Data in Many Forms...

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

Health Care Section,
Health Division,

Statistics Canada, Ottawa, K1A 0T6 (Telephone:
990-8570) or to the Statistics Canada reference centre in:

St. John's	(772-4073)	Sturgeon Falls	(753-4888)
Halifax	(426-5331)	Winnipeg	(949-4020)
Montréal	(283-5725)	Regina	(780-5405)
Ottawa	(990-8116)	Edmonton	(420-3027)
Toronto	(973-6586)	Vancouver	(666-3691)

Toll-free access is provided in all provinces and territories, for users who reside outside the local dialing area of any of the regional reference centres.

Newfoundland and Labrador	1-800-563-4255
Nova Scotia, New Brunswick and Prince Edward Island	1-800-565-7192
Quebec	1-800-361-2831
Ontario	1-800-268-1151
Manitoba	1-800-282-8006
Saskatchewan	1-800-667-7164
Alberta	1-800-222-6400
British Columbia (South and Central)	1-800-663-1551
Yukon and Northern B.C. (area served by NorthwesTel Inc.)	Zenith 0-8913
Northwest Territories (area served by NorthwesTel Inc.)	Call collect 403-420-2011

How to Order Publications

This and other Statistics Canada publications may be purchased from local authorized agents and other community bookstores, through the local Statistics Canada offices, or by mail order to Publication Sales, Statistics Canada, Ottawa, K1A 0T6.

Des données sous plusieurs formes...

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinolingué et le système d'extraction de Statistique Canada.

Comment obtenir d'autres renseignements

Toutes demandes de renseignements au sujet de cette publication ou de statistiques et services connexes doivent être adressées à:

Section des soins de santé,
Division de la santé,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 990-8570)
ou au centre de consultation de Statistique Canada à:

St. John's	(772-4073)	Sturgeon Falls	(753-4888)
Halifax	(426-5331)	Winnipeg	(949-4020)
Montréal	(283-5725)	Regina	(780-5405)
Ottawa	(990-8116)	Edmonton	(420-3027)
Toronto	(973-6586)	Vancouver	(666-3691)

Un service d'appel interurbain sans frais est offert, dans toutes les provinces et dans les territoires, aux utilisateurs qui habitent à l'extérieur des zones de communication locale des centres régionaux de consultation:

Terre-Neuve et Labrador	1-800-563-4255
Nouvelle-Écosse, Nouveau-Brunswick et Île-du-Prince-Édouard	1-800-565-7192

Introduction

This publication provides a detailed list of hospitals and beds operating in Canada on April 1, 1986. Hospitals are listed by province, alphabetically according to municipality. For each hospital the name, address and postal code are listed. Also listed are such variables as category, type of hospital, ownership, approved bed complement and approved bassinet complement. Definitions of these items may be found at the back of the publication.

At the beginning of the publication are a number of statistical tables that summarize some of the information contained in the list. Tables include a breakdown of facilities and beds by province and hospital type and size, a percentage distribution of beds by ownership, and beds per 1,000 population broken down by province. There are also tables that include beds in residential care facilities as well as time series data.

This publication was prepared by the Health Care Section of the Health Division of Statistics Canada after the revision of last year's inventory of hospitals. Statistics Canada is grateful for the cooperation received from the provincial ministries of health for their assistance in reviewing and updating the list.

In past years the list of hospitals and list of residential care facilities were released as a single publication. In order to meet the needs of users who require information from only one of the lists, the publication has been split into two separate reports. For those users who require both lists a special package price is available, the details of which are available from Publications Sales and Service. Previous editions also included a list of facilities for the provision of out of hospital insured services. This information is no longer being published but is available on a request basis from the Health Care Section.

Data appearing in this report comprise only part of the information available on hospitals. A series of quarterly and annual reports is published by the section. Unpublished data are available in summary

La présente publication contient la liste détaillée des hôpitaux et des lits au Canada au 1^{er} avril 1986. Les hôpitaux sont énumérés par province et par ordre alphabétique, selon la municipalité. Le nom, l'adresse et le code postal de chaque hôpital sont présentés. Figurent aussi dans le bulletin les listes de variables telles que la catégorie, le genre et la propriété des hôpitaux, ainsi que le nombre total de lits et de berceaux approuvés. Le lecteur trouvera à la fin de la publication la définition des termes utilisés.

