## PREFACE

An extensive array of hospital statistics relating to facilities available, services provided, personnel employed, educational facilities and finances of general and allied special hospitals, mental institutions and tuberculosis sanatoria operating in Canada is prepared by the Hospitals Section of the Health and Welfare Division of Statistics Canada. A series of one quarterly and eleven annual reports are published, to provide users with a comprehensive presentation of these statistics.

Statistics on hospitals have been compiled by Statistics Canada since 1931 and have since been published in varying degrees of detail. The current list of publications specifically related to hospitals is as follows:<sup>1</sup>

Statistics Canada wishes to express its indebtedness to the individual hospitals across the nation which have prepared and submitted data for inclusion in this national statistical program; to the provincial hospital plan authorities for the collection of the data, and; to the provincial hospital associations and the Canadian Hospital Association in their promotion of uniform accounting and recording practices.

The reader’s attention is drawn to the fact that not all of the collected and tabulated data appear in published form. Inquiries with respect to data of this nature or to data contained in this publication are invited and should be forwarded to the Hospitals Section of the Health and Welfare Division of Statistics Canada.

<sup>1</sup> In addition to these publications, the Health Manpower Section of the Health and Welfare Division prepares and publishes a number of annual and occasional publications dealing with health manpower.

EXPLANATORY NOTES AND GLOSSARY

This publication was prepared in the Hospitals Section of the Health and Welfare Division of Statistics Canada. Statistics Canada is grateful for the co-operation received from the provincial hospital and welfare authorities for their assistance in the annual scrutiny and revision of this List. The List includes hospitals and related institutions in operation as at January 1, 1974.

A HOSPITAL - is defined as an institution where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services, and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions as well as tuberculosis sanatoria.

RELATED INSTITUTIONS - include infirmaries, nursing homes, rest homes, homes for the aged, the blind and the senile and are shown in a separate section.

FACILITIES - are presented in two lists on pages 85 and 89. The first list shows "Facilities for the treatment of emotionally disturbed children" and the second list shows "Facilities for the provision of out-of-hospital insured services" as approved by the Hospital Insurance and Diagnostic Services Act.

Hospitals, Related Institutions and Facilities are listed alphabetically according to location.

LOCATION - Postal address: street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown with the metropolitan area according to the boundaries of the 1971 Census of Canada. The abbreviation M.A. is for Metropolitan Area.

NAME - Official name of institution: definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parenthesis thus:

PsU Psychiatric unit  
TBU Tuberculosis unit  
NS Approved school of nursing  
RU Residential units in Ontario mental hospitals

CATEGORY - Public (Pub. incl. Voluntary, Provincial and Municipal) - hospitals recognized by the province as a "public hospital". Such a hospital generally is not operated for profit.

- Proprietary (Prop) - hospitals recognized by the province as a "proprietary hospital". These hospitals are owned by an individual or by a private organization and operated for a profit.

- Federal (Fed) - hospitals owned by a department or agency of the Government of Canada and operated on a non-profit basis. Operation will generally be the responsibility of one of the departments or agencies, e.g. Veterans Affairs, Health and Welfare Canada, National Defence or Atomic Energy of Canada.

NOTES EXPLICATIVES ET TERMINOLOGIE

La présente publication a été rédigée par la Section des hôpitaux de la Division de la santé et du bien-être de Statistique Canada. Statistique Canada remercie les autorités hospitalières et de bien-être social provinciales de l'avoir aidé dans la vérification et la révision annuelle de cette liste. La liste comprend les hôpitaux et établissements connexes en activité au 1<sup>er</sup> janvier 1974.

HÔPITAL - Par définition, un hôpital est un établissement qui reçoit des personnes requérant des soins médicaux et leur dispense de façon continue ces soins ainsi que les services diagnostiques et thérapeutiques d'appoint, et qui est enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques et les sanatoriums pour tuberculeux.

LES ÉTABLISSEMENTS CONNEXES - comprennent les infirmières, les foyers, les maisons de repos, et les hospices pour les personnes âgées, les aveugles et les vieillards; leur liste se trouve dans une section distincte du présent rapport.

LES INSTALLATIONS - sont réparties en deux listes (pages 85 et 89). La première liste indique les installations pour le traitement des enfants souffrant de troubles émotifs et la seconde liste énumère les installations qui dispensent aux assurés des soins à l'extérieur de l'hôpital en vertu de la Loi sur l'assurance-hospitalisation et les services diagnostiques.

Les hôpitaux, les établissements connexes et les installations sont inscrits par ordre alphabétique selon l'emplacement.

EMPLACEMENT - Adresse postale: le nom de la rue est indiqué lorsqu'il s'agit d'une grande ville. Dans le cas de municipalités distinctes formant une grande zone métropolitaine, l'adresse de l'hôpital est celle de la zone métropolitaine suivant les limites fixées par le recensement du Canada de 1971. L'abréviation M.A. est utilisée pour "zone métropolitaine".

