## SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- . . figures not available.
- . . . figures not appropriate or not applicable.
- nil or zero.
- - amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

## SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- . . nombres indisponibles.
- . . . n'ayant pas lieu de figurer.
- néant ou zéro.
- - nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.
- x confidentiels en vertu des dispositions de la Loi sur la Statistique relatives au secret.

In the first nine months of 1977, non-resident travellers entering Canada numbered 27.7 million, down 2.2%, while Canadian residents re-entering from international trips totalled 31.8 million, up 7.6% over the same period in 1976. Immigrants, military personnel, diplomats and crews who are excluded from the above breakdown, accounted for 2.9 million, an increase of 1.6%.

Preliminary estimates for the third quarter show that Canada earned \$987 million from international travel, up slightly (0.6%) over last year. Receipts from the United States increased by 11.8% to \$768 million while receipts from all other countries totalled \$219 million, down by 25.5% from the high level in 1976 due to the Montréal Olympics.

Spending by Canadians abroad in the third quarter was estimated at \$1,108 million up 22.3% over last year. Payments to the United States increased by 23.4% to \$665 million while payments to all other countries totalled \$443 million, 20.7% over 1976.

These spending patterns resulted in a third quarter travel deficit of \$121 million, the first one since 1959. The deficit is the result of the continuing increase in the number of Canadians vacationing outside the country, the decreasing number of visitors travelling to Canada and the immediate price effects of the deteriorating exchange rate of the Canadian dollar. The longer run impact of the devaluation of the Canadian dollar should be to improve the travel account balance.

In the first three quarters of 1977, the recorded deficit on travel account was \$1,317 million, as expenditures reached \$3,034 million and receipts increased only moderately to \$1,717 million.

#### Non-Resident Travellers Entering Canada

In the third quarter of 1977, 14.1 million United States residents entered Canada, down 0.8% over 1976. Total United States traffic decreased in August and September but increased in July by 0.9%. Visitors from countries other than the United States declined by 16.9% to 667,200 in the third quarter with decreases occurring in all three months: 26.4% in July, 10.9% in August and 5.8% in September. The large decrease documented in July of this year was due to the 1976 Montréal Olympics which were also partly responsible for the general decline in visitors from all other countries in the shoulder months.

For the first three quarters of 1977, visitors from the United States numbered 26.5 million, down 1.8%, while residents from countries other than the United States decreased by 11.2% to 1.2 million. So far, the devaluation of the Canadian dollar, which has taken place throughout 1977, appears to have had very little effect on the international travel flows into Canada.

During the third quarter of 1977, same-day automobile traffic by United States residents increased marginally (0.4%) while both long term and total traffic declined. Only in July was the increase in same-day automobile travel large enough to offset the decline in the long term traffic and produce an increase in the total figure. Plane travel by United States residents, which accounted for less than 5% of the total traffic in the third quarter, decreased in July and August but increased in September, resulting in a 1.2% decline for the quarter. Total bus travel which also represents a very small part of the total, decreased by 0.8% to 588,500 in the quarter. Same-day bus travel by

Au cours des neuf premiers mois de 1977, il a eu 27.7 millions de voyageurs non résidents qui sont entrés au Canada, soit une diminution de 2.2% par rapport à l'an dernier. Le nombre de résidents canadiens revenant au pays après un séjour à l'étranger a augmenté de 7.6% pour s'établir à 31.8 millions. Les immigrants, le personnel militaire, les diplomates et les équipages, exclus des chiffres ci-dessus, ont atteint 2.9 millions, soit 1.6% de plus que pour la même période en 1976.

Les estimations provisoires pour le troisième trimestre de 1977 révèlent que les voyages internationaux ont rapporté \$987 millions au Canada, ce qui représente une légère augmentation de 0.6% comparativement à 1976. Les recettes provenant des visiteurs américains ont augmenté de 11.8% pour atteindre \$768 millions alors que celles en provenance des visiteurs d'autres pays ont atteint \$219 millions, soit une diminution de 25.5% en comparaison avec le record achevé en 1976 en raison des Jeux Olympiques.

