CONDENSED PRELIMINARY REPORT

ON THE

TRADE OF CANADA, 1926

WITH COMPARATIVE STATISTICS FOR THE
YEARS 1924 AND 1925

(Fiscal years ended March 31st)

Published by Authority of the Hon. J. A. Robb, M.P.,
Acting Minister of Trade and Commerce.

OTTAWA
F. A. ACLAND
PRINTER TO THE KING'S MOST EXCELLENT MAJESTY
1926

PREFACE

This review and analysis of Canada's external trade is again presented in an enlarged and elaborated form. The additions made to the report last year met with general approval and this year's additions are along similar lines.

In the preliminary review (pages 5 to 23) the volume and value of the Dominion's external commerce, its fluctuations, distribution, and routes of transportation, are examined in respect to both current conditions and variations of recent occurrence. Several new analytical tables are now published for the first time, setting forth aspects of the trade situation not previously dealt with in any official publication. Canada's progress and present position among the great trading nations are explained in particular detail.

The main tables showing Canada's trade with all countries follow the arrangement used in previous years. Some items have been added to the detailed table of exports (No. 9).

Last year, tables analysing the trade with twenty-seven leading British and foreign countries, were added to the report—a new feature that met with general commendation and elicited many requests for further statements of the same character. This year the number of such tables is doubled so that the report now gives (with the United Kingdom and United States figures in Tables 8 and 9) particulars of the commercial exchange between Canada and fifty-six other countries, covering all but a very small remnant of the trade.

Statistics for the fiscal year ended March 31, 1926, are unrevised; those for earlier years are final.

This report has been prepared in the External Trade Branch of the Dominion Bureau of Statistics, under Mr. W. A. Warne, B.A., Chief, from data supplied by the Department of Customs under Section 22 of the Statistics Act.

R. H. COATS,
Dominion Statistician.

Dominion Bureau of Statistics,

REVIEW OF CANADA'S FOREIGN TRADE, 1925-26

Canada's foreign trade was extremely active during the fiscal year ended March 31, 1926, reflecting a general improvement in the economic condition of the Dominion. While imports were less in value than for the "peak" year, 1921, exports were greater, being exceeded in only one year in the history of the Dominion, 1918.

Statistics of the trade are available in detail, but value is the only complete measure available. Changes in the total values of imports and exports over a given period may be due to two causes: (a) an increase or decrease in the quantities of goods imported or exported; or (b) an increase or decrease in the prices at which goods were imported or exported.

The average level of prices has changed only moderately in the past three or four years. On the other hand a comparison with pre-war years and with the period during and immediately following the war shows that there have been great changes in the level of prices materially affecting the comparability of trade statistics. It is certain, however, that the physical volume of the Dominion's imports and exports for the fiscal year 1926 was greater than for any other trade year in the Dominion's history.

The gradual growth in Canada's commerce prior to the war, the enormous expansion during the war period, the decline and revival after the post-war boom, first in imports and later in exports (which increased much faster than imports), have now resulted in Canada having the largest favourable trade balance per capita of any country in the world. For the fiscal year 1926, Canada's favourable trade balance amounted to \$401,134,405 an increase over the previous year of \$116,705,299. Only on one other occasion was the Dominion's favourable balance as large as in 1926, viz.: the war year 1918 when it amounted to \$662,637,214. At the end of March, 1926, the favourable trade balance was almost entirely with the British Empire, the amount for the Empire being \$392,631,842 and for foreign countries only \$8,502,563. The unfavourable balance of trade with the United States, amounting to \$123,970,454, was approximately compensated for by a favourable balance with other foreign countries.

The remarkable increase in the favourable balance during the past two or three years has contributed largely to the improvement in Canadian exchange. On the average during the fiscal year 1926, the Canadian dollar was practically on a parity with the United States dollar.

Analysis of Canada's Trade.—Canada's foreign trade during the fiscal year ended March 31, 1926, amounted to \$2,255,939,869, compared with a similar trade in 1925 of \$1,878,294,180 and in 1924 of \$1,952,130,164, the increase over 1925 amounting to \$377,645,689 or 20.1 per cent, and over 1924 to \$303,809,705 or 15.5 per cent. Imports as well as exports show an improvement over the years 1925 and 1924, the increase in exports, however, being greater than in imports. Of the total increase in Canada's trade, 1926 compared with 1925, imports accounted for 34.5 per cent and exports for 65.5 per cent, whereas imports accounted for only 11.2 per cent of the total increase from 1924 to 1926, while exports accounted for 88.8 per cent. In 1926 Canada's import trade was valued at \$927,402,732, as compared with \$796,932,537 in 1925 and \$893,366,867 in 1924; the increase over 1925 amounting to \$130,470,195, or 16.4 per cent, and over 1924 to \$34,035,865, or 3.8 per cent. The Dominion's export trade in 1926 (domestic and foreign combined) was valued at \$1,328,537,137 compared with \$1,081,361,643 in 1925 and \$1,058,763,297 in 1924; the increase over 1925 amounting to \$247,175,494, or 22.9 per cent, and over 1924 to \$269,773,840, or 25.5 per cent. During the past three fiscal years the exports from Canada, distinguishing Canadian from foreign exports were:

| Fiscal Year | Canadian Exports | Foreign Exports | Total Exports |
|-------------|------------------|-----------------|------------------|
| 1924 | \$ 1,045,351,056 | \$ 13,412,241 | \$ 1,058,763,297 |
| 1925 | \$ 1,069,167,353 | \$ 12,294,290 | \$ 1,081,361,643 |
| 1926 | \$ 1,315,192,731 | \$ 13,341,346 | \$ 1,328,537,137 |

The domestic exports for 1926 show an increase over similar exports in 1925 of \$246,125,438, or 23·0 per cent., and over 1924 an increase of \$269,841,735, or 25·8 per cent. Canada's total trade in 1926, while \$194,647,132 less than that for the "peak" year since the war (1921), shows an improvement over 1925 of \$377,645,689. The decrease in imports from 1921 to 1926 was \$312,756,150, while exports show an increase of \$118,109,018. Domestic exports increased \$126,029,090, while foreign exports show a decrease of \$7,920,072. Only in one year was the Dominion's export trade greater than in 1926, viz.: the war year 1918, when it totalled \$1,586,169,792, domestic exports amounting to \$1,540,027,788 and foreign exports to \$46,142,064.

