## SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- P preliminary figures.
- ƒ revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

This publication was prepared under the direction of:

- . **David F. Bray**, Director,  
Health Division
- . **Cyril Nair**, Chief,  
Health Care Section
- . **Pete Paddon**, Analyst,  
Health Care Section

## SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- P nombres provisoires.
- ƒ nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

Cette publication a été rédigée sous la direction de:

- . **David F. Bray**, directeur,  
Division de la santé
- . **Cyril Nair**, chef,  
Section des soins de santé
- . **Peter Paddon**, analyste,  
Section des soins de santé

## EXPLANATORY NOTES AND GLOSSARY

The Institutional Statistics Section of the Health Division of Statistics Canada is grateful for the co-operation received from the provincial health and social services authorities for their assistance in the revision of this list. The list includes residential care facilities in operation as of April 1, 1988.

Residential care facilities are listed alphabetically according to municipality.

In this document, only RESIDENTIAL Special Care Facilities are included which maintain four or more beds for residents other than members of staff and which provide care to at least one resident. These facilities are, in general, maintained for people, chronically ill or disabled who reside there more or less permanently, in contrast to, for example, a hospital where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services. Some psychiatric institutions are included here. The rest are listed in the List of Canadian Hospitals.

### Principal Characteristics

Residents are classified into nine categories. Each category is the principal characteristic of the predominant group which comprises the largest number of residents in the facility.

Aged	Aged (residents who require care principally because of the aging process)
Phs Hand	Physically handicapped and/or disabled, including blind and deaf
Retarded	Mentally retarded
Mnt Hand	Mentally handicapped
Dst Chld	Emotionally disturbed children
Alc/Drug	Alcohol/Drug Problems
Delinq	Delinquents
Transnts	Transients
Other	Others (incl. Unwed Mothers and Shelters for Families in Crisis)

## NOTES EXPLICATIVES ET GLOSSAIRE

La Section de la Statistique des établissements de la Division de la santé de Statistique Canada remercie les autorités des services sociaux et de santé des provinces de l'avoir aidé à réviser la liste. La liste comprend les établissements de soins pour bénéficiaires internes en activité au 1er avril 1988.

Les établissements de soins pour bénéficiaires internes figurent par ordre alphabétique selon la municipalité.

Le présent document, ne tient compte que des Établissements RÉSIDENTIELS de soins spéciaux comprenant au moins quatre lits par les résidents autres que les membres du personnel et où des soins sont prodigués à au moins un résident. Ces établissements sont habituellement destinés à des malades ou à des invalides chroniques qui y séjournent de façon plus ou moins permanente, par opposition, par exemple, à l'hôpital où les patients sont admis en fonction de leurs besoins médicaux et reçoivent des soins médicaux continus ainsi que des services diagnostiques et thérapeutiques. Quelques établissements psychiatriques sont inclus ici. Les autres sont énumérés dans la Liste des hôpitaux canadiens.

### Principales caractéristiques

Les résidents sont classés en neuf catégories. Chaque catégorie constitue la caractéristique principale du groupe prédominant, qui englobe le plus grand nombre de résidents dans l'établissement.

Aged	Personnes âgées (résidents qui ont besoin des soins en raison surtout du vieillissement)
Phs Hand	Handicapés physiques et/ou invalides, y compris les personnes aveugles et sourdes
Retarded	Arriérés mentaux
Mnt Hand	Handicapés mentaux
Dst Chld	Enfants souffrant de troubles émotifs
Alc/Drug	Alcooliques/toxicomanes
Delinq	Délinquants
Transnts	Personnes itinérantes
Other	Autres (inc. mères célibataires et établissements pour les victimes de violence familiale)

.

## Ownership

The owner of the facility is the person, group of persons, agency or body responsible for the financial status of the operation.

**Prop - Proprietary.** Private individual, partnership or corporation, regardless of financial aid received by owner or residents, and operated for a profit.

