PREFACE

This is one of a series of Statistics Canada reports titled Health Manpower. For this survey, data were collected from the registration documents of nurses registering with the provincial licencing body in each of the ten provinces.

The publication presents basic distributions and cross-classifications of socio-economic characteristics of the nursing profession in Canada.

Statistics Canada is indebted to each of the licencing bodies in Canada and to the Canadian Nurses Association for their assistance and support.

This report was prepared in the Health Manpower Section of the Health Division of Statistics Canada

SYLVIA OSTRY,  
Chief Statistician of Canada.

## EXPLANATORY NOTES AND GLOSSARY

## NOTES EXPLICATIVES ET TERMINOLOGIE

### Scope

Data collected in this report were collected from the annual registration forms completed by professional nurses in each of the ten provinces.

Documents were forwarded by all the provincial registering bodies, except Ontario, to the Canadian Nurses' Association where they were manually edited and coded. These documents were then processed by Statistics Canada, i.e. keypunching, computer editing and tabulations. Registration documents from the Province of Ontario were coded and computer edited by the Provincial Ministry of Health with the assistance of the Ontario College of Nurses. A copy of this edited file was forwarded to Statistics Canada to be included in the tabulations.

It should be noted that the completion of the statistical form, which is the source document of the survey, is not compulsory for registration, thus, there are more Registered Nurses in Canada than those that have been accounted for in this report (Statement 1). Secondly, since many nurses are registered simultaneously in two or more provinces, the duplicate registration(s) have been eliminated from the tables in this report (Statement 2). Many nurses living abroad maintain registration with one or more of the provincial registering bodies. Such R.N.'s are not considered as part of the nursing labour force and, as such, are not included in Tables 1-16 of this report.

The basic difference between Statement 1 and Statement 2 should be noted. Statement 1 is a distribution of professional nurse registrations, including all duplicates, by Province of Registration and Location of Employment/Residence. Statement 2 presents the same registrations by the specific Location of Employment/Residence as indicated on the source document; as well, this statement shows those registrations which have been flagged as duplicates, and those nurses actually employed/residing in a particular location (non-duplicates).

Data presented in this report are for the calendar year 1973.(1) Professional nurses register in advance on an annual basis and any changes in employment characteristics, location within province, etc. which may occur after registration are not reflected in these data.

(1) In the case of British Columbia the registration year runs from March 1 to February 28.

### Portée

Les données contenues ici proviennent des formulaires d'immatriculation annuelle remplies par les infirmières de chacune des dix provinces.

Les associations professionnelles de chaque province, sauf l'Ontario, ont transmis les documents à l'Association des infirmières canadiennes qui les a vérifiés et codés à la main. L'exploitation, c.-à-d. la perforation, le contrôle mécanographique et la mise en tableaux, a ensuite été assurée par Statistique Canada. Les documents de l'Ontario ont été codés et vérifiés mécanographiquement par le ministère provincial de la Santé, aidé de l'Ontario College of Nurses. Un exemplaire des documents vérifiés a été expédié à Statistique Canada qui l'a inclus dans ses tableaux.

Il convient de signaler qu'il n'est pas obligatoire de remplir la formule statistique qui est le document de base de notre enquête; aussi le nombre d'infirmières autorisées au Canada est-il plus élevé que celui calculé pour les besoins de la présente publication (état 1). En outre, du fait qu'un grand nombre d'infirmières sont inscrites dans deux ou plusieurs provinces en même temps, les tableaux ont été corrigés pour éliminer les doubles comptes (état 2). Bon nombre d'infirmières résidant à l'extérieur du pays maintiennent leur adhésion à l'une ou plusieurs des associations provinciales. Ces infirmières autorisées ne font pas partie de la population active infirmière et elles ne sont pas prises en compte dans les tableaux 1 à 16.

Il convient de préciser la différence essentielle qui existe entre l'état 1 et l'état 2. L'état 1 est une répartition des infirmières autorisées, y compris tous les doubles comptes, selon la province d'autorisation et le lieu d'emploi ou de résidence. L'état 2 présente ces mêmes infirmières autorisées selon le lieu précis d'emploi ou de résidence, d'après les renseignements de la formule d'immatriculation; de plus, cet état indique les autorisations qui ont été classées comme des doubles comptes de même que les infirmières travaillant ou résidant dans un endroit précis (sans double compte).

Les données présentées ici se rapportent à l'année civile 1973(1). Les infirmières s'inscrivent d'avance chaque année et tout changement des caractéristiques de l'emploi, de la résidence dans la province, etc. qui peut survenir après l'immatriculation n'est pas pris en compte ici.

(1) Dans le cas de la Colombie-Britannique, l'année d'autorisation va du 1<sup>er</sup> mars au 28 février.

#### Employment Status

Registrants were asked to specify one of the following groups pertaining to employment history in the preceeding year (1972):

1. Employed in nursing;
2. Employed in other than nursing;
3. Not employed.

### Terminologie

#### Infirmière

Ne sont considérées comme infirmières que les personnes qui ont terminé avec succès le cours prescrit dans un hôpital d'enseignement des sciences infirmières, dans une école régionale d'infirmières, dans un collège communautaire, un CEGEP ou une école universitaire d'infirmières (délivrant des diplômes) OU celles qui détiennent un diplôme universitaire en sciences infirmières (baccalauréat).

