Standards of service to the public

Statistics Canada is committed to serving its clients in a prompt, reliable and courteous manner. To this end, Statistics Canada has developed standards of service that its employees observe. To obtain a copy of these service standards, please contact Statistics Canada toll-free at 1-800-263-1136. The service standards are also published on www.statcan.gc.ca under “Contact us” > “Standards of service to the public.”

Note of appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued co-operation and goodwill.

Standard table symbols

The following symbols are used in Statistics Canada publications:

- | | |
|----------------|--|
| . | not available for any reference period |
| .. | not available for a specific reference period |
| ... | not applicable |
| 0 | true zero or a value rounded to zero |
| 0 ^s | value rounded to 0 (zero) where there is a meaningful distinction between true zero and the value that was rounded |
| ^p | preliminary |
| ^r | revised |
| x | suppressed to meet the confidentiality requirements of the <i>Statistics Act</i> |
| ^E | use with caution |
| F | too unreliable to be published |
| * | significantly different from reference category ($p < 0.05$) |

1. For geographic descriptions of economic regions, refer to the Guide to the Labour Force Survey (71-543-G).

2. The labour force is composed of those members of the civilian non-institutional population 15 years of age and over who, during the reference week, were employed or unemployed.

Notes: Estimates in this table are based on 2011 Census boundaries. Related CANSIM table 282-0122. As a result of the wildfire affecting northern Alberta, LFS data for the census agglomeration of Wood Buffalo were not collected from May to July 2016. Data collection resumed in August 2016. Estimates for the economic region of Wood Buffalo–Cold Lake are not available for June, July, August, and September 2016.

1. Average standard error of change in two consecutive months (see "Sampling Errors" in the **Data Quality** section for further explanations).

2. Since 1992, the Labour force survey (LFS) has been conducted in the Yukon, using an alternative methodology that accommodates some of the operational difficulties inherent to remote locales. These estimates are not included in the national totals. In 1995, the LFS in the Yukon underwent a sample redesign. One result of the redesign was that the covered population increased from 85% to 92%, which is reflected by the sharp increase in the three month moving averages estimates of January, February and March of 1995 for all the level estimates. Users are therefore warned to be cautious when comparing estimates before January 1995 to estimates for January 1995 and forward.

3. Since 2001, the Labour force survey (LFS) has been administered in the Northwest Territories, using an alternative methodology that accommodates some of the operational difficulties inherent to remote locales. These estimates are not included in national totals.

4. Since 2004, the Labour force survey (LFS) has been administered in Nunavut, using an alternative methodology that accommodates some of the operational difficulties inherent to remote locales. These estimates are 3-month moving averages and are not included in national totals. From January 2004 to December 2007, estimates represent about 70% of all Nunavut residents aged 15 and over. Starting in January 2008, coverage was extended to 92%, so that by March 2008, the 3-month moving average is completely based on the extended coverage. Because of the large difference in coverage, users are recommended not to compare estimates prior to January 2008 with data afterwards. The January and February 2008 3-month moving average estimates are based on a mix of both coverages, since the extended coverage was introduced in January 2008. Estimates from January 2004 to December 2007 are based on the 10 largest communities in Nunavut: Iqaluit, Rankin Inlet, Cambridge Bay, Kugluktuk, Baker Lake, Arviat, Pond Inlet, Cape Dorset, Pangnirtung, Igloolik. Estimates from March 2008 to present cover the above communities as well as: Taloyoak, Gjoa Haven, Kugaaruk, Coral Harbour, Repulse Bay, Qikiqtarjuaq, Arctic Bay, Hall Beach, Clyde River.

1. The boundaries of these regions are determined by Employment and Social Development Canada (ESDC). For geographic descriptions and maps of employment insurance regions, see the ESDC website: <http://srv129.services.gc.ca/eiregions/en/geocont.aspx>.

2. This region excludes St. John's.

3. Prince Edward Island as well as the territories are each comprised of two regions effective October 12, 2014.

4. This region excludes Charlottetown.

5. The monthly regional unemployment rates for EI purposes in the territories are subject to the greater of a seasonally adjusted 3-month-moving average or 12-month-moving average.