On estime que les dépenses de résidents canadiens à l'étranger au cours du troisième trimestre ont atteint \$1,108 millions, ce qui représente une augmentation de 22.3% par rapport à l'an dernier. Les paiements faits aux États-Unis se sont accrus de 23.4% pour s'établir à \$665 millions alors que ceux faits aux autres pays ont été de \$443 millions, soit une augmentation de 20.7% comparativement à 1976.

Ces régimes de dépenses ont résulté en un déficit de \$121 millions au troisième trimestre, le premier depuis 1959. Ce déficit a été le fait du nombre toujours croissant de Canadiens prenant des vacances à l'extérieur du pays, du nombre toujours décroissant de visiteurs venant au Canada et des effets instantanés de la détérioration du taux de change du dollar canadien sur les prix. L'impact à long terme de la dévaluation du dollar devrait se solder par une amélioration de la balance au compte des voyages.

Au cours des trois premiers trimestres de 1977, le déficit au compte des voyages s'est établi à \$1,317 millions alors que les dépenses ont atteint \$3,034 millions et les recettes se sont légèrement accrues pour se chiffrer à \$1,717 millions.

#### Voyageurs non résidents entrant au Canada

Au cours du troisième trimestre de 1977, il y a eu 14.1 millions de visiteurs venant des États-Unis qui sont entrés au Canada, soit une diminution de 0.8% par rapport à 1976. Le trafic a diminué en août et septembre mais a augmenté de 0.9% en juillet. Le nombre de visiteurs provenant d'autres pays a baissé de 16.9%, atteignant 667,200, au cours du troisième trimestre alors qu'il y a eu une baisse à chacun des mois: 26.4% en juillet, 10.9% en août et 5.8% en septembre. L'importante diminution de juillet est principalement attribuable aux Jeux Olympiques de Montréal tenus l'an dernier qui sont aussi partiellement responsables pour la baisse générale dans le nombre de visiteurs en provenance de tous les autres pays durant les mois intermédiaires.

Pour la période de janvier à septembre 1977, il y a eu 26.5 millions de visiteurs en provenance des États-Unis, soit une diminution de 1.8%, alors que ceux provenant d'autres pays ont baissé de 11.2% pour atteindre 1.2 million. Jusqu'à présent, il semble que la dévaluation du dollar canadien qui a eu lieu au cours de 1977 n'ait pas eu d'effets bénéfiques sur le nombre de voyageurs internationaux visitant le Canada.

Au cours du troisième trimestre de 1977, le trafic automobile des voyageurs du même jour en provenance des États-Unis ne s'est accru que de 0.4% alors que celui à long terme et le trafic total ont diminué. Toutefois, en juillet, l'augmentation des voyages du même jour par automobile a été assez grande pour contrebalancer la baisse dans le trafic à long terme et produire une hausse dans le chiffre total. Le nombre de résidents américains utilisant l'avion, ce moyen de transport représentait moins de 5% du trafic global au troisième trimestre, a diminué en juillet et août mais a augmenté en septembre, produisant une baisse que de 1.2% pour le trimestre. Les voyages par autobus, qui représente aussi une très petite partie de

United States residents decreased in each month of the third quarter producing a quarterly decline of 7.2%. However, one or more nights' bus travel increased in July by 1.4% and 15.2% in September which resulted in a rise of 5.7% for the total monthly figure. United States residents entering Canada by other methods (foot, boat, train, etc.) numbered 963,000 in the quarter, up 1.8% over 1976.

Non-resident travellers from countries other than the United States numbered 667,200 in the third quarter, down 16.9% over 1976. Decreases occurred in each of the major tourist generating countries during this period. Visitors from France decreased by 27.8%, Italy by 22.3%, the United Kingdom by 17.3%, Japan by 17.8% and Australia by 16.1%. On a monthly basis, the only country to experience an increase was the Netherlands which rose by 20.6% in September to 7,400. On a continental basis, for the third quarter, visitors from Europe decreased by 19.4% to 430,600, from Asia by 13.5% to 107,500 and from Oceania by 14.6% to 27,700.