**Rel - Religious.** Religious group.

**Lay.** Non-profit voluntary associations, societies or fraternities.

**Mun - Municipal.** A city, town, county district or body empowered to levy taxes within a province.

**Prov - Provincial.** Branch, division or department of a provincial or territorial government, or a provincially controlled institution such as a university.

**Fed - Federal.** Department, Crown corporation or other agency of the Government of Canada.

## Maximum Bed Capacity

The number of beds that could be set up in the existing space and regularly maintained for residents.

It is often useful, when making interprovincial comparisons of beds per 1,000 population to include the approved beds in residential care facilities together with the approved beds in hospitals. The distribution of approved beds between hospitals and residential care facilities varies from province to province. Generally, residential care facilities provide a level of care that is below that of hospitals although there is some overlap. Residential care facilities

## Propriété

Le propriétaire de l'établissement est la personne, le groupe de personnes, l'organisme ou la personne morale responsable de l'établissement sur le plan financier.

**Prop - Propriété privée.** Particulier, association ou société constituée en corporation, quelle que soit l'aide financière accordée au propriétaire ou aux résidents, qui exploite l'établissement en vue de réaliser des bénéfices.

**Rel - Religieux.** Groupe religieux.

**Laïque.** Associations, sociétés ou fraternités bénévoles, sans but lucratif.

**Mun - Municipalité.** Ville, village, comté, district ou autre personne morale autorisée à percevoir des impôts dans une province.

**Prov - Administration provinciale.** Direction, division ou ministère d'un gouvernement provincial ou territorial, ou une institution relevant de la province, une université par exemple.

**Fed - Administration fédérale.** Ministère, société de la Couronne ou autre organisme du Gouvernement du Canada.

## Capacité maximale en lits

Nombre de lits qui pourraient être dressés dans l'espace actuel et tenus en état régulièrement pour les résidents.

Lorsqu'on effectue, au niveau interprovincial, des comparaisons entre les lits disponibles par tranche de population de 1,000 habitants, il est souvent utile de compter les lits approuvés des établissements de soins pour bénéficiaires internes avec ceux des hôpitaux. La répartition des lits approuvés entre les hôpitaux et les établissements de soins pour bénéficiaires internes varie d'une province à l'autre. Règle générale, les soins dispensés dans les établissements de soins pour bénéficiaires internes sont d'un niveau inférieur à ceux des hôpitaux, bien qu'il

include institutions for the aged, handicapped and others, and account for more than 200,000 beds.

There is a fairly large range of total beds per 1,000 population with a low of 11.24 in the sprawling, sparsely populated Northwest Territories to a high of 19.95 in Saskatchewan. Apart from these two areas, the beds per 1,000 population range from 13.88 in Newfoundland to 19.81 in Prince Edward Island. Provinces with large, concentrated populations (Quebec, Ontario) tend to have lower beds to population ratios than do provinces with smaller, more diffuse populations (Manitoba, Saskatchewan).

existe un certain chevauchement à cet égard. Au nombre des établissements de soins pour bénéficiaires internes, on compte ceux qui accueillent des personnes âgés, les handicapés, ou autre. Dans l'ensemble ces établissements disposent de plus de 200,000 lits.

On note un écart assez grand au chapitre du total des lits par tranche de population de 1,000 habitants qui varie d'un minimum de 11.24 dans les Territoires du Nord-Ouest dont la population est peu nombreuse et dispersée à un maximum de 19.95 qu'on retrouve à Saskatchewan. À part ces deux provinces, le nombre de lits par tranche de population de 1,000 habitants varie de 13.88 à Terre-Neuve à 19.81 à l'Île du Prince-Édouard. Dans les provinces où la population est importante et concentrée (le Québec et l'Ontario), on note que le nombre de lits tend à être moins élevé par rapport à la population que dans les provinces où les habitants sont moins nombreux et répartis sur une plus grande surface (le Manitoba et la Saskatchewan).