6. This region excludes Whitehorse.

7. This region excludes Yellowknife.

8. This region excludes Iqaluit.

Note: Related CANSIM table 282-0168. All regions are based on the 1996 Census boundaries, with the exception of those in Prince Edward Island and in the territories, which respect the 2011 Census boundaries.

Data quality

Definitions and explanations

The **labour force** is composed of those members of the civilian non-institutional population 15 years of age and over who, during the reference week, were employed or unemployed.

Employed persons are those who, during the reference week:

- (a) did any work at all at a job or business;
- (b) had a job but were not at work.

A person is considered to be **full-time** if his/her usual hours at the main job or only job are 30 or more hours per week. When the number of hours worked at the main job or only job is usually less than 30 hours per week then he/she is considered to be **part-time**.

Unemployed persons are those who, during the reference week:

- (a) were without work, had looked for work in the past four weeks ending with the reference period and were available for work;
- (b) were on temporary layoff due to business conditions, with an expectation of recall, and were available for work;
- (c) were without work, but had a job to start within four weeks from the reference period and were available for work.

Persons in the civilian non-institutional population 15 years of age and over who, during the reference week, were neither employed nor unemployed are classified as **not in the labour force**.

The **unemployment rate** represents the number of unemployed persons expressed as a percentage of the labour force (employed and unemployed). The unemployment rate for a particular group (for example, age, sex, or marital status) is the number unemployed in that group expressed as a percentage of the labour force for that group.

The **participation rate** represents the total labour force expressed as a percentage of the population aged 15 years and over. The participation rate for a particular group (for example, women aged 25 years and over) is the labour force in that group expressed as a percentage of the population for that group.

The **employment rate** represents the number of employed persons expressed as a percentage of the population aged 15 years and over. The employment rate for a particular group (for example, age, sex, marital status, or province) is the number employed in that group expressed as a percentage of the population for that group.

The **part-time rate** represents the number of persons employed part-time expressed as a percentage of the employed. The part-time rate for a particular group (for example, age or sex) is the number of persons employed part-time in that group expressed as a percentage of the employed for that group.

All geographic regions are based on the 2011 Census boundaries.

Seasonal adjustment

Fluctuations in economic time series are caused by seasonal, cyclical and irregular movements. A seasonally adjusted series is one from which seasonal movements have been eliminated. Seasonal movements are defined as those which are caused by regular annual events such as climate, holidays, vacation periods and cycles related to crops, production and retail sales associated with Christmas and Easter. It should be noted that the seasonally adjusted series contain irregular as well as longer-term cyclical fluctuations.

The seasonally adjusted series are revised each year to take into account current data and to generate new forecast factors for the next twelve months. The data are therefore subject to slight revisions in future issues of this publication.

For more information on seasonal adjustment, see *Seasonally adjusted data – Frequently asked questions*.

Sampling variability of estimates

Estimates in this publication are based on the Labour Force Survey, a monthly survey of approximately 56,000 households across Canada. Because the entire population is not surveyed, the estimates are subject to sampling error. While the published estimate is the best available indicator of the real value, changes in the level of any estimates between two months can be the result of a true change, or sampling variability. The sampling error can be estimated by calculating the standard error for the published estimate or statistic. These standard errors have been included in the publication tables in order to assist users in interpreting the data. They are based on 12-month averages and are updated twice a year, in February and August.

Interpretation based on standard error

Approximately two-thirds (68%) of the time, a change greater than the sampling error indicates a real change. The larger the change compared to the standard error, the better the chance that we are observing a real change, as opposed to a change due to sampling variability. At the 95% confidence level, the change in the estimate must be greater than twice the standard error in order to ensure that change is real.

Movements in estimates that are smaller than the standard error are less likely to reflect a real change and more likely to be due to sampling variability. While the above is true for monthly movements, one can have more confidence in a series of consecutive movements in the same direction, even though some of the monthly movements may be smaller than the standard error.