Au début du bulletin se trouvent des tableaux statistiques résumant certaines des informations contenues dans la liste. Ceux-ci présentent entre autres la ventilation des établissements et des lits, selon la province et le genre et la taille des hôpitaux, la répartition en pourcentage des lits, suivant la propriété, et le nombre de lits pour 1,000 habitants, ventilé par province. La publication contient également des tableaux sur les lits dans les établissements de soins pour bénéficiaires internes et des données de séries chronologiques.

La Section des soins de santé de la Division de la santé de Statistique Canada a établi la présente publication après avoir révisé la liste de l'année dernière. Statistique Canada tient à remercier les ministères provinciaux de la Santé d'avoir aidé à la révision et à la mise à jour de la liste.

Par le passé, la liste des hôpitaux et celle des établissements de soins pour bénéficiaires internes paraissaient dans la même publication. Cette année, afin de satisfaire les utilisateurs qui n'ont besoin que d'une liste, la Section des soins de santé a divisé la publication en deux bulletins distincts. Elle offre un prix spécial aux utilisateurs qui veulent les deux listes. Ceux-ci peuvent s'adresser à la Section des ventes et de la distribution des publications pour de plus amples renseignements. Les numéros précédents包含 aussi la liste des établissements dispensant aux assurés des soins à l'extérieur de l'hôpital. Cette liste ne figure plus dans la publication, mais les intéressés peuvent l'obtenir en s'adressant à la Section des soins de santé.

Les données figurant dans le présent bulletin ne constituent qu'une partie des informations disponibles sur les hôpitaux. La Section des soins de santé publie une série de bulletins trimestriels et annuels. Présentées sous forme de sommaires et

and indicator formats and can be tabulated by province and hospital type and size. Requests for data may be subject to a fee in order to recover any costs incurred. Release of unpublished data is subject to the confidentiality provisions of the Statistics Act.

d'indicateurs, les données non publiées peuvent faire l'objet de totalisations par province et selon le genre et la taille des hôpitaux. La Section pourra exiger des frais afin de couvrir toute dépense qu'elle aura engagée pour répondre à une demande de données. La diffusion des données non publiées est assujettie aux dispositions relatives à la confidentialité de la Loi sur la statistique.

The total number of approved beds in Canadian hospitals (public, proprietary and federal) has been increasing steadily from 1982 to 1986 (Text Table I). Four provinces (New Brunswick, Quebec, Ontario and Alberta) have been most responsible for this increase, each having increased their total bed capacity by a thousand beds or more during the period. The remaining provinces and territories have bed capacities that have increased only marginally, or in some cases declined slightly, since 1982.

Le nombre total de lits approuvés dans les hôpitaux canadiens (publics, privés à but lucratif et fédéraux) a augmenté continuellement de 1982 à 1986 (tableau explicatif I). Cette hausse est attribuable à quatre provinces (Nouveau-Brunswick, Québec, Ontario et Alberta) qui, au cours de cette période, ont toutes vu leur capacité en lits s'accroître de 1,000 lits ou plus. Depuis 1982, la capacité en lits dans les autres provinces et les territoires n'a enregistré qu'une faible majoration. Dans certains cas, elle a même diminué légèrement.

Northwest Territories - Territoires du Nord-Ouest	8.47	8.20	8.22	8.43	8.40

There is considerable variation from province to province of the number of hospital beds per 1,000 population (Text Table II). The pattern of variation in 1986 is similar to that of previous years (1982-1986). Notable exceptions include three provinces, two (New Brunswick, Alberta) of which had relatively large increases in beds to 1,000 population during the period. The other province (Manitoba) had a relatively large decrease in beds per 1,000 population. The remaining provinces experienced marginal changes or were unchanged in 1986 as compared to 1982.

The interprovincial variation can be explained in part by the manner in which each province allocates its long term beds. In Quebec and Alberta, two provinces with relatively high beds to population ratios, long term beds are found in "reception centres" attached to hospitals, or in "auxiliary hospitals" that provide long term, low level care. In other provinces such as Ontario, many of the long term beds can be found in residential care facilities. The following table combines beds in hospitals and residential care facilities, to provide a comprehensive picture of total bed capacity, and total beds per 1,000 population in Canada and each province.