### Resident Travellers Returning to Canada

During the third quarter of 1977, Canadian residents returning from the United States numbered 13.0 million, up 6.0% over the same period in 1976. Residents returning from all other countries increased by 16.1% to 559,100.

In the July to September period of 1977, total automobile traffic of returning Canadian residents increased by 5.8% to 11.7 million. Same-day automobile traffic grew by 5.2% while Canadian residents who had remained in the United States for one or more nights numbered 4.0 million, up 7.1%. Automobile traffic in all categories increased in each month of the third quarter over the same months in 1976.

Canadian residents returning by plane continued to increase in the third quarter, rising by 12.4% to 465,700. This figure represents less than 5% of the total Canadian traffic returning from the United States in the quarter. The largest increases in both commercial and total plane traffic occurred in July which may reflect the fact that the 1976 Montréal Olympics kept some vacationing Canadians at home during July last year.

Total bus travel by Canadian residents increased in the third quarter by 2.8% to 396,100. Same-day traffic increased by 0.2% while Canadians remaining in the United States for one or more nights numbered 177,800, up 6.2% over the third quarter of 1976.

Canadian residents re-entering after trips to countries other than the United States increased by 16.1% in the third quarter to 559,100. For July, August and September the increase in numbers of Canadians travelling abroad were 14.5%, 19.0% and 14.1% respectively. So far this year, January to September, 4.3% more Canadians have travelled abroad than in the entire year of 1975.

### A Longer Run Perspective of the Growing Deficit

With a travel deficit of \$1.2 billion in 1976, and a deficit in the third quarter for the first time since 1959, considerable concern has been expressed regarding the travel account. The statistics over the past years indicate some of the trouble spots.

For example, the fast rising deficit is largely attributable to the United States account. In 1975, a deficit appeared in the travel account with the United States which traditionally had recorded a

l'ensemble, ont diminué de 0.8%, s'établissant à 588,500, pour le trimestre. Le nombre de résidents américains entrant et sortant le même jour par autobus a baissé au cours de chaque mois du troisième trimestre, réalisant une baisse de 7.2% pour le quart. Cependant, les voyageurs utilisant l'autobus et séjournant une nuit ou plus ont augmenté de 1.4% en juillet et de 15.2% en septembre, occasionnant une hausse globale de 5.7% pour ce dernier mois. Les Américains venant au Canada par d'autres moyens (à pied, par bateau, par train, etc...) ont totalisé 963,000 durant le quart, soit une augmentation de 1.8% par rapport à 1976.

Le nombre de voyageurs non résidents provenant de pays autre que les États-Unis a atteint 667,200 dans le troisième trimestre de 1977, soit une diminution de 16.9% comparativement à 1976. Au cours de cette période, on a enregistré des baisses pour chacun des principaux pays générateurs de touristes. Le nombre de visiteurs en provenance de la France a diminué de 27.8%, celui de l'Italie de 22.3%, celui du Royaume-Uni de 17.3%, celui du Japon de 17.8% et celui de l'Australie de 16.1%. Sur une base mensuelle, le seul pays à connaître une augmentation a été les Pays-Bas alors que le nombre de visiteurs néerlandais a augmenté de 20.6% en septembre pour atteindre 7,400. Sur une base continentale, au cours de la période de juillet à septembre, le nombre de visiteurs provenant de l'Europe a baissé de 19.4% pour s'établir à 430,600, celui de l'Asie de 13.5% à 107,500 et celui d'Océanie de 14.6% à 27,700.

### Voyageurs résidents revenant au Canada

Au cours du troisième trimestre de 1977, le nombre de résidents canadiens revenant des États-Unis s'est élevé à 13.0 millions, ce qui représente une augmentation de 6.0% par rapport à 1976, alors que celui de ceux revenant de pays autres que les États-Unis s'est accru de 16.1% pour atteindre 559,100.