Increase in Imports, 1925-1926.—The increase in the imports of \$130,470,195 in 1926 over 1925, was due to gains in the imports of agricultural and vegetable products of \$29,831,592 (under this main group crude rubber shows an increase of \$22,189,433; alcoholic beverages \$6,130,444; fresh fruits \$1,775,506; and vegetable oils \$1,453,990; while raw sugar shows a decrease of \$3,683,952); animal products \$7,767,589 (chiefly butter \$2,574,819; furs \$2,326,937; and raw hides and skins \$1,049,670); fibres and textiles \$19,321,074 (principally silk and its products \$5,666,097; raw cotton \$3,920,269; binder twine \$3,482,630; flax, hemp and jute \$2,994,333, and manila and sisal grass \$2,163,839); wood and paper \$2,217,713; iron and its products \$46,512,359; (mainly automobile parts \$8,922,394; farm implements \$6,841,664; machinery \$6,209,454; rolling mill products \$5,924,934; automobiles \$5,703,850; and engines and boilers \$5,520,251); non-ferrous metals \$6,581,435 (chiefly electric apparatus \$1,727,132; copper \$1,451,783; brass \$840,960; and silver bullion \$339,749); non-metallic minerals, \$8,020,646 (crude petroleum shows an increase of \$5,736,060; coke \$2,998,355; and refined petroleum \$2,084,137; while coal shows a decrease of \$6,600,680); chemical products \$3,644,039; and miscellaneous commodities \$6,573,748.

Increase in Exports, 1925-1926.—The excess of domestic exports in 1926 over 1925, amounting to \$246,125,438, was due to increases in agricultural and vegetable products of \$162,596,795 (principally wheat \$112,535,544; refined sugar \$12,041,423; rubber goods \$9,368,403; oats \$8,193,257; potatoes \$6,404,984; seeds \$6,580,608; barley \$5,061,540; and alcoholic beverages \$4,982,244; while a few products show decreases, viz.: rye \$2,007,620; wheat flour \$951,094; and bran, shorts and middlings \$518,748); animal products \$27,944,002 (chiefly cheese \$9,606,112; meats \$8,078,955; cattle \$4,708,618; and fish \$3,293,255); wood and paper \$25,064,936 (largely paper \$10,163,019; wood pulp \$8,344,629; and planks and boards \$5,468,337); iron and its products \$17,329,137 (chiefly automobiles \$9,687,049; farm implements \$2,285,629; pigs, blooms, etc. \$848,814; and machinery \$626,327); non-ferrous metals \$7,105,482 (principally lead \$3,560,442; nickel \$2,654,999; copper, \$2,220,376; and aluminium \$766,793; raw gold, however, shows a decrease of \$2,825,239); non-metallic minerals \$3,839,859 (raw asbestos accounted for \$2,178,161 of this increase and cement for \$1,297,494); chemical products \$1,288,308; and miscellaneous commodities \$1,728,593. Exports of fibres and textiles show a decrease of \$771,674.

Trade with the United Kingdom.—The trade of Canada with the United Kingdom during the year ended March 31, 1926, was valued at \$672,988,590, compared with a similar trade in 1925 valued at \$548,251,994, representing an increase of \$124,736,596 or about 22·8 per cent. Imports accounted for 10·2 per cent of this increase and exports for 89·8 per cent. In 1926, Canada's imports from the United Kingdom were valued at \$163,710,431 and in 1925 at \$151,083,946, an increase of \$12,626,485 or 8·3 per cent, while her total exports to the United Kingdom in 1926 were valued at \$509,278,159 and in 1925 at \$397,168,048, showing an increase in exports of \$112,110,111 or 28·2 per cent. Domestic exports in 1926 totalled \$508,249,576 and in 1925 \$395,843,433, while the exports of foreign produce in 1926 were valued at \$1,028,583, and in 1925 at \$1,324,615. Compared with the "peak" year in Canadian trade during the post-bellum period (1921), the total trade shows an increase of \$144,786,357. This increase was entirely confined to exports as the imports show a decrease, the increase in exports amounting to \$195,049,488, and the decrease in imports to \$50,263,131.

From 1925 to 1926 the total increase in imports, amounting to \$12,626,485, was quite general, as every main group shows an increase except fibres and textiles. Agricultural and vegetable products increased from \$28,265,980 to \$34,603,501 or \$6,337,521. This was mainly due to increased imports of alcoholic beverages, which show a gain of \$5,579,010. Animal products increased from \$4,653,919 to \$5,960,932, or \$1,307,013. Butter, cheese and furs were largely responsible for this increase. Fibres and textiles decreased from \$72,126,492 to \$70,153,473.

or \$1,973,014. The falling off in cotton goods and raw wool was chiefly responsible for the decrease in the imports of fibres and textiles. The imports of wood and paper increased from \$3,438,101 to \$3,473,664; iron and its products from \$17,794,428 to \$17,905,166; non-ferrous metals from \$4,010,443 to \$5,303,872 and non-metallic minerals from \$9,648,724 to \$14,226,799 or \$4,578,075. The gain in non-metallic minerals was chiefly due to increased imports of coal amounting to \$3,614,605. Chemical products increased from \$4,146,061 to \$4,282,489 and miscellaneous commodities from \$6,999,798 to \$7,800,530.