Interpretation based on confidence intervals

Confidence intervals provide another way of looking at the variability inherent in estimates of sample surveys. To illustrate how to calculate the confidence interval, let us say that one month the published estimate for total employment rose by 16,000 to reach 18,000,000. The associated standard error for the movement estimate is 29,500. The standard error used to interpret the movement estimate indicates that:

- There are approximately two chances in three (68%) that the real value of the movement between the two months falls within the range -13,500 to +45,500 (16,000 + or – one standard error).
- There are approximately nine chances in ten (90%) that the real value of the movement between the two months falls within the range -31,200 to +63,200 (16,000 + or – 1.6 times the standard error).
- There are approximately nineteen chances in twenty (95%) that the real value of the movement between the two months falls within the range -43,000 to +75,000 (16,000 + or – two standard errors).

For more detailed explanations on the sampling variability of estimates, and in particular for information on how to assess the variability of level estimates, consult the Data quality section of the *Guide to the Labour Force Survey* (71-543-G).

Documentation

282-0124	Labour Force Survey estimates (LFS), employment by economic region based on 2011 Census boundaries and North American Industry Classification System (NAICS), three-month moving average, unadjusted for seasonality, monthly
282-0125	Labour Force Survey estimates (LFS), employment by economic region based on 2011 Census boundaries and North American Industry Classification System (NAICS), annual
282-0128	Labour Force Survey estimates (LFS), by census metropolitan area based on 2011 Census boundaries, sex and age group, three-month moving average, unadjusted for seasonality, monthly
282-0129	Labour Force Survey estimates (LFS), by census metropolitan area based on 2011 Census boundaries, sex and age group, annual
282-0130	Labour Force Survey estimates (LFS), employment by census metropolitan area based on 2011 Census boundaries and North American Industry Classification System (NAICS), three-month moving average, unadjusted for seasonality, monthly
282-0131	Labour Force Survey estimates (LFS), employment by census metropolitan area based on 2011 Census boundaries and North American Industry Classification System (NAICS), annual
282-0134	Labour Force Survey estimates (LFS), by selected census agglomerations based on 2011 Census boundaries, annual
282-0135	Labour Force Survey estimates (LFS), by census metropolitan area based on 2011 Census boundaries, three-month moving average, seasonally adjusted and unadjusted, monthly
282-0136	Labour Force Survey estimates (LFS), by Montréal, Toronto and Vancouver census metropolitan areas based on 2011 Census boundaries, seasonally adjusted and unadjusted, monthly
282-0137	Labour Force Survey estimates (LFS), by population centres and rural areas based on 2011 Census boundaries, sex and age group, unadjusted for seasonality, monthly
282-0138	Labour Force Survey estimates (LFS), by population centres and rural areas based on 2011 Census boundaries, sex and age group, annual
282-0139	Labour Force Survey estimates (LFS), employment by population centres and rural areas based on 2011 Census boundaries, class of worker and North American Industry Classification System (NAICS), unadjusted for seasonality, monthly
282-0140	Labour Force Survey estimates (LFS), employment by population centres and rural areas based on 2011 Census boundaries, class of worker and North American Industry Classification System (NAICS), annual
