HOSPITALS AND RELATED INSTITUTIONS AND FACILITIES IN CANADA - 1961 (1)

Prepared by the Dominion Bureau of Statistics with the assistance of provincial health authorities, the List of Hospitals and Related Institutions and Facilities covers all recognized Canadian hospitals and related institutions and facilities which were in operation at any time during 1961.

Related institutions and facilities, shown in a separate section by province, comprise infirmaries; nursing homes; rest homes; homes for the aged, the blind or the senile; facilities which provide insured services under the Federal-Provincial hospital insurance programme; and smaller private 'hospitals' which do not appear to have available the qualified personnel, facilities, and services which are normally required in hospital operation. Explanatory notes on columnar headings and classification definitions follow.

LOCATION - postal address; street address also shown in the larger cities.

NAME - official name of institution; definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parentheses thus:

GenU	General unit
CDU	Communicable diseases unit
ChrU	Chronic unit
PsU	Psychiatric unit
RehabU	Rehabilitation unit
TBU	Tuberculosis unit
NS	Approved school of nursing

CATEGORY - Public (Pub) - those hospitals which depend, in part at least, on public funds for support, are obligated to accept medically indigent patients, and are recognized as "public hospitals" by the provinces in which they are located.

- Private (Pte) - those hospitals which are established as profit-making enterprises and are not obligated to accept indigents; also some hospitals which are owned by religious or other bodies, and provide service exclusively to their members or adherents.

- Federal (Fed) - those hospitals which are administered by certain federal government departments (National Health and Welfare, Veterans Affairs, and National Defence) for the benefit of persons whose hospital care is the responsibility of the central government (e.g. veterans, Indians, sick mariners, personnel of the armed services).

TYPE OF SERVICE - classification is according to the predominant type of treatment and care provided by the institution; a hospital with facilities to treat a wide range of diseases or conditions is classified as "general"; a hospital comprising two or more specialized units of comparable size is classified as "miscellaneous". The following abbreviations have been used:

CD	Communicable diseases hospital
Chr	Chronic diseases hospital
Conv	Convalescent hospital
Gen	General hospital
Mat	Maternity hospital
Ment	Mental hospital
Misc	Miscellaneous hospital (not otherwise classifiable)
Orth	Orthopaedic hospital
Rehab	Rehabilitation hospital
TB	Tuberculosis hospital

OWNERSHIP - as determined by registration of deed or lease. The following abbreviations have been used:

DND	Department of National Defence
DNHW	Department of National Health and Welfare
DVA	Department of Veterans Affairs
Lay	Lay corporation or individual (s)
Mun	Municipal (including county, hospital district, and union of municipalities)
Rel	Religious denomination
Prov	Provincial or Territorial

CAPACITY - as determined by application of standards, under provincial responsibility; suggested minimum standards are circulated by the Dominion Bureau of Statistics, but where a provincial standard provides more square feet per bed than the federal standard, the provincial standard applies.