The exports of domestic produce from Canada to the United Kingdom from 1925 to 1926 show an increase of \$112,406,143. This increase occurred mainly in the main groups of "agricultural and vegetable products" and "animal products", though the exports of the main groups of "wood and paper" and "iron and its products" also show increases. All the other main groups, however, show decreases. The exports of agricultural and vegetable products to the United Kingdom from 1925 to 1926 increased from \$264,629,910 to \$356,888,044 or \$92,258,134. This increase occurred largely in the following commodities: Wheat \$81,532,937; refined sugar \$9,672,926; and barley \$2,415,811. Animals and their products increased from \$80,402,251 to \$98,784,204 or \$18,381,953. Cheese accounted for \$8,456,675 of this increase, meats for \$6,047,766 and cattle for \$3,307,287. The increase in the exports of wood and paper from \$16,359,997 to \$19,131,234, or \$2,771,237, occurred chiefly in wood pulp which increased \$1,707,011 and newsprint paper \$655,206; while the increase in the exports of iron and its products from \$6,689,169 to \$8,307,441, or \$1,618,272, occurred principally in the exports of automobiles.

Trade with the United States.—During the fiscal year ended March 31, 1926, the trade of Canada with the United States amounted to \$1,005,680,246 as against a trade in 1925 of \$936,964,652, the increase amounting to \$158,715,594 or 16.9 per cent. Imports accounted for 63 per cent of the total increase and exports for 37 per cent. In 1926 the imports from the United States amounted to \$609,825,350 as compared with an import trade in the previous year of \$509,780,009, representing an increase of \$100,045,341 or 19.6 per cent, while exports to the United States in 1926 totalled \$485,854,896 as compared with \$427,184,643 in 1925, the increase during the year amounting to \$58,670,253 or 13.7 per cent. In 1926 the domestic exports were \$474,890,028 and in 1925 \$417,417,144, while the foreign exports in 1926 amounted to \$10,964,868 and in 1925 to \$9,767,499, the increases being: Domestic \$57,472,884 and foreign \$1,197,369. Compared with the year, 1921, which was a record year, in Canada's trade with the United States, in both imports and exports, the total trade in 1926 shows a decrease of \$321,198,510, the decrease in imports amounting to \$246,351,470 and in exports to \$74,847,040.

The increase in the imports, 1925 to 1926, amounting to \$100,045,341, was largely due to increased imports of iron and its products, agricultural and vegetable products, and fibres and textiles. The imports under every main group show increases except the main group non-metallic minerals. The agricultural and vegetable products group increased from \$76,561,849 to \$88,530,605 or \$12,968,756. The principal commodities responsible for this increase were crude rubber \$18,377,845 and fresh fruits \$1,594,836. Animals and their products increased from \$28,588,214 to \$32,996,830 or \$4,408,616, the commodities chiefly responsible for this increase being, raw hides and skins, \$1,769,332; furs \$1,637,231; and meats \$655,283. The main group fibres and textiles increased from \$64,002,595 to \$79,115,464, or \$15,112,869; raw cotton being responsible for \$3,921,014 of this increase; silk for \$2,924,607; binder twine for \$2,546,879; cotton goods for \$1,840,917; manila and sisal grass for \$1,663,919; and flax, hemp and jute products for \$1,301,329. Wood and paper increased from \$32,653,591 to \$34,715,231; iron and its products from \$113,541,924 to \$158,029,982 or \$44,488,058. The following iron and steel items largely accounted for this increase: automobile parts \$8,895,532; farm implements \$6,781,362; rolling mill products \$5,930,253; automobiles \$5,663,414; engines and boilers \$5,499,858; and machinery \$4,965,721. Non-ferrous metals increased from \$33,297,222 to \$38,911,300 or \$5,614,078; imports of copper being responsible for \$1,416,901 of this increase, electric apparatus for \$1,216,744, manganese oxide for \$880,009, and brass for \$656,081. The imports under the main group of non-metallic minerals decreased from \$111,970,906 to \$110,686,261, or \$1,284,645. This decrease was chiefly due to falling off in imports of coal. Coal decreased \$10,496,850, while imports of coke show an increase of \$2,927,082; crude petroleum \$2,547,553; and refined petroleum \$2,021,052. Chemical products increased from \$16,366,165 to \$18,754,942 and miscellaneous commodities from \$32,797,543 to \$38,084,735.

The increase in the exports of Canadian produce to the United States in 1926 compared with 1925, amounting to \$57,472,884 occurred in eight of the nine main groups, the fibres and textiles group showing a decrease. Agricultural and vegetable products increased from \$42,587,129 to \$65,964,214 or \$23,377,085; seeds accounting for \$6,950,537 of this increase, alcoholic beverages for \$6,385,589, wheat for \$6,114,410, and potatoes for \$4,900,591. Animals and their products exported increased from \$57,833,090 to \$63,559,623 or \$5,726,533; the principal commodities accounting for this increase were: milk and cream, fresh \$1,764,752; meats \$1,627,557; and cattle \$1,581,445. Fibres and textiles, however, decreased from \$4,894,415 to \$4,621,774. The wood and paper group increased from \$220,056,988 to \$237,898,369 or \$17,841,381; the exports of newsprint paper being responsible for \$6,951,090 of this increase, planks and boards for \$5,317,048, and wood pulp for \$5,326,186. The exports under this main group account for practically 50 per cent of Canada's exports to the United States. Iron and its products increased from \$5,063,148 to \$7,582,833; non-ferrous metals from \$57,334,402 to \$58,555,643; and non-metallic minerals from \$12,943,809 to \$17,244,986 or \$4,301,177. The exports of the following commodities were largely responsible for this increase, asbestos (raw) for \$1,745,535, cement for \$1,096,480, and coal for \$571,324. Chemicals and products increased from \$7,826,076 to \$9,204,155 and miscellaneous commodities from \$8,878,087 to \$10,258,431.