Durant la période de juillet à septembre 1977, le trafic automobile a augmenté de 5.8% pour s'établir à 11.7 millions. Le trafic automobile pour les voyageurs de même jour a progressé de 5.2% alors que le nombre de résidents canadiens ayant séjourné une nuit ou plus s'est élevé à 4.0 millions, soit une augmentation de 7.1%. Le trafic automobile a connu des hausses pour chaque catégorie à chacun des mois du troisième quart comparativement à la même période de 1976.

Le nombre de Canadiens revenant par avion a continué à augmenter au cours du troisième trimestre, s'élevant de 12.4% pour atteindre 465,700. Ce chiffre représente moins de 5% du trafic global pour le trimestre. Les augmentations les plus significatives dans le trafic commercial et total ont été enregistrées en juillet, ce qui pourrait peut-être signifier que les Jeux Olympiques de 1976 à Montréal ont gardé certains voyageurs canadiens au pays en juillet l'an dernier.

Le nombre d'usagers de l'autobus a augmenté de 2.8% lors du troisième trimestre pour atteindre 396,100. Le trafic du même jour s'est accru de 0.2% alors que les Canadiens revenant des États-Unis après un séjour d'une nuit ou plus ont totalisé 177,800, soit 6.2% de plus que la même période de 1976.

Au cours du troisième trimestre, il y a eu 559,100 résidents canadiens qui sont revenus de voyages de pays autres que les États-Unis, soit une augmentation de 16.1%. Sur une base mensuelle, les augmentations ont été de 14.5% pour juillet, de 19.0% pour août et de 14.1% pour septembre. Pour la période de janvier à septembre 1977, il y a eu 4.3% de plus de Canadiens qui ont voyagé à l'étranger comparativement à toute l'année 1975.

### Une perspective à long terme de notre déficit toujours croissant

Avec un déficit de \$1.2 milliard en 1976 et un premier déficit dans le troisième quart depuis 1959, on a exprimé beaucoup d'inquiétude quant au compte des voyages. La statistique des dernières années identifie quelques-uns des problèmes.

Par exemple, la croissance rapide du déficit est largement attribuable au compte avec les États-Unis. En 1975, le compte des voyages avec les États-Unis, qui accusait habituellement un surplus, est devenu un déficit.

surplus. From 1975 to date this deficit climbed drastically (35% of the total balance in 1975 to 51% the next year). The deficit balance with other countries which has generally existed, although rising strongly, 22% between 1975 and 1976, was outpaced by the deterioration in the United States account.

During the January-September periods in the last three years, inward flows from countries other than the United States, although decreasing in 1977, reflecting the Olympics in 1976, recorded an increase of 8.5% between 1975 and 1977. Over the same period, Canadians increased their travel to these countries by 14% after a rise of 11% in 1976, indicating no basic change in the underlying upward trend in travel between Canada and countries other than the United States.

Traveller flows between Canada and the United States, however, have changed radically in recent years. The decreasing inward flow of United States residents and the increasing outward flow of Canadians south has had a strong influence on the travel balance. The number of Canadians travelling to the United States finally surpassed the American travellers to Canada in 1976.

The use of aggregate numbers in assessing changing travel patterns between Canada and the United States can be misleading. Total traveller counts reported by Statistics Canada include the very large group of same-day automobile travellers, who contribute little to spending patterns. The more important groups for studies of expenditures are the longer staying groups and higher spenders, including the one or more nights automobile and bus travellers, and plane, boat and rail traffic.

Which of these groups has been most important in recent developments? The nine month period being studied shows a slight decrease on United States residents in the non-auto categories between 1976 and 1977. Air travel increased by 6.5% but was offset by decreases in bus, rail and boat traffic. Rail and boat travel account for a small proportion of the total picture and can be left aside in considering the overall balance. Travel by bus has decreased for both groups, 6% for American travellers and 5% for Canadians, and both payments and receipts have decreased with little net effect on the balance.