Le nombre de lits d'hôpital pour 1,000 habitants varie considérablement d'une province à une autre (tableau explicatif II). La tendance de la variation en 1986 est semblable à celle observée les années précédentes (1982-1986), sauf dans trois provinces, dont deux (Nouveau-Brunswick, Alberta) ont enregistré une hausse relativement élevée du nombre de lits pour 1,000 habitants. L'autre province (Manitoba) a vu diminuer dans une mesure relativement importante le nombre de lits pour 1,000 habitants. Dans les autres provinces, ce nombre a peu varié ou est demeuré inchangé en 1986 par rapport à 1982.

La variation entre les provinces tient en partie à la manière dont chacune de celles-ci répartit ses lits à long terme. Au Québec et en Alberta, deux provinces où le rapport entre le nombre de lits et la population est relativement élevé, les lits à long terme se trouvent dans les "centres d'accueil" annexés aux hôpitaux ou dans les "hôpitaux auxiliaires" qui prodiguent des soins à long terme et de faible niveau. Dans d'autres provinces, par exemple en Ontario, bon nombre des lits à long terme se trouvent dans les établissements de soins spéciaux. Le tableau qui suit présente le nombre de lits dans les hôpitaux et les établissements de soins pour bénéficiaires internes et permet de brosser le tableau général de la capacité totale en lits. Il contient aussi le nombre total de lits pour 1,000 habitants au Canada et dans chaque province.

TEXT TABLE III. Approved Beds per 1,000 Population, Hospitals and Residential Care Facilities, Canada and Provinces, 1986

TABLEAU EXPLICATIF III. Lits approuvés pour 1,000 habitants, hôpitaux et établissements de soins pour bénéficiaires internes, Canada et provinces, 1986

	Hospitals	Residential care facilities	Total	Population in 1,000's	Beds per 1,000 population
	Hôpitaux	Établissements de soins pour bénéficiaires internes		Population en milliers d'habitants	Lits pour 1,000 habitants
CANADA	178,118	235,687	413,805	25,551.2	16.20
Newfoundland – Terre-Neuve	3,592	4,380	7,972	580.0	13.74
Prince Edward Island – Île-du-Prince-Édouard	747	1,746	2,493	128.0	19.48
Nova Scotia – Nouvelle-Écosse	5,934	9,070	15,004	883.1	16.99
New Brunswick – Nouveau-Brunswick	5,388	7,351	12,739	720.9	17.67
Québec	56,029	45,991	102,020	6,618.5	15.41
Ontario	51,678	91,289	142,967	9,164.4	15.60
Manitoba	6,602	12,875	19,477	1,077.2	18.08
Saskatchewan	7,530	11,692	19,222	1,020.2	18.84
Alberta	17,838	24,259	42,097	2,384.2	17.66
British Columbia – Colombie-Britannique	22,194	26,637	48,831	2,901.0	16.83
Yukon	154	244	398	22.8	17.46
Northwest Territories – Territoires du Nord-Ouest	432	153	585	51.0	11.47

It is often useful, when making interprovincial comparisons of beds per 1,000 population to include the approved beds in residential care facilities together with the approved beds in hospitals (Text Table III). The distribution of approved beds between hospitals and residential care facilities varies from province to province. Generally, residential care facilities provide a level of care that is below that of hospitals although there is some overlap. Residential Care Facilities include institutions for the aged, handicapped and others, and account for more than 200,000 beds.

Il est souvent utile, lorsqu'on établit des comparaisons interprovinciales des lits pour 1,000 habitants, de fusionner les lits approuvés dans les établissements de soins pour bénéficiaires internes et ceux qui se trouvent dans les hôpitaux (tableau explicatif III). La répartition des lits approuvés dans les hôpitaux et dans les établissements de soins spéciaux varie d'une province à une autre. En règle générale, les établissements de soins pour bénéficiaires internes fournissent des soins de niveau inférieur à ceux qu'on retrouve dans les hôpitaux, même s'il y a un certain recouvrement. Les établissements de soins pour bénéficiaires internes, qui comprennent les établissements pour les personnes âgées, handicapées et autres, comptent plus de 200,000 lits.