Trade of Canada with the British Empire.—Canada was the first of the British Dominions to grant a preference to goods the produce and manufacture of the United Kingdom and reciprocating British Dominions and possessions. This preference was extended by Order-in-Council from time to time to other portions of the British Empire until to-day it is applicable to practically every British Dominion and possession, except Newfoundland. In the case of Newfoundland, however, Canada grants free admission to fish and fish products.

The preference has stimulated imports from the United Kingdom and British Dominions and possessions since its inception in 1897. In 1896 imports from the United Kingdom amounted to only \$32,824,505 and from other portions of the Empire to \$2,388,647. A decade later the imports from the United Kingdom had increased to \$69,183,915 and from other portions of the Empire to \$14,605,519. This trade in 1926 was United Kingdom (including Irish Free State) \$163,729,749 and other portions of the Empire \$43,967,214. In 1896 the proportion of Canada's imports from the British Empire as a whole was 33.3 per cent and in 1926 only 22.4 per cent, the relative decrease being with the United Kingdom and not with other portions of the Empire. The proportion of the Dominion's imports from other portions of the Empire in 1896 was 2.2 per cent and in 1926 4.8 per cent.

The exports of Canadian produce to the United Kingdom in 1896 were valued at \$62,717,941 and to other portions of the Empire at \$4,048,198. In 1906 the exports to the United Kingdom had increased to \$127,456,465 and to other portions of the Empire to \$10,964,757. For the fiscal year 1926 the exports to the United Kingdom (including Irish Free State) were \$512,958,265 and to other portions of the Empire to \$85,634,989. The proportion of Canada's domestic exports to the Empire as a whole shrank from 60.8 per cent in 1896 to 45.5 per cent in 1926. This shrinkage occurred in the exports to the United Kingdom as the proportion to other portions of the Empire rose from 3.7 per cent in 1896 to 6.5 per cent in 1926. The trade of Canada with the British Empire for the fiscal years 1896, 1906, 1914 and 1926 was as follows:—

TRADE OF CANADA WITH THE BRITISH EMPIRE

NOTE.—For comparative purposes the trade of Canada with the Irish Free State in 1923 is included with the United Kingdom.

| | Canadian Trade with— | | | Percentage of Total | | |
|---------------------------|----------------------|----------------------|----------------------|---------------------|----------------------|----------------------|
| | United Kingdom | Other British Empire | Total British Empire | United Kingdom | Other British Empire | Total British Empire |
| <i>Imports</i> | | | | | | |
| 1896 | \$32,824,505 | \$2,388,647 | \$35,213,152 | 31.1 | 2.2 | 33.3 |
| 1906 | \$69,183,915 | \$14,605,519 | \$83,789,434 | 24.4 | 5.1 | 29.5 |
| 1914 | \$132,070,406 | \$22,456,440 | \$154,526,846 | 21.3 | 3.6 | 21.9 |
| 1926 | \$163,729,749 | \$43,967,214 | \$207,696,963 | 17.6 | 4.8 | 22.4 |
| <i>Exports (Canadian)</i> | | | | | | |
| 1896 | \$62,717,941 | \$4,048,198 | \$66,766,139 | 57.1 | 3.7 | 60.8 |
| 1906 | \$127,456,465 | \$10,964,757 | \$138,421,222 | 54.1 | 4.6 | 58.7 |
| 1914 | \$215,253,969 | \$23,388,548 | \$238,642,517 | 49.8 | 5.4 | 55.4 |
| 1926 | \$512,958,265 | \$85,634,989 | \$598,593,254 | 39.0 | 6.5 | 46.8 |

With reference to the relation between the trade in raw and manufactured products with the British Empire an analysis will show that the bulk of the imports into Canada from the United Kingdom consists largely of manufactured products, whereas the imports from other portions of the British Empire are made up chiefly of raw materials and products in a semi-manufactured condition. The exports to the United Kingdom on the other hand are composed principally of raw materials and semi-manufactured products while the exports to other portions of the British Empire consist chiefly of manufactured products. During the fiscal year 1925 the relation between the trade in raw and manufactured products with the United Kingdom, was:—

| | Imports % | Exports % |
|---------------------|--------------|--------------|
| Raw materials | 7.1 | 64.5 |
| Partly manufactured | 5.3 | 6.3 |
| Fully manufactured | 87.6 | 29.2 |

Trade of Canada with Other Countries.—With reference to the trade of Canada with other countries than the United Kingdom and the United States attention is directed to tables Nos. 10 to 27, pages 62 to 85, giving the trade of Canada in principal commodities with 54 British and foreign countries for the fiscal years 1925 and 1926.

The statistics in the following table indicate the trend of Canadian trade from 1914 to 1926, (a) with all countries; (b) with the United Kingdom; and (c) with the United States.