NOM - Nom officiel de l'établissement; l'article définit précédant le nom de l'hôpital, même s'il doit normalement être considéré comme partie intégrante du nom, a été omis afin de faciliter les recherches; les installations spéciales dont dispose l'établissement sont indiquées entre parenthèses de la manière suivante:

PsU quartier de psychiatrie  
TBU quartier pour les soins aux tuberculeux  
NS école reconnue d'enseignement infirmier  
RU quartier résidentiel dans les établissements psychiatriques de l'Ontario.

CATÉGORIE - Public (Pub - comprend les hôpitaux provinciaux, municipaux et les hôpitaux privés sans but lucratif) - Désigne les hôpitaux reconnus par la province comme "hôpitaux publics". En règle générale ces hôpitaux n'ont aucun but lucratif.

- Privé, à but lucratif (Prop) - Désigne les hôpitaux reconnus par la province comme hôpitaux privés à but lucratif. Ces hôpitaux appartiennent à un particulier ou à un organisme privé et sont exploités en vue de bénéfices. Certains de ces hôpitaux appartiennent à des communautés religieuses ou à d'autres organismes et ne dispensent des soins qu'à leurs membres ou adhérents.

- Fédéral (Fed) - Hôpitaux, sans but lucratif, appartenant à un ministère ou à un organisme du gouvernement fédéral. En général les activités de ces hôpitaux sont soumises au contrôle d'un ministère ou d'un organisme (par exemple: les Affaires des anciens combattants, Santé et bien-être social Canada, la Défense nationale, ou l'Énergie atomique du Canada).

TYPE OF SERVICE - Classification is according to the predominant type of treatment and care provided by the institution.

A hospital, classified as "General", provides primarily for the diagnosis and short-term treatment of patients for a wide range of diseases, or injuries, and is not restricted to a specific age-group or sex.

Allied special hospitals include "Pediatric", "Rehabilitation" (incl. convalescent), "Extended care" (incl. chronic), and "Other" (e.g. cancer, maternity, cardiology, orthopedic hospitals).

Nursing Stations, Out-post hospitals and those Nursing Homes temporarily listed in Schedule A of the Hospital Insurance Agreement are classified as "Miscellaneous".

In the Province of Quebec, some institutions are designated as "Centres d'accueil". (Reception Centres).

There are 4 classes of "Centres d'accueil":

- (a) day-care centres that shall admit persons and provide them during part of the day with care and activities designed to promote their physical, intellectual and social development;
- (b) transition centres that shall admit persons deprived of their usual family surroundings who are obliged to seek temporary protective help;
- (c) rehabilitation centres that shall admit persons suffering from a major physical, intellectual, psychological or social handicap who require intensive rehabilitation or orientation for a limited period of time; and
- (d) home care centres that shall admit persons who, because of a lessening in their physical or mental capacity, are obliged to sojourn in protective residence.

The first part of this List shows those "Centres d'accueil" which are part of another institution.

The second part of this List shows the independent "Centres d'accueil".

The following abbreviations have been used for designating the "type of service":

Alc.	Hospital for alcoholics
Ash.	Home for the aged and senile
C.A.	Centre d'accueil (Reception Centre)
Card.	Cardiology hospital or institute
Dist. Chld.	Hospital for emotionally disturbed children

Gen.	General Hospital
H. Retard.	Hospital for Retardates
Mat.	Maternity Hospital
Ment.	Mental hospital
Misc.	Miscellaneous hospital (such as Nursing stations and Outpost hospital and others which do not clearly fall in the categories listed)

GENRE DE SERVICE - Les hôpitaux sont classés suivant le genre principal de traitement et de soins dispensés par l'établissement.

Un hôpital "général" offre principalement des soins de courte durée (diagnostic et traitement) pour une grande variété d'affections et de blessures ou traumatismes, sans distinction d'âge et de sexe.

Les hôpitaux spécialisés comprennent les hôpitaux "pédiatrique" "de réadaptation" (et de convalescence), "de soins prolongés" (et pour malades chroniques) et "autres" (par exemple: les hôpitaux anticancéreux, les maternités, les hôpitaux de cardiologie ou orthopédiques).

Sont classés sous la catégorie "divers", les postes infirmiers, les hôpitaux éloignés, et les foyers temporairement inclus dans le tableau A des Accords sur l'assurance-hospitalisation.

De plus, dans la province de Québec il y a quatre classes de centres d'accueil:

- (a) les centres de garderie, qui reçoivent des personnes à qui ils offrent pendant une partie de la journée, des soins et un programme d'activités visant à promouvoir leur développement physique, intellectuel et social;
- (b) les centres de transition, qui reçoivent des personnes qui, privées de leur milieu familial habituel, doivent recourir provisoirement à une ressource, de protection;
- (c) les centres de réadaptation, qui reçoivent des personnes qui, à cause d'inadaptation majeure sur le plan physique, intellectuel, psychologique ou social, doivent bénéficier de services intensifs de réadaptation ou d'orientation pour une période définie; et
- (d) les centres d'hébergement, qui reçoivent des personnes qui, en raison d'une diminution de leur autonomie physique ou psychique, doivent séjourner en résidence protégée.

Les centres d'accueil qui font partie d'un autre établissement sont énumérés dans la première partie de cette liste.

La seconde partie de cette liste comprend les centres d'accueil reconnus comme établissements séparés.

Voici les abréviations utilisées pour désigner le "genre de service":