282-0141	Labour Force Survey estimates (LFS), by National Occupational Classification (NOC) and sex, unadjusted for seasonality, monthly
282-0142	Labour Force Survey estimates (LFS), by National Occupational Classification (NOC) and sex, annual
282-0143	Labour Force Survey estimates (LFS), by usual hours worked, National Occupational Classification (NOC) and sex, unadjusted for seasonality, monthly
282-0144	Labour Force Survey estimates (LFS), by usual hours worked, National Occupational Classification (NOC) and sex, annual
282-0145	Labour Force Survey estimates (LFS), by actual hours worked, National Occupational Classification (NOC) and sex, unadjusted for seasonality, monthly
282-0146	Labour Force Survey estimates (LFS), by actual hours worked, National Occupational Classification (NOC) and sex, annual
282-0147	Labour Force Survey estimates (LFS), multiple jobholders by National Occupational Classification (NOC), sex and age group, unadjusted for seasonality, monthly
282-0148	Labour Force Survey estimates (LFS), multiple jobholders by National Occupational Classification (NOC), sex and age group, annual
282-0149	Labour Force Survey estimates (LFS), job tenure by National Occupational Classification (NOC) and sex, unadjusted for seasonality, monthly
282-0150	Labour Force Survey estimates (LFS), job tenure by National Occupational Classification (NOC) and sex, annual
282-0151	Labour Force Survey estimates (LFS), wages of employees by type of work, National Occupational Classification (NOC), sex, and age group, unadjusted for seasonality, monthly
282-0152	Labour Force Survey estimates (LFS), wages of employees by type of work, National Occupational Classification (NOC), sex, and age group, annual
282-0153	Labour Force Survey estimates (LFS), employees working overtime (weekly) by National Occupational Classification (NOC), sex and age group, unadjusted for seasonality, monthly
282-0154	Labour Force Survey estimates (LFS), employees working overtime (weekly) by National Occupational Classification (NOC), sex and age group, annual
282-0155	Labour Force Survey estimates (LFS), employment by National Occupational Classification (NOC), seasonally adjusted, monthly
282-0156	Labour Force Survey estimates (LFS), employment by economic region based on 2011 Census boundaries and National Occupational Classification (NOC), three-month moving average, unadjusted for seasonality, monthly
282-0157	Labour Force Survey estimates (LFS), employment by economic region based on 2011 Census boundaries and National Occupational Classification (NOC), annual
282-0158	Labour Force Survey estimates (LFS), employment by census metropolitan area based on 2011 Census boundaries and National Occupational Classification (NOC), three-month moving average, unadjusted for seasonality, monthly
282-0159	Labour Force Survey estimates (LFS), employment by census metropolitan area based on 2011 Census boundaries and National Occupational Classification (NOC), annual
282-0160	Labour Force Survey estimates (LFS), weekly wage distributions of employees by type of work, National Occupational Classification (NOC) and sex, unadjusted for seasonality, monthly
282-0161	Labour Force Survey estimates (LFS), weekly wage distributions of employees by type of work, National Occupational Classification (NOC) and sex, annual
282-0162	Labour Force Survey estimates (LFS), hourly wage distribution of employees by type of work, National Occupational Classification (NOC) and sex, unadjusted for seasonality, monthly
282-0163	Labour Force Survey estimates (LFS), hourly wage distribution of employees by type of work, National Occupational Classification (NOC) and sex, annual
282-0164	Labour Force Survey estimates (LFS), employees by union status and National Occupational Classification (NOC), Canada, annual