SUMMARY OF TREND OF CANADIAN TRADE, 1914 TO 1926
(Values in Millions of Dollars)

| Years ended March 31 | Imports into Canada | | | | Exports from Canada | | | Excess of Imports (i) Exports (e) | Percentage relation of Exports to Imports |
|-------------------------|---------------------|---------------|------------------|------------------|---------------------|--------------------|------------------|--|--|
| | Dutiable Goods | Free Goods | Total Imports | Per Cent Free | Canadian Produce | Foreign Produce | Total Exports | | |

(a) With ALL COUNTRIES

| | | | | | | | | | | |
|------|-------|-------|---------|------|---------|------|---------|-----|-------|-------|
| 1914 | 410.3 | 208.9 | 619.2 | 33.7 | 431.6 | 23.8 | 455.4 | (i) | 163.8 | 73.5 |

Basis of Canada's Increased Trade.—The increase in the Dominion's import trade in 1926 compared with that for the year 1925, amounting to \$130,470,193, was in large measure due to increased importations of raw materials and semi-manufactured products for use in Canadian industries. The increased imports of these classes of products account for over 50 per cent of the total increase. The increase (with the possible exception of raw rubber) was not due to higher prices, but almost entirely to an increase in the quantities imported, which in almost every instance were considerably in excess of those imported in 1925. The imports of raw rubber and raw sugar present some interesting comparisons. In 1925 the imports of raw rubber were—quantity 34,386,858 pounds, value \$9,793,138, and in 1926—quantity 46,813,120 pounds, value \$31,982,571, an increase in quantity of only 12,426,262 pounds and in value of \$22,189,433; whereas the imports of raw sugar in 1925 were—quantity 838,742,661 pounds, value \$35,805,791, and in 1926—quantity 1,158,544,069 pounds, value \$32,121,839, showing

an increase in quantity of 319,801,408 pounds and a decrease in value amounting to \$3,683,952. Probably the most notable increase in raw materials was in oxide of manganese, which increased from 44,258,603 pounds to 114,648,896 pounds. This increase was reflected in increased exports of ferro-manganese and other ferro-alloys, which show an increase, 1925 to 1926, from 1,830 tons, value \$179,324, to 14,939 tons, value \$1,547,376.

The increase in manufactured products from 1925 to 1926 was confined chiefly to the following commodities, viz.: farm implements, which increased from \$6,495,000 to \$13,337,000; machinery from \$25,822,000 to \$32,032,000; alcoholic beverages from \$19,124,000 to \$25,254,000; automobiles from \$10,091,000 to \$15,795,000; silk fabrics from \$12,922,000 to \$16,882,000; chemical products from \$24,760,000 to \$28,404,000; binder twine from \$3,228,000 to \$6,710,000 and refined petroleum from \$12,893,000 to \$14,983,000. The increased imports of raw materials, semi-manufactured products and certain manufactured products, such as axles for vehicles, automobile engines, automobile parts and tin plate (which may be virtually considered as raw materials since they are used in Canadian industries) would indicate a revival in the industrial activities of the Dominion. In the following table it will be noted that only four commodities out of the thirty listed show a decrease in the quantities imported, viz.: alumina, grease, peanut oil and raw wool.

IMPORTS OF THIRTY LEADING COMMODITIES USED IN CANADIAN
INDUSTRIES—FISCAL YEARS, 1925 AND 1926

Note.—Commodities arranged in order of importance of import value, 1926.

| Rank | Commodity | Years ended March 31 | | | |
|------|--------------------------------------|----------------------|-------------------|------------|------------|

The increase in the exports of domestic produce from Canada in 1926 compared with a similar trade in 1925, amounting to \$246,125,438, was chiefly due to increased exports of products produced on Canadian farms or of commodities manufactured directly from such products, viz.: wheat, cheese, oats, meats, potatoes, flaxseed, barley, cattle and whiskey; products of the forest or commodities manufactured directly from such products, viz.: newsprint paper, wood pulp, and planks and boards; products of the mine or articles manufactured from such products, viz.: automobiles, lead and nickel; certain other products manufactured from imported materials, viz.: sugar and rubber tires. The increase in the value of these exports, with the possible excep-

tion of potatoes, was not mainly due to higher prices, but to an increase in the quantities exported. The increases in the seventeen commodities above noted account for over 90 per cent of the total increase in the Dominion's exports. An analysis of the statistics in the following table of exports will indicate that nine of the seventeen commodities mentioned, which were produced on Canadian farms or were manufactured from such products, will account for about 86 per cent of the total increase.

SEVENTEEN COMMODITIES THAT ACCOUNT FOR OVER 90 PER CENT OF THE
TOTAL EXPORTS OF THE DOMINION, 1925 TO 1926

Note.—Commodities arranged in order of importance of export value, 1926.

Geographical Distribution of Canada's Trade.—It will be observed on reference to the table below that in 1926 Europe and North America took 88.5 per cent of the Dominion's exports as against 90.7 per cent in 1925 and 89.6 per cent in 1924. The proportion shipped to Europe in 1926 was 49.3 per cent compared with 47.9 per cent in 1925 and 44.8 per cent in 1924; while the proportion to North America in 1926 was 39.2 per cent compared with 42.8 per cent in 1925 and 44.8 per cent in 1924. From 1924 to 1926 the proportion of Canada's exports to the United Kingdom increased from 34.5 per cent to 38.6 per cent whereas the proportion to the United States decreased from 41.2 per cent to 36.1 per cent. The same two continents in 1926 furnished Canada with 93.6 per cent of her imports as against 93.3 per cent in 1925 and 94.2 per cent in 1924. The proportion received from Europe in 1926 was 24.1 per cent compared with 25.4 per cent in 1925 and 22.6 per cent in 1924 while the proportion received from North America in 1926 was 69.5 per cent compared with 37.9 per cent in 1925 and 71.5 per cent

in 1924. From 1924 to 1926 the proportion of the Dominion's imports from the United Kingdom increased from 17·2 per cent to 17·6 per cent, while the proportion from the United States decreased from 67·3 per cent to 65·7 per cent. The imports from every continent in 1926 show an increase over 1924 and also over 1925, except in the case of South America and Africa, while Canada sold more goods to every continent in 1926 than in 1925 or 1924 except in the case of Oceania. In 1926 the Dominion sold goods to Asia and Oceania valued at \$109,800,000 compared with \$67,200,000 in 1924, the increase to Asia amounting to \$37,700,000 and to Oceania to \$4,900,000. The imports from Asia and Oceania also show substantial increases.