#### Plus haut niveau d'instruction

Diplôme d'infirmière — Les personnes qui ont terminé avec succès le cours prescrit dans un hôpital d'enseignement des sciences infirmières, dans une école régionale d'infirmières, dans un collège communautaire, un CEGEP ou une école universitaire d'infirmières.

Crédits en vue du baccalauréat — Cette rubrique comprend les infirmières diplômées d'un cours de base, qui ont acquis certains crédits en vue d'un baccalauréat.

Baccalauréat — Cette rubrique comprend les infirmières qui possèdent un baccalauréat en sciences infirmières ou dans une autre discipline.

Maîtrise ou grade plus élevé — Cette rubrique comprend les infirmières qui possèdent une maîtrise ou un doctorat en sciences infirmières ou dans une autre discipline.

Âge — L'âge est exprimé en années révolues au 31 décembre 1973.

#### Etat matrimonial

Le mot "autre" signifie veuve, divorcée ou séparée judiciairement. Le total comprend les cas où l'état matrimonial n'a pas été indiqué.

#### Type d'emploi

Les personnes qui s'inscrivaient devaient préciser le type d'emploi qu'elles occupaient l'année précédente (1972):

1. Emploi dans les soins infirmiers;
2. Emploi autre que dans les soins infirmiers;
3. Sans emploi.

For tabulation purposes these were expanded into the following four groups:

1. Full-time in nursing;
2. Part-time in nursing;
3. Not employed in nursing;
4. Employed in nursing (full-time/part-time not reported).

Employment Status 1, 2, and 4 are the result of a conversion, in the computer editing of this information, of those who indicated that they were Employed in Nursing, based upon what they specified as their Weekly Hours of Work. Thus, anyone working less than 35 hours per week is considered to have part-time employment, and those indicating 35 hours or more are classified as full-time. Whereas, anyone not responding to the question concerning Weekly Hours of Work is given an Employment Status of 4. Not Employed in Nursing (Employment Status 3) is a combination of those who have specified, on the document, that they were either Employed in Other than Nursing, or Not Employed.

#### Position

Those Registered Nurses employed in nursing were asked to specify their position during the past year.

- Director;  
Assistant Director;  
Supervisor;  
Assistant Supervisor;  
Instructor, School of Nursing;  
Head Nurse;  
Assistant Head Nurse;  
General Duty/Staff Nurse;  
Admitting Office Registrar in Hospital;  
Nursing Consultant;  
Intravenous Nurse; and  
Other, n.e.s.: (2)  
(Administration, non-hospital;  
Inspector of Institutions and Hospitals;  
Instructor of Aides in Hospital;  
Instructor in Home Nursing;  
Nurse Co-ordinator in Hospital;  
Nurse Dispenser;  
Rehabilitation;  
Research).

Registered nurses who reported employment in the following positions are classified as employed in a field related to nursing:

- Central Supply;  
Hospital Administration;  
Pharmacy;  
Librarian, School of Nursing; or  
Librarian, Medical Records.

Data for this group are presented separately in Table 11.

(2) n.e.s. not elsewhere specified.

Pour les tableaux, ces trois catégories ont été divisées en quatre autres groupes:

1. Soins infirmiers, à plein temps;
2. Soins infirmiers, à temps partiel;
3. Ne travaillant pas comme infirmière;
4. Emploi dans les soins infirmiers (sans indication à plein temps ou à temps partiel).

Les types d'emploi 1, 2 et 4 proviennent d'une répartition, effectuée lors de la vérification mécanographique, des personnes qui ont inscrit qu'elles occupaient un emploi dans les soins infirmiers, d'après leur nombre d'heures de travail hebdomadaire. Ainsi, toute personne qui travaillait moins de 35 heures par semaine était considérée comme occupant un emploi à temps partiel et un emploi de 35 heures ou plus devenait un emploi à plein temps. Par conséquent, toute personne qui n'avait rien inscrit à la question sur le nombre d'heures de travail hebdomadaire était classée au numéro 4. La rubrique "Ne travaillant pas comme infirmière" (type d'emploi 3) groupe les personnes qui ont inscrit sur la formule qu'elles travaillaient dans un domaine autre que les soins infirmiers ou qu'elles étaient sans emploi.

#### Genre d'emploi

Les infirmières autorisées travaillant comme infirmières devaient préciser le genre d'emploi qu'elles avaient l'année précédente.

- Directrice;  
Directrice adjointe;  
Surveillante;  
Surveillante adjointe;  
Monitrice, école d'infirmières;  
Infirmière chef;  
Infirmière chef adjointe;  
Service général;  
Agent des admissions, secrétaire générale d'un hôpital;  
Conseillère en sciences infirmières;  
Infirmière en thérapie intraveineuse et  
Autres, n.c.a.(2):  
(Administration, non hospitalier;  
Inspecteur des institutions et des hôpitaux;  
Monitrice des aides-infirmières dans un hôpital;  
Monitrice des soins infirmiers à domicile;  
Coordonnatrice des infirmières dans un hôpital;  
Infirmière soignante;  
Réadaptation;  
Recherche).

Les infirmières autorisées qui se sont dites affectées aux genres d'emploi suivants sont classées comme travaillant dans un domaine apparenté aux soins infirmiers:

- Approvisionnement central;  
Administration hospitalière;  
Pharmacie;  
Bibliothécaire, école d'infirmières, ou  
Archiviste médical.

Le tableau 11 contient les données de ce groupe, séparément.

(2) n.c.a. non classées ailleurs.