There is a fairly large range of total beds per 1,000 population with a low of 11.47 in the sprawling, sparsely populated Northwest Territories to a high of 19.48 in Prince Edward Island, Canada's smallest province in terms of both population and geography. Apart from these two areas, the beds per 1,000 population range from 13.74 in Newfoundland to 18.84 in Saskatchewan. Provinces with large, concentrated populations (Quebec, Ontario) tend to have lower beds to population ratios than do provinces with smaller, more diffuse populations (Manitoba, Saskatchewan).

Le nombre total de lits pour 1,000 habitants varie passablement, allant de 11.47 dans les vastes Territoires du Nord-Ouest, peu peuplés, à 19.48 à l'Île-du-Prince-Édouard, plus petite des provinces canadiennes sur les plans démographique et géographique. Ailleurs, le nombre de lits pour 1,000 habitants oscille entre 13.74 à Terre-Neuve et 18.84 en Saskatchewan. Les provinces comptant une population importante et concentrée (Québec, Ontario) ont tendance à accuser un plus faible rapport entre le nombre de lits et la population que les provinces ayant une population moins importante et plus éparpillée (Manitoba, Saskatchewan).

Northwest Territories – Territoires du Nord-Ouest	432	57.87	3.70	0.00	0.00	0.00	38.43	

Throughout Canada, the majority of approved hospital beds are found in "general" hospitals (Text Table IV). The beds in general hospitals include short and long term care, as well as newborn and outpatient services. The second largest type of hospital, in terms of beds, is "extended care", catering almost entirely to long term care patients. The other types of hospitals (i.e. rehabilitation, psychiatric, pediatric, etc...) account for only a fraction of total approved beds in most provinces. Exceptions are Newfoundland and New Brunswick with a significant number of beds in psychiatric hospitals, and the Northwest Territories where more than a third of hospital beds are found in small nursing stations and outposts, usually located in remote areas.

Partout au Canada, la majorité des lits d'hôpital approuvés se trouve dans les hôpitaux "généraux" (tableau explicatif IV). Les lits dans ces établissements comprennent ceux qui sont destinés aux malades nécessitant des soins à court et à long terme, aux nouveau-nés et aux malades externes. Les hôpitaux de soins prolongés suivent pour ce qui est du nombre de lits. Ils accueillent presque uniquement des malades ayant besoin de soins à long terme. Les autres hôpitaux (de réadaptation, psychiatriques, pédiatriques, etc.) ne comptent qu'une fraction du nombre total de lits approuvés dans la plupart des provinces, sauf à Terre-Neuve et au Nouveau-Brunswick, dont les hôpitaux psychiatriques disposent d'un nombre appréciable de lits, et dans les Territoires du Nord-Ouest où plus du tiers des lits d'hôpitaux se trouvent dans des postes infirmiers et des hôpitaux éloignés.

TEXT TABLE V. Approved Hospital Beds, Percentage Distribution by Hospital Ownership, Canada, 1985 and 1986

TABLEAU EXPLICATIF V. Lits d'hôpital approuvés, répartition en pourcentage selon la propriété, Canada, 1985 et 1986

Ownership Propriété	1986		1985

ALL HOSPITALS – TOTAL – ENSEMBLE DES HÔPITAUX	178,118	100.00	177,882	100.00

There is significant interprovincial variation in the distribution of hospital beds by type of hospital. Quebec, for example, has the largest extended care component, but this is due in part to a few large extended care hospitals that in other provinces (e.g., Ontario) might be considered residential care facilities. Alberta, like Quebec, has a number of auxiliary hospitals that might be considered residential care facilities in other provinces. Some provinces have no extended care hospitals, preferring to have long term beds in either general hospitals or residential care facilities.

This distribution by hospital ownership, of approved beds, demonstrates the highly public nature of the Canadian hospital sector (Text Table V). A comparison of 1985 and 1986 figures reveals almost no change. The slight increase in the number of hospital beds was distributed uniformly throughout ownership categories.

Public hospitals, accounting for more than 96% of all approved hospital beds, are funded by provincial ministries of health as part of the provincial hospital insurance program. Most public hospitals are owned by a lay corporation (i.e., non-governmental and non-religious) although municipal and provincial governments as well as religious organizations own a significant number of facilities.