During 1926 many changes have taken place in the principal markets whence Canada received her supplies as well as in the chief markets to which she shipped her products. The table which follows giving the "Trade of Canada with Leading Countries, 1926" shows that the United States and the United Kingdom furnished the Dominion with 83·3 per cent of its imports as compared with 83·0 per cent in the previous year. Since 1882 the United States has occupied first place in the Dominion's import trade, the United Kingdom being in second place. With regard to the imports from other chief markets France occupied third position as in 1925, Cuba advanced from fifth place to fourth place, Germany from eighth to fifth, Japan from seventh to sixth, Belgium from thirteenth to ninth, Netherlands from twelfth to tenth, San Domingo from eighteenth to eleventh, Peru from fourteenth to twelfth and the Straits Settlements from twenty-eighth to thirteenth, while British India fell from fourth place to seventh place, British Guiana from eighth to fourteenth and Barbados from tenth to fifteenth.

The rank of the Dominion's leading customers, in 1926 shows as great a change as the rank of the chief suppliers of goods to Canada. The United Kingdom and the United States in 1926 took 74·6 per cent of the Dominion's exports as compared with 76·1 per cent in 1925. The United Kingdom again moved up to first place in Canada's export trade, the United States being a very close second. Of the other leading markets for Canadian goods Japan occupied third place, moving up from fourth and Germany moving down to fourth position, China from 1925 to 1926 rose from fifteenth position to fifth position, Netherlands from ninth to sixth, Australia from tenth to ninth, France from thirteenth to tenth, and Argentina is in twelfth position as in 1925, while Belgium fell from fifth position to seventh position, New Zealand from sixth to eighth, Italy from seventh to eleventh and Newfoundland from eighth to thirteenth.

TRADE OF CANADA WITH TWENTY-FIVE LEADING COUNTRIES, 1926

(Countries arranged in order of importance of Trade)

NOTE.—The figures in parentheses opposite each country indicate percentage of total imports or exports in 1925, while the sign (+) indicates that the imports or exports in 1926 were greater than in 1925.

Canada's Principal Imports.—The eighty (80) chief imports listed in the following table giving "Leading Commodities Imported into Canada, 1926" represent 85·7 per cent of the total imports into Canada. Of these seventy (70) show increases and ten (10) show decreases. The decreases occur in the imports of coal, sugar, woollen goods, cotton goods, settlers' effects, raw wool, dyeing and tanning materials, molasses, clocks and watches, and fish. While some of these commodities show decreases in values the quantities imported show increases,—notably coal, molasses and sugar, the quantities of coal increasing from 15,671,635 tons to 16,651,614 tons, molasses from 5,063,114 gallons to 6,058,389 gallons and sugar from 882,329,494 pounds to 1,174,443,304 pounds. The importer, therefore, obtained these products in the markets of the world at a lower price per unit than in the preceding year. The increases in the seventy (70) commodities were not wholly due to higher prices, but as well to increased quantities imported, the only notable exception being in the case of raw rubber, the average import value of which in 1925 was 28·5 cents per pound and in 1926, 68·3 cents per pound. In the case of other commodities that show increases in values the average import value in 1926 was on the whole on a par with that for 1925, with the possible exception of hides and skins, woollens, jute cloth and certain classes of foodstuffs. Fifteen commodities imported account for about 46 per cent of Canada's imports. These commodities in order of importance were:—coal, 6 per cent of the total imports, sugar, 3·5 per cent; woollen goods, 3·5 per cent; machinery, 3·4 per cent; raw rubber, 3·4 per cent; cotton goods, 3·3 per cent; crude petroleum, 3·2 per cent; raw cotton, 3·1 per cent; fruits, 3·0 per cent; alcoholic beverages, 2·7 per cent; automobile parts, 2·5 per cent; iron and steel plates and sheets, 2·4 per cent; silk goods, 2·3 per cent; electric apparatus, 1·7 per cent; and automobiles, 1·7 per cent.

Canada's Principal Exports.—The fifty principal exports listed in the table below giving "Leading Canadian Commodities Exported, 1926" make up 91.8 per cent of the Dominion's exports. Of these exports thirty-nine show increases and eleven decreases. The commodities to show decreases were: wheat flour, raw gold, pulpwood, settlers' effects, unmanufactured leather, raw hides and skins, apples, rye, condensed milk, coal, and bran, shorts and middlings. In every instance where the values in 1926 were less than in 1925, the quantities exported show a corresponding decrease, except in the case of coal. Those commodities showing an increase in value, 1925 to 1926, show a corresponding increase in the quantities, except in the case of silver ore, shingles, and butter. There were no abnormal changes in the average export values from 1925 to 1926 except for potatoes, the export value of which increased from about 74 cents per bushel to about \$1.32 per bushel. Ten commodities exported in 1926 accounted for over 62 per cent of the increase in the Dominion's exports. These commodities arranged in order of importance were: wheat, 27.7 per cent of the total exports; printing paper, 7.8 per cent; wheat flour, 5.3 per cent; planks and boards, 5.0 per cent; wood pulp, 3.8 per cent; meats, 2.8 per cent; fish, 2.7 per cent; automobiles, 2.7 per cent; cheese, 2.5 per cent; and raw gold, 1.9 per cent.

DOMINION BUREAU OF STATISTICS

FIFTY LEADING CANADIAN COMMODITIES EXPORTED, 1926

(Commodities arranged in order of importance)

NOTE.—The figures in parentheses opposite each commodity indicate percentage of total exports, 1925, while the sign (+) indicates that the exports in 1926 were greater than in 1925.