The change therefore is mainly attributable to air and auto traffic. Air traffic for the nine month period increased by 6.5% for United States travellers but 16% for Canadians returning from the United States. The industry therefore has gained in both countries from air travel but the Canadian industry has gained relatively less both as a result of the lower rate of increase of visitors and the potential income loss from the rapidly growing number of Canadians who have travelled abroad rather than domestically. A greater number of American air travellers visited Canada in 1973 compared to Canadians travelling south by air. This relationship reversed sharply in recent months with the number of Canadians now greater than United States air travellers by over 60%.

The biggest single influence on the balance on the travel account however has been automobile traffic. Again using the nine month period ending in September, the automobile accounted for 74% of all overnight trips by American residents to Canada and 73% for Canadians visiting the United States. In 1973, 9.7 million United States residents entered Canada over the nine month period compared with 5.7 million Canadians driving in the opposite direction. By 1977, the figure for United States residents had dropped to 7.8 million while Canadian motorists numbered 7.3 million. The effect of these trends on the travel account balance has been dramatic, and it appears likely that until some reversal in these trends is recorded the travel account deficit balance will remain large.

Depuis 1975, ce déficit a grimpé dramatiquement (de 35% de la balance totale en 1975 à 51% l'année suivante). Le solde déficitaire avec les autres pays, qui a généralement existé, a été dépassé par la détérioration dans le compte avec les États-Unis même s'il s'est accru fortement de 22% de 1975 à 1976.

Durant les périodes de janvier à septembre des trois dernières années, les arrivées de pays autres que les États-Unis, même si elles ont diminué en 1977 suite aux Jeux Olympiques de 1976, ont augmenté de 8.5% entre 1975 et 1977. Au cours de la même période, le nombre de Canadiens visitant ces pays ont augmenté de 14% après une hausse de 11% en 1976, indiquant aucun changement de base dans la tendance à la hausse dans les voyages entre le Canada et les pays autres que les États-Unis.

Cependant, les flux de voyageurs entre le Canada et les États-Unis ont changé de façon radicale durant les récentes années. Le nombre décroissant de résidents américains venant au Canada et le nombre croissant de Canadiens visitant les États-Unis a eu une forte influence sur le solde au compte des voyages. Le nombre de voyageurs canadiens allant aux États-Unis a finalement supplanté celui des voyageurs américains venant au Canada en 1976.

L'utilisation de chiffres globaux dans l'évaluation des changements des habitudes de voyage entre le Canada et les États-Unis peut induire en erreur. Les comptes totaux de voyageurs rapportés par Statistique Canada comprennent l'impressionnant groupe des voyageurs du même jour utilisant l'automobile, groupe qui contribue très peu aux régimes de dépenses. Les groupes les plus importants pour étudier les dépenses sont ceux dont le séjour est plus long et les gros dépensiers, incluant les voyageurs par automobile et par autobus séjournant une nuit ou plus, et le trafic par avion, par bateau et par train.

Lequel de ces groupes a été le plus important dans les récents développements? La période de neuf mois à l'étude démontre une légère baisse des résidents américains dans les catégories autres que l'automobile entre 1976 et 1977. Les voyages par avion ont augmenté de 6.5% mais ont été contrecarrés par des baisses dans les trafics par autobus, par train et par bateau. Les voyages par train et bateau ne représentent qu'une petite proportion de l'ensemble et peuvent être délaissés dans l'analyse du solde global. Les voyages par autobus ont accusé des baisses dans les deux groupes, 6% pour les voyageurs américains et 5% pour les voyageurs canadiens, et les dépenses et recettes ont toutes deux diminué et eu peu d'effet sur le solde.

Donc, le changement est principalement dû aux trafics par air et par automobile. Le trafic aérien, pour la période de neuf mois, a augmenté de 6.5% en ce qui regarde les voyageurs des États-Unis mais a grimpé de 16% pour les Canadiens revenant des États-Unis. Par conséquent, l'industrie aérienne a progressé dans les deux pays mais l'avance de l'industrie canadienne a été relativement moindre en raison du plus bas taux d'augmentation de visiteurs et de la perte possible de revenus à cause de la croissance rapide du nombre de Canadiens qui ont voyagé à l'étranger plutôt qu'au Canada. Un plus grand nombre d'Américains utilisant l'avion a visité le Canada en 1973 en comparaison avec le nombre de Canadiens voyageant aux États-Unis par avion. Ce rapport s'est inversé brusquement dans les derniers mois alors que le nombre de Canadiens utilisant l'avion a maintenant dépassé celui des Américains par plus de 60%.