Proprietary, or private hospitals, account for just over 2% of all approved hospital beds in the country. These facilities are not covered by provincial hospital insurance programs, although physicians services in these hospitals may be covered by provincial medical care insurance.

Federal hospitals are owned and operated by a number of federal government departments including Health and Welfare, Veterans Affairs, National Defense and the Solicitor General. The beds in these facilities represent less than 2% of total beds and are targeted for specific segments of the population such as armed service personnel, veterans and native people.

La répartition des lits par genre d'hôpital varie considérable d'une province à une autre. Par exemple, le Québec compte le nombre le plus élevé de lits dans les hôpitaux de soins prolongés. Toutefois, cette situation tient en partie au fait que cette province dispose de quelques grands hôpitaux de soins prolongés que d'autres provinces, par exemple, l'Ontario, pourraient considérer comme des établissements de soins pour bénéficiaires internes. Comme le Québec, l'Alberta compte un certain nombre d'hôpitaux auxiliaires qui pourraient être considérés comme des établissements de soins pour bénéficiaires internes dans d'autres provinces. Certaines provinces n'ont pas d'hôpitaux de soins prolongés; elles préfèrent plutôt offrir des lits à long terme dans leurs hôpitaux généraux ou leurs établissements de soins pour bénéficiaires internes.

Cette répartition en pourcentage des lits approuvés, selon la propriété, témoigne de la nature hautement publique du secteur hospitalier du Canada (tableau explicatif V). La comparaison des chiffres pour 1985 et 1986 révèle une très faible variation. La légère hausse du nombre de lits d'hôpital se répartit uniformément dans toutes les catégories de propriété.

Les hôpitaux publics, qui comptent plus de 96% des lits d'hôpital approuvés, sont financés par le ministère de la Santé des provinces dans le cadre du programme d'assurance-hospitalisation de celles-ci. La plupart des hôpitaux publics appartiennent à des sociétés laïques (non publiques et non religieuses), même si bon nombre d'entre eux sont la propriété d'administrations municipales et provinciales et d'organisations religieuses.

Les hôpitaux privés à but lucratif ne comptent qu'un peu plus de 2% des lits d'hôpital approuvés du Canada. Ils ne sont pas couverts par le programme d'assurance-hospitalisation des provinces, même si le régime provinciale d'assurance-maladie peut défrayer les honoraires des médecins qui travaillent dans ces établissements.

Les hôpitaux fédéraux appartiennent à un certain nombre de ministères fédéraux, dont Santé et Bien-être social, les Affaires des anciens combattants, la Défense nationale et le ministère du Solliciteur général, et sont exploités par ceux-ci. Contenant moins de 2% des lits approuvés, ces établissements prodiguent des soins à des groupes précis tels que les membres des forces armées, les anciens combattants et les autochtones.

Explanatory Notes and Glossary

This publication was prepared by the Health Care Section of the Health Division of Statistics Canada. Statistics Canada is grateful for the cooperation received from the provincial hospital authorities for their assistance in the annual scrutiny and revision of this list. The list includes hospitals in operation as of April 1, 1986.

Hospitals and facilities for the provision of out-of-hospital insured services are listed alphabetically according to municipality.

A hospital. Is defined as a health care institution where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada.

A facility for the provision of out-of-hospital insured services. Is a facility where patients are provided with diagnostic and therapeutic services and which is licensed or approved by a provincial government. Such a facility does not normally provide inpatient accommodation. This category also includes the Red Cross Blood depots.

Name. Official name of institution. Definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference.

Category

Public (including voluntary, provincial and municipal). Applies to a hospital recognized by the province as a "public hospital". Such a hospital generally is not operated for profit.

Proprietary. Applies to a hospital owned by an individual or by a private organization, operated for a profit and recognized by the provinces as a "proprietary hospital".

Federal. Applies to a hospital owned by a department or agency of the Government of Canada and operated on a non-profit basis.

Notes explicatives et glossaire

La présente publication a été rédigée par la Section des soins de santé de la Division de la santé de Statistique Canada. Statistique Canada remercie les autorités hospitalières provinciales de l'avoir aidé dans la vérification et la révision annuelle de cette liste. La liste comprend les hôpitaux en activité au 1^{er} avril 1986.