Canada's Trade via the United States.—In recent years imports into Canada from Overseas countries via the United States have steadily declined. There was a slight increase, however, in 1926, compared with 1925, which occurred in the imports from the British Empire. The statistics in the following table show that the imports from Overseas countries via the United States in 1925 and 1926, were: United Kingdom, 1925, \$554,532, 1926, \$1,853,066; Other British Empire, 1925, \$3,779,361, 1926, \$6,260,189; foreign countries, 1925, \$7,281,781, 1926, \$6,106,030; and from all Overseas countries, 1925, \$11,615,674, 1926, \$14,219,285. The proportions were: United Kingdom, 1925, 0·4 per cent, 1926, 1·1 per cent; Other British Empire, 1925, 8·6 per cent, 1926, 14·2 per cent; foreign countries, 1925, 7·9 per cent, 1926, 5·5 per cent; and from all Overseas countries, 1925, 4·2 per cent, 1926, 4·5 per cent.

IMPORTS INTO CANADA VIA THE UNITED STATES

| Imports from | Years ended March 31 | | | |

| Per cent of Total Imports from Foreign Countries..... | 6·6 | 8·3 | 7·9 | 5·5 |
| Total Imports via United States..... | 12,858,773 | 13,890,483 | 11,615,674 | 14,219,285 |
| Per cent of Total Imports from Overseas Countries..... | 4·9 | 4·7 | 4·2 | 4·5 |

The exports from Canada via the United States represent a very large proportion of the total exports to Overseas countries. In 1926 such exports show a considerable increase over the year 1925, due largely to increased exports of wheat via the United States. The statistics in the table below show that Canada's exports to Overseas countries via the United States, in 1925 and 1926, were: United Kingdom, 1925, \$173,556,264, 1926, \$237,327,986; Other British Empire, 1925, \$18,350,573, 1926, \$22,157,401; foreign countries, 1925, \$65,452,730, 1926, \$70,466,599; and to all Overseas countries, 1925, \$257,359,567, 1926, \$329,951,986. The proportions were: United Kingdom, 1925, 43.7 per cent, 1926, 46.6 per cent; Other British Empire, 1925, 23.1 per cent, 1926, 24.3 per cent; foreign countries, 1925, 36.9 per cent, 1926, 29.1 per cent; and to all Overseas countries, 1925, 39.3 per cent, 1926, 39.2 per cent. Statistics show that exports via the United States are gradually increasing, especially to the United Kingdom and foreign countries, while those to other portions of the Empire show little or no expansion.

EXPORTS FROM CANADA VIA THE UNITED STATES

| Exports to | Years ended March 31 | | | |
|--|----------------------|-------------|-------------|-------------|
| | 1923 | 1924 | 1925 | 1926 |
| | \$ | \$ | \$ | \$ |
| United Kingdom via United States..... | 178,966,431 | 152,270,836 | 173,556,264 | 237,327,986 |
| Per cent of Total Exports to United Kingdom..... | 47.1 | 42.1 | 43.7 | 46.6 |
| Other British Empire via United States..... | 13,983,246 | 20,815,847 | 18,350,573 | 22,157,401 |
| Per cent of Total Exports to Other British Empire..... | 22.9 | 26.9 | 23.1 | 21.3 |
| Foreign Countries via United States..... | 39,369,092 | 50,585,707 | 65,452,730 | 70,466,599 |
| Per cent of Total Exports to Foreign Countries..... | 31.8 | 28.3 | 36.9 | 29.1 |
| Total Exports via United States..... | 232,318,769 | 223,678,390 | 257,359,567 | 329,951,986 |
| Per cent of Total Exports to Overseas Countries..... | 41.1 | 36.2 | 39.3 | 39.2 |

It will be noted from the statistics in the following table giving "Principal Commodities Exported from Canada to Overseas Countries via the United States and Canadian Sea Ports, fiscal year 1926" that 39.2 per cent of the Dominion's exports to Overseas countries is shipped via the United States and 60.8 per cent via Canadian sea or river ports. The list of commodities given represents over 90 per cent of Canada's exports to Overseas countries, the proportion shipped via the United States being 41.3 per cent, and via Canadian sea or river ports 58.7 per cent. The exports from Canada to Overseas countries via the United States in 1926, amounting to \$329,951,986, were the largest on record. The largest exports prior to 1926 were in 1918, which totalled \$293,038,839. Canada's principal exports to Overseas countries via the United States in 1926 were wheat, wheat flour, automobiles, barley, bacon and hams, farm implements, rubber tire casings, oats, automobile parts, sugar, machinery and condensed milk.

Relation Between Trade in Raw and Manufactured Products.—During the first quarter of the present century Canada has passed through the same stages of development in her economic life as did the United States during the last quarter of the nineteenth century. In 1870, 67·7 per cent of the total exports from the United States consisted of raw materials, while in 1900, the percentage was only 40·2, but of fully manufactured products, the percentage of the total exports in 1870 was 28·6 and in 1900 48·6. From 1870 to 1900 the imports of raw materials into the United States increased from 25·2 per cent of her total imports to 44·0 per cent, while the imports of fully manufactured products decreased from 62·1 per cent to 40·2 per cent. The statistics for the year 1925 show a further increase in the percentage of fully manufactured products exported, as also in the percentage of raw materials imported for manufacturing purposes, but a further decrease in the percentage of fully manufactured products imported.

