LIST OF CANADIAN HOSPITALS AND RELATED INSTITUTIONS AND FACILITIES - 1968

This publication was prepared in the Institutions Section of the Health and Welfare Division at the Dominion Bureau of Statistics. The Bureau is grateful for the co-operation received from the provincial hospital and welfare authorities for their assistance in the annual scrutiny and revision of this List. The List reflects hospitals and related institutions in operation as at January 1, 1968.

✓ A hospital is defined as an institution which is operated for the medical, surgical and/or obstetrical care of in-patients, and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions as well as tuberculosis sanatoria. Hospitals are listed in this publication alphabetically according to location.

✓ Related institutions are shown in a separate section. They include infirmaries, nursing homes, rest homes, homes for the aged, the blind or the senile. They also are listed alphabetically according to location.

Facilities are presented in one single list and may be found on page 60. These facilities provide out-of-hospital insured services according to the Hospital Insurance and Diagnostic Services Act.

LOCATION - Postal address; street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown within the metropolitan area according to the boundaries of the 1961 Census of Canada. The abbreviation M.A. is sometimes used for Metropolitan Area.

NAME - Official name of institution; definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parentheses thus:

ChrU	Chronic unit ✓
GenU	General unit
GerU	Geriatric unit
PsU	Psychiatric unit
RehabU	Rehabilitation unit
TBU	Tuberculosis unit
NS	Approved school of nursing
RU	Residential units in Ontario mental hospitals

CATEGORY - Public (Pub) - ✓ hospitals recognized by the province as a "public hospital". Such a hospital generally is not operated for profit, and accepts all patients regardless of their ability to pay. ✓

Private (Pte) - hospitals recognized by the province as a "private hospital". Such a hospital generally restricts its admissions to patients paying for the care provided at rates determined by the management. Some of these are owned by religious or other bodies and provide service exclusively to their members or adherents.

Federal (Fed) - those hospitals which are administered by certain federal government departments (National Health and Welfare, Veterans Affairs, and National Defence) for the benefit of persons whose hospital care is the responsibility of the central government (e.g., veterans, Indians, sick mariners, personnel of the armed services).

TYPE OF SERVICE - Classification is according to the predominant type of treatment and care provided by the institution; a hospital with facilities to treat a wide range of diseases or conditions is classified as "general"; a hospital which provides a combination of various types of service and cannot be classified in any of the following categories (such as nursing stations or outpost hospitals) is classified as "miscellaneous". The following abbreviations have been used:

CD	Communicable diseases hospital	Ment	Mental hospital

Dist Chld	Hospital for emotionally disturbed children	Ps H	Psychiatric hospital
Ep H	Epilepsy hospital	Rehab	Rehabilitation hospital

OWNERSHIP - The owner of the hospital is the person, group of persons, agency, or corporate body, in whose name the lease to the real estate is held, or if there is no lease, the registered owner according to the deed.