Les hôpitaux et les établissements dispensant aux assurés des soins à l'extérieur de l'hôpital sont inscrits par ordre alphabétique selon la municipalité.

Hôpital. Se définit comme un établissement qui reçoit des personnes requérant des soins médicaux et leur dispense de façon continue ces soins ainsi que les services diagnostiques et thérapeutiques d'appoint et qui est enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada.

Établissement dispensant aux assurés des soins à l'extérieur de l'hôpital. Établissement qui dispense aux malades des services diagnostiques et thérapeutiques et qui est enregistré ou reconnu par le gouvernement provincial. Ce genre d'établissement n'assure pas normalement de services d'hospitalisation. Cette catégorie englobe également les banques de sang de la Croix Rouge.

Nom. Nom officiel de l'établissement. L'article défini précédant le nom de l'hôpital, même s'il doit normalement être considéré comme partie intégrante du nom, a été omis afin de faciliter les recherches.

Catégorie

Public (s'applique aux hôpitaux sans but lucratif, aux hôpitaux provinciaux et aux hôpitaux municipaux). Hôpital reconnu par la province comme "public". Un tel hôpital ne vise ordinairement pas à réaliser des bénéfices.

Privé à but lucratif. S'applique aux hôpitaux reconnus par la province comme "privés à but lucratif", il s'agit d'un hôpital qu'un particulier ou un organisme privé possède et exploite en vue de réaliser des bénéfices.

Hôpital fédéral. Hôpital appartenant à un ministère ou à un organisme du gouvernement du Canada et ne visant pas à réaliser des bénéfices.

Explanatory Notes and Glossary – Continued

Type of Service

Classification is according to the predominant type of treatment and care provided by the institution.

A hospital classified as "General" provides primarily for the diagnosis and short-term treatment of patients for a wide range of diseases or injuries and is not restricted to a specific age-group or sex.

Allied special hospitals include "Pediatric", "Rehabilitation" (including convalescent), "Extended care" (including chronic) and "Miscellaneous" (e.g., cancer, cardiology, neurology, outpost hospitals and nursing stations).

Alc./Drug	Hospital for alcoholics and/or drug addicts
Aux.	Auxiliary care
C.A.	Centre d'accueil (reception centre)
E.D.U.	Emotionally disturbed children's unit
Ext.Care	Extended care (includes chronic)
Ext.Trt.	Extended Treatment
Gen.	General hospital
Mat.	Maternity hospital
Misc.	Miscellaneous hospitals (such as nursing stations and outpost hospitals and others which do not clearly fall in the categories listed)
Orth.	Orthopedic hospital
Ped.	Pediatric hospital (children)
Psh.L.T.	Psychiatric hospital long term
Psh.S.T.	Psychiatric hospital short term
Rehab.	Rehabilitation (includes convalescent)

Notes explicatives et glossaire – suite

Genre de service

Les hôpitaux sont classés suivant le genre de traitement et de soins dispensés par l'établissement.

Un hôpital "général" offre principalement des soins de courte durée (diagnostic et traitement) pour une grande variété d'affections et de blessures ou traumatismes, sans distinction d'âge et de sexe.

Les hôpitaux spécialisés comprennent les hôpitaux "pédiatriques", "de réadaptation" (comprend la convalescence), "de soins prolongés" (comprend les malades chroniques) et divers (par ex., les hôpitaux anticancéreux, de cardiologie, neurologiques, les hôpitaux éloignés et les postes infirmiers).

Alc./Drug	Hôpital pour alcooliques et/ou toxicomanes
Aux.	Soins
C.A.	Centre d'accueil
E.D.U.	Quartier pour le traitement des enfants affectivement perturbés
Ext. Care	Hôpital de soins prolongés (comprend les maladies chroniques)
Ext. Trt.	Traitemet prolongé
Gen.	Hôpital général
Mat.	Maternité
Misc.	Hôpitaux divers (tels que les postes infirmiers et les hôpitaux éloignés)
Orth.	Hôpital orthopédique
Ped.	Hôpital pédiatrique (enfants)
Psh. L.T.	Hôpital psychiatrique à long terme
Psh. S.T.	Hôpital psychiatrique à court terme
Rehab.	Hôpital de réadaptation (comprend convalescence)

Explanatory Notes and Glossary – Concluded