CANSIM tables

282-0165	Labour Force Survey estimates (LFS), employment by Aboriginal group, National Occupational Classification (NOC), sex and age group, annual
282-0166	Labour Force Survey estimates (LFS), employment by Aboriginal group, National Occupational Classification (NOC) and age group, Canada, selected provinces and regions, annual
282-0167	Labour Force Survey estimates (LFS), average usual hours and wages of employees by age group, sex, union coverage, job permanency, and National Occupational Classification (NOC), unadjusted for seasonality, monthly
282-0168	Labour Force Survey estimates (LFS), regional unemployment rates used by the Employment Insurance Program, three-month moving average, seasonally adjusted, monthly
282-0200	Labour Force Survey estimates (LFS), weekly wage distributions of employees by type of work, North American Industry Classification System (NAICS), and sex, unadjusted for seasonality, monthly
282-0201	Labour Force Survey estimates (LFS), weekly wage distributions of employees by type of work, North American Industry Classification System (NAICS), and sex, annual
282-0204	Labour Force Survey estimates (LFS), hourly wage distributions of employees by type of work, North American Industry Classification System (NAICS), and sex, unadjusted for seasonality, monthly
282-0205	Labour Force Survey estimates (LFS), hourly wage distributions of employees by type of work, North American Industry Classification System (NAICS), and sex, annual
282-0208	Labour Force Survey estimates (LFS), by educational degree, sex and age group, unadjusted for seasonality, monthly
282-0209	Labour Force Survey estimates (LFS), by educational degree, sex and age group, annual
282-0210	Labour Force Survey estimates (LFS), by family type and family age composition, unadjusted for seasonality, monthly
282-0211	Labour Force Survey estimates (LFS), by family type and family age composition, annual
282-0212	Labour Force Survey estimates (LFS), hours lost by employees by reason of absence, full and part week and sex, unadjusted for seasonality, monthly
282-0213	Labour Force Survey estimates (LFS), hours lost by employees by reason of absence, full and part week and sex, annual
282-0214	Labour Force Survey estimates (LFS), activity prior to unemployment by sex and age group, unadjusted for seasonality, monthly
282-0215	Labour Force Survey estimates (LFS), activity prior to unemployment, by sex and age group, annual
282-0216	Labour Force Survey estimates (LFS), reason for leaving job during previous year by sex and age group, unadjusted for seasonality, monthly
282-0217	Labour Force Survey estimates (LFS), reason for leaving job during previous year by sex and age group, annual
282-0218	Labour Force Survey estimates (LFS), reason for not looking for work, by sex and age group, unadjusted for seasonality, monthly
282-0219	Labour Force Survey estimates (LFS), reason for not looking for work, by sex and age group, annual
282-0220	Labour Force Survey estimates (LFS), employees by union status, sex and age group, Canada and provinces, annual
282-0221	Labour Force Survey estimates (LFS), employees by union status, sex, age group and education level, Canada, annual
282-0223	Labour Force Survey estimates (LFS), employees by union status, North American Industry Classification System (NAICS) and sex, Canada, annual
282-0224	Labour Force Survey estimates (LFS), employees by union status, establishment size, job tenure, type of work and job permanency, Canada, annual
282-0225	Labour Force Survey estimates (LFS), average weekly earnings, average hourly wage rate and average usual weekly hours by union status and type of work, Canada and provinces, annual
282-0226	Labour Force Survey estimates (LFS), by Aboriginal group, sex and age group, Canada, selected provinces and regions, annual
282-0227	Labour Force Survey estimates (LFS), by detailed Aboriginal group, sex and age group, Canada and selected regions, annual
282-0228	Labour Force Survey estimates (LFS), by Aboriginal group, educational attainment and age group, Canada and selected regions, annual
282-0229	Labour Force Survey estimates (LFS), employment by Aboriginal group, North American Industry Classification System (NAICS), sex and age group, annual
282-0230	Labour Force Survey estimates (LFS), employment by Aboriginal group, North American Industry Classification System (NAICS) and age group, Canada and selected regions, annual
282-0233	Labour Force Survey estimates (LFS), average hourly and weekly wages and average usual weekly hours by Aboriginal group and age group, Canada, selected provinces and regions, annual

Survey

3701	Labour Force Survey
------	---------------------

Summary tables

Average hourly wages of employees by selected characteristics and occupation, unadjusted data, by province (monthly)

Days lost per worker by industry and sex

People employed, by educational attainment

Reasons for part-time work by sex and age group

Self-employment, historical summary

Employment by age, sex, type of work, class of worker and province (monthly)

Actual hours worked per week by industry, seasonally adjusted (monthly)

Labour force characteristics, unadjusted, by territory (3 month moving average)

Employment by industry and sex

Full-time and part-time employment by sex and age group

Labour force characteristics by age and sex

Labour force characteristics by immigrant status of population aged 25 to 54, and by educational attainment

Labour force characteristics by immigrant status, by detailed age group

Labour force characteristics by immigrant status of population aged 25 to 54, by country of birth

Days lost per worker due to illness or disability, by sex, by province

Employment by industry

Labour force characteristics, seasonally adjusted, by province (monthly)

Labour force characteristics, unadjusted, by province (monthly)

Labour force, employment and unemployment, levels and rates, by province

Economic indicators, by province and territory (monthly and quarterly)

Days lost per worker by reason, by provinces

Labour force characteristics, seasonally adjusted, by census metropolitan area (3 month moving average)

Labour force characteristics, unadjusted, by economic region (3 month moving average)

Distribution of employed people, by industry, by province

Employment by major industry group, seasonally adjusted, by province (monthly)

Labour force characteristics

Labour force characteristics, unadjusted, by census metropolitan area (3 month moving average)

Labour force characteristics, population 15 years and older, by census metropolitan area

Labour force characteristics, population 15 years and older, by economic region, by province

Canada: Economic and financial data

Labour force characteristics by sex and age group

Labour force characteristics by immigrant status of population aged 25 to 54, by province

Latest statistics (monthly)