The most important factor to be considered in the economic survey of any country is the potential wealth represented by its natural resources. In this respect Canada has hardly a superior among the nations of the world. Not only is Canada very rich in natural resources but her potential wealth is so distributed among the farm, the forest, the mine and the fisheries that its development is greatly facilitated, and the process of realization goes hand in hand with the building up of high-grade manufacturing industries. While every branch of industry in the Dominion shows a steady increase, without doubt the development of manufacturing affords the most striking example of the advancement of the Dominion. While it is true that Canada continues to export large quantities of raw materials, it is a notable fact that the increase in the quantities of raw materials used in the manufacturing industries in recent years has been much greater than the increase in the exports of these products. Many classes of goods which were formerly imported into Canada in large volume are now being manufactured in the Dominion in sufficient quantity not only to meet the requirements of the home market but also for export.

No statistics are as yet available to show what proportion of Canada's imports and exports for 1926 consisted of raw materials, partly manufactured or fully manufactured goods. Statistics for the years 1900 to 1925 indicate, however, that Canada is importing a smaller proportion of manufactured commodities today than a few years ago, while the proportion of imports of raw materials for use in Canadian manufacturing industries show a constant increase. The same is true of the United States, and to a greater extent.

The table below shows that in 1914 the proportion of the imports of raw materials to total imports for Canada and the United States was 21·8 per cent and 46·5 per cent, respectively, while in 1925 it was 27·7 per cent and 49·2 per cent respectively. In 1914 the proportion of imports of fully manufactured goods was, Canada 68·9 per cent and the United States 36·6 per cent while in 1925 the proportion for Canada was 61·5 per cent and the United States 32·5 per cent. With regard to exports, the table shows that in 1914 the proportion of raw materials exported to total exports was, Canada 63·2 per cent and the United States 39·9 per cent, while in 1925 the proportion was, Canada 44·7 per cent and the United States 39·3 per cent. During 1914 the proportion of fully manufactured goods exported to total exports was, Canada 26·7 per cent and the United States 44·0 per cent, but in 1925 the proportion for Canada was 40·2 per cent and the United States 47·2 per cent.

STATEMENT SHOWING PROPORTION OF RAW MATERIALS AND PARTLY AND FULLY MANUFACTURED GOODS IMPORTED INTO AND EXPORTED FROM CANADA AND THE UNITED STATES, 1900 to 1925

Canada's Position in International Trade.—Canada occupies a much better position in international trade today than in 1913. Even during the past year she has slightly improved her position. This is especially true in respect to her visible trade balance. In 1913 Canada occupied eighth position among the leading importing countries of the world and in 1925 she still occupied the same position, being exceeded by the United Kingdom, the United States, Germany, France, Italy, Japan and the Netherlands. With respect to exports, Canada occupied tenth place in 1913, but in 1925 she had advanced to sixth place, being surpassed by the United States, United Kingdom, France, Germany and British India. Though Canada occupied eighth place in imports and sixth place in exports in 1925, she held sixth place in aggregate trade, being exceeded by the United Kingdom, the United States, Germany, France and British India. In percentage of increase of import trade from 1913 to 1925, Canada took fourteenth place among the great trading nations, and had first place in percentage increase of exports. With reference to imports *per capita*, Canada occupied fifth place in 1913 and eighth place in 1925, while in exports she occupied seventh place in 1913 and second place in 1925, being exceeded only by the Dominion of New Zealand. In respect to aggregate trade *per capita* Canada was in sixth place in 1913 and in 1925, being now surpassed by New Zealand, Australia, Denmark, Netherlands and Switzerland. With reference to visible trade balance, Canada in 1913 occupied seventeenth position among the leading commercial nations of the world and in 1925 she was in third position, with a favourable balance amounting to \$392,800,000. In 1913, as also in 1925, the United States stood in first place and British India in second place. On a *per capita* basis, however, Canada in 1925 occupied first place by a wide margin in respect to her favourable trade balance, it amounting to \$41.95 per head. From 1913 to 1925 the improvement in Canada's visible trade balance amounted to \$615,700,000 or \$71.56 per head. Canada, therefore, has a trade record that probably has not been equalled by any other country in the world.

COMPARISON OF THE TRADE OF THE PRINCIPAL COUNTRIES OF THE WORLD
(Calendar Years, 1913 and 1925)

NOTE.—Countries arranged in order of importance of Trade in 1925.

NOTE.—For the twelve months ended March, 1926, the visible trade balance of Canada was larger than that for the United States, the favourable balance for Canada amounting to \$401,134,000, and that for the United States to \$352,364,000. The trade of Canada and the United States for the twelve months ended March 31, 1926, was:—

| | Exports— | Canada | United States |
|--------------------------|-----------------------|------------------|------------------|
| | Domestic produce..... | \$ 1,315,193,000 | \$ 4,667,168,000 |
| | Foreign produce..... | \$ 13,344,000 | \$ 97,491,000 |
| | Total Exports..... | \$ 1,328,537,000 | \$ 4,761,657,000 |

| Favourable Trade Balance | | \$ 401,134,000 | \$ 352,364,000 |

Canada's Principal Imports and Exports, 1914 and 1926.—The two tables below showing (A) Quantity and Value of Principal Commodities Imported into Canada, 1914 and 1926, and (B) Quantity and Value of Principal Canadian Commodities Exported from Canada, 1914 and 1926; with percentage relation of quantity and value of 1926 to 1914, demonstrate that the physical volume of the trade in 1926 is much greater than in the year immediately preceding the war, viz.: 1914. In table B (Principal Exports) only three items listed out of thirty-seven, for which quantity statistics are available, show decreases, viz.: coal, flaxseed, and silver ore and bullion, while other items show, in most instances, a marked increase in the physical volume exported. Table A (Principal Imports) shows a larger number of items in which decreases have occurred, yet these are greatly outnumbered by the items of increase, and in the aggregate the net physical increase is substantial.

A—QUANTITY AND VALUE OF PRINCIPAL COMMODITIES IMPORTED INTO CANADA WITH PERCENTAGE RELATION, 1926 to 1914

NOTE.—Commodities arranged according to value, 1926.