Toutefois, le trafic automobile est celui qui a exercé la plus grande influence sur le solde au compte des voyages. En utilisant encore une fois la période de neuf mois se terminant en septembre, le trafic automobile représentait 74% de tous les voyages des résidents américains ayant séjourné au moins une nuit et 73% des Canadiens ayant séjourné une nuit ou plus aux États-Unis. En 1973, il y avait eu 9.7 millions de résidents des États-Unis qui étaient entrés au Canada au cours des neuf mois en comparaison avec 5.7 millions de résidents du Canada allant dans la direction opposée. En 1977, les données pour les résidents américains avaient baissé à 7.8 millions alors que les automobilistes canadiens totalisaient 7.3 millions. L'effet de ces tendances sur le solde du compte aux voyages a été dramatique, et il semble que, jusqu'à ce qu'il y ait un revirement de ces tendances, le solde déficitaire du compte aux voyages demeurera élevé.

## METHOD OF COLLECTION

The new programme for the collection and processing of international travel statistics introduced in 1972 and outlined briefly below, has led to a more accurate count of the number of travellers entering and leaving Canada.

The direct involvement of all Customs officers across Canada in the collection of data has enabled the publication of statistics in this report. The close co-operation of officials in the Department of National Revenue, Customs and Excise, Manpower and Immigration and toll authorities across Canada is greatly appreciated.

The data in this publication are gathered from three source documents completed at all points of entry to Canada. All travellers who clear customs are recorded by category (i.e. returning residents, non-residents, etc.) the method of entry and country of residence. The documents listed below are sent directly to Statistics Canada for processing.

**E62 Entry Tally** — To record travellers by land and car ferry at ports of entry on the United States — Canadian border.

This count is normally on a full census basis, however at selected ports sampling techniques linked to total counts at toll points are used. A footnote appears in the port detail tables to identify these points of entry using sampling. The sample is a systematic 25% count by Customs officials of United States and Canadian automobile travellers; samples are weighted monthly by Statistics Canada to total traffic counts available from toll authorities or mechanical counters. All other travellers are counted on a full census basis.

**E63 Private Craft and Passenger Arrivals** — To record travellers entering Canada by private plane and boat. This form is also used to record travellers on commercial freighters, passenger ferries and excursion cruises.

**E64 Referral Card** — To record travellers entering Canada in commercial plane and boat including charter and cruise arrivals.

A 100% count of travellers at airports and seaports is undertaken through the use of this card which serves the needs of a number of other government departments, including Customs clearance. The cards, which are completed by Customs officials, contain information on the category of traveller and country of residence.

The presentation of the statistics has been revised to include monthly statistics to date over a two year period. The section on provincial data has been re-organized to show statistics for each province separately.

Due to the expanded size of the report to accommodate these changes, selected detailed tabulations on non-resident travellers by country have been condensed. If this information is required please contact Mr. Mike Valiquette, Chief, International Travel Section, Statistics Canada, Ottawa K1A 0Z8 (613-995-0847).

### Definition of Terms

**International Traveller** — The term international traveller applies to all persons arriving in Canada who are cleared through Customs and Immigration points of entry. One person may cross into

## MÉTHODE DE COLLECTE

Le nouveau programme de collecte et d'exploitation des statistiques sur les voyages internationaux instauré en 1972 et présenté brièvement ci-dessous permet un dénombrement plus exact des voyageurs qui entrent au Canada et qui en sortent.

