping to fourth position and Germany advancing from eighth to third position. In 1924 France was Canada's fifth best customer but in 1925 she occupied only thirteenth position.

Imports and Exports of Canada via the United States:—The following table show for the fiscal years 1922 to 1925 the imports into Canada from Overseas Countries via the United States.

Imports from—	Years ended March 31—			
	1922	1923	1924	1925
United Kingdom via U.S.....	\$ 3,070,315	2,914,881	932,224	551,072
% of Total Imports from U.K.....	2·6	2·1	0·6	0·4
Other British Empire via U.S.....	\$ 3,341,088	4,524,595	4,925,615	4,307,889
% of Total Imports from O.B.E.....	10·5	11·8	11·8	9·8
Foreign Countries via U.S.....	\$ 5,686,078	5,419,297	8,032,644	7,285,831
% of Total Imports from F.C.....	6·8	6·6	8·3	7·9
Total Imports via U.S.....	\$ 12,097,481	12,858,773	13,890,483	12,144,792
% of Total Imports from Overseas Countries.....	5·2	4·9	4·7	4·2

It will be observed from the above table that the imports from the United Kingdom via the United States have steadily declined until for 1925 they amounted to only \$551,072 or about 0·4 per cent of the total imports from the United Kingdom. The proportion of the imports from British Dominions and Possessions via the United States is also less than for the years 1922, 1923 and 1924, while the imports from foreign countries via the United States show very little change, the proportion in 1925 being a trifle less than in 1924, but greater than in 1922 or 1923.

When considering Canada's imports via the United States, it is interesting to note what proportion of Canada's exports is shipped via the United States. The table below show Canada's exports to Overseas Countries via the United States for the last four years.

Exports to—	Years ended March 31—			
	1922	1923	1924	1925
United Kingdom via U.S.....	\$ 102,148,220	156,984,099	152,276,836	172,902,374
% of Total Exports to U.K.....	34·0	41·3	42·1	43·5
Other British Empire via U.S.....	\$ 7,490,639	13,983,246	20,815,847	18,914,488
% of Total Exports to O.B.E.....	15·9	22·9	26·9	23·7
Foreign Countries via U.S.....	\$ 37,788,555	39,369,092	50,585,707	65,452,730
% of Total Exports to F.C.....	36·9	31·8	28·3	36·9
Total exports via U.S.....	\$ 147,427,414	210,336,437	223,678,390	257,359,592
% of Total Exports to Overseas Countries.....	32·8	37·2	36·2	39·3

The above table shows that the shipments of Canadian products to Overseas Countries via the United States are gradually growing. This is especially true with respect to exports to the United Kingdom.

Relation Between Trade in Raw and Manufactured Products:—The variety and capacity of Canada's manufacturing industries are constantly increasing. Many classes of goods which were formerly imported are now being manufactured in the Dominion in sufficient volume not only to meet the requirements of the home market, but also for export. No statistics are as yet available to show what proportion of Canada's imports and exports for 1925 consisted of raw materials, partly manufactured, or fully manufactured goods. Statistics available for the years 1900 to 1924, indicate, however, that Canada is importing less manufactured commodities today than a few years ago, while the imports of raw materials for use in Canadian manufacturing industries show a constant increase. Though Canada exports large quantities of raw materials, it is a notable fact that the increase in the quantities of raw materials used in her manufacturing industries in recent years is greater than the increase in the exports of these products. It will be observed from the table below that prior to 1914 the proportion of the imports of raw materials to total imports for Canada and the United States was 21.8 per cent and 46.5 per cent, respectively, while in 1924 it was 28.4 per cent and 44.6 per cent respectively. In the year 1914 the proportion of imports of fully manufactured goods was, Canada 68.9 per cent and the United States 36.6 per cent while in 1924 the proportion for Canada was 60.4 per cent and the United States 36.9 per cent. With regard to exports, the table below shows that in 1914 the proportion of raw materials exported to total exports was, Canada 63.2 per cent and the United States 39.9 per cent, while in 1924 the proportion was, Canada 43.4 per cent and the United States 35.7 per cent. During 1914 the proportion of fully manufactured goods exported to total exports was, Canada 26.7 per cent and the United States 44.0 per cent, but in 1924 the proportion for Canada was 39.8 per cent and for the United States 50.2 per cent.

Canada's Position in International Trade:—During the period 1913 to 1924 Canada materially improved her position among the principal commercial nations of the world. Canada occupied eighth position among the leading importing countries in 1913, but in 1924 she only occupied tenth position, being exceeded by the United Kingdom, the United States, Germany, France, Japan, the Netherlands, Italy, Belgium and Argentina. With reference to exports, Canada in 1913 occupied tenth place but in 1924 she had advanced to sixth place, being surpassed by the United States, the United Kingdom, France, Germany and British India. Though Canada in 1924 occupied tenth place in imports and sixth place in exports, she held sixth place in aggregate trade (i.e. imports and exports combined), being exceeded by the United Kingdom, the United States, France, Germany and British India. In percentage of increase in import trade from 1913 to 1924, Canada occupied sixteenth place among the leading importing countries, but in increase in exports she occupied second place, the Union of South Africa holding first place. With regard to imports per capita Canada stood in fifth place in 1913 but in 1924 she stood in eighth place, being surpassed only by New Zealand, the Netherlands, Switzerland,

the United Kingdom, Denmark, Australia and Belgium. In exports per capita she occupied seventh place in 1913 and second place in 1924, the first place now being held by the Dominion of New Zealand. In respect of total trade per capita (i.e. imports and exports combined) Canada was in sixth place in 1913 and in 1924 she was in sixth place, being surpassed by New Zealand, Switzerland, the Netherlands, Australia and Denmark.*