La participation directe de tous les douaniers du Canada à la collecte des données a permis la publication des statistiques présentées ici. Nous apprécions grandement l'étroite collaboration des fonctionnaires du ministère du Revenu national, Douanes et accise, des représentants du ministère de la Main-d'oeuvre et de l'Immigration et des responsables des postes de péage dans tout le Canada.

Les renseignements de la présente publication proviennent de trois documents remplis à tous les points d'entrée au Canada. Tous les voyageurs qui passent à la douane sont inscrits par catégorie (c.-à-d. les résidents de retour, les non-résidents, etc.), selon le moyen de transport et le pays de résidence. Les documents décrits ci-après sont envoyés directement à Statistique Canada, où ils sont dépouillés.

**E62 Feuille de pointage des arrivées**, qui sert au dénombrement des voyageurs par terre et par traversier pour automobiles aux postes frontières États-Unis — Canada.

Il s'agit habituellement d'un dénombrement intégral; toutefois, à certains endroits, on utilise des techniques d'échantillonnage que l'on combine à un dénombrement total effectué aux postes de péage. Un renvoi est donné au bas des tableaux en cause afin d'identifier les points d'entrée qui utilisent l'échantillonnage. L'échantillon représente un dénombrement systématique de 25% effectué par les douaniers pour les personnes des États-Unis et du Canada qui voyagent en automobile. Statistique Canada pondère chaque mois les échantillons avec le nombre total de voyageurs fourni par les responsables des postes de péage ou établi par compteur automatique. Tous les autres voyageurs font l'objet d'un dénombrement intégral.

**E63 Arrivées d'aéronefs et de navires particuliers et de leurs passagers**, qui sert au dénombrement des voyageurs arrivant en avion ou en bateau particulier. Cette formule sert aussi au dénombrement des personnes voyageant à bord de cargos, de traversiers et des navires de croisière.

**E64 Referral Card**, qui sert au dénombrement de voyageurs arrivant au Canada par avion et bateau commercial, y compris par vol nolisé et de croisière.

On procède à un dénombrement intégral des voyageurs aux aéroports et aux ports de mer grâce à cette carte qui répond aux besoins d'un certain nombre d'autres ministères, notamment en ce qui concerne le dédouanement. Les cartes, que remplissent les douaniers, renferment des renseignements sur la catégorie de voyageur et le pays de résidence.

On a modifié la présentation des statistiques de manière à y inclure les données mensuelles depuis deux ans. La partie concernant les données provinciales a été restructurée et donne maintenant les statistiques pour chacune des provinces séparément.

En raison de l'expansion de la publication qu'ont entraîné ces modifications, il a fallu condenser certains tableaux détaillés indiquant les voyageurs non résidents selon le pays. On peut obtenir ces renseignements en s'adressant à M. Mike Valiquette, Chef de la Section des voyages internationaux, Statistique Canada, Ottawa K1A 0Z8 (613-995-0847).

### Définitions des termes

**Voyageur international** — Les voyageurs internationaux sont toutes les personnes qui arrivent au Canada par un point d'entrée des Douanes ou de l'Immigration. Au cours d'un même voyage, il se peut qu'une personne

Canada several times on one trip away from home. The method of collection counts each crossing or visit made. The term international traveller is divided into three groups; non-resident traveller, resident traveller and other traveller. If all "same day" travellers are excluded from non-resident and resident categories, the numbers remaining approximate the international definition of "tourist".

**Non-resident traveller** — An international traveller resident of a country other than Canada who passes through Canada Customs and is entering Canada for the following reasons:

- Business, commuting to work, seasonal or temporary employment.
- Pleasure, holiday, vacation, health and shopping.
- Visiting friends or relatives.
- Attending a convention, conference or seminar.
- Study, summer resident.
- Travelling in transit who do clear Canada Customs.

**Resident Traveller** — An international traveller resident of Canada who has travelled outside of Canada for the same reasons as given above and who is returning to Canada through Canada Customs.

**Other Travellers** — A group consisting of the following types of international travellers:

- Immigrants and former residents returning to establish residence.
- Military personnel and dependents.
- Diplomats and dependents.
- Persons engaged in the operation of a transport.

**Land** — Automobile, bus and rail traffic as well as "other methods" entering by land and ferry.

**Air** — Commercial and charter services and private plane.

**Marine** — Commercial and cruise ship, passenger ferries and private or rented boat, and passengers on freighters.

**Other Methods** — Pedestrians, bicycle, motorcycle, etc.

**Direct to Canada** — Non-residents entering from countries other than the U.S.A. or Canadian residents returning from countries other than the U.S.A. directly to Canada. It should be noted that statistics are not provided on this basis for travellers leaving Canada.

**Via the United States** — Non-residents entering from countries other than the U.S.A. or Canadian residents returning to Canada from countries other than the U.S.A. through or by way of the United States. The length of stay in the U.S. has no bearing on the classification; a person could be in transit through the U.S. or could have stayed several days. Examples: a non-resident entering direct to Canada who visits the United States during his trip would be counted twice; direct on his first entry and via the U.S. on his second entry. A returning resident vacationing in The Southern United States who travels to the Caribbean would be counted as returning via the United States.

**Countries Other than the United States** — This designation includes all countries other than Continental United States, Alaska and Hawaii.

entre au Canada plusieurs fois. La méthode de collecte prend en compte chaque passage à la frontière ou chaque visite effectuée. Les voyageurs internationaux se divisent en trois groupes: voyageurs non résidents, voyageurs résidents et les autres voyageurs. Si tous les voyageurs "pour la journée" sont exclus des catégories voyageurs non résidents et voyageurs résidents les autres répondent à peu près à la définition internationale de "touriste".

**Voyageur non résident** — Voyageur international, résident d'un pays autre que le Canada, qui passe par les Douanes canadiennes et qui entre au Canada pour une des raisons suivantes:

- Affaires, migration quotidienne, emploi saisonnier ou temporaire.
- Voyage d'agrément, congé, vacances, voyage pour motifs de santé ou éplettes.
- Visite à des amis ou des parents.
- Représentation à un congrès, une conférence ou un colloque.
- Études, résidence d'été.
- Voyage en transit en passant par les Douanes canadiennes.

**Voyageur résident** — Voyageur international, résident du Canada, qui a voyagé à l'extérieur du Canada pour les mêmes raisons qui ci-dessus et qui revient au pays en passant par les Douanes canadiennes.

**Autres voyageurs** — Groupe constitué des genres suivants de voyageurs internationaux:

- Les immigrants et les anciens résidents revenant fixer leur demeure.
- Les militaires et les personnes à leur charge.
- Les diplomates et les personnes à leur charge.
- Les personnes travaillant dans les transports.

**Par terre** — En automobile, en autocar, par chemin de fer de même que par les "autres moyens de transport" (arrivée par terre et par traversier).

**Par air** — Services commerciaux, vols nolisés et avions particuliers.

**Par eau** — Bateaux commerciaux et de croisière, traversiers pour voyageurs, bateaux particuliers ou loués et cargos.

**Autres moyens** — À pied, à bicyclette, en motocyclette, etc.

**Directement au Canada** — Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant de pays autres que les États-Unis et arrivant directement au Canada. À remarquer qu'il n'y a pas de statistiques correspondantes pour les voyageurs qui sortent du Canada.

**Via les États-Unis** — Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant au Canada en provenance de pays autres que les États-Unis mais en passant par les États-Unis. La durée du séjour aux États-Unis n'a aucune importance; il peut s'agir d'un simple passage aux États-Unis ou d'un séjour de plusieurs jours. Exemples: un non-résident entrant directement au Canada et qui visite les États-Unis au cours de son voyage serait dénombré deux fois; comme entré directement lors de sa première entrée et comme entré via les États-Unis lors de la seconde. Un résident revenant aux pays après avoir visité le sud des États-Unis et s'être rendu dans les Caraïbes serait dénombré comme un résident revenant via les États-Unis.

**Pays autres que les États-Unis** — Cette catégorie comprend tous les pays autres que les États-Unis (partie continentale), l'Alaska et Hawaii.
